The Railway Monitor.

☞ EXPLANATION OF THE STOCK AND BOND TABLES

1. Prices of the Active Stocks and Bonds are given in the "Bankers' Gazette" *ante*; quotations of other securities will be found on the preceding page.

2. Bank and Insurance Stocks, Mining, Petroleum, City Railroad and Gas Stocks, and Southern Securities of those kinds which are least active, are all quoted either regularly or occasionally at the end of "Bankers' Gazette," on a previous page.

3. The Table of Railroad, Canal and Other Stocks, on the next page, comprises all Companies of which the stock is sold in any of the principal cities (except merely local corporations). The figures just after the name of the company indicate the No. of the CHRONICLE in which a report of the Company was last published. A star (*) indicates *leased roads*; in the dividend column *x=extra; s=stock or scrip.*

4. The Tables of Railroad, Canal and Other Bonds occupy in all, four pages, two of which will be published in each number. In these pages the bonds of Companies which have been consolidated are frequently given under the name of Consolidated Corporation. The date given in brackets immediately after the name of each Company, indicates the time at which the statement of its finances was made. In the "Interest Column" the abbreviations are as follows: J. & J.=January and July; F. & A.=February and August; M. & S.=March and September; A. & O.=April and October; M. & N.=May and November; J. & D.=June and December Q —J.=Quarterly, beginning with January; Q.—F.=Quarterly, beginning with February. Q.—M.=Quarterly, beginning with March.

5. The Table of State Securities will be published monthly, on the last Saturday of the month.

6. The Table of City Bonds will be published on the third Saturday of each month. The abbreviations used in this table are the same as those in the tables of railroad bonds mentioned above. The Sinking Fund or assets held by each city are given on the same line with the name.

Chicago & Alton Railroad.—REPORT OF OPERATIONS FOR THE YEAR ENDING DECEMBER 31, 1870.—The Board of Directors submit the following report of the company's affairs and its operations during the year ending December 31, 1870:

CAPITAL STOCK.

Common	$8,925,500	
Preferred	2,426,400	
		$11,350,900

FUNDED DEBT.

Preferred sinking fund bonds	$308,000	
First mortgage bonds	2,383,000	
Income bonds	1,087,000	
		$3,778,000
		$15,128,900

The following statement will exhibit the gross receipts and expenditures during the year:

EARNINGS.		EXPENSES.	
Passenger traffic	$1,592,184	Conducting transportation	$630,977
Freight	3,312,067	Motive power	763,156
Express companies	92,827	Maintenance of way	862,539
Transportation of mails	55,529	Maintenance of cars	258,808
Miscellaneous sources	96,795	General expenses	108,926
		Taxes	161,697
Total	$4,849,404	Total	$2,787,105
Net earnings			$2,063,292

The financial statement for the year is as follows:

INCOME.

Balance at credit of this account, January 1, 1870	$51,420	
Net receipts as above stated	2,063,299	
		$2,114,719

DISBURSEMENTS.

Interest on bonds of all classes	$266,960	
Paid sinking funds	69,000	
Rent of Joliet & Chicago Railroad, exclusive of sinking fund	138,049	
Rent of St. Louis, Jacksonville & Chicago Railroad	240,000	
Dividends paid, Nos. 14 and 15	851,645	
Government tax on dividend and sinking fund	21,110	
Loss by fire in 1865, insurance uncollectable	16,554	
Cost of improvements charged this account	226,141	
		$1,829,481
Balance December 31, 1870		$285,238

At the commencement of the year 1870 your company was operating four hundred and thirty-one miles of railway, as follows:

Chicago to Joliet, under perpetual lease, executed January, 1, 1864	38 miles.
Joliet to East St. Louis, owned by your company	242 "
Bloomington to Godfrey—St. Louis, Jacksonville & Chicago Railway, under perpetual lease, dated April 30, 1868	151 "
Total	431 miles.

During the year your company has acquired, by purchase and construction, eighty miles of railway, as follows:

Dwight to Wenona, by purchase at actual cost, March 15, 1870	35 miles.
Wenona to Washington, by construction under the direction of the officers of your company, opened December 11, 1870	35 "
And a branch line from Varna to Lacon, opened December 18, 1870	10 "
Total	80 miles.
Making total number of miles in operation January 1, 1871	511 "

The cost to your company of the eighty miles of railway acquired, as above stated, will not exceed the estimate of $15,000 per mile, made at the time the question of its acquisition was submitted to the stockholders for their approval. The present state of that account with the road in operation, but not in all respects fully completed, shows the cost to be $1,108,747 26, or $13,859 34 per mile.

The operation of the Jacksonville Division during the past year, shows in direct returns from traffic, as well as in many other ways, the great advantage of controlling that line under the existing lease.

The operating expenses upon your lines for the year (exclusive of taxes), amount to 54.11 per cent. of gross receipts; including taxes, 57·4 per cent. In 1869 the operating expenses were 54·62 and 57·17 per cent. respectively.

The number of passengers carried during the year was 732,531, being an increase of only 978 over the preceding year; 94·3 per cent. of the number of passengers were local, only 5·7 passing the entire distance between Chicago and St. Louis.

The aggregate tonnage of freight for the year is 2,522,064,297 lbs., an increase of 12½ per cent. over that of 1869.

The coal traffic of your line continues to increase. Commencing in 1865 with only 6,000 tons, it has increased to 266,096 tons in 1869, and 338,324 tons in 1870, showing an increase of 27 per cent. during the past year.

The receipts from express companies, carriage of mails, and from miscellaneous sources, amounts to $245,152 23, an increase of $21,330 58 over the corresponding receipts in 1869.

The condition of your property has been fully maintained, and in many respects improved.

The number of locomotives owned by your company is 108.

The number and description of cars upon your line is as follows:

Pullman's palace sleeping cars	8	Freight cars of all kinds	2,256
Pullman's dining cars	5	Tool and wrecking cars	5
Passenger coaches	47	Paymaster's car	1
Baggage, mail and express cars	21		
		Total	2,343

A contract has been made with the St. Louis, Jacksonville & Chicago Railroad Company for permission to use the franchise of that company in the construction of a line from Roodhouse to Louisiana, in the State of Missouri, a distance of 87 miles, and also with the Louisiana & Missouri River Railroad Company, of Missouri, for the completion and control of their lines in process of construction.

They also agree to issue, for the use of your company in providing a construction fund, $15,000 per mile of first mortgage bonds, and $5,000 per mile of second mortgage bonds—if the same shall be required—upon condition that your company shall assume the payment of interest and principal of all bonds so issued at their request. The work of building the road from Roodhouse to a point on the Mississippi River, opposite Louisiana, in Missouri, is now in progress, and will be completed by July next.

A contract has also been concluded with the Louisiana & Missouri River Railroad Company, by which the company agrees to complete its road bed, including bridges and cross-ties, so as to have the same fully prepared for laying the rails from Louisiana to Mexico (a distance of 51 miles) by the 19th day of May, 1871. That company also agreed to complete, in like manner, a line from Mexico to Jefferson City—the capital of the State—(a distance of 50 miles) by the 19th of May next.

It is further agreed, that in a like manner, a roadway shall be prepared from Mexico to Glasgow by the 19th of May, 1872, and also from Glasgow to Kansas City, upon a location to be agreed upon (with the exception of constructing a bridge over the Missouri River,) by the 19th day of May, 1873.

In all the undertakings on the part of that company, as before stated, including the cost of right of way and depot grounds, it is provided that payment shall be by them made from the proceeds of local subscriptions to their common stock—said subscriptions amounting to about $11,000 per mile for the entire distance.

It is further stipulated that first mortgage 7 per cent. bonds, at the rate of $16,000 per mile, shall be issued, and that $15,000 per mile in said bonds, $10,000 per mile in preferred stock, and $5,000 per mile in common stock, shall be placed in the hands of a trustee, and appropriated to the purchase of materials, the completion of the road, and procuring rolling stock. And that the sale of said bonds and shares of stock, and the completion of the railway and purchase of rolling stock, as aforesaid, shall be under the direction of the officers of your company.

Your company agrees, on its behalf, to construct a line to connect its present lines with Louisiana, and to take possession of and operate for 1,000 years the line from Louisiana to Mexico, and such other extensions of that line as may be hereafter completed, as before stated, and that the amount of rent to be paid for the use of the same shall be yearly ascertained, as follows: All taxes and assessments shall be first deducted from gross earnings, and 35 per cent. of the remainder shall be the amount to be paid as rent for that year, provided that the amount paid shall in no year be less than $1,370 per mile; and that your company shall assume the payment of coupons on the mortgage bonds referred to, and charge the amount of the same on account of rent.

A contract has also been made with the North Missouri Railroad Company, dated May 25, 1870, by which it is mutually agreed to operate a through line for passengers and freight upon equitable terms, between Chicago and other points on the Chicago & Alton road, and Kansas City and other points on the North Missouri and connecting roads, as soon as the connection is made at Mexico. Said contract to continue in force until the Louisiana & Missouri River Railroad shall have been completed to Kansas City—either party having the right to terminate it, after the road shall have been completed to that point, by giving three months' notice.

Kansas Pacific Railway Company.—BUSINESS SUMMARY AND FINANCIAL STATEMENT FOR THE YEAR ENDING DECEMBER 31, 1870.—The company has been actively engaged during eight months of the year in the construction of that portion of its main line known as the "Denver Extension." On August 15th the road was completed between Kansas City, Missouri, and Denver, Colorado, a total distance of 638 6-10 miles. Of this distance, about 210 miles of track were laid in 1870.

The railroad and lands owned and controlled by this company consist of—

Main line, Kansas City to Denver	638 6-10 miles.
Branch, Lawrence to Leavenworth	34 "
Total miles of Kansas Pacific Railway	672 6 10 miles.
Controlled by purchase of stock and lease—	
Denver Pacific Railway, Denver to Cheyenne	106 miles.
Denver and Boulder Valley Branch	15 "
Total miles owned and controlled	3 6-10 miles

Kansas Pacific Railway lands unsold (about) 5,500,000 acres.

Digitized by Google

The following is a general exhibit of the earnings and expenses of the transportation department for the year 1870:

EARNINGS.			
Freight—		Individuals and companies	33,943
Ordinary	$1,707,586	Sundry sources	5,534
Government	148,867	Total	$39,763
Denver extension	385,965	Gross earnings	$3,360,786
Total	$2,242,419	EXPENSES.	
Passenger—		Conducting transportation	$653,586
First class	$857,020	Motive power	875,765
U. S. troops	95,220	Maintenance of cars	220,752
Expresses	52,886	Maintenance of way	592,526
U. S. mails	73,476	General expenses	137,410
Total	$1,078,602	Total expenses	$2,480,040
Miscellaneous—		Net proceeds to balance	$880,746
Rents	$286		

The average length of road in operation during the year was 551 50-365 miles.

And the gross earnings per mile	$6,097
In 1869 " " "	5,075
Increase per mile in 1870	$1,022
The earnings from merchandise and passenger traffic in 1870 were	$2,657,256
" " " " 1869 were	1,703,415
Increase in 1870	$953,84 0

The operating expenses of the road have been about 73 per cent of the gross earnings, an increase of 11 per cent over the preceding year.

In view of the completion of the road to Denver, the prospective growth of trade with Colorado and the Pacific coast, the active settlement being made on the lands along and tributary to the road, and the assurance of a cheap and abundant supply of good fuel, we believe that with economical management, the operating expenses of the road will not hereafter exceed 60 per cent. of the gross earnings. The earnings in 1870 exceeded the estimate made in the annual report, published at the beginning of the year, by over $300,000, and we are satisfied that the estimate then made of $4,000,000 of gross earnings for 1871 will be fully realized. We estimate the *net earnings* from the transportation department for 1871 at $1,600,0000.

The total land grant of the company aggregates about 6,000,000 acres, of which about 5,300,000 acres were unsold December 31, 1870.

3,000,000 acres, lying between the 380th mile post and Denver, are included in the mortgage for $6,500,000, dated June 20, 1869, known as the "Denver Extension Mortgage," and the remainder of the lands unsold July 1st, 1870, are covered by the land grant mortgage of that date for $2,000,000.

1,503,565 acres of these lands have been appraised and placed in the market at an average price of $3 10 per acre.

The total sales of lands and lots in 1870 were 124,168 acres for $389,105 68 or an average of $3 13 per acre. Cash collections from land sales during 1870 were $217,520 31, and bills receivable outstanding December 31st $1,120,905 86.

By the terms of the mortgage of July 1st, 1870, the proceeds of all sales of lands made after that date are placed in the hands of the trustees for the purchase and redemption of the bonds issued thereunder. Sales of lots and lands under this trust from July 1st to December 31st, aggregate 27,246 acres and 139 town lots, for the gross sum of $111,234 16, of which $41,472 86 was cash, and $69,761 30 was bills receivable. The 2,000,000 acres of land covered by this trust, estimating from sales already made, and the appraisements placed upon the unsold tracts, will probably yield to the company, after the payment of the $2,000,000 of bonds issued thereon, a net amount of from $2,000,000 to $2,500,000, which will in time inure to the capital stock. A portion of the 3,000,000 acres of land, chiefly in Colorado, which are included in the mortgage of June 20th, 1869, for $6,500,000, have been appraised and placed in the market, and it is believed that from these lands a sum will ultimately be realized sufficient to take up the bonds long before maturity.*

ASSETS AND LIABILITIES.

The assets of the company, in addition to the railway structure and equipments, and the lands as enumerated above, are as follows:

Notes for lands sold prior to July 1st, 1870	$1,058,691
Cash and notes received from lands sold under trust deed of July 1st, 1870	111,234
75 seven per cent Kansas Pacific land grant bonds	75,000
345 Kansas Pacific income bonds	345,000
81 six per cent Kansas Pacific 1st mortgage bonds	81,000
Live stock and supplies on hand	371,014
Stock of National Land Company and bills receivable	75,590
Cash from U. S. Government for transportation $284,482 13, one-half due to Company	142,241
Cash in hands of paymaster	17,345
Collections in hands of ticket and freight agents	153,397
Real estate, unincumbered, at cost	95,612
15,000 shares stock Denver Pacific Railway and Telegraph Company, $100 per share	1,500,000
	$4,026,057

The liabilities, in addition to the funded debt, are:

Vouchers and pay-rolls	$420,660
Bills payable (less proceeds of land grant bonds sold)	430,347
Notes of company given in settlement with contractors, due in 1872, 1873 and 1874	583,400
Coupons not presented	7,991
Due on Denver extension account	11,994
Due foreign roads	86,880
Due sundry creditors	250,533
	$1,790,777
Excess of assets over liabilities	$2,235,279

Atlantic and Great Western Railroad.—A circular has been issued to the bond and debenture holders of the Atlantic and Great Western Railway Company, which states that most of the difficulties which have hitherto baffled the efforts to resume payments have been removed, and that the official scheme of re-organization will now make rapid progress towards completion. A new loan of £400,000 has been introduced, and will be issued as re-organization stock at the price of 75 per cent., convertible at the option of the holders into 7 per cent. first mortgage bonds of the re-organized Company, at the price of 80 from the date of the issue of the definitive certificates. The bonds will be redeemed at par in sterling in London within three years from the date of issue. Messrs, Bischoffsheim and Goldschmidt, as the agents of the Company, receive subscriptions. The whole of this loan has been subscribed, and the price is 2½ to 2¾ premium.

* Sales of 5,575 acres of these lands made since January 1, 1871, average $5 76 per acre.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, March 24, 1871.

General trade the past week has been only fair. There appears to have been some over-trading in January and February, for it would appear that of many staples, dealers still have an ample stock, and the recent reduction in railway freights has not been attended with the improved business that was expected. The civil disorders in Paris have had the effect to check the export movement in our great domestic staples, and this is a peculiarly disappointing circumstance.

Cotton, after some fluctuations, closes unchanged—Middling Uplands, 15⅛c. Breadstuffs have been unsettled, and close weak; Flour, $6 60@6 75 for shipping extras; Wheat, $1 57@1 61 for new Spring; and Corn 84c. for prime new mixed. Groceries have been quiet, except Sugars, which are strong at 8¾@9⅛c. for fair to good refining.

In Provisions we have to note a marked decline for hog products, with a dull closing, New Mess Pork, $21@21 12½; Prime Mess, $20; Prime Steam Lard, 12½@13c.; and Short clear Bacon, 11c. Statistics for the packing season show that 3,615,110 hogs have been slaughtered the past season, against 2,592,301 hogs for the previous season, but taking the greater weight into the account, the increase is fully sixty per cent. Beef has remained steady, but Cheese and Butter have shown weakness mainly from a desire to clear off old stocks.

Naval Stores and Petroleum have been decidedly more active in the past day or two. Strained Rosin advanced to $2 65, but refined Petroleum declined to 23½@24c. for immediate and early delivery at this market. Oils have been without new feature.

Tobacco has been dull and prices close a little weak, especially for Kentucky Leaf, of which stocks accumulate. The sales of the week are about 500 hhds. almost equally divided, shippers and home trade. Buyers hold off and it is probable that with careful scrutiny, orders might be executed at some concession from last week. At the same time, with an easy money market, there is not much pressure to sell. Quotations are 6@6½c. for Lugs and 7@9c. for common to good Leaf. Seed Leaf Tobacco has moved off freely but prices are almost invariably kept private especially for new crop, and we cannot afford a very clear idea of the state of the market. The sales have been 325 cases old crop Connecticut in five different parcels, all on private terms; 152 cases new crop Ohio on private terms, 500 cases new crop Pennsylvania on private terms, and 100 cases old Connecticut and Massachusetts wrappers at 35@45c. Spanish tobacco has been in fair request, with sales of 42 bales new crop Yara to arrive, on private terms, and 600 bales Havana at 85@100c. Manufactured Tobacco is steady.

Hides have been fairly active and firm. Leather in steady demand. There was a large export movement in Tallow to day at 8¾@9c, mostly the higher figure for prime. Hops have been doing better for the finer sorts. Whiskey has ruled weak under large receipts. Fruits have been dull. Cloverseed has declined. East India goods have been without important feature. Metals are dull. Wool rules very firm. Domestic fleece and pulled are quite scarce, and the business has been principally in California common and medium qualities at 23½@27c.

Freights have been more active in the shipment of grain to Great Britain, and rates have slightly improved, closing to-day at 5½@6d by sail and steam to Liverpool, but cotton rates are lower at ¼@5-16d by steam, with the same rate by sail. The shipments of Breadstuffs and Provisions to the Continent appear to have almost entirely ceased. Cotton charters have been active, and general business very fair, but there are a large number of vessels in port seeking employment.

Exports of Leading Articles from New York.

The following table, compiled from Custom House returns, shows the exports of leading articles from the port of New York since January 1, 1871, to all the principal foreign countries, and also the totals for the last week, and since January 1. The last two lines show *total values*, including the value of all other articles besides those mentioned in the table.

EXPORTS SINCE JANUARY 1 TO

ARTICLES.	Great Britain.	France.	Holland & Belg.	Germany.	Other N. Europe.	Spain.	Other S. Europe.	China & Japan.	Australia.	Br. N. A. Colonies.	Cuba.	Hayti.	Other W. Indies.	Mexico.	British Guiana. COTTON.

FRIDAY, P. M., March 24, 1871.

By special telegrams received by us to-night from the Southern ports, we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening March 24. From the figures thus obtained it appears that the total receipts for the seven days have reached 81,426 bales against 102,484 bales last week, 136,533 bales the previous week, and 126,935 bales three weeks since, making the total receipts since the first of September, 1870, 3,240,870 bales against 2,358,317 bales for the same period of 1869–70, showing an increase since September 1 this year of 882,553 bales. The details of the receipts for this week (as per telegraph) and the corresponding week of 1870 are as follows:

RECEIPTS Rec'd this week at—	1871.	1870.	RECEIPTS Rec'd this week at—	1871.	1870.
New Orleans bales	32,222	28,822	Florida bales.	780	817
Mobile	5,719	3,711	North Carolina	1,092	356
Charleston	4,107	1,578	Virginia	6,438	2,881
Savannah	11,300	5,759			
Texas	6,764	7,634	Total receipts	81,426	53,169
Tennessee, &c	13,004	7,111	Increase this year	28,257	....

The exports for the week ending this evening reach a total of 97,033 bales, of which 64,361 were to Great Britain, 4,985 France and 27,687 to rest of the Continent, while the stocks as made up this evening, are now 624,419 bales. Below we give the exports and stocks for the week, and also for the corresponding week of last season, as telegraphed to us from the various ports to-night:

Week ending M'ch 24.	Exported to—		Total this week.	Same w'k 1870.	Stock.	
	G. Brit	Contin't			1871.	1870.
New Orleans	36,327	16 065	52,392	35,413	262 032	204,364
Mobile	....	1,595	1,595	7,178	62,351	65,195
Charleston	1 495	1,650	3,145	1,892	22,562	19.256
Savannah	5,718	7,290	13,008	7.119	66,289	47.024
Texas	5,457	....	5,457	4,563	59,685	37 252
New York	14,215	6,072	20.287	14,966	116,000	60,000
Other ports	1,164	....	1,164	1,496	35,500	26,000
Total	64,361	32,672	97,033	72,562	624,419	459,071
Total since Sept. 1	1,708,336	460,781	2,169,117	1467,701	....	....

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an increase in the exports this week of 24,471 bales, while the stocks to-night are 165,348 bales more than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to March 17, the latest mail dates. We do not include our telegrams to-night, as we cannot insure the accuracy or obtain the detail necessary by telegraph.

PORTS.	RECEIPTS SINCE SEPT. 1.		EXPORTED SINCE SEPT. 1 TO—				Northern Ports.	Stock.

There has been a fair business doing the past week. For the first two days prices were heavy and lower on all grades, Middling Uplands closing Monday night at 14¼c., and Ordinary at 11c., against 11¼c. for Ordinary, and 15¼c. for Middlings on Friday. At this point, however, there was a reaction. On Tuesday the Liverpool quotations becoming firmer, and the market more active, prices here, in sympathy with this improved tone, were stronger, and for the better grades, which are in comparatively light supply, an advance of ¼c. was established. Wednesday, Liverpool was ¼d. higher, the official quotation being 7⅞@7¼d., against 7¼@7⅜d., the previous day; thereupon our market took a further step forward, closing that day at 15½d. for Middling Uplands, 14c. for Low Middling, and 12½c. for Good Ordinary. Thursday, Middling Uplands closed at Liverpool at 17½d., and here at 15½c. But to-day, with Liverpool a little less favorable, the better grades are off in this market ⅛c., but the other grades are steady. The basis of the improvement here this week has been as noted above, the firmness and improvement at Liverpool, which have much encouraged holders, especially as now the receipts are beginning to show a marked decline. Just at the close of the month, too, the purchases to meet maturing contracts help to sustain prices. For forward delivery prices have, in the main, followed the rates for Spot Cotton. There has been more inquiry for March, and quotations are relatively higher. To-day prices closed for March, 14¼c.; for April, 13 15-16; for May, 14c; for June, 14c.; for July, 14⅛c.; and for August, 14¼c. The total sales of this description for the week have been 78,400 bales, including 100 free on board. For immediate delivery the total sales foot up this week 22,110 bales, including 2,242 bales to arrive, of which 4,317 bales were taken by spinners 1,308 bales on speculation, 15,885 bales for export, and 600 bales in transit. The following are the closing quotations:

	Upland and Florida.	Mobile.	New Orleans.	Texas.
Ordinary per lb.	11 @....	11¼@....	11¼@....	11½@....
Good Ordinary	12½@....	12⅝@....	12⅝@....	13¼@....
Low Middling	14 @....	14¼@....	14⅜@....	14⅜@....
Middling	15¼@....	15¼@....	15⅜@....	15⅜@....
Good Middling	16⅜@....	16⅜@....	16¼@....	17 @....

Below we give the total sales of cotton and price of *Uplands* at this market each day of the past week:

	Total sales.	Ordinary.	Good Ordinary.	Low Middling.	Middling
Saturday	1,404	11¼@....	12½@....	13¼@....	15 @...
Monday	5,050	11 @....	12⅝@....	13¼@....	14¼@....
Tuesday	4,803	11 @....	12⅝@....	13⅜@....	15 @....
Wednesday	2,614	11 @....	12⅝@....	14 @....	15¼@....
Thursday	4,564	11 @....	12⅝@....	14⅜@....	15¼@....
Friday	3,565	11 @....	12¼@....	14 @....	15⅜@....

For forward delivery the sales (including 100 free on board) have reached during the week 78,400 bales (all low middling or on the basis of low middling), and the following is a statement of the sales and prices:

For March.		For May.		For July.		bales.	cts.

		1,100	14¼	600	14¼		
30,000 total April.		6,900 total June.		100	14 5-16		

The sales during the week of free on board have reached 100 bales. The particulars of these sales are as below:

100 free on board at Mobile, New York, Low Middling to strict Low Middling at 12¼c.; 11-16c. freight.

The following exchanges have been made during the week:

3-16c. paid to exchange 500 May for 500 July.
3-16c. paid to exchange 200 April for 200 May.

WEATHER REPORTS BY TELEGRAPH.—Our telegrams to-night indicate a decidedly improved condition of the weather the past

Digitized by Google

week throughout the South. At Mobile, Charleston, Augusta, Selma, Columbus, Galveston and Memphis they have had no rain all the week, but the weather has been warm and dry, or as the Augusta telegram describes it, delightful. At Nashville and Montgomery it has rained one day, and at Macon two days; with those exceptions, the reports state it has been pleasant. The thermometer at Mobile averaged 63; at Charleston, 68; at Montgomery, 65; at Macon, 64; at Selma, 70; at Galveston, 69; at Columbus, 63; and at Memphis, 60.

THE NEXT CROP.—The prevailing opinions as to the extent of the planting for the next crop appear to be quite diverse. The *New Orleans Price Current*, for instance, in its issue of March 18, states that "low prices cannot stop cotton production; *they will possibly increase it.*" The planter "will plant for crop enough, to bring him as much income at six cents a pound as he receives for cotton at twelve cents." On the other hand, a correspondent in the same paper, in speaking of Mississippi says, that the situation in that State is peculiar. "1. The cotton crop has increased about thirty per cent; 2. The factors cannot collect their advances; 3. The planters are unable to command supplies; 4. The laborers are, in many instances, without food." The information this correspondent gives only confirms what we are receiving from divers other sections of the South. Now, it strikes us that this condition of things, if correctly stated, is incompatible with the idea of another planting equal to the last. For if an increase of the crop this year 30 per cent., with a decline on the plantation to 11 cents, results in so great a loss that the "factor is unable to collect his advances," while the credit of the planter is wholly used up, so that he cannot even command food for his laborers, how much better off would the planter be if he were to raise a larger crop and sell it at "6 cents per pound," as proposed by the first writer. This is the question that must present itself to the Southern farmer, and if he has the wisdom we give him credit for, he will (unless he can hire his labor at lower rates) turn his chief attention to fattening hogs, and raising corn and wheat to satisfy the hunger of those empty stomachs. We have not as yet any definite information with regard to the extent of cotton cultivation. From the above facts, however, one would naturally conclude that the planter will have no desire to produce a large crop, or if he have the desire, that he will find it difficult to obtain the necessary funds. Whether this conclusion will prove to be correct, we dare not undertake to say. Only one thing is as yet assured and that is, as we stated two weeks ago, very much less money will be spent for fertilizers.

GUNNY BAGS, BAGGING, &C.—Cloth has ruled very quiet since the date of our last report, but much confidence is exhibited by holders, and prices are firm at 12½c., gold, in bond, for East India, at which figure 150 bales are reported sold on the spot. We also note the sale of 100 bales Borneo at 12¾c., and 100 bales Native, deliverable in Boston the first of June, on private terms. Bags have ruled dull, and sales are confined to jobbing lots at 16c., currency, duty paid. Hemp is dull; we only hear of 300 bales sisal sold on private terms. Jute has met with a fair demand, and rules firm; sales are 750 bales on spot here at 7c., currency, 1,000 bales "M. C." to arrive in Boston per "Nonantum" at 6¼c., gold, and 300 common on spot at 6¼c., currency. Jute Butts are in steady moderate demand at full former prices; sales are 600 bales to arrive at 4c., currency, 500 bales at 3⅞c., currency, and 1,000 bales on spot at 4c., currency.

MOVEMENTS OF COTTON AT THE INTERIOR PORTS.—Below we give the movements of cotton at the interior ports—receipts and shipments for the week, and stock to-night and for the corresponding week of 1870:

	Week ending Mar. 24, 1871.			Week ending Mar. 24, 1870.		
	Receipts.	Shipments.	Stock.	Receipts.	Shipments.	Stock.
Augusta	2,101	2,619	21,521	1,931	2,435	22,465
Columbus	429	1,869	8,375	524	235	12,936
Macon	627	1,443	9,160	568	1,342	14,404
Montgomery	702	1,930	6,886	222	865	10,825
Selma	535	1,145	5,390	426	915	5,393
Memphis	7,614	10,497	34,087	4,501	8,897	18,443
Nashville	1,313	1,687	7,462	732	560	6,088
	13,321	21,190	92,881	8,904	15,249	90,554

These totals show that the interior stocks have decreased during the week 7,859 bales (being now 2,327 bales more than for the same period of last year), while the aggregate receipts are 4,417 bales more, and the shipments 5,941 bales more than for the corresponding period of 1870.

VISIBLE SUPPLY OF COTTON.—The following table shows the quantity of cotton in sight at this date of each of the two past seasons:

	1871.	1870.
Stock in Liverpool.....bales.	780,000	371,000
Stock in London	79,147	63,374
Stock in Glasgow	300	300
Stock in Havre	42,450	62,800
Stock in Marseilles	4,000	7,806
Stock in Bremen	9,250	9,600
Stock rest of Continent	25,000	25,000
Afloat for Great Britain (American)	340,000	292,000
Afloat for France (American and Brazil)	4,512	59,542
Total Indian Cotton afloat for Europe	168,000	131,260
Stock in United States ports	624,419	459,071
Stock in inland towns	92,881	90,554
Total	2,169,959	1,572,307

These figures indicate an *increase* in the cotton in sight to-night of 597,652 bales compared with the same date of 1870.

The exports of cotton this week from New York show an increase since last week, the total reaching 25,931 bales, against 15,359 bales last week. Below we give our table showing the exports of cotton from New York, and their direction for each of the last four weeks; also the total exports and direction since September 1, 1870; and in the last column the total for the same period of the previous year:

Exports of Cotton (bales) from New York since Sept. 1, 1870

EXPORTED TO	WEEK ENDING				Total to date.	Same time prev. year.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 104,077 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRONICLE last Friday, except Galveston, and the figures for that port are the exports for two weeks back. With regard to New York, we include the manifests up to last Saturday night:

	Total bales.
NEW YORK—To Liverpool, per steamers China, 1,385....Minnesota, 3,522....Aleppo, 986....Manhattan, 3,659....France, 3,038....City of Brussels, 808....Tarifa, 1,203....Flamstud, 1,116...per ships Neptune, 1,244....Orient, 2,588....per barks Acapulco, 377....Lizzie Iredale, 701	20,627
To Cork, for orders, per bark Oluf Nicklesen, 935	935
To Continent via Glasgow, per steamers Britannia, 240..Europa, 71	311
To Havre, per bark Orion, 666	666
To Bremen, per steamers Hansa, 971...Deutschland, 565...per bark Athera, 148	1,684

Included in the above totals are from New York 311 bales to the Continent via Glasgow; from New Orleans, 4,627 bales to Antwerp, 942 bales to Genoa, and 1,023 bales to Vera Cruz; from Mobile, 1,839 bales to Genoa and 400 bales to Barcelona; from Savannah, 2,627 bales to Cronstadt and 750 bales to Barcelona; from Baltimore, 737 bales to Antwerp and 810 bales to Cronstadt; from Boston, 70 bales to British Provinces.

GOLD, EXCHANGE AND FREIGHTS.—Gold has fluctuated the past week between 110¾ and 111⅛, and the close was 110¾. Foreign Exchange market is dull and steady to-day. The following were the last quotations: London bankers', long, 109⅞@—; short, 110⅛ @—, and Commercial, 109⅝@109⅞. Freights closed at ¼ by steam and ¼@5-16d. by sail to Liverpool.

BY TELEGRAPH FROM LIVERPOOL.—

LIVERPOOL, March 24, 5 P. M.—The market has ruled quiet and steady to-day, with sales amounting to 12,000 bales. The sales of the week have been 84,000 bales, of which 11,000 bales were taken for export and 9,000 bales on speculation. The stock in port is estimated at 780,000 bales, of which 452,000 bales are American. The stock of cotton at sea bound to this port is 523,000 bales, of which 340,000 bales are American.

BREADSTUFFS.

FRIDAY P. M., March 24, 1871.

The market for Breadstuffs the past week has been less active, closing with some decline in prices, from those obtained early in the week.

The receipts of flour have continued on a moderate scale, but the demand has been less active. The inquiry from Europe has nearly ceased, except at reduced prices, the local trade has taken only to supply immediate wants, and the demand for the West Indies has been less active. There has been, however, a pretty good inquiry for the British Provinces, and low grades of State and Western brands,—those selling under $6 70—have moved off pretty freely, and not being very plenty, have brought full prices, especially good lines of superfine. For regular lines of shipping extras, holders, in view of the relatively higher prices now obtained for wheat, have not been disposed to make any concession, but have not been able to realize more than $6 65@$6 70, at which sales were made to-day. Corn meal has declined, leading to free sales.

Wheat has entirely lost the excitement and activity noted in our last, but prices are generally about as last Friday. An advance in ocean freights, and the fact that flour was dull were the main causes of the depression, but the absence of shipping orders, notwithstanding an advance reported from Liverpool, has made holders anxious to realize. The shipping orders in the last few days have been almost entirely from London and Glasgow. Receipts at the Lake ports are smaller than last year, but this is owing to a diversion in favor of St. Louis. At to-day's market there was a fair degree of activity at $1 57@1 61 for new Spring; $1 58@1 60 for old red Winter, and $1 70@1 72 for new amber winter. No. 1 Spring sold early in the week at $1 62½ and amber Winter $1 74 afloat.

Corn has been in full supply, and the shipments eastward from Chicago have been large, under which prime new mixed has declined to 84@84½c., and yellow to 85@86c., at which there were few sales to-day. Rye has been dull, but about steady. Barley and Barley Malt remain in the unsettled state previously noticed.

Oats have been dull, and prices, though without decided decline, are weak and unsettled. The stock is large and the trade slow.

The following are the closing quotations:

Flour—		Wheat, Spring, bush	$1 45@1 61
Superfine	$ bbl. $6 00@ 6 50	Red Winter	1 57@ 1 68
Extra State	6 65@ 6 80	Amber do	1 65@ 1 73
Extra Western, common	6 60@ 6 85	White	1 65@ 1 95
Extra and double extra Western & St. Louis..	6 90@ 9 00	White California	1 75@ 1 85
Southern shipp'g extras.	6 85@ 7 25	Corn, Western Mix'd	84@ 85
Southern, trade and family	7 50@ 9 25	Yellow, new	85@ 86
Rye Flour, super & extra	5 85@ 6 45	White	87@ 92
Corn Meal, Southern and Western	3 80@ 4 45	Rye	1 12@ 1 20
		Oats	64@ 70
		Barley	95@ 1 18
		Malt	1 00@ 1 20
		Peas, Canada	1 20@ 1 50

The movement in breadstuffs at this market has been as follows:

*Estimated.

There were afloat at Chicago 194,740 bushels of wheat, and 754,668 bushels of corn, about two-thirds of which are included in the stocks as represented above. The stock of wheat in Milwaukee shows a reduction from the previous week, caused by transfer from warehouse to vessels. In the total stock visible in 1870 at the corresponding date, St. Louis, Oswego, Boston, Toronto, Montreal, Philadelphia and Baltimore were not included.

GROCERIES.

FRIDAY EVENING, March 24, 1871.

The most decided changes in this market for the week are a loss of tone on Coffees, and an increased demand and higher prices for Sugar, other goods remaining nominally steady. The amount of business doing has not been very large, in fact apparently somewhat disappointing to a portion of the trade, but holders are reasonably confident and look for an increased movement of goods at an early day, in view of the gradual development of facilities for inland transportation, and a reduction in freight charges. New York operators are still of the opinion that the tariff on Tea and Coffee will not be disturbed this session of Congress, but the country dealers think or affect to think quite differently, and this tends to retard business considerably.

The entries direct for consumption, and the withdrawals from bond, showing together the total thrown on the market for the week, were as follows:

Tea, black....	2,794 pkgs.	Laguayra ..	100 bags.	Sugar, Brazil.	.... bags.
Green.....	7,093 pkgs.	Other.....	3,788 bags.	Manila, &c..	96,537 bags.
Japan.....	2,164 pkgs.	Sugar, Cuba..	4,622 boxes.	M'las'es, Cuba	1,629 hhds.
Various.....	958 pkgs.	Cuba.....	8,277*hhds.	Porto Rico.	532*hhds.
Coffee, Rio...	6,751 bags.	Porto Rico	456*hhds.	Demerara..	27*hhds.
Java.....	1,755 mats.	Other.....	1,644 hhds.	Other.....	13*hhds.
Maracaibo..	1,745 bags.				

*Hhds. include bbls. and tcs. reduced

Imports this week at this port have included 26,116 bags Rio Coffee, 200 do St. Domingo and 644 do of other kinds, mostly from Mexico. The receipts of Sugar and Molasses have been rather light. The arrivals of Tea embrace 1,055,117 lbs. of Japan tea, and 12,800 do of Black.

The stocks in New York at date, and imports at the five leading ports since Jan. 1, 1871, are as follows:

	Stocks in New York at date.		Imports at leading ports since January 1.

TEA.

Some little business has been reported, but nothing of magnitude, and a portion back sales of several days standing, the market, as a whole, remaining in an extremely dull condition, and the tone very weak. Holders of the stocks do not urge business, but are quite willing if not a little anxious to operate, and quick buyers would be treated with much consideration. The amounts sent out to consumers thus far this year have been very large, and this alone tends to keep the jobbing movement low, but just now there is the additional quieting inference of the agitated repeal of duty; and though there is probably only a very few if any of the Trade here who imagine such a law will be enacted, country dealers generally consider the matter as sure, and hold off accordingly. As to the supply here it is not only very large but well assorted, the new crop having come in much more freely than for the corresponding period last year. Rumors have been circulated to the effect that one or two very large sales had taken place, but there appears to be no foundation for such a report. We note 6,034 Greens, 7,100 Oolongs, and 1,800 Japans.

Imports this week have included 375,406 lbs. of Japan Tea per "Abby Bacon," from Yokohama; 480,784 lbs. do per "Horatio," from the same port, and 12,800 lbs. of Black Tea per "John Wooster," from Whampoa.

The following table shows the imports of Tea into the United States (not including San Francisco), from January 1 to date, in 1871 and 1870:

	Black.	Green.	Japan.	Total.
1871.....	6,616,769	10,073,970	4,339,274	20,122,129
1870.....	6,672,630	6,015,470	1,741,605	14,429,705

The indirect importations, including receipts by P. M. Steamers via Aspinwall, have been 7,908 pkgs. since January 1, against 12,864 last year.

COFFEE.

We have again to note an extremely dull general market, and some loss of the previous firm and confident tone. The wants of jobbers are light, in fact much less than anticipated, as is usual at this season, as the distribution to small dealers and consumers seems to fall off rather than increase, and the prospects of improvement are poor, interior buyers having great faith in the repeal of import duties, and refusing to operate until the question is settled. The advices from Europe are also of a nature to reduce the probabilities of any unusual call from that direction; and with all the outlets thus more or less contracted, importers in many instances begin to lose courage; and though not yet willing to grant concessions to any extent, will quickly enter into negotiations at former figures, and are placing their supplies on sale with greater freedom. Of Brazils the accumulation not only here but along the entire seaboard has increased, and the arrivals generally are of a quality to improve the assortment considerably. Owners in consequence have kept a fair amount available, but were unable to attract the attention of buyers beyond a few small lots wanted for the most urgent necessities, all movements being conducted with great caution, and jobbers evidently were unwilling to take supplies unless the same could be turned over immediately to advantage. No positive change in prices has been quoted, but while good to prime qualities are only steady, the common sorts have a weak undertone, and would succumb at once to any pressure to realize. Other descriptions continue to drag along slowly and without features of interest. About former prices are asked and obtained on the small lots changing hands, but in reality there is not enough business doing to form a good basis for quotations. The stocks, as a rule, are small. Sales of 5,235 bags Rio, 800 bags Maracaibo, 200 bags Government Java, 325 bags Costa Rica, 200 bags Jamaica, and 200 bags St. Domingo. At New Orleans, 5,000 bags Rio on spot and 7,771 to arrive.

Imports this week have included 7,012 bags of Rio per "Johan;" 14,104 do. do. per "Merrimack," and 5,000 do. Santos per "Eliza and Maria." Of other kinds the imports have included 200 bags St. Domingo, per "Naonta," and 640 do. mostly from Mexico.

The stock of Rio March 23, and the imports since Jan. 1, 1871, are as follows:

In Bags.	New York.	Philadelphia.	Baltimore.	New Orleans.	Savan. & Mobile.	Galveston.	Total.
Stock.....	38,612	3,668	20,542	17,600	11,934	....	92,356

* Includes mats, &c., reduced to bags. † Also, 30,234 mats.

SUGAR.

Raws have continued to sell to a very fair extent, and the market, to gain strength with prices on most grades, further advanced, and the selling interest generally quite firm and confident in their views. The unusually early opening of navigation, and the falling off in cost of transportation, very materially increases the probability of a larger interior distribution, which alone has a strengthening tendency; but in addition to the above, importers are stimulated by the moderate arrivals, and some falling off in the accumulation, and growing rumors of a reduction in the crop of Cuba. The latter idea has been mooted for some time, and figures are now being produced to show the truth of the report, but even those most interested in higher prices are not inclined to depart from a cautious policy, and prefer waiting further advices before operating with any great amount of freedom, either in the way of placing their stocks in a position to be withheld for a decided improvement in value, or indulging in speculative movements. The general offerings, however, are small, and unless extreme market quotations are realized, current receipts are at once placed in store. A few purchases have been made by the trade, but the demand was in the main from refiners, who now have an unusually liberal margin, and in many instances have shown an inclination to purchase somewhat in excess of early wants. Muscovado cured have rather had the preference over clayed and centrifugal. The immense stock of Manila which has so long been considered as a sort of drag, has been much reduced by two or three liberal sales. Refined has sold well at full prices throughout, and in some cases the range was increased. The call in the main was on home account, though exporters took a fair amount, and probably would have handled more had the Government officials decided upon the amount of drawback at an earlier date. Sales of 3,396 hhds. Cuba, 1,112 hhds. Porto Rico, 206 hhds. New Orleans, 2,932 boxes Havana, 89,695 bags Manila and 14 hhds. Melado.

Imports at New York, and stock in first hands, Mar. 23, were as follows:

	Cuba, bxs.	Cuba, *hhds.	P. Rico, *hhds.	Other *hhds.	Brazil, bags.	Manila, &c, bags.	Melado hhds.

MOLASSES.

The business of last week, though not unusually large, supplied the most urgent wants of refiners, and as the latter class of buyers still continue to receive a considerable amount of stock on direct importation, the principal demand for foreign goods is materially curtailed and the market remains in a very dull condition. A few cargoes of first-class boiling molasses are always wanted on this market, and could undoubtedly be sold now if offered, but the assortment at present available is not attractive, and buyers assert they can await something better without inconvenience. Grocery qualities have not been very plenty, but the supply was large enough for the demand, and the prices accepted somewhat lower than at the commencement of the season. As a rule, importers seem inclined to steadiness, but are willing to negotiate on any reasonable offer. Domestic remains much the same as last noted, the very prime grades firm and sparingly offered, and common lots greatly unsettled, and owners willing and anxious to operate. Sugar House molasses plenty, rather dull and prices heavy. Syrups in fair trade demand, and a light call for shipment. Sales of 100 hhds. Cuba Muscovado, 675 hhds. Porto Rico, 50 hhds. English Island, etc., and 853 bbls. New Orleans.

The receipts at New York, and stock in first hands, Mar. 23, were as follows:

*Including tierces and barrels reduced to hhds.

SPICES.

We have again to report a very dull general market and few really new features. On all styles, as they are now selling in small job lots, the tone is a little slack and holders will close out odd parcels frequently at some concession. The large lines of goods, however, in first hands—what there is of them—are not available except at full former figures, and in some cases the feeling is firmer. This has been especially noticeable on Pepper, as late advices from abroad were of the most encouraging character. Nutmegs and Mace a little buoyant also but no higher.

FRUITS, &c.

The market since the date of our last has been extremely quiet, most of our city jobbbers having purchased previously to arrive, and these goods now coming in freely supply all their wants, which are, however, small. Layer Raisins are very slow of sale, but the larger holders are generally firm, and prefer buying lots at $3 to allowing the market to fall below that price. Currants and Turkish Prunes have both been dealt in rather sparingly and are easier in price, favoring the buyer. Sardines are in moderate demand for quarter boxes, and former prices rule about steady. Almonds are again rather quiet, but the late advance is fairly sustained. Brazil Nuts are in light demand at the decline. Citron is not plenty, and held at higher prices. Walnuts are steady, but in only moderate demand.

The supply of Foreign Green box fruit has been large, the sales average about 18,000 boxes a day since our last; prices have been well sustained by shipping largely to the West, but at the close easier prices are ruling, though the general impression is, that they will do better again next week. West India fruit has not been in large supply, but the abundance of Mediterranean has caused a decline in prices of Oranges, the best now selling at $10 per bbl. Cocoanuts sell moderately well at $38@40 per thousand for Baracoa; small lots of Bananas have sold at $1 50@2 80 per bunch. At auction to-day Palermo Oranges sold at $2 00@2 80; Messina at $2 00@2 80; Palermo Lemons at $3 80@3 85, and Messina at $3 70@3 90.

Domestic Dried have ruled rather quiet for Apples, but former prices have been sustained. Peaches are still scarce, but the comparative high prices current. Blackberries are again quiet, but are held pretty steady. Pitted Cherries are in fair demand at former prices. Plums are also firm. Raspberries are in fair supply at last quotations.

Domestic Green are slow of sale and cheap compared with last fall. Dealers are making very little, as they lose a great deal by rotting. Sales of best at $3 50@3 75. Cranberries are slow except very choice, which sell at $3 50@3 75 per crate' and $12@14 per bbl.

ADVICES FROM PRODUCING MARKETS.

Tea.—Messrs. Aug. Heard & Co.'s regular telegram via San Francisco is as follows:

Hong Kong, Feb. 11.—The stock of Oolongs on offer is 10,000 half chests. The total export this season to the United States will not probably exceed 12,500,000 lbs.

Shanghae, Feb. 11.—The total export of Green Tea to the United States this season will not probably exceed 18,500,000 lbs. (an advance of 2,500,000 over the estimate of last month's telegram).

By mail the dates are to January 24 from Shanghae, reporting an active market for Green Teas, with an advance in most of the settlements of about one tael per picul. The stock was small at date, say 37,000 half chests, with the following figures for the season:

	Since June 1, '70.	Same time '69-'70.	Same time '68-'69.
Total receipts, including old Teas	450,800 h. c.	471,530 h. c.	467,776
Total settlements	414,120 "	421,254 "	398,475
Unsold stock, all kinds	36,680 "	50,276 "	69,361

The following shows the quantity of Tea afloat for the United States at latest dates (not including San Francisco), and which has not yet arrived:

Rio Coffee.—From the market circular of Messrs. Boje & Co. we learn the existence of a brisk enquiry for Coffee since the last American mail; transactions, however, were not on a very large scale, owing to the great firmness of the holders, who based their views upon the very favorable reports from all the consuming markets, and later by the probable end of the European war. The closing market was very strong. Total sales since 25th ult. for United States 82,800 bags; stock at date 70,000 bags, and the daily receipts have averaged about 7,700 bags per diem.

Vessels sailed since January 23, 1871	119,807 bags.
" cleared or ready	18,600 "
" loading, or about to load	20,100 "
Santos—	
Sailed January 28	3,500 bags.
Loading none.	

Rio Janeiro, March 4.—Messrs. Wright & Co.'s Telegram: Sales coffee for United States since 23d February, 34,000 bags; shipments, 26,000 bags; loading, 48 000 bags; stock at date, 90,000 bags; price, 6$400.

Manila Sugar.—Market advices to January 17, 1871, are at hand, at which date there was a good market for Sugar, 4,000 piculs of Superior Current had been closed at $4 6-8. Brown nominally quoted $4¼ per picul.

	1871. Piculs.	1870. Piculs.
Exports since January 1, to United States	12,000	....
" " Europe	10,500	19,700

The following shows the quantity of Sugar afloat for the United States at last advices, and which has not yet arrived:

Ship.	For.	Piculs (139 lbs.)
Nov. 27..Glenlyon	New York	11,678
Nov. 28..E. A. Oliver	"	8,400
Dec. 31..Aberdeen	"	19,000

Ship.	For.	Piculs (139 lbs.)
Jan. 9..Chattanooga	New York	12,000
Total piculs (of 139 lbs.)		47,078

PRICES CURRENT.

The Following are Ruling Quotations in First Hands. On the Purchase of Small Lots Prices are a Fraction Higher.

THE DRY GOODS TRADE.

FRIDAY, P. M., March 24, 1871.

There has been a better jobbing trade, this week, and the tone of the market is decidedly improved, though the prices on domestic cotton fabrics are decidedly unsettled, and trade is restricted in consequence. The movements from first-hands are somewhat heavier than at the time of our last report, jobber's stocks having become broken and this class of dealers being forced into the market for second purchases The market is well filled with buyers from the interior, representing the Western, Southern and near-by trade, and the mild weather has developed a greatly improved demand from consumers, and retailers are forced to purchase, though many would doubtless prefer holding off a week or two longer until the market becomes more settled. The usual revision of prices is now in progress, and is already more general than at the corresponding date last year. The movements, too, appear to be somewhat in excess of that period, which is due, no doubt, to the fact that the weather during the current month has been such as leads dealers as well as consumers to look for no return of cold weather, and induces more liberal purchases from consumers, of light spring and summer fabrics than has been usual at this season of the year. The retail trade here is good, and is reported satisfactory in nearly all other cities. Collections are made with fair freedom and the condition of the trade generally is healthy, and favorable for a prosperous season.

DOMESTIC COTTON GOODS.—There is a fair jobbing trade doing in all cotton fabrics suited to the requirements of dealers at this season of the year, and the tone of the market is rather more favorable than at the time of our last report. There has been a reduction of ¼c. on all standard sheetings during the week, the agents for several brands having marked down their goods, while jobbers have made the prices on other brands to correspond though the quotations are nominally unchanged in first hands. Medium and lower counts of brown goods are also declining, and several brands are already down. Bleached goods have met no important reduction as yet, but it is expected that the decline in brown cottons will have the effect to bring about a decline before many weeks. The agents for all prominent makes state that they are sold close to the production, however, and apparently contemplate making no change. Colored cottons have experienced a reduction of 1c. on several brands of ticks, stripes and denims, and a complete revision of quotations is likely to occur. Prints remain as previously reported, with the exception of Simpson's, which have been reduced to 10c. The demand for all of the best makes is fair, and prices are apparently steadily maintained. Desirable styles of light work are well cleared out of the market, and the remaining stock is by no means excessive. Lawns and percales have sold freely, and the stock of popular makes is well closed out. Prices are firm, but no advance is probable.

DOMESTIC WOOLEN GOODS.—The sales of woolen fabrics from first hands continue fairly active, and the stocks of light weights are as well reduced as is usual at this season. The production of these goods has about ceased, manufacturers having already begun running on heavy weights, and the amount of spring goods carried into the next season will be small. Fancy cassimeres of desirable styles in medium grades have sold freely, while fine goods have been in moderate request for the better class of trade. Faced goods are in fair demand, the sales of popular makes being reported as satisfactory. Spring flannels in the best grades are higher, and quotations are well maintained at the recent advance. Shawls are in good request, as previously noted, and desirable styles of nearly all makes are well sold up.

FOREIGN GOODS.—The demand for all dress fabrics continues good with importers and jobbers, and the market presents no new feature of interest. Linens are in about the same condition as at the time of our last review, the market remaining firm, with a fairly active jobbing trade, while the movements from first hands are only moderate at the moment. Dress linens are in better demand, at full prices. Silks are selling well, and prices are well maintained, the importations being comparatively light. Foreign shawls are in good demand, and desirable styles of perfect goods remain scarce. The hosiery trade is a trifle less active than was reported a few weeks earlier, heavy buyers having generally stocked up and returned to their homes. Prices are unchanged, and are so low as to admit of but small profits to importers, in consequence of the excessive competition on these goods in this market. This is especially the case with German goods, and the low prices have induced so liberal sales that the stock is now very light, and the tone of the market firmer.

The exports of dry goods for the past week, and since January 1, 1871, and the total for the same time in several previous years are shown in the following table:

	FROM NEW YORK.				FROM BOSTON

We annex a few particulars of leading articles of domestic manufacture, our prices quoted being those of leading Jobbers:

BROWN SHEETINGS AND SHIRTINGS are in fair request at the generally lower quotations, and the distribution of all grades is as active as usual at this period of the season. We quote somewhat nominally as follows: Amoskeag A 36 12, do B 36 11¼, Atlantic A 36 12½, do D 36 10½, do H 36 12½, Appleton A 36 12½, Augusta 36 11, do 30 10, Bedford R 30 8, Boott O 34 9½, Commonwealth O 27 8, Grafton A 27 8, Great Falls M 36 11 do S 33 9½, Indian Head 36 12½, do 30 10½, Indian Orchard, A 40 13, do C 36 10½, Laconia O 39 12 do B 37 11, Lawrence A 36 11, Lyman C 36 10½, do E 36 12, Medford 36 11½, Nashua fine O 33 11½, do R 36 13, do E 40 14½ Newmarket A 36 10, Pacific extra 36 12, do L 36 11, Pepperell 7-4 22½, do 8-4 25, do 9-4 27½, do 10-4 32½, do 11-4, 37½, Pepperell E fine 39 12½, do R 36 11½ Pocasset F 30 8½, Saranac fine O 33 11½, do R 36 13, Stark A 36 12, Swift, River 36 8½, Tiger 27 8.

BLEACHED SHEETINGS AND SHIRTINGS are fairly active at about previous prices. The market is rather unsettled, however, and quotations are chiefly nominal. Amoskeag 46 16½. do 42 15, do A 36 15, American A 36 12½, Androscoggin L 36, 15½, Arkwright WT 36 18, Ballou & Son 36 13, Bartletts 36 14, do 33 13½, Bates XX 36 18, Blackstone AA 36 14 Boott B 36 13½, do O 30 10, do R 28 8½, Clarks 36 17½, Dwight D 40 18, Ellerton 10-4 45, Fruit of the Loom 36, 16 Globe 27 7, Gold Medal 36 13, Great Falls Q 36 15½Hill's Semp. Idem 36 15, Hope 36 13, James 36 15, Lonsdale 36 15½, Masonville 36 16, Newmarket C 36 12½, New York Mills 36 21 Pepperell 6-4 22½, do 10-4 37½. Tuscarora XX 36 18@19, Utica 5-4 25 do 6-4 28, do 9-4 47½, do 10-4 52½, Waltham X 33 11, do 42 15½, do 6-4 22½, do 8-4 27½, do 9-4 32½, do 10-4 37½ Wamsutta 36 20.

PRINTING CLOTHS are in good demand and are steady, 64x64s selling at 6⅝c, and manufacturers firm in anticipation of a rise.

PRINTS are selling rather more freely, and are firmer at the recently revised quotations. American 10, Albion solid 10½, Allens 10, do pinks 11, purples 10½, Arnold 8½, Atlantic 5½, Dunnell's 10½, Hamilton 10½, London mourning 9½, Mallory —, Manchester 10, Merrimac D 11, do W pink and purple 12½, do W fancy 12, Oriental 10, Pacific 11, Richmond's 10½, Simpson Mourning 10, Sprague's pink 11, do blue and White 10½, do shirtings 9½, Wamsutta 7½.

CHECKS.—Caledonia 70 23, do 50 22½, do 12 26½, do 10 21, do 8 17, do 11 22, do 15 27½, Cumberland 13, Jos Greers, 55 15½, do 65 18 Kennebeck 20, Lanark, No. 2, 9½, Medford 13, Mech's No. A 1 29.

DENIMS.—Amoskeag 26, Bedford 14½, Beaver Cr. AA 20, Columbian heavy 24, Haymaker Bro. 14, Manchester 20, Otis AXA 22½, do BB 20

CORSET JEANS.—Amoskeag 11½@12, Androscoggin —, Bates 9. Everetts 13½, Indian Orchard Imp. 10, Laconia 11½. Newmarket 10.

COTTON BAGS.—American $30 00, Great Falls A $35 00, Lewiston $30, Ontario A $32 50, Stark A $35 00.

BROWN DRILLS.—Atlantic 12½, Appleton 12½, Ameskeag 13, Augusta 12½, Pacific 12½, Pepperell 13, Stark A 12½.

THE Commercial AND Financial Chronicle

HUNT'S MERCHANTS' MAGAZINE,

A Weekly Newspaper,

REPRESENTING THE INDUSTRIAL AND COMMERCIAL INTERESTS OF THE UNITED STATES.

VOL. 12. NEW YORK, APRIL 1, 1871. NO. 301.

Advertisements.

Advertisements will be inserted at the following prices per line for each insertion:

ordered less than 4 times		20	cents per line.
"	4 times or more	16	"
"	8 "	14	"
"	13 "	12	"
"	26 "	10	"
"	52 "	8	"

If the advertisement occupies one column or upwards, a discount of 15 per cent on these rates will be allowed.

Space is measured in agate type, 14 lines to the inch.

Advertisements will have a favorable place when first put in, but no promise of continuous insertion in the best place can be given, as all advertisers must have equal opportunities.

Advantages.

1. The CHRONICLE has much the largest circulation of any financial publication issued.

2. Its circulation extends to business men in BOTH the FINANCIAL and COMMERCIAL branches, and also to a very numerous class of retired merchants, moneyed men and investors, who are not engaged in regular business.

3. It is preserved on file by subscribers, and thus possesses a great advantage for advertisers, over those publications which are habitually thrown aside after perusal.

WM. B. DANA & CO.,

FIRST MORTGAGE

SEVEN PER CENT BONDS

OF THE

PEORIA, PEKIN & JACKSONVILLE RAILROAD COMPANY,

Issued in sums of $500 and $1,000, redeemable July 1st 1894, with coupons for semi-annual interest, payable on the first days of January and July, in the City of New York, and secured by a Mortgage for $1,000,000 upon the Railroad, its franchises and all equipment, on the well protected basis of about $12,000 per mile.

This Road, with its 83 miles of main, and over 8 miles of side track, is completed and in successful operation between the cities of Peoria and Jacksonville, in the state of Illinois. At Peoria, the third city in the state in respect to business and population, it intersects four prominent Railroads, with connections for Chicago, Rock Island and other points North, East and West but having its principal connection with that of the Chicago, Rock Island and Pacific Company. At Jacksonville it connects with three Roads forming, with the Jacksonville Division of the Chicago and Alton Road, the shortest line between Peoria and St. Louis.

Its rental receipts from other Roads, whose trains pass over less than ten miles of its track, are $40,000 per annum, being more than one half of the amount of the annual interest on its First Mortgage Bonds, otherwise amply provided for by its existing business.

A portion of the $1,000,000 of First Mortgage Bonds, aforesaid, the high character of which for investment will be observed, are now offered for sale by

Miscellaneous.

TO MERCHANTS, BANKERS, SHIPPERS AND OTHERS.

"SECRESY, ACCURACY, and a saving of from 50 to 400 per cent in the Transmission of Telegraphic Messages."

PUBLISHED THIS DAY:

Bolton's Telegraph Code,

A TELEGRAPHIC DICTIONARY OF THE

ENGLISH LANGUAGE.

Forming a complete Code for the transmission of Telegraphic Messages on every Subject; adapted to every branch of business, and suited for use in any language, by the employment of which, ECONOMY, ACCURACY and SECRESY are secured.

GREAT SUCCESS OF THE CODE IN ENGLAND.

The First Edition of 1,000 Copies sold before the day of publication.

A Message can be expressed either by Words, Letters or Figures, at the option of the sender. Example:

"The arrangements are completed. We intend going by the next Cunard Steamer. Petroleum in good demand, at about previous rates; no fears entertained of a further decline."

This Message consists of 27 words: when Coded it is expressed by five words (i. e., by "Word Code,") thus—Barry Interluces Pebble Pushing Diagonally—or by 5 groups of four letters each (i. e., by "Letter Code,") thus—*EXPR JQHG LQZL MKGV FQGB*—or 5 groups of 5 figures each (i. e., by "Figure Code,") thus—87433 52904 69188 74896 28880.

For transposing it into Secret Cypher, that shall be absolutely unintelligible to a third party, it is sufficient that a previous arrangement be made to read so many numbers backwards or forwards, say, for instance, 113 plus, i. e., the Code words, letters or figures, 113 lines forward. This key (113) being known only to the sender and receiver, the message would be as secret as a sealed letter.

Sanctioned for Public Use over all the Telegraph Lines of Great Britain, by the Postmaster-General, and adopted and used by the English Army and Navy, and by Mercantile men generally.

The Economy to be effected by the use of this Code will be seen by the following certificate:

"We have witnessed several trials of BOLTON'S system of coding messages."

"These have been transmitted through the Atlantic Cable, first by the Morse Alphabet in full, and then codified.

"The messages have been correctly transmitted, and the time occupied in doing so through the Cable has shown a saving in favor of BOLTON'S Code, for messages of ordinary character, varying from 50 to 400 per cent., according to the nature of the message."

DRAKE BROTHERS,

BANKERS, 16 Broad St.

UNITED STATES DISTRICT COURT.

In the matter of ABRAHAM BININGER and ABRAHAM B. CLARKE, Bankrupts.

Notice is hereby given that the undersigned, as Assignee of the above-named bankrupts, will sell at public auction, at the Merchants Exchange Salesroom, No. 111 Broadway, in the City of New York, on the 17th day of May, 1871, at 12 o'clock at noon, by F. H. Ludlow & Co., auctioneers, two parcels of land adjoining each other, situate partly in Spottsylvania County, Virginia, and partly in Orange County, Virginia, containing together seven hundred and seven acres of land, known as the Vaucluse Gold Mining property, together with the mines, minerals, metals and metallic substances, buildings, improvements, fixtures, and appurtenances thereto belonging, including two steam engines, and all other mining machinery and utensils used in the mining operations now, or recently, carried on at the said Vaucluse mine, &c.

The sale will be subject to confirmation by the Court.

Detailed description of the property, and an inventory of the improvements, fixtures, &c., may be had upon application to the undersigned, or to his attorneys, Messrs BANGS, BRIDGMAN & NORTH, No. 137 Broadway, or to the auctioneers.

ORR G. FLOYD, JR. } 79 and 81 William Street, NEW YORK.
Post Office Box 4,592.

Mr. Alex. Holmes is our only travelling agent.

☞ The Publishers cannot be responsible for Remittances unless made by Drafts or Post-Office Money Orders.

☞ A neat file for holding current numbers of the CHRONICLE is sold at the office for 50 cents. Volumes bound for subscribers at $1 25. The first and second volumes of the CHRONICLE are wanted by the publishers.

THE BANKS AND THE FUNDING PROCESS.

Some changes have been made in the funding arrangements of Mr. Boutwell which appear to give satisfaction to the financial firms whose more active co-operation was desirable. The result has been to stimulate subscriptions, and to make the success of the negotiation certain. The funding process has also been accelerated by the continued ease of the money market, and by the certainty that no more of our Government fives can be had on such good terms as those now offering. There are some rumors of approaching activity in the money market; and a few of the speculative cliques are said to be preparing to lock up greenbacks with a view to take advantage of the April drain of currency and deposits to the interior. These rumors do not seem, however, to disturb confidence or to embarrass the movements of Mr. Boutwell and his agents. The sudden rise in government bonds on Thursday, with other movements at the Stock Exchange, afford conclusive evidence of the small weight attached to the prognostications of coming trouble.

Some of the banks have taken the opportunity of this improved aspect of affairs to urge Mr. Boutwell to allow the six per cent Currency Bonds, granted to the Pacific railroads, to be deposited as security for currency with the Department at Washington. There are a large number of new banks organizing, and the demand for the currency sixes would be much increased if the compliance of Mr. Boutwell could be secured. In anticipation of success the price has been run up 2 per cent; which is an easy process, as these bonds are in few hands, and the floating aggregate is small. The whole issue to all the roads amounts but to $64,618,832. Of this sum the banks have deposited at Washington $18,499,000, Savings banks and Trust Companies hold some 27 millions, and capitalists hold for permanent investment 10 or 12 millions. Hence there are not more of these bonds afloat than 8 or 9 millions. This sum is so small that Mr. Boutwell has not seen it desirable to change the rule of the Department. The public and the majority of the banks acquiesce in the decision.

Those who hold the bonds, however, have published a pamphlet which has had a wide circulation, and contends that Mr. Boutwell, by the terms of the currency law, is bound to accept from the banks any and all registered government bonds as security for bank circulation, and that by the cessation of his late controversy with the Pacific roads relative to the interest, he cannot discriminate against these subsidy bonds, but must accept them on just the same terms as Five-Twenties or Ten-Forties. To this Mr. Boutwell replies that the argument misrepresents both the intent of the law and the settlement with the Pacific Railroads. The Currency law intended to create a market for the war debt of the government. The Pacific bonds form no part of that war debt. And the amount is so insignificant as not to justify any exception in their favor, especially as the parties to be benefited are banks whose privileges in regard to circulation should not be extended unless in view of some great public benefit. As to the Pacific Railroads, the recent settlement simply decided that the government had chosen the wrong remedy, and had acted contrary to law in withholding the sums due the companies on account of transportation. Several questions as to ultimate payment of principal and interest remain in abeyance, and appear likely to be adjusted hereafter very satisfactorily by the government transportation being more fully made to pass over these roads so as to cover all the interest and more.

Still it must be conceded to these banks that section four of the National Currency Act declares that the term "United States bonds" as used in said act "shall be construed to mean all registered bonds now issued, or that may hereafter be issued, on the faith of the United States, by the Secretry of the Treasury in pursuance of law;" that section five of the act of July 1, 1862, to aid in the construction of the Pacific Railroad, directs the Secretary of the Treasury upon certain conditions to issue to the company constructing said road "bonds of the United States;" and that on comparing the bonds so issued with other bonds of the United States, concerning which there is no question, we find the indebtedness

Digitized by Google

of the United States acknowledged and their obligations to pay certain sums of money upon certain conditions, expressed in the same words in both classes of bonds, attested in both cases by the seal of the Treasury Department, and by the signature of the Register of the Treasury. Still all this being conceded, the question arises why did not the National banks buy these bonds when they were first issued, and were selling at very low prices? The answer Mr. Boutwell gives is that these are "currency" bonds and not "gold" bonds. They are not redeemable in gold. They run for a quarter of a century, and are therefore subject to such vicissitudes as may at any time prior to their maturity depreciate our irredeemable currency. These bonds lack the fundamental characteristic of the war debt which is all payable in specie, and Congress never designed, nor could it safely be designed, that any but specie bonds payable interest and principal in coin, should ever be used as a foundation for our bank currency.

To this the banks reply that these currency bonds sell for more than the Five-Twenties, and are really worth more than the gold bonds. Their argument is as follows:

Taking the new 5 per cent "funded bonds" at par in gold as a standard, and supposing them to run for 27 years, then by Price's tables I find that a 27-year six per cent bond is worth 114¼ in gold; to this add the gold premium on the 114¼, and it is shown that the sixes are worth 127½ in currency. Now, deduct a fair estimate for the premium on the gold interest which will be received annually on the five per cent bonds from now until specie payments are resumed, and the balance will be the true currency value of the currency sixes. I estimate thus, supposing gold to be at an average of 10 per cent premium for the whole 27 years. Then the holder of a $1,000 5 per cent bond gets $55 in currency per annum, and the holder of a currency six gets $60. This calculation is on the basis that no resumption of specie payments is to take place, and it is giving the worst possible aspect to the currency sixes. If resumption takes place in a few years, the sixes are worth at least 14 per cent more than the fives, or 124 in currency.

This argument proves that the bonds are good; but it does not meet Mr. Boutwell's argument about the coin basis. For the time, therefore, the controversy is suspended. It may be expected to come up in another form however, as the banks say they intend to submit their claims to the adjudication of the courts.

The banks are so few, however, which are agitating this question, that it is regarded as of subordinate importance, and it does not in the least degree threaten the hearty co-operation of these institutions with Mr. Boutwell in disposing of the new loan, or in any of his negotiations of a like character in the early future.

A NEW PACIFIC RAILROAD.

Some interest has been excited in Wall street by the announcement of the Canadian Inter-oceanic Railroad. Encouraged by the growing prosperity and rapid success of our Pacific Railroad connecting the Atlantic seaboard with San Francisco and the Orient, some British capitalists long ago projected a line to pass from sea to sea through British territory, from Halifax to Vancouver's Island. The scheme has been in abeyance; but on Wednesday, at Ottawa, Sir George E. Cartier, on the part of the Canadian Government, proposed in the House of Commons that any company undertaking the construction of the road shall be aided with $1,500,000 a year. This new Pacific Railroad enterprise having thus been formally adopted by the Government of the Dominion, doubtless with the sanction of the Imperial Government at home, it only requires that a dividend of 5 per cent a year should be guaranteed on the whole capital; and the 130 millions of dollars which the road will cost could doubtless be easily raised in England. To this guarantee there is considerable opposition by the advocates of light taxation; and the subject has further complications by being connected with the rather unpopular measures for the immediate admission of British Columbia as an integral part of the Canadian Confederation. In the unsatisfactory state of the finances of the Dominion, the opposition is very active, but its success is doubtful.

The railway will be 2,500 miles long. It is to be begun in 1873 and finished by 1881. The work is to go on simultaneously at both ends. By the new route British Columbia is to be connected with the Canadian railways by a road which will give England a short path to India and China over her own territory and subject to her exclusive control.

The route has not been fully surveyed as yet; but its general direction is along the 50th parallel, our Southern Pacific road taking the 32d parallel, the Northern Pacific the 46th, and our Great Central Pacific route the 41st parallel. The new Canada Pacific is to start from Bute Inlet, opposite Vancouver's Island, and to terminate at Lake Nipigon, to the northwest of Lake Superior. At Bute Inlet the harbor accommodation is very good. Crossing the Cascade mountains at the Tete Jaune pass, at a low elevation, the new road is to descend in easy grades down the gradual slope of the Saskatchewan Valley to Manitoba. This is the district formerly known as Prince Rupert's land, surrendered by the the Hudson's Bay Company last year, but not at once confederated with the Dominion. The population in 1869 of the whole territory comprised in British Columbia and Manitoba was reported at 28,405 persons. Their total commerce in 1865 was £228,591, in 1866 £202,448, in 1867 £111,796, in 1868 £112,699, in 1869 £152,926. In 1870 the commerce was about £280,000, while the population is estimated at 45,000. It is easy to see that in such a sparse undeveloped region the local traffic for years to come must be extremely small. Much reliance is placed on the large land grant, and the income therefrom will be considerable, though in so high a latitude the temptation to emigrants will be much less than in our own sunnier and more inviting lands. The through traffic, as experience shows, will yield very small net earnings towards paying the guarantied 5 per cent on the outlay. As the road will therefore be a dead weight on the Canadian Treasury of six and a half millions of dollars a year, at least, it is not difficult to see the ground of the vehement opposition the scheme is meeting from a few economists in the Canadian legislature.

There are rumors, however, that the Imperial Treasury will in some way interpose, and the railroads of British India show that England is prepared to make great sacrifices to secure in any contingency a free development and an uncontrolled communication for her oriental customers and her Indian possessions. As a great military road the British Pacific offers advantages which cannot be overestimated for the consolidation and unification of the Colonies. At present our Central Pacific road offers the only swift route through an English-speaking country to the ports of the western coasts of this Continent; while the Panama Railroad offers similar facilities to the ports of South America. The Asiatic ports of Russia, the newly opened ports of Japan and China, the Sandwich Islands, the Spice Islands, New Zealand and Australia, are all developing a new active trade with this country and with Europe. Still the through freight will cost heavily on this long English railroad, and will seek other less costly and established routes. Travel and express freight may, perhaps, be attracted from the better known routes to the new British road. But it is uncertain. There is every reason to believe that the ten years in which this road is to be finished will make New York the undisputed master of European, and San Francisco of Asiatic communication over this Continent.

Moreover, England will find the Suez route to India, whether by railroad or canal, both cheaper and quicker than her proposed Interoceanic Railway. The Cape of Good

Digitized by Google

Hope route will be cheaper, if not quicker. From England to China the time by way of Suez may be less, but the cost higher. To Japan and New Zealand the route over some part of this continent will be much the quickest, as also to the Pacific ports, from Sitka in the north to Valparaiso in the south. But before this road is opened, travel will have become so accustomed to move in our channels of transportation as to be loath to leave them. "Trade loves its old grooves," as we are told, and we should not have attracted to our new American routes so much of the through traffic with the Orient, but for the disturbance of the old routes of travel, by the gold discoveries, the Crimean war, the Indian mutiny, the troubles in Egypt, the Suez Canal, the Mont Cenis summit and tunnel railways, the wars and rumors of war in Continental Europe, and finally by the disturbance of the old Marseilles line of packet steamers and their transfer to Brindisi on the Adriatic, whence steamers can find a much shorter line of voyage to Alexandria than from Marseilles. So great a revolution has not had its analogy in the changes of the grand routes of commerce since the taking of Constantinople by the Turks and the discovery of the Cape of Good Hope by Vasco Di Gama. Our Pacific Railroad was not constructed a year to soon, to enable it to attract over our territory the rich oriental commerce thus disturbed from its old channels. When the quietude has been re-established and trade has become established in its settled grooves, it will not be so responsive to new impulses or so susceptible of new directions.

STEAM POWER FOR THE CANALS.

A bill is now pending in the Legislature at Albany which seeks the accomplishment of important practical results, and which, with the modification of certain objectionable features, should become a law without unnecessary delay. Its object is to encourage the invention of some practical means of applying steam power to the movement of canal tonnage, and to this end it authorizes the State Treasurer to pay the sum of one hundred thousand dollars to the owner of any patented plan by which canal-boats may be propelled by steam, caloric or electric power without injury to the banks of the canal. In order that the relative practicability and economy of the different plans may be intelligently decided upon, it is further provided that, during the month of June next, persons owning such inventions shall each be invited to place upon the canal a boat to be propelled by machinery, and submit the same to an examination by a commission consisting of Messrs. George B. McClellan, E. S. Prossner, Van R. Richmond, George Geddes, W. S. Nelson, and others, who shall require all boats submitted to them to make, in their presence, a trial of at least twenty miles, and as much further as they may consider necessary. The conditions to be complied with are as follows: *First*, the boats must make an average speed of three miles an hour, without producing waves great enough to wash the banks; *second*, when making the trial trip each boat must carry one hundred and fifty tons of freight; *third*, each boat must be capable of backing as well as of moving forward; *fourth*, all inventions will be subjected to a competitive test, and each commended in proportion to its simplicity, economy, durability, the amount of tonnage surrendered to machinery, and the inconvenience its adoption would occasion to commerce.

The importance of this bill consists in the fact that it recognizes the importance of substituting steam for horse power in the movement of canal tonnage, and offers an opportunity for the practical trial of all plans now urged by inventors upon the attention of the business community, under circumstances that would secure for the best system the official approval which is needed to gain for it the confidence of capitalists who may be invited to assist in organizing a company for its practical application to the movement of the canal traffic. There are, however, several objections to it in its present form, the chief among which is found in the fact that it proceeds upon a total misconception of the conditions which are really indispensable to the successful application of mechanical power to the movement of the tonnage of the canals. From a long study of, and a somewhat intimate acquaintance with the subject, we are convinced that what is needed is not steam propulsion but steam traction; in other words, not some ingenious device by which each boat can be made self-propelling, but some form of tug which can draw a train of boats, say five or six, at an average speed of from three to five miles an hour. This is the problem which must be solved, and until its solution is reached it will not be possible to dispense with those relics of antiquity, the tow-path, the mule team and the driver.

The condition under which steam is to be applied to the movement of canal freights are, and must ever remain, the same as those under which it is applied to the movement of railroad freights—namely, the largest possible traction power with the smallest possible consumption of fuel. It will be readily understood by any one even superficially acquainted with the subject of railroad transportation, that if it were necessary to apply power to the movement of each freight car separately, the cost of carrying freights would be increased ten, and in some instances twenty-fold. Not only would each car have a reduced capacity in proportion to the space occupied by its machinery, but each would require a skilled engineer to manage it; and the wages of the engineer, together with the consumption of fuel and oil, and the wear and tear of machinery, would necessitate so great a charge per ton per mile on the freights carried in it, that cartage over common roads would be found cheaper, even for long distances. Much the same results would attend an experiment with propelling machinery on the canals, if each boat were to be made to run by a power of its own, however ingenious the method of its application.

Again, the canal is now fully equipped with tonnage. If any such plan should be adopted, all this must be changed. To build new self-propelling boats to take the place of those now engaged in the movement of canal freights, or to rebuild this immense fleet of barges to admit of the introduction of steam machinery into each, would scarcely be considered practicable; and yet one or the other must be done if steam is to be generally applied on any such principle. But even supposing this original obstacle overcome, is it probable that the increase in speed would so far offset the increased cost of canal freights as to enable the shippers to compete successfully with the railroad companies? Experience has demonstrated to the contrary. It will be remembered that the application of steam to the movement of canal tonnage, on a plan conforming to the conditions of the bill above mentioned, was thoroughly tried on the Erie canal some twelve years ago, and finally abandoned as impracticable. For the propulsion of separate boats nothing better than the common screw is needed, since it meets all the requisite conditions, and is quite as economical as any other method. Some twelve or fifteen years ago a number of capitalists, prominently connected with canal business, undertook the construction of several splendid propellers, built with especial reference to the transportation of grain freights, and the question of steam power on the canal was considered solved. In one sense it was. The boats were in all respects adapted to the business for which they were designed, and there was no lack of freights to employ their full carrying capacity; but after a long trial they were finally withdrawn from the canal as unprofitable, for the simple rea-

Digitized by Google

son that they could not carry freights as cheaply as they could be carried in boats moved by the primitive horse power. There is, certainly, no good reason for repeating this experiment, for the same results would be reached now as then. As we have before said, what is needed is simply steam traction, which will provide for the movement of canal tonnage, as we find it, without necessitating costly alterations in the barges now engaged in this business, and which will increase the speed of canal navigation while proportionately diminishing its cost. Until this can be furnished no attempt to apply steam will be successful.

We heartily approve of a formal recognition by the State of the necessity for some improvement in the present system of canal traction, and of the appointment of a commission of experts to examine and report upon the practicability of the various plans suggested by ambitious inventors; but to authorize the payment of a State bounty for a device for propelling single boats, would be a waste of money and could only be excused by a plea of ignorance on the part of the Legislature as to the true nature of the difficult mechanical problem for which a solution is sought.

POSITION AND PROSPECTS OF BREADSTUFFS.

When the surrender of Paris was announced, and the termination of the war between France and Prussia became probable, we took occasion, in view of the anticipations which were entertained respecting the effect to be produced upon the markets for Breadstuffs by the restoration of peace, to utter a word of caution to operators both here and at the West. How entirely those suggestions have been justified, will be understood from the fact that prices at any time since, have not been as high as they were then, although favored by smaller stocks here, reduced receipts at the lake ports (we refer in this more particularly to Flour and Wheat), an unusually large export demand for Flour, some decline in ocean freights, a strong speculative feeling, and an easy money market;—a combination of circumstances sufficient, one would suppose, to have caused a material advance in prices. But the fact was, prices were already high. The increased export demand for our Flour and Wheat, which was caused by the war on the Continent, began early in April, 1870, and ceased in March, 1871, lasting about eleven months, and effecting in its progress a considerable reduction in the surplus stocks which we held one year ago, and producing a marked advance in prices, a comparison of which may now be advantageous:

		March 29, '71.	March 27, '70.
Flour	Shipping Extras, per bbl	$6 65@$6 80	$4 65@$4 85
	Superfine	6 10@ 6 50	4 40@ 4 65
	Western trade and family brands	7 00@ 9 00	5 00@ 8 50
Wheat	New Spring, No. 2, per bush	1 56@ 1 58	1 10@ 1 14
	New Amber Winter	1 67@ 1 70	1 25@ 1 28
Corn	New Western Mixed	82@ 84	98@ 1 05
	New Western Yellow	84@ 85	1 02@ 1 05
Rye	New	1 12@ 1 20	93@ 1 00
Oats	Western, New	67@ 69	55@ 58
	Ohio and State	68@ 71	58@ 62
Barley	State	95@ 1 05	80@ 95
	Canadian	1 10@ 1 22	1 00@ 1 10

These figures show an advance in Flour and Wheat of more than forty per cent, and some improvement in all the coarse grains except Corn, the position of which is changed from scarcity to a full supply. At the same time the average price of English Wheat has risen from 40s. 6d. to 53s. 11d., an advance of about thirty-five per cent. This large advance has been so gradually made, and attended with such frequent and sharp fluctuations, that it will doubtless occasion surprise to many who have given the matter close attention. Is it likely to be maintained? is a question which, in view of the approach of the resumption of inland navigation, is exciting no little attention.

It is to be regretted that the statistics of the movement of our Breadstuffs are not more completely and accurately kept. Those of New York and Boston, and of the lake ports, are; but those of such important markets as Baltimore and Philadelphia are not considered of sufficient importance by the commercial journals of those cities to require more than a partial record. We have endeavored to supply previous deficiencies in the annexed table of receipts, but have not been able to extend it further back than to January 1st:

RECEIPTS OF FLOUR AND GRAIN AT THE PRINCIPAL RECEIVING MARKETS FOR THE WEEK ENDING MARCH 25TH:

At	Flour. bbls.	Wheat. bush.	Corn. bush.	Oats. bush.	Barley. bush.	Rye. bush.

Cleveland	5,000	17,850	10,150	9,750	1,600	....
Toronto	1,000	830	....	870	6,358	....
Total for week	71,975	247,606	376,690	198,166	34,330	9,084
Previous week	76 634	247,774	296,195	168,223	30,912	9,859
Cor. week in 1870	98,843	206,953	222,449	77,770	49,588	10,225
Since January 1	878,144	4,601,878	5,554,229	1,985,503	622,458	214,878
Same time 1870	1,159,051	4,791,888	3,517,517	1,882,242	441,181	170,439

As for our exports, statistics are even more incomplete. They seem to indicate an increased export from the Atlantic seaports to the extent of nearly two hundred thousand barrels—say about 800,000 bbls. this year against 600,000 bbls. last year; an increase which, taken in connection with a falling off in the receipts of nearly three hundred thousand barrels, as indicated above, is a very formidable one. In fact, it would appear that the receipts have exceeded the exports in twelve weeks only about 78,000 bbls., so that the country has been subsisting through the winter almost entirely upon the stocks in store and the production of local millers. But the favorable aspect of this statement has many qualifications. Stocks of Flour were everywhere large on the first of January, and that millers have been busy is demonstrated by the fact that the visible supply of Wheat has fallen off more than two millions of bushels, in the face of receipts nearly as large this year as last, with no increase in the export. Two million bushels of Wheat will make four hundred thousand barrels of Flour, and with stocks two hundred thousand barrels greater on the seaboard in January, 1871, than in January, 1870, it must be evident that no scarcity of Flour can exist. Besides the higher prices of Flour and the relative cheapness of Corn Meal, tend to reduce the consumption of Flour in our own and other markets.

As regards Wheat, it may be fairly estimated that the visible supply at this time is about 8,700,000 bushels against about 10,200,000 bushels one year ago. But the wheat trade for April, 1871, opens under far different auspices than that of April, 1870. Then the Continent came into our market with peremptory orders, and although the demand was no doubt stimulated by the low prices current, a moderate advance in prices did not check the movement; now, there is little demand, except from Great Britain and on orders within strict limits. Then freights were low; the English steamers took out hundreds of thousands of bushels of Wheat at 3@3½d. per bushel; it was only a combination among them that raised the rate to 4d.; now, with Corn competing for room, the rates are nearly doubled. Receipts are at present as large as then. The time has arrived when the receipts usually increase, and when a large outward movement, to prevent an increase of (if not to reduce) stocks in store becomes inevitable. Stocks in the leading British markets have become considerably reduced by the call upon them from the Continent, but it must be remembered that this call has now nearly ceased, and that even the present reduced stocks about equal the average of former years. With respect to the probability of a revival of this Continental demand, indications are very uncertain. There was, of course, great waste and destruction during the progress of the Franco-German war, and undoubtedly the sowing of fall grain was much interfered with. Besides, the crops of 1869 were in many parts deficient, so that no great surplus was carried over. There is still a small demand from Spain. On the

Digitized by Google

whole, then, the situation in France, Germany and Belgium would seem to indicate that a call upon Great Britain and the United States, to meet a deficiency, will be necessary, but of course so long as the present disorganisation in France continues shipments to that quarter must be held in check. And may it not prove that the means of buying have been largely swept away by the same causes which seem to have made buying necessary? The revolutionary proceedings in Paris have greatly impaired the credit of France and her people; industrial pursuits have been crippled by the war, and all legitimate sources of income diminished. Vast quantities of food have already been shipped to French markets, and when these shall be exhausted spring will be well advanced. Hence there can be no certain reliance placed upon the renewal of any considerable demand from the Continent; and, under these circumstances, unless there is strong evidence of a short crop this season in Great Britain, the West may be considered fortunate if its surplus for the remainder of the crop year can be disposed of without incurring any considerable reduction in values.

In the coarser grains, the situation may be regarded as more favorable to holders. The partial failure of the last hay crop has led to an increased demand for grain for feeding purposes. Corn, though in large supply, moves off very freely, both for export and consumption. It is relatively much cheaper than any other cereal. Not only does Great Britain want a large and steady supply, but the Eastern and Middle States have a great deficiency to be made good. Oats and Barley, though showing a full yield and liberal stocks, appear to be much wanted, and the comparatively high prices which Oats are bringing, seem to be no impediment to their sale, while the use of Barley for malting exceeds all previous experience.

RAILROADS OF THE STATE OF NEW YORK.

Below will be found a statement of the stocks, bonds and debts, cost, earnings, dividends, &c., for the year ending September 30 1870, of the Railroads, in whole or in part, in New York State, compiled from the Annual Reports of the Companies to the State Engineer and Surveyor.

—A new code for telegraphing, which is said to be very complete and to have met with much success in England, is now being introduced in this country by Francis B. Felt & Co., Publishers, No. 445 Broome street. This code is the invention of Major Frank Bolton, late instructor of army signalling at the school of engineering in England, and is very elaborate and claimed to be quite simple and easily understood, and so perfectly arranged as to save from 50 to 400 per cent of the regular cost of telegraphing by ordinary messages. Messrs. C. F. Varley, Cyrus W. Field and William Thompson state in regard to this code, that they have witnessed several trials of Bolton's system of coding messages, transmitted through the Atlantic cable, first by the Morse Alphabet in full, and then codified. The messages have been correctly transmitted, and the time occupied in doing so through the cable has shown a saving in favor of Bolton's Code, for messages of ordinary character, varying from 50 to 400 per cent according to the nature of the message.

CHANGES IN THE REDEEMING AGENTS OF NATIONAL BANKS.

The following are the changes in the Redeeming Agents of National Banks since the 23d of March, 1871. These weekly changes are furnished by, and published in accordance with an arrangement made with the Comptroller of the Currency.

LOCATION.	NAME OF BANK.	REDEEMING AGENT.
Illinois—Vandalia	The Farmers' and Mechanics' Nat'l Bank	Ocean National Bank of New York and Manufacturers' National Bank of Chicago, approved.
Illinois—Aurora	The Union National Bank	The Second National Bank of Chicago, approved.
Illinois—Lanark	The First National Bank	The Ninth National Bank of New York and the Mechanics' National Bank of Chicago.
Minnesota—St. Peter	The First National Bank	The National Bank of Commerce of Chicago, approved.
Minnesota—Winona.	The Winona Deposit Nat'l Bank.	The First National Bank of New York and Manufacturers' National Bank of Chicago, approved.
Connecticut—New London	The National Bank of Commerce	The National Revere Bank of Boston, approved in place of the Suffolk National Bank of Boston.
Illinois—Seneca	The First National Bank	The Manufacturers' National Bank of Chicago, approved.
Illinois—Chicago	The Fourth Nat'l Bank	The Third National Bank of New York, approved in place of the National Park Bank of New York.
Illinois—Monmouth	The Monmouth National Bank	The City National Bank of Chicago, approved in addition to the Third National Bank of New York.
Kentucky—Franklin	The First National Bank	The Third National Bank of New York.
Virginia—Petersburg	The Commercial National Bank.	The Third National Bank of New York.

New National Banks.

The following is the only national bank organized during the week:

1,805—The Farmers' National Bank of Keithsburg, Ill. Authorized capital, $50,000; paid in capital, $50,000. Wm. Drury, President; C. S. Orth, Cashier. Authorized to commence business March 24, 1871.

[From our own correspondent.]

LONDON, Saturday, March 18.

After a protracted discussion the old army bill introduced by the Government has been read a second time. An amendment had been proposed, but at a late hour last night the leader of the opposition suggested that it should be withdrawn. Mr. Gladstone, however, insisted that it should be negatived without a division; and although Col. Loyd Lindsay offered to withdraw it the Premier carried his point. The discussion, protracted as it has already been, has up to the present time been confined chiefly to the advantages and disadvantages of purchase. The advocates of the system contend that as the British army has done great things with purchase, matters should remain as they are. The opponents of the system, while admitting that in the past the British officer has fought bravely, argue that he will be more efficient and equally brave with its abolition. So great has become the necessity of rendering these islands secure and proof against surprise, that it has been found imperative to remodel our whole military system, and in undertaking this, the Ministers of the Crown have found out that the system of purchase which prevails in nearly every regiment of the British army blocks the way to reform. The sanction of Parliament has therefore been found necessary to remove what the Ministers, and it must be added the majority of the country, consider to be an abuse. The British army, indeed, can scarcely be called, at the present moment, the army of the nation, although paid for by it. It is more the army of the officers who retire and change about almost as they please, and traffic in commissions with a desire for gain. If purchase is abolished, as it most certainly will be, (for if the Ministers are defeated in Parliament, they will make an appeal to the country, and will, in all probability, return with a large majority), the British army will be open to all young men who desire to make war a study, and to make themselves as proficient as a time of peace will allow in all the details of a campaign. There may be fewer of the monied class in it, but it is not money that is wanted, but brains and industry, for the wars of modern times are carried on by scientific rules, and not alone by bravery. The weapons of destruction now in use have altered materially the tactics of warfare, and it is with a desire of modernizing our system, and of keeping pace with the times, that the Ministers are urging upon the Crown the abolition of purchase. There can, indeed, be little doubt of the fact that the present Parliament will authorize the change. The leader of the opposition in the House of Commons, if leader he may now be called, has not opposed the proposed change, and only objects to the bill on the ground that it does not make enough soldiers. That, however, is a portion of the bill which can be amended in committee, and the number of our soldiers can be easily augmented if Parliament desires it. The object of the Government is to render our army both efficient and economical, and augment year by year the number of men trained to bear arms. One would think that after the slaughter of last year, we should remain at peace for the next few years, and if there should be any elements of success in the new bill, a marked change in our military position would by that time have been effected. The whole of our armaments are now being very largely increased and perfected, and our dock-yards and arsenals have not shown so much activity since the Crimean war. The tax-payer will be anxious to know how much all this will cost, and what will be his share of the burden. We shall know what the next income tax will be in the course of a few days.

The trade of the country is quiet, there being but little speculation in any department. Taken altogether, however, a firmer tone is apparent, and as the winter has almost, if not quite, passed away, an active trade in spring goods will soon be carried on. There have been large arrivals of cotton at Liverpool this week, but the market has improved and prices are higher. The export demand has considerably improved of late, and this year the shipments from Liverpool have been 153,848 bales, being double the quantity sent away in the corresponding period last year. Large quantities of cotton were sent here from Havre whilst the war was in progress, and as the mills in France are now being re-opened as quickly as circumstances will admit, a decided increase in the export movement must naturally be expected to take place. A telegram received from Havre, this week, mentions that a small supply—1,337 bales—of cotton was afloat from the United States to that port. This is a feature which one is glad to see, and it is to be hoped that it will be backed up by larger quantities, and be the means of giving employment to a large proportion of the French people. The following relates to the trade of Manchester:

Within the last two days this market has assumed a firmer tone, and buyers have found the tendency of prices going against them. Several circumstances have contributed to bring about this result. In the first place, confidence was pretty general that prices last week were upon the whole moderate, which caused producers to adhere rather firmly to their quotations, even in the absence of business. Then the large arrivals of cotton were counteracted in a great measure by spinners being tempted to buy cotton freely, owing to the choice afforded them by the large stock offered for sale; and again, so far as information has reached us this week, the receipts of cotton at the American ports have shown at last a decided falling off, which has given more confidence to holders. These causes, in conjunction with the satisfaction felt at no increase being made in the bank rate of interest, have combined to give a better tone to the market. The downward tendency of last week and the disposition which then prevailed to anticipate lower prices have been arrested, and in some departments of the market even an advance on last week's rates has been obtainable. This, however, is about all that can be said in favor of any improvement which has taken place, and the tone of the market to-day has certainly not been any better than it was yesterday. Buyers see no argument in the future to warrant them in paying any decided advance on the present scale of prices. Almost all foreign markets are well supplied with goods, and an advance in prices would place a serious obstacle in the way of getting rid

Digitized by Google

of shipments already sent out, and would probably involve merchants in heavy losses. Even as things are, it is very problematical whether recent shipments may not fail to realise profitable returns. In the afternoon the tone of the market became quieter. A fair business has been done yesterday and to day, but it can scarcely be said that an advance has been really established. Compared with late years, spinners are now doing well, but in many departments the profits which they are making are much exaggerated. During the present week good qualities of 40's mule in the bundle have been sold as low as 12¾d. per lb., 40's pin cops at 11¾d. per lb., 50's pin cops at 12¾d. per lb., and 24's water twist at 1s. per lb. These may not be general market prices quoted, but sales of good yarn at such rates, and for fair quantities, have actually occurred during the week.

Annexed is a return showing the imports and exports of cotton into and from the United Kingdom, from September 1 to March 15, compared with the corresponding period last year:

	1870-1. Imports.	1870-1. Exports.	1869-70. Imports.	1869-70. Exports.
American.....bales	1,986,819	167,835	664,871	57,834
Brazilian	231,650	27,392	263,655	35,096
East Indian	62,124	300,304	792,493	316,941
Egyptian	177,400	5,833	132,697	2,443

Flour	98,334	2,219,250	396	20,446

It is stated that more than 600 workshops will be reopened in Paris on Monday.

The money market has been quieter, and the rates of discount are somewhat easier. The Russian loan has been subscribed, and the lists have been closed. It is reported that the applications made here from all, including foreign sources, have not exceeded £9,000,000. This is a remarkable contrast to the loan which was brought out at the commencement of last year. When Messrs. Rothschild, owing to the immense number of applications, were compelled to close the subscription list before the time mentioned in the prospectus. The commercial demand for money is very moderate, but an improvement in this respect may soon be anticipated. The following are the quotations:

	1870. Per cent.	1871. Per cent.		1870. Per cent.	1871. Per cent.
Bank minimum	3 @...	3 @ ..	4 months' ba'k bills	3 @3¼	3 @3¼
Open-market rates:			6 months' ba'k bills	3 @3¼	3¼@3⅝
30 and 60 days' bills	2¾@3	2¾@2⅞	4 and 6 trade bills..	4 @4¼	4 @4¼
3 months bills	3 @3¼	2¾@3			

The rates of interest allowed on the joint stock banks and discount houses for deposits are as under:

	1870.	1871.
Joint stock banks	2	2
Discount houses at call	2	2
Discount houses with 7 days' notice	2¼	2¼
Discount houses with 14 days' notice	2¼	2¼

Annexed is a return showing the present position of the Bank of England, the bank rate of discount, the price of consols, the average quotation for English wheat, the price of middling upland cotton, and of No. 40 mule yarn, fair second quality, compared with the four previous years:

	1867. £	1868. £	1869. £	1870. £	1871. £
Circulation, including bank post bills	22,316,409	23,493,470	23,185,982	22,864,190	23,664,553

* Price March 9.

The quotations for money at the leading Continental cities are as follows:

	B'k rate 1870.	B'k rate 1871.	Op. m'kt 1870.	Op. m'kt 1871.
At Paris	2½	6	2	—
Vienna	5	6	5	5
Berlin	4	4	3½	3½
Frankfort	4	3	2¾	2½
Amst'd'm	4	3½	3¾	3
Turin	5	6	5	6
Brussels	2½	4	2¾	3¼
Madrid	5	5	5	5
Hamburg	—	—	2½	3½
St. Petersburg	5	8	4¼	7

Bills on Paris have been in flat demand, and the short exchange has been as low as 25f. 15c. There has also been an active inquiry for bills on Brussels. The bullion market presents no important features. The export demand for gold is sufficiently active to absorb all arrivals, and as regards silver, Mexican dollars of the old coinage sell freely for China. The following prices of bullion are from the circular of Messrs. Pixley & Co.:

GOLD

	s.	d.	s.	d.
Bar Gold.....per oz. standard.	77	9	@77	9½
do fine	77	9	@—	—
do Refinable	77	11	@78	—
Spanish Doubloons.....per oz.	—	—	@—	—
South American Doubloons	73	8	@74	—
United States gold coin	76	3	@76	3½

SILVER.

	s.	d.	s.	d.
Bar Silver, Fine.....per oz. standard last price	5	0¾	@—	—
do do containing 5 grs. gold per oz. standard	5	0¾	@ 5	0½
Fine Cake Silver.....per oz.	no price.		@—	—
Mexican Dollars.....per cs last price.	4	10¾	@ 4	10¾

There has been more firmness in the Stock Exchange during the week, and foreign Government stocks have shown more buoyancy than for some time past. Canadian railway securities—chiefly Grand Trunk—have been largely dealt in, and during the first three days of the week a further important rise took place. Latterly, however, owing to realizations, prices have receded to a slight extent. United States Five-Twenty bonds were dull in the early part of the week, but have since improved. In Atlantic and Great Western Railway securities, there has been considerable animation, owing to the receipt of a telegram from New York that a foreclosure and sale of the line had been obtained in the New York State Courts. Erie Railway shares have continued dull. The following were the highest and lowest prices of consols and the principal American securities on each day of the week:

	Monday.	Tuesday.	Wed'sday.	Thu'sday	Friday.	Sat'day.
Consols	91¾-91¾	91¾-91¾	91¾-91¾	91¾-92	92¾-92¾	92 -92¼
U. S. 5-20's, 1863	91¾-91¾	92¾-93	91¾-93	93 -93¼	91¾ 9 ¾	92¼-....
U. S. 5-20s, 1864	90 -92	9 -92	90 -92	90 -92	90 -92	90 -92
U. S. 5-20s, 1865	91¾-....	91¼-9 ¾	91¾-....	91¾-91¾	91¾-91¾	91¾-92
U. S. 5-20s, 1867	90¾-90¾	90¼-90¾	90¼-90¾	90¼-90¾	90¾-....	90¾-90¾
U. S. 10-40s, 1904	88¾-89	88¾-88¾	88¾-89¾	88¾-88¾	88¾-89¼	88¾-89¼
Atlantic & G't West. consol'd mort. b'ds	29¾-30¼	30 -31	31 -32	28 -34¾	25 -26	24 -25
Erie Shares ($100)	18 -18¾	17¾-18¾	17¾ 18¾	1 ¾-18¾	18 -1 ¾	18¾-....
Illinois shares ($100)	109 -110	110 -110¼	11 -110¾	110¾ ...	111 -111	110¾-111

Atlantic and Great Western Railway debentures have advanced to 40@41.

The funded loan of the United States is attracting very little attention in the market. One effect is that the upward movement in Five-Twenty bonds has been checked, owing to the circumstance that certain issues can now be paid off at par. The price of the bonds cannot be expected therefore to advance beyond that point, excepting when several months of interest are due upon them. As soon as the Government obtains large subscriptions in the United States, the scheme is likely to be followed up more readily here. It is probable, however, that France will offer about 6 per cent for a loan in this country, and should such prove to be the case the question of the United States loan must remain in abeyance for some months.

English Market Reports—Per Cable.

The daily closing quotations in the markets of London and Liverpool for the past week have been reported by submarine telegraph, as shown in the following summary:

London Money and Stock Market.—All classes of American securities have improved during the week, and closed steady at the advanced prices. In Atlantic and Great Western the rise has been very noticeable, quotations being 7½c. higher than one week ago.

	Sat.	Mon.	Tues.	Wed.	Thur.	Fri.
Consols for money	92¼	92¾	92¼	92¾	93	93
" account	9 ¾	93¾	92¼	93	93¼	93

COMMERCIAL AND MISCELLANEOUS NEWS.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show a decrease in dry goods, and a considerable increase in general merchandise. The total imports amount to 7,580,607 this week, against $7,383,892 last week, and $8,209,446 the previous week. The exports are $4,441,092 this week, against $5,123,187 last week, and $6,264,325 the previous week. The exports of cotton the past week were 19,817 bales, against 25,931 bales last week. The following are the imports at New York for week ending (for dry goods) March 24, and for the week ending (for general merchandise) March 25.

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

Mobile Finances.—A correspondent in Mobile sends the following statement of the financial affairs of the city:

"These bonds (Mobile bonds) save the recent issues of $300,000 to the Grand Trunk Railroad and $360,000 for wharf purchase (the latter of which is not recognized as regular) mature in equal proportion each year until the date of their maturity. The old city debt, now outstanding, is $1,252,900—$260,000 5 per cents and $992,900 8 per cents.

Please bear in mind that for the past three years our government has been in the hands, to a great extent, of strangers and others having very little real interest in the city or its credit—placed in power by no agency of our citizens, there has been a want of confidence, if not mismanagement and irregularities until, on retiring to give place to a board elected by the people on the 1st of January past, they left an empty treasury and a debt of some $200,000. The result was a temporary default on the January coupons—not from necessity, as means were tendered—but for time to take a view of the situation. This interest has since been met, and the Legislature has recently granted authority for the issue by the city of $400,000 8 per cent. bonds, a portion only of which will be disposed of this year to provide for this debt and the payment of maturing bonds.

As will be seen by this statement the city has good assets to the amount of $1,752,715 84—about one-half of which will realize an income equal to the interest on same amount of bonds.

The estimated amount required for city expenses and interest this year is $312,000. Tax from real estate, $20,300,000, at 1¼ per cent., $253,500. Receipts from other sources about $150,000; say $403,500. This is our Treasurer's estimate.

With this showing, and the management of affairs in the hands of her citizens, Mobile City bonds ought to stand higher than 80 or 85 in your market.

Chesapeake & Ohio Railroad.—From a pamphlet recently issued by the Chesapeake & Ohio Railroad Company, we gather that they have secured the line of shortest portage between tide-water and western inland steamboat navigation, and also the shortest route from our most important western cities to coast-wise vessels. This will be seen by the following comparison of distances by the old and new routes:

Miles from port of	To Cincinnati.	To Louisville.	To St. Louis.	To Memphis.	To Nashville.	To Columbus, O.	To Indianapolis.	To Chicago.
Richmond, via Ches. & Ohio..	562	645	902	992	800	561	677	*575
Baltimore, via Balt. & Ohio...	591	699	931	1,076	884	517	705	828
Philadelphia, via Penn. R.R...	668	775	992	1 152	960	548	736	823
New York, via Erie Railway..	861	997	1,201	1,354	1,188	755	935	983
New York, via N. Y. Central..	883	940	1,144	1,354	1,176	761	850	980
Boston, via N. Y. Central	941	998	1,202	1,496	1,284	899	988	1,038

* By a contemplated line from the Ohio River to Dayton, this distance will be reduced to 882 miles.

The advantage in grades, however, is more conspicuous even than that of miles. This line from the Cheasapeake to Cincinnati

Digitized by Google

can be, and ultimately will be, constructed as a freight road having light grades going east (the direction of heavy freights), averaging ten feet, and not exceeding thirty feet to the mile; and the same average and maximum going west, with a single exception, at one point, of sixty feet per mile. These grades will be recognized as something superior for roads traversing a prairie country, and for a line crossing a mountain range at an elevation of two thousand feet are marvellous.

Ohio and Mississippi.—This Company is preparing to change its gauge from six feet to four feet nine inches. Changes in the rolling stock are now being made, and forty new locomotives are contracted for to be delivered in July. By the end of that month it is intended to to have the guage changed. It will then form the western section in a short line from Baltimore to St. Louis.

Richmond and Petersburg.—The Virginia Legislature has passed a bill for the sale of the State's interest in this road ($500,000) to H. H. Ellison and others. This, it is understood, gives the control of the line to the Pennsylvania Railroad Company.

Lease of Lehigh Coal and Navigation Company.—PHILADELPHIA, March 28.—At a meeting of the stockholders of the Lehigh Coal and Navigation Company to-day the lease of the Lehigh and Susquehanna road to the New Jersey Central was approved by a stock vote unanimously.

—The Port Huron and Lake Michigan Railroad Company, of Michigan, extends from the termini of the Great Western and Grand Trunk Railway at Port Huron to the city of Owosso, crossing the Flint and Pere Marquette Railway at Flint, and connecting with the Detroit and Milwaukee Railroad and the Jackson, Lansing and Saginaw Railroad, creating the most direct line from the East to Grand Huron, Milwaukee and St. Paul, and opening a new and short route to Chicago. It commands the rich lumber, stone, coal and grain traffic of Northern Michigan; contracts have been executed by which all the advantages of an unbroken through line are secured to this Company. The Great Western Railway of Canada and the Detroit and Milwaukee Railroad have contracted to invest forty per cent of the gross earnings accruing from all traffic interchanged with it, in their first mortgage bonds, thus creating a sinking fund equal to their absorption in less than ten years. A portion of the bonds remaining unsold are offered for the present at 90 and accrued interest by Drake Bros., 16 Broad street.

—We call attention to the advertisement of the Elizabethtown and Paducah Railroad eight per cent bonds which are offered by Norton, Slaughter & Co., W. Alexander, Smith & Co., and Hallgarten & Co., who recommend them highly as a safe and desirable investment. This Company has a bona fide capital of $3,095,000; the officers and directors are reliable business men of Kentucky. The road traverses a fine agricultural country. There is an abundant supply of bituminous coal and iron ores along the route; 63 miles are completed and the Company have purchased iron which is now being delivered to complete their road to the 113th mile. The entire road will be nearly completed during the present year.

BANKING AND FINANCIAL.

BANKING HOUSE OF HENRY CLEWS & Co., 32 WALL ST., N. Y.

Our business is the same as an incorporated bank.

Deposit accounts can be opened with us in either Currency or Coin, subject to check without notice. Five per cent. interest will be allowed on all daily balances. Checks upon us pass through the clearing house as if drawn upon any city bank.

We issue Circular Letters of Credit for travelers, available in all parts of the world; also Commercial Credits. We make telegraphic transfers of money to any desired point, and transact every description of foreign banking business.

We draw Bills of Exchange in sums from £1 upward on.

The Imperial Bank, and Messrs. Clews, Habicht & Co., London.

The Provincial Bank of Ireland, The National Bank of Scotland, and all their branches.

We issue Certificates of Deposit payable on demand or at fixed date, bearing interest, and available at all money centres.

Orders executed for Government and other investment securities; also Gold and Exchange.

Advances made on approved collaterals and against Merchandise consigned to our care.

We make collections of Notes, Drafts, Coupons and Dividends with promptness on all points, and are fully prepared to offer banking facilities upon either currency or gold basis.

NORTON, SLAUGHTER & CO.,
WM. ALEXANDER SMITH & CO.,
HALLGARTEN & CO.,

Recommend, after a thorough investigation into the affairs of the Company, as a very safe and desirable investment, the Eight Per Cent First Mortgage Bonds of the Elizabethtown and Paducah Railroad Company of Kentucky. We are only authorized to offer a limited amount of these securities at 87½ and accrued interest The bonds offered are on the completed portion of the road, which is in successful operation.

HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH, BANKERS, and Dealers in Government Securities, No. 5 NASSAU STREET, NEW YORK, March 30, 1871.

THE SUCCESS OF THE NEW FUNDING LOAN thus far, in the face of many obstacles and disadvantages, warrants the assurance that the Five-Twenty bonds will from this time forward be rapidly funded at a lower rate of interest, and that the time has gone by when United States bonds can be expected to yield more than about four per cent per annum on their market value.

In twenty days, subscriptions for over $40,000,000 of the NEW FIVE PER CENT LOAN have been received at the Treasury Department, payable *in Gold or Five-Twenty bonds at par*—equal to about 10 per cent premium in Currency.

Holders of Five-Twenty Bonds must shortly decide between an even exchange for Government bonds bearing 5, 4½ or 4 per cent interest, and some other form of investment in which the present premium on their Five-Twenties may be saved and their rate of interest remain unimpaired.

Safe and reliable six per cent securities, in which investors can feel confidence, which can now be obtained in exchange for Five-Twenties at a considerable difference, or bought for new investments much below the Government FIVE PER CENTS, must be largely sought after and materially advance in market value, as the certainty that the Five-Twenties cannot be relied upon to run much longer at 6 per cent becomes apparent.

THE CENTRAL PACIFIC GOLD BONDS are especially desirable, for the following reasons, viz.:

1. They are secured by a first lien on one of the most productive and profitable railroads in the country, worth several times the amount of the mortgage.

2. They have the further security of the pledge of the credit and good faith of one of the richest and most successful corporations in the country, distinguished for its able and honorable management and high credit, and having a full paid capital stock of about $60,000,000, with authority to increase its capital to $100,000,000.

3. They have a fixed time to run—now about 25 years.

4. They are well known and of established credit in all the principal money markets of the world, and are regularly noted and dealt in at the Stock Exchanges of New York, Amsterdam, Frankfort, Berlin and London, and are as readily salable in large or small amounts, at any time, at quoted market rates, as are Government bonds.

The earnings of the Central Pacific Railroad Company in 1870 were nearly $8,000,000, and the increase for January and February of this year indicates that the earnings for 1871 will not be less than from $10,000,000 to $12,000,000, with a net profit of not less that $5,000,000, while the interest liabilities of the Company are less than $2,000,000 per annum.

We deal in these bonds, and buy and sell them at current market rates, and believe them to be as absolutely safe as any investment can be.

They can now be had in exchange for Five-Twenties at a profit of about 15 per cent. This profit may be realized and 6 per cent gold interest continued with entire safety.

FISK & HATCH.

UNION PACIFIC LAND-GRANT BONDS.

OFFICE OF MORTON, BLISS & Co., BANKERS, NEW YORK, March 20, 1871.

The undersigned offer for sale the balance of the Land-Grant Bonds of the Union Pacific Railroad Company. The road has been in operation about twenty months. It is completed in all respects, and its earnings have averaged $8,000,000 per annum. These bonds bear 7 per cent interest, coupons payable April and October.

They are receivable at par in payment for the Company's lands.

The following summary of the financial condition of the Company is from the address of Colonel Thomas A. Scott to the stockholders, upon his accepting the presidency, at the annual meeting in Boston, March 8:

"Land Department.—Bonds, 7 per cent currency, $10,400,000.

"Land Sales.—292,900 acres; proceeds, $1,306,566; average price per acre, $4 46.

On account of these sales the company has received and redeemed land-grant bonds to the extent of	$736,000
For the remainder the Company holds land-notes maturing in one, two and three years with accruing interest	576,650
Total	$1,312,650

"The condition of the land department may, therefore, be stated thus:

Bonds	$10,400,000
Principal reduced by bonds redeemed	$736,000
Land Notes on hand	576,650
Showing an absolute reduction	$1,312,650
The Company is entitled, under the grants from Government, after deducting total lands preempted before passage of the act to	12,080,000 acres.
From which deduct the amount heretofore sold	292,883 acres.
Leaving on hand as an asset	11,787,117 acres.

Digitized by Google

—which at an average value of two dollars per acre, being twenty per cent below the minimum Government price for adjoining lands owned by it, should yield the gross sum of $28,574,234, so much thereof as may be required to be applied to the payment on redemption of the land-grant bonds, and the balance to go into the Treasury. The average land sales amount to about $75,000 per month.

From present indications it would seem reasonable to estimate the gross receipts of the coming year at a minimum of..... $9,000,000
With a cost of maintaining and operating the line on this increased earning of not exceeding say..... 4,500,000
Leaving as net receipts to be applied to interest and dividend, exclusive of the operations of the land department..... 4,500,000

"The operations of the line for the first twenty months of its existence as a completed road show net earnings sufficient to meet the interest upon its entire bonded debt.

"This result cannot but be deemed, by all practically versed in the history of new railway lines, as indicating a successful future. The yearly increase of traffic, costing but little additional to transport, and therefore yielding a large percentage of net revenue, must soon give a value to your property not easily appreciated at present.

MORTON, BLISS & Co., No. 30 Broad street.

NEW LOAN OF THE UNITED STATES.

PROGRESS OF SUBSCRIPTIONS—PRIVILEGE STILL OPEN FOR $200,000,000 FIVE PER CENTS.

The department has advised by telegraph that ten subscriptions to the loan to Thursday last, March 30, amount to $7,700,000. The Secretary has also authorized the notice that the unconditional privilege of subscribing to ten first-class of bonds, five per cents, to the extent of $200,000,000 remains open until further advice.

The proposed loan comprises three classes of bonds, namely:

First. Bonds to the amount of five hundred millions of dollars, payable in coin, at the pleasure of the United States, after ten years from the date of their issue, and bearing interest payable quarterly in coin, at the rate of five per cent. per annum.

Second. Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after fifteen years from the date of their issue and bearing interest, payable quarterly in coin, at the rate of four and a half per cent. per annum.

Third. Bonds to the amount of seven hundred millions of dollars, payable in coin, at the pleasure of the United States, after thirty years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four per cent. per annum.

Subscriptions to the loan will have preference in the following order, namely:

First. Subscriptions that may be first made for five per cent. bonds to the amount of two hundred millions of dollars; of which there will be reserved, for twenty days one half for subscribers in this country and one half for subscribers in foreign countries.

Second. Subscriptions for equal amounts of each class of bonds.

Third. Subscriptions for equal amounts of bonds bearing interest at the rate of four and a half per cent., and of bonds bearing interest at the rate of five per cent.

Fourth. Subscriptions for any five per cent. bonds that may not be subscribed for in the preceding classes.

When a subscription is made, the subscriber will be required to deposit two per cent. of the amount thereof in coin or currency of the United States, or in bonds of the class to be exchanged, to be accounted for by the Government when the newbonds are delivered; and payment may be made either in coin or in bonds of the United States known as Five-Twenty bonds, at their par value.

The coin received in payment will be applied to the redemption of Five-Twenty bonds, and the debt of the United States will not be increased by this loan.

The bonds will be registered or issued with coupons, as may be desired by subscribers. Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000; and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depositary of the Government, quarterly, on the first days of February, May, August and November, in each year.

The bonds of the several classes aforesaid, and the interest thereon, are exempt from the payment of all taxes or dues of the United States, as well as from taxation in any form by or under State, municipal or local authority.

After maturity, the bonds last issued will be first redeemed, by classes and numbers, as may be designated by the Secretary of the Treasury.

The bonds will be issued at the United States Treasury, but the agents for the negotiation of the loan in Europe are authorized to make arrangements with subscribers for the transmission of the bonds to the agents through whom subscriptions may be received.

Subscribers in the United States will receive the new bonds of the agents with whom the subscriptions are made.

In the United States the National Banks are authorized to receive subscriptions, and subscriptions may also be made at the office of the Treasurer of the United States, or of any Assistant Treasurer, or the designated depositaries at Buffalo, N. Y.; Chicago, Ill.; Cincinnati, Ohio; Louisville, Ky.; Mobile, Ala., and Pittsburg, Penn.

The Bankers' Gazette.

FRIDAY EVENING, March 31, 1871.

Money Market.—Money has been decidedly easy during the whole week with the bulk of transactions on call loans at 4@5 per cent, while during the past few days large balances have frequently been offered to the heavy government houses at 3 per cent. This remarkable ease in the market has also continued in the face of several influences which would naturally lead to firmer rates, among which we may mention the unfavorable bank statement of Saturday, March 25, a decided activity in the stock market usually giving rise to more demand for money from brokers, a moderate outflow of currency to the interior to meet the first of April settlements, and lastly, the rumors which have prevailed, apparently with good foundation, that an attempt would soon be made to "lock up" money for the purpose of depressing stocks.

A very confident feeling prevails that the general course of the market during the next few months, will be one of ease, although it might be possible for parties who are operating for a decline in stocks, to lock up several millions of legal tenders and thus create a seven per cent loan market for a few days. The knowledge that the Secretary of the Treasury is unquestionably interested in having easy money during the negotiation of the new Government Loan, has been for some time the most important influence bearing upon the market, and induces the belief that no severe stringency can be produced by speculative manipulation. In fact, the adverse influences seem to be so great that it was reported this afternoon that the combination had determined to abandon their purpose of locking up money. The Banks having now made their returns to the Comptroller of the currency, and not expecting another call soon, will use their funds much more freely than before the returns were made. The following shows the quarterly statement of the National Banks of the city of New York:

	Liabilities. Dec. 28, '70.	Liabilities. March 18, '71.	Comparisons.
Capital	$75,235,000	$73,285,000	....

Over Drafts	111,400	140,300	28,900 Inc.
Totals	$314,747,700	$344,298,200	

The following is a detailed statement from Washington, of the United States currency of all classes outstanding at this date:

United States notes, old issue	$96,621
United States notes, new issue	202,166,387
United States notes, issue of 1869	153,833,668
One-year five per cent notes	184,667
Two-year five per cent notes	46,452
Two-year five per cent coupon notes	33,700
Compound interest notes	1,889,420
Fractional currency, first issue	4,446,060
Fractional currency, second issue	8,246,060
Fractional currency, third issue	6,359,013
Fractional currency, fourth issue	26,360,811
Total	$398,529,277

The last returns of the associated banks of this city for the week ending March 25, were not favorable, showing a decrease of $3,046,738 in specie, $430,237 in legal tenders, $21,817 in circulation, $5,171,341 in deposits and $1,462,084 in loans; the result of which was to leave the excess over legal reserve $10,470,990, a decrease of $2,178,686 from the previous week.

The following statement shows the present condition of the associated banks, compared with the same date in the last two years:

	Mar. 25, 1871.	Mar. 26, 1870.	Mar. 27, 1869.
Loans and discounts	$391,114,820	$270,807,768	$263,909,539
Specie	19,617,007	32,271,232	12,073,722
Circulation	31,568,368	35,674,394	34,717,814
Net deposits	225,774,302	206,910,718	180,113,910
Legal Tenders	55,198,408	52,685,063	50,555,108

On time loans the rates have hardly changed from those previously quoted, contracts having been made at 5 per cent for 60 to 90 days and 6 per cent for 3 to 4 months on approved collateral.

For commercial paper the demand continues good with a comparatively small amount offering.

		per cent

Bankers', first class foreign	60 days.	6 @ 6½
" " domestic	3 to 4 months.	6½@ 8

United States Bonds.—Government bonds were dull and lower in the early part of the week, but have since been decidedly strong on an improved business. The decline in gold and the slow progress of the new loan were the principal causes of the weakness referred to, and although gold has not since been materially higher, the greatly improved prospects of the 5 per cent loan have inspired much confidence in all classes of Government bonds, followed by an important advance in prices, both at home and abroad. The chief cause of the remarkable change for the better which has thus suddenly taken place in the prospects of the loan, is to be found in the fact that the Secretary of the Treasury has made, or proposes to make, some important changes in his arrangements for negotiating the bonds, and the active co-operation of some leading houses in this city has recently been obtained, which has given more confidence that the new five per cents are really a good investment, and that the loan will be an entire success. One firm, conspicuous as heavy dealers in governments, subscribed $1,000,000. The total subscriptions now amount to about $50,000,000. The advance in London has also been very decided and is probably due in large measure to the advices from this side reporting the more favorable prospects and inducing large purchases in that market. The idea is gaining ground that under the impetus now given to the new loan, the old Five-Twenties will soon advance above par in gold. Mr. Boutwell will be in New York on Monday, April 3d, to complete his arrangements with the bankers. At the purchase of $2,000000 on Wednesday the bids were only $2,529,800, an amount so small as to give firmness to prices afterwards.

The following were the highest and lowest prices of leading government securities at the Board on each day of the past week:

Digitized by Google

	Saturday, March 25.	Monday, March 27.	Tuesday, March 28.	Wednesd'y March 29.	Thursday, March 30.	Friday, March 31.

Railroad and Miscellaneous Stocks.—The week has been an active one in the stock market, and transactions in the leading speculative favorites have at times been very large, especially in Lake Shore, amounting on Monday to some 70,000 shares, although it is estimated that there are not over 110,000 shares on the street.

The other Western stocks have also been strong and active, generally closing at a material advance on last week. There has been the usual crop of rumors upon the street as to clique operations, the most prominent being that a combination had been formed in the "short" interest to lock up money, although at the close to-night it was said that the project had been abandoned.

Stocks are now much higher than they were during the last few months of 1870 or the early part of the present year; and although there is at present no prospect of a decline, and the stocks of dividend-paying roads may be fully worth what they are selling for, it is self-evident that they are a better sale than they were six weeks ago, when 10 per cent lower.

The following comparison of prices will be found interesting:

	Oct. 1, '70.	Jan. 3, '71.	March 31, '71.
New York Central & Hudson River	92	91¼	96¾x
do. do. do. certificates.	87¾	87½	92¾x
Lake Shore	92¾	91¾	102¼
Reading	97¾	99¾	103
Rock Island	116	104½	114¾
Wabash	51¾	49½	58¾
Northwestern	82	71¾	89
do. preferred	88	82	97¼
St. Paul	63¼	51	61¾
do. preferred	80¾	72½	80
Ohio & Mississippi	32¾	28	47¼
Illinois Central	136½	136½	135
Union Pacific	25¾	11¾	25¾
Pacific Mail	42¼	39¾	43¾
Western Union Telegraph	36¾	44¾	58¾

From the preceding comparison it will be seen that prices are generally much higher than they were six months or three months ago, although the market was then without life and depressed by long dullness.

The following were the highest and lowest prices of the active list of railroad and miscellaneous stocks on each day of the last week:

	Saturday, March 25.	Monday, March 27.	Tuesday, March 28.	Wednesd'y March 29.	Thursday, March 30.	Friday, March 31.

* This is the price bid and asked, no *sale* was made at the Board.

State and Railroad Bonds.—The Southern State bonds have fluctuated in some cases to an important extent, influenced largely by intelligence received in regard to legislative or other proceedings in the respective States. In Virginia the funding bill has become a law, authorizing the funding of two-thirds of all the bonds and interest due up to July 1, 1871, in six and five per cent bonds respectively, and the issuing of certificates of indebtedness for the other one-third, which will be settled when the question of dividing the debt is decided between Virginia and West Virginia; the old bonds have advanced on this to 73⅜, and the new to 71½, although the latter have more coupons to be funded than the others. Tennessees have also been strong on the improved prospects in that State. New South Carolinas have sold down to 59½@59⅝ on the reports of threatened resistance to the collection of taxes in the State in consequence of the oppressive rates to which they have been raised. One of the rumors of the market, however, states that some of these proceedings in the State have been designedly organized for effect on the price of bonds, and the treasurer of Richland County, now in this city, states that the taxes are coming in well and are already three-quarters or seven-eights paid.

From New Orleans we hear of a meeting of prominent citizens to protest against any increase in the State debt beyond its present figures, viz.: $25,000,000, to which it is limited by an amendment to the State constitution.

North Carolina bonds have also been weak for the new issues, and commissioners recently appointed to investigate the circumstances of the negotiations of these bonds will probably make a report which may form a basis upon which the Legislature will take action in regard to them. Railroad bonds have not been particularly active. The closing quotations for Pacifics were as follows: Union Pacific first mortgage bonds, 83@83½; Land Grants, 75⅛@75¼; Incomes, 69½@69¾; Central Pacific bonds, 95⅛@95⅜.

The following are the highest and lowest prices of the most active State Bonds at the Board on each day of the week:

	Saturday, March 25.	Monday, March 27.	Tuesday, March 28.	Wednesd'y, March 29.	Thursday, March 30.	Friday, March 31.

The Gold Market.—Gold has been lower on the prospect of the successful negotiation of the Government loan and the possibility that a large amount may be thrown on the market in April by Secretary Boutwell. Upon this idea a large short interest was created which was partially covered by some considerable purchases at the recent decline. There is, however, a pretty large short interest still outstanding, and if the Treasury programme for April should be no different from that of March, as there are some indications that it may not be, an upward turn in the market would not be improbable.

The mercantile demand continues to be large, customs receipts for the week amounting to $3,621,000. Exports have not been considerable compared with last week's, which exceeded $1,500,000.

At the Treasury sale of $1,000,000 on Thursday, bids reached the large sum of $4,122,000. Rates for carrying gold have ranged from "flat" to 3 per cent, and to-day 1 and 2 per cent for carrying and "flat" for borrowing.

The following table will show the course of the gold premium each day of the week past:

	Quotations. Opening.	Lowest.	Highest.	Closing.	Total Clearings.	Balances. Gold.	Balances. Currency.
Saturday, Mar. 25	110¾	110¾	110¾	110¾	$40,058,000	$2,669,542	$2 985,681

The following are the quotations in gold for foreign and American coin:

American gold (old coinage)	4 p. c. premium.			American silver (new)	97¼@ 98¼
Sovereigns	$4 86	@	$4 90	Dimes and half dimes	96 @ 97
Napoleons	3 86	@	3 90	Five francs	95 @ 96
German X thalers	7 75	@	7 90	Francs	19 @ 19¼
Prussian X thalers	7 95	@	8 40	English silver	4 75 @ 4 85
X guilders	3 90	@	4 00	Prussian thalers	71 @ 71
Spanish doubloons	16 40	@	16 60	Specie thalers	1 04 @ 1 06
Patriot doubloons	15 50	@	15 65	Mexican dollars	1 03¾@ 1 04¼
American silver (old coinage)	1@2 p.c. premium.			Spanish dollars	2@3 p.c. premium.
				South American dollars	par.

Foreign Exchange.—Leading bankers reduced their rates ¼ early in the week, but advanced them again yesterday and close at 109¼@109½, generally asking the higher price. The slight falling off above referred to was hardly an indication of any tendency toward easier prices, but was merely a fluctuation induced by the high range in rates which had naturally checked the demand for bills. Some of the leading drawers purchased freely of the better class of outside bills offering, and the supply being thus taken up, they again advanced their own rates to 109¾. The good borrowing demand for gold has also prevented holders from purchasing exchange with their gold, when it could be loaned to advantage.

From £50,000 to £75,000 has been drawn against the sterling loan of the Pennsylvania Railroad Company, whose bonds are negotiated in London from time to time as the money is required.

Apart from the considerations above mentioned the tone of the market has been one of hesitation, and buyers are waiting to see the course of gold and of the United States loan. The exports of cotton from all ports amount to 111,000 bales, worth about $6,961,929 in gold, at current prices, against 72,525 bales in same week of 1870, producing then $6,850,711 in gold, with Middling Uplands at 23c., and gold at 112.

Quotations are as follows:

	60 Days.	3 Days.
London prime bankers	109¾@	110¼@ .....

The Railway Monitor.

☞ EXPLANATION OF THE STOCK AND BOND TABLES

1. Prices of the Active Stocks and Bonds are given in the "Bankers' Gazette" *ante*; quotations of other securities will be found on the preceding page.

2. Bank and Insurance Stocks, Mining, Petroleum, City Railroad and Gas Stocks, and Southern Securities of those kinds which are least active, are all quoted either regularly or occasionally at the end of "Bankers' Gazette," on a previous page.

3. The Table of Railroad, Canal and Other Stocks on the next page, comprises all Companies of which the stock is sold in any of the principal cities (except merely local corporations). The figures just after the name of the company indicate the No. of the CHRONICLE in which a report of the Company was last published. A star (*) indicates *leased roads*; in the dividend column x=*extra*; s=*stock or scrip*.

4. The Tables of Railroad, Canal and Other Bonds occupy in all, four pages, two of which will be published in each number. In these pages the bonds of Companies which have been consolidated are frequently given under the name of Consolidated Corporation. The date given in brackets immediately after the name of each Company, indicates the time at which the statement of its finances was made. In the "Interest Column" the abbreviations are as follows: J. & J.=January and July; F. & A.=February and August; M. & S.=March and September; A. & O. April and October; M. & N.=May and November; J. & D.=June and December Q —J.=Quarterly, beginning with January; Q.—F.=Quarterly, beginning with February. Q.—M.=Quarterly, beginning with March.

5. The Table of State Securities will be published monthly, on the last Saturday of the month.

6. The Table of City Bonds will be published on the third Saturday of each month. The abbreviations used in this table are the same as those in the tables of railroad bonds mentioned above. The Sinking Fund or assets held by each city are given on the same line with the name.

Ohio & Mississippi Railroad.—REPORT FOR THE YEAR ENDING DECEMBER 31, 1870.—The condensed statements of the earnings and expenses for the year 1870, show a gratifying improvement in the business of the road over the previous two years.

Earnings.	1870.	1869.	1868.
Passengers	$1,243,137	$1,192,080	$1,230,981
Freight	1,789,189	1,567,497	1,586,818
Express and Mail	155,859	156,019	146,239
	$3,188,137	$2,915,547	$2,964,010

Showing an increase over the business of 1869 of the sum of $272,589 58, and nearly the same amount over 1868. This increase is in part the benefit derived from the business over the Louisville Division, which is included in the earnings of 1870. This branch of the road was opened for traffic, the 1st of April last, and added to the receipts for the nine months' operations, the sum of $89,863 32, and contributing to the business of the main line the sum of $145,216 48.

The following statement exhibits the expenses incurred, and paid (both ordinary and extraordinary), charged under the following heads:

Maintenance of Way and Structures	$609,173
Motive Power and Cars	374,785
Transportation Expenses	954,847
General Expenses	99,095
Taxes—Municipal and Government	77,962
Damages to Property and Passengers, etc	34,860
Ballasting Road Bed etc	57,604
Wood and Water Stations, Water Supply, etc	6,848
Fencing the Road	8,248
Equipment Passenger and Freight Cars, etc	117,903
Interest on Loans, Legal Expenses, etc	87,193
Purchase of Common Stock, to take up Trustees' Certificates, in excess of authorized capital, presented for conversion during the year, leaving to be provided for $196,604 44 of Common Certificates	33,892
Coupons of Interest on Bonds	443,676
Interest on Preferred Stock	295,276
	$3,151,368

There have been issued and sold during the year $382,000 00 of Consolidated Mortgage Bonds, and $310,875 38 of Preferred Capital Stock. The bonded debt of the company is comprised in the following items: Old bonds of the first and second mortgages, etc. (ultimately to be exchanged for the New Consolidated Bonds, of which $4,000,000 00 was reserved for that purpose), amount to $3,672,000, and Consolidated Bonds amount to $2,862,850, including Sterling Bonds held in London; making a total of Mortgage Bonds, now outstanding, the sum of $6,534,850; this includes the amount appropriated to the construction of the Louisville Division.

The Preferred Capital Stock (also including the amount appropriated to the Louisville Division) amounts to $4,030,000.

STATEMENT OF AMOUNTS INCURRED BUILDING LOUISVILLE DIVISION TO DECEMBER 31, 1870.

Rights of way, legal expenses, etc	43,789
Expenses of engineer corps	21,285
Real estate and depots	77,071

A statement of the stock and bonds of the company and of the monthly earnings in 1870 and 1869, will be found in the tables of the CHRONICLE on subsequent pages.

Atlantic and Pacific Railroad.—The Stock Exchange last week admitted to official dealings the Stock and Bonds of the Atlantic and Pacific Railroad on the following report of the Committee:

The Atlantic and Pacific Railroad Company was organized under an act of Congress of the United States, approved July 27, 1866. Length of road, 292 miles. From the town of Pacific (thirty-seven miles distant west from St. Louis) to Seneca, on the western boundary of the State of Missouri, completed. This road embraces that of the South Pacific Railway Company, which was organized under the provisions of an act of the General Assembly of the State of Missouri, approved March 17, 1868, and was consolidated with the Atlantic and Pacific Railroad Company on the 25th October, 1870. The South Pacific Railroad Company issued the following, which have been assumed by the Atlantic and Pacific Railroad Company:

First Mortgage six per cent. Bonds, secured by mortgage on the whole road. Interest payable in gold coin semi-annually, Jan. 1 and July 1. Principal and interest payable in New York City. Dated July 1, 1868; mature July 1, 1888, $7,250,000. Of the above-mentioned Bonds, there are 5,000 of $1,000 each, numbered from 1 to 5,000 inclusive, and 4,500 of $500 each, numbered from 5,000 to 9,500 inclusive. Trustees: Geo. Tyler Bigelow, John James Dixwell.

The Atlantic and Pacific Railroad Company have issued the following, which were guaranteed by the South Pacific Railroad Company before it was absorbed by the Atlantic and Pacific.

Six per cent bonds, secured by mortgage on 500,000 acres of land in Missouri. Interest payable in gold coin semi-annually, January 1 and July 1. Principal and interest payable in New York city. Dated July 1, 1868; mature July 1, 1888, $3,000,000. Of which there are 2,000 of $1,000 each, numbered from 1 to 2,000 inclusive, and 2,000 of $500 each, numbered from 2,001 to 4,000 inclusive.

The South Pacific Railroad Company received a grant of lands in Missouri under an act of Congress, passed June 10, 1852, (when the lands were withdrawn from sale for the purpose of constructing the road,) of more than 1,000,000 of acres. Under the Atlantic and Pacific Railroad Company's charter, about 500,000 acres have already been received and secured by the Company, viz.: 480,000 acres in Missouri and about 20,000 acres in Arkansas. The

Digitized by Google

receipts from the sales of lands are applicable, first, to providing what is necessary to pay the interest on the bonded debt, and the balance is appropriated to paying off the bonds at a price not exceeding 110 per cent.

CAPITAL STOCK.

100,000 shares of "Preferred Stock on the Division of the Road in Missouri," at $100 each	$10,000,000
50,000 shares, Common Stock, at $100 each	5,000,000
Total Capital (and $10,250,000 of Bonds)	$25,250,000

All the "stock" has been issued.

Internal Revenue Tax upon Dividends of Corporations.—It will be remembered that the act of July 14, 1870, provides that the sections of the old law, which impose a tax of five per cent. upon the dividends and interest paid by the corporations referred to, "shall be construed to impose the taxes therein mentioned to the 1st day of August, 1870, but after that date no further tax shall be levied or assessed under said sections." The same act imposes "for and during the year 1871 a tax of two and one-half per centum" on interest paid upon the bonds of such corporations and upon their dividends and undivided profits.

Questions of doubt have arisen in regard to the construction of this act, which refer exclusively to the interval from the 1st of August, 1870, to 1st January, 1871—whether the corporations named are liable to any tax on interest and profits for that period.

OFFICE OF INTERNAL REVENUE,
WASHINGTON, February 27, 1871.

The Commissioner of Internal Revenue writes that the following instructions, it is believed, cover all the questions which have arisen respecting the liability to tax of dividends, surplus profits and interest on bonds of the corporations enumerated in sections 120 and 122, act June 30, 1864, as amended, and section 15, act July 14, 1870.

First—Dividends of the corporations enumerated in sections 120 and 122 aforesaid, which were declared at any time prior to August 1, 1870, are subject to a tax of five per cent.

Second—Undivided profits of said corporations which are carried to the account of any surplus or contingent fund prior to August 1, 1870, are subject to a like tax of five per cent.

Third—Interest (or coupons representing interest) due from the corporations mentioned in section 122, which became due and payable prior to August 1, 1870, is also subject to tax of 5 per cent. Returns of these dividends and surplus profits should be made on Form 65, and returns of this interest on Form 68.

Fourth—All dividends of the corporations before mentioned which were declared within the last five months of 1870 are exempted from a dividend tax, even when said dividends are composed wholly or in part of profits accrued prior to August 1, 1870.

Fifth—Profits carried to the account of a fund within the last five months of 1870 are exempt from a surplus tax, even if said profits were earned prior to August 1, 1870.

Sixth—No tax should be withheld from interest (or coupons representing interest) falling due and payable within the above period of five months.

Seventh—Dividends of said corporations which are declared on or after January 1, 1871, are taxable as follows: If composed wholly of profits accrued or earned prior to August 1, 1870, at the rate of 2½ per cent.; if composed partly of profits accrued prior to August 1, partly of those accrued within the last five months of 1870, and partly of those accrued since January 1, 1871, at the rate of 2½ per cent upon so much of the dividend as represents profits accrued either prior to August 1, or subsequent to December 31, 1870, excluding profits of the last five months of 1870.

Eighth—Profits carried to the account of a fund on or after Jan. 1, 1871, are subject to the same liability to tax as the dividends above described. So much of such profits as were earned prior to August 1, or subsequent to December 31, 1870, are taxable at the rate of 2½ per cent.

Ninth—Profits of the corporations previously mentioned, which were earned or accrued within the last five months of 1870, are not taxable when divided or carried to the account of a fund subsequent to December 31, 1870.

Tenth—Interest falling due and payable on or subsequent to January 1, 1871, is taxable at the rate of 2½ per cent, if such interest accrued either prior to August 1 or subsequent to December 31, 1870. From so much of it as accrued within the last five months of 1870 no tax whatever is to be withheld.

Eleventh—Returns of dividends and surplus profits by the corporations mentioned in section 15, act of July 14, 1870, should be rendered on Form 65 1-2, and returns of interest on Form 68 as revised.

Twelfth—All previous rulings of this office, inconsistent with these instructions are herewith revoked. A. PLEASONTON, Commissioner.

The corporations to which this ruling refers are banks, trust companies, savings institutions doing a general banking business, insurance companies, railroad, canal, canal navigation and slackwater companies.

This exemption, we understand, applies only to the liability of corporations themselves to pay the tax. The individual holder of the stock or bonds will be liable for the tax on all that portion of the dividends and interest upon which the corporation has not paid the tax.

Louisiana.—A very large number of property-owners and tax-payers of New-Orleans have subscribed to the following notification:

The undersigned, property-owners and tax-payers of the city of New Orleans, satisfied that the State Legislature has, at its last session, exceeded its power, in the loans, indorsements and other obligations and grants authorized on the part of the State, the total amount of which is limited, by the recent amendment of the Constitution, to $25,000,000, (already incurred,) as shown by the annexed official statement of the Auditor, take this early opportunity of notifying bankers, brokers and dealers in securities, in this country and Europe, that they consider all such loans, indorsements and pledges as null and of no value; that they will sustain the authorities in resisting their issue, and if issued, will, by every legal means, endeavor to prevent the payment of any interest or principal, or of any tax levied for that purpose. They only recognize the State debt proper, amounting to $25,021,734 40, as shown in the accompanying exhibit of the Auditor, and they class the "accruing debt" with the illegal legislation referred to:

STATE DEBT—COMPUTED UP TO DEC. 31, 1870—EXISTING DEBT.

State bonds	$22,560,233 00	
Auditor's warrants and certificates	1,593,967 44	
Miscellaneous debts	867,533 96	
Existing debts		$25,021,734 40
Accruing debt		15,395,000 00
Total		$40,416,734 40

It will be seen from the above that the whole amount of State debt authorized by the Constitution is considered to be now outstanding, and therefore the item of "accruing debt," which means all the bonds authorized but not yet issued, would be deemed unconstitutional if negotiated. This includes bonds authorized for the Mississippi and Mexican Gulf Canal; North Louisiana and Texas Railroad; New Orleans, Mobile & Chattanooga Railroad, New Orleans, Baton Rouge and Vicksburg Railroad; and subscriptions to shares of the Mississippi Valley Navigation Company of South and West.

Virginia.—The funding bill has passed the Legislature containing substantially the provisions previously noticed in the CHRONICLE of March 25th on page 360.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, March , 1871.

There has been a fitful tone to trade circles the past week. The leading staples of domestic produce, Cotton, Breadstuffs, Provisions and Tobacco, are regarded as rather dear, in view of the large quantities in store or coming forward from interior markets, and holders, while unwilling to give way in prices, are desirous of selling. Of foreign goods the market is well supplied, and trade with the interior not very brisk. The effect of such a state of affairs is not, of course, altogether satisfactory.

Cotton has been drooping, closing at 15@15½c. for Middling Uplands. Breadstuffs have been irregular; closing prices are $6 50@6 80 for Flour, shipping extras; $1 57@1 61 for New Spring Wheat, and 83@83½c. for prime mixed Corn. Groceries have been dull, except Sugars, which have met with a large demand, at 9@9¼c. for fair to good refining, but the close was quiet.

Metals have been without movement of moment, except in Strait's Tin, which advanced to 33@33½c., gold. The sales were about 10,000 slabs. There is more inquiry for Scotch Pig Iron at the close, with prices unsettled; Glengarnoch last sold at $32 50, currency, to arrive.

East India Goods have been quiet, except Calcutta Linseed, which, after free sales closes firmer at $2 27½@2 30, gold, per 56 lbs.

Tobacco has been more steady. In Kentucky Leaf, the sales of the week have been about 500 hhds., of which 350 hhds. for export and 150 hhds to cutters and dealers. Prices have been steady at the decline previously noted; lugs, 6@6½c., leaf, 7@12c. In Seed Leaf Tobacco there has been a large movement, mainly speculative, but prices have not been reported; the sales include 1,900 cases new Pennsylvania, in some half dozen different lots, all on private terms; a line of new Wisconsin at 23½c., and some old Pennsylvania wrappers at 30@33c. Spanish Tobacco was less active, with sales of 100 bales Yara on private terms, and 300 do. Havana, at 90@$1 05, currency, duty paid.

Provisions have been generally depressed. The outward movement has been much reduced, and stocks of hog products show some accumulation, while holders of Beef and other products of neat cattle have shown some anxiety to reduce stocks. New Mess Pork touched $21 on Wednesday, but closed with some business for early delivery, at $21 25; Lard, 12¼@12⅝c. for Prime Western Steam; Bacon, 9¾@10c. for Cumberland. Some lines of old Butter have sold for export at 13@16c., and prime factory Cheese declined to 16c.

Hides have been rather quiet but firm, at 24½c, gold, for Prime Buenos Ayres. Leather is dull, with prices drooping. Tallow moderately active for export at 8¾@9c. Whiskey, with smaller receipts, has slightly advanced. Clover seed has materially declined, Canadian selling to-day at 9½c in bond. Hops have been active for export and home use at full and improving prices. Shipping hay has advanced to $1 20 from scarcity.

In Naval Stores, Rosins have been quiet and firm, but Spirits Turpentine has been fluctuating, closing quiet. In Oils the only change is the advance of Linseed Oil to 85@87c for whole and jobbing parcels. Petroleum has declined, leading to a fair business, Refined closed at 23c on the spot. Fruit and Fish have been dull.

Wool has become very quiet. Woolen goods are doing well, and manufacturers have almost wholly retired from the market for the raw material.

Freights have been dull, until to-day, when there were large shipments of grain at 5½d. by sail and 6d@6½d by steam to Liverpool and 6d by sail to Glasgow. The rate for Cotton to Liverpool by steam is 5-16@⅜d, but shipments limited, and little besides grain going forward.

Exports of Leading Articles from New York.

The following table, compiled from Custom House returns, shows the exports of leading articles from the port of New York since January 1, 1871, to all the principal foreign countries, and also the totals for the last week, and since January 1. The last two lines show *total values*, including the value of all other articles besides those mentioned in the table.

COTTON.

FRIDAY, P. M., March 31, 1871.

By special telegrams received by us to-night from the Southern ports, we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening March 31. From the figures thus obtained it appears that the total receipts for the seven days have reached 71,744 bales against 81,426 bales last week, 102,484 bales the previous week, and 186,538 bales three weeks since, making the total receipts since the first of September, 1870, 3,312,231 bales against 2,406,346 bales for the same period of 1869–70, showing an increase since September 1 this year of 905,885 bales. The details of the receipts for this week (as per telegraph) and the corresponding week of 1870 are as follows

RECEIPTS Rec'd this week at—	1871.	1870.	RECEIPTS Rec'd this week at—	1871.	1870.
New Orleans bales	32,235	26,288	Florida.....bales.	266	44
Mobile	5,470	2 631	North Carolina.....	449	503
Charleston.....	3,559	2,351	Virginia.....	6,891	1,892
Savannah.....	10,582	3 795			
Texas.....	4,635	4,500	Total receipts.....	71,744	46,281
Tennessee, &c.....	8,176	4,589	Increase this year.....	25,357	

The exports for the week ending this evening reach a total of 111,741 bales, of which 65,661 were to Great Britain, 11,119 France and 34,961 to rest of the Continent, while the stocks as made up this evening, are now 579,731 bales. Below we give the exports and stocks for the week, and also for the corresponding week of last season, as telegraphed to us from the various ports to-night:

Week ending M'ch 31.	Exported to— G. Brit	Contin't	Total this week.	Same w'k 1870.	Stock. 1871.	1870.
New Orleans.....	26,257	22,969	49,126	33,081	239,937	192,438
Mobile.....	4,714	3,839	8,553	7,373	58,386	59,888
Charleston.....	1 352	....	1,352	5,303	21,597	15,005
Savannah.....	11,911	8,980	20,891	8 457	53,534	45 965
Texas.....	1.040	990	2,030	7,913	60,277	37 000
New York.....	19,387	7,554	27,441	10,393	111,000	53,000
Other ports.....	....	1,643	1,843	....	35,000	24,000
Total.....	65,661	46,080	111,741	72,525	579,731	432,296
Total since Sept. 1....	1,766,027	501,652	2,277,679	1541,409	....	....

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an increase in the exports this week of 39,216 bales, while the stocks to-night are 147,435 bales more than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to March 24, the latest mail dates. We do not include our telegrams to-night, as we cannot insure the accuracy or obtain the detail necessary by telegraph.

PORTS.	RECEIPTS SINCE SEPT. 1. 1870.	1869.	EXPORTED SINCE SEPT. 1 TO— Great Britain	France	Other Foreign	Total.	Northern Ports.	Stock.

The market during the past week has been quiet and dull. In fact there has been nothing to stimulate any speculative movement. At Liverpool the buoyancy of last week has been followed by considerable steadiness in tone and quotations, but no further advance has been established, the close to-day being reported dull at 7¾d. for Middling Uplands, the same as last Friday. Our market therefore has received no strength from Liverpool. At the Southern ports, too, we have had continued free receipts, showing that much cotton is yet remains to come forward; while the unfavorable news from France indicates that the old demand from that country cannot be anticipated at present. These facts, together with the early settlement of the contracts maturing this month, have withdrawn all speculative spirit from the market, and the feeling has been dull. Still there has been no pressure to sell, although buyers have found no difficulty in supplying their wants, and frequently at a shade below the market. The close to-night was dull at the prices of last Friday, except for Ordinary, which was ⅛c. off. For forward delivery the business has been fair, but prices are about ⅛c. lower, Low Middling being quoted to-night for March, 14 1-16c.; for April, 13⅛c.; for May, 13 11-16c.; for June, 13⅛c.; for July, 13⅞c.; and for August, 14c. The total sales of this description for the week have been 65,300 bales, including 1,100 free on board. For immediate delivery the total sales foot up this week 21,386 bales, including 1,576 bales to arrive, of which 3,186 bales were taken by spinners 917 bales on speculation, 15,294 bales for export, and 1,989 bales in transit. The following are the closing quotations:

	Upland and Florida.	Mobile.	New Orleans.	Texas.

2,000	14⅛
4,100 total August.	

The sales during the week of free on board have reached 1,100 bales. The particulars of these sales are as below:

600 free on board at Charleston..... p. t.
500 free on board at Mobile..... p. t.

The following exchanges have been made during the week:

¼c. paid to exchange 800 April for 800 March.
3-16c. paid to exchange 200 April for 200 July.
100 March for 400 August, even terms.

WEATHER REPORTS BY TELEGRAPH.—There appears to have been a return of rainy weather throughout the South the past week. Our telegrams state that at Macon, Montgomery and Memphis it has rained four days; at Nashville, Mobile and Columbus it has rained three days, and at Savannah, Augusta, Charleston and Selma it has rained two days during the week. Our correspondents complain that the rain is interfering materially with farming operations. The Savannah telegram speaks of the storm being very severe in that section. At Galveston the weather has been favorable and good progress is being made with the crop. The Thermometer at Galveston has averaged 52, at Memphis, 49; Mobile, 63; Columbus, 59; Macon, 56; Charleston, 55.

WEEKLY RECEIPTS OF COTTON.—Below we give a table showing the receipts of cotton each week at all the ports for several seasons, indicating, also, the total crop each year. Our figures are given in thousands of bales.

GUNNY BAGS, BAGGING, &c.—The market for spot cloth is very dull again, there being no buyers and prices merely nominal. We would quote 19@20c. currency, duty paid, for India, and to arrive 12¾c. gold, in bond. Bags rule very quiet, and sales are confined to jobbing lots from store. The quotation is nominally 15½@16c. currency- Hemp has ruled quiet, but at the close we learn of a small movement in Manila. Sales are 550 bales to arrive per "Glenloyon" at 9½c., and 500 bales on spot at 9¾c., at which price the market is steady. Jute has been in fair demand, but closes quiet; sales are 500 bales common at 5½c., and to arrive per "Dinapore" 500 bales superior at 6¾c. gold. Jute Butts are fairly active and firm. Sales are 500 bales per "Prince Patrick" at 4c. currency; 700 bales per "Lucy S. Wylls" at 4½c. currency; 500 bales per "Whittier" at 3¾c. gold; and on spot some 2,000 bales at 3⅞@4c. currency, cash and time. The fnllowing is from the monthly circular of Messrs. Henry H. Crocker & Co. of to-day:

GUNNY CLOTH.

	1871.	1870.
Imported into the United States from January 1st to date.....Bales.	3,515	1,404
On the way to the United States March 31st.....	4,370	1,805
Loading at Calcutta last date for United States.....	....	700
Stock in importers' and speculators' hands in Boston, March 31st....	5,900	3,800
Stock in importers' and speculators' hands in New York, March 31st.	9,100	3,600
Imported from Europe from Janury 1st to date.....	....	....
Shipments and consumption from N. Y. and Boston during March...	100	1,000
Stock on hand January 1st, including South.....	17,250	13,000

MOVEMENTS OF COTTON AT THE INTERIOR PORTS.—Below we give the movements of cotton at the interior ports—receipts and shipments for the week, and stock to-night and for the corresponding week of 1870:

	Week ending Mar. 31, 1871.			Week ending Mar. 31, 1870.		
	Receipts.	Shipments	Stock.	Receipts.	Shipments.	Stock.
Augusta	1,977	1,756	21,742	1,155	2,228	20,392
Columbus	865	1,341	7,899	572	508	13,000
Macon	331	941	8,550	449	1,588	13,265
Montgomery	950	1,311	6,525	301	1,112	10,014
Selma	837	1,034	5,193	422	390	5,425
Memphis	6,956	15,073	25,970	4,160	5,716	16,887
Nashville	1,325	2,027	6,760	589	1,095	5,582
	13,241	23,483	82,639	7,648	12,637	84,565

These totals show that the interior stocks have decreased during the week 10,242 bales (being now 1,926 bales less than for the same period of last year), while the aggregate receipts are 5,593 bales more, and the shipments 10,846 bales more than for the corresponding period of 1870.

VISIBLE SUPPLY OF COTTON.—The following table shows the quantity of cotton in sight at this date of each of the two past seasons:

	1871.	1870.
Stock in Liverpool.....bales.	750,000	452,000
Stock in London	74,890	64,690
Stock in Glasgow	300	350
Stock in Havre	41,376	57,960
Stock in Marseilles	4,000	7,806
Stock in Bremen	9,250	9,600
Stock rest of Continent	25,000	28,000
Afloat for Great Britain (American)	365,000	227,000
Afloat for France (American and Brazil)	15,631	44,596
Total Indian Cotton afloat for Europe	169,000	131,340
Stock in United States ports	579,731	432,296
Stock in inland towns	82,639	84,565
Total	2,116,817	1,540,203

These figures indicate an *increase* in the cotton in sight to-nigh 576,614 bales compared with the same date of 1870.

The exports of cotton this week from New York show a decrease since last week, the total reaching 19,817 bales, against 25,931 bales last week. Below we give our table showing the exports of cotton from New York, and their direction for each of the last four weeks; also the total exports and direction since September 1, 1870; and in the last column the total for the same period of the previous year:

Exports of Cotton (bales) from New York since Sept. 1, 1870

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 97,166 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRONICLE last Friday, except Galveston, and the figures for that port are the exports for two weeks back. With regard to New York, we include the manifests up to last Saturday night:

	Total bales.
NEW YORK—To Liverpool, per steamers City of Dublin, 774....Idaho, 3,657....Algeria, 1,548... Batavia, 863....City of London, 821....Holland, 3,060....per ship Flying Foam, 3,352	14,075
To Continent via Glasgow, per steamer India, 131	131
To Havre, per steamer Avon, 2,038	2,038
To Bremen, per steamer Donau, 632....per bark Everhar Delius, 623	1,255
To Hamburg, per steamer Holsatia, 342	342
To Amsterdam, per bark E. H. Duval, 1,900	1,900

GOLD, EXCHANGE AND FREIGHTS.—Gold has fluctuated the past week between 110¼ and 110⅜, and the close was 110⅜. Foreign Exchange market is firm to-day. The following were the last quotations: London bankers', long, 109¾@—; short, 110¼@—, and Commercial, 109½@109¾. Freights closed at 5-16g⅜d. by steam and 9-32@11-32d. by sail to Liverpool.

BY TELEGRAPH FROM LIVERPOOL.—

LIVERPOOL, March 31, 5 P. M.—The market has ruled dull to-day, with sales amounting to 10,000 bales, including 2,000 bales for export and speculation. The sales of the week have been 81,000 bales, of which 15,000 bales were taken for export and 9,000 bales on speculation. The stock in port is 750,000 bales, of which 415,000 bales are American. The stock of cotton at sea bound to this port is 552,000 bales, of which 365,000 bales are American.

	March 10.	March 17.	March 24.	March 31.
Total sales	72,000	78,000	84,000	81,000
Sales for export	18,000	14,000	11,000	15,000
Sales on speculation	5,000	6,000	9,000	9,000
Total stock	768,000	804,000	780 000	750,000

Of the present stock of cotton in Liverpool nearly 58 per cent is American against 37.50 per cent last year. Of Indian cotton the proportion is nearly 17 per cent, against 22 per cent.

LONDON, March 18—The market opened heavily at rather lower prices, but toward the close of the week an improvement took place. For arrival, prices have advanced ¼d to ½d per lb. The following are the particulars of imports, deliveries and stocks:

	1869. bales.	1870. bales.	1871. bales.
Imports, January 1 to March 16	58,282	31,070	41,76[illegible]
Deliveries	121,092	88,694	34,69[illegible]
Stocks, March 16	82,419	64,690	74,89[illegible]

BREADSTUFFS.

FRIDAY P. M., March 31, 1871.

There has been a fair degree of activity in Flour and Grain the past week, and prices have shown but little variation.

The receipts of Flour do not increase, while the demand has been general, without developing much feature. For low shipping extras there has been some inquiry, and lines have been taken to some extent at $6 60@6 65 delivered, but the better grades held at $6 70 and upward, have had a slow sale. The demand for the Provinces and the West Indies has not been so pressing, and the home trade have done little more than supply immediate wants. To day the market ruled firm, but the demand was without improvement.

The Wheat market has been fairly active for export, with some milling demand. A better supply of the finer grades of amber Winter Wheat, received by rail, has weakened prices for that variety; but Spring and white Wheats have ruled very firm. A considerable eastward movement by rail has commenced from the West, but with light stocks on the seaboard prices are not affected thereby. To-day Spring Wheats were higher, with large sales at $1 56@1 61 in store and afloat, mainly for export, but Winter Wheats were lower, with sales of choice amber at $1 68 afloat We also notice the sale of 30,000 bushels No. 2 Spring to arrive by rail at $1 53 afloat.

Corn has come forward freely by rail, and prime new mixed sold in the first half of the week as low as 82c., but with a revival of export demand, and the Liverpool quotation advanced 3d; the close is very active at 83@83½c. for new mixed, afloat. Oats have been active and higher, but to-day the market was dull, and part of the late advance was lost. Rye remains quiet and unchanged Barley has sold quite freely, but at the close the demand seemed to have subsided for the present. Canada Peas are unsettled and nominal.

The following are the closing quotations:

Flour—		Wheat, Spring, bush	$1 45@1 61
Superfine	$ bbl. $6 00@ 6 45	Red Winter	1 55@ 1 60
Extra State	6 60@ 6 80	Amber do	1 65@ 1 66
Extra Western, common	6 50@ 6 80	White	1 65@ 1 95
Extra and double extra		White California	1 75@ 1 85
Western & St. Louis	6 85@ 9 00	Corn, Western Mix'd	82@ 83½
Southern shipp'g extras	6 85@ 7 25	Yellow, new	84@ 85
Southern, trade and family brands	7 50@ 9 25	White	84@ 90
Rye Flour, super & extra	5 85@ 6 40	Rye	1 12@ 1 20
Corn Meal, Western and Southern	3 80@ 4 45	Oats	64@ 70
		Barley	90@ 1 20
		Malt	1 00@ 1 20
		Peas, Canada	1 20@ 1 50

The movement in breadstuffs at this market has been as follows

*Estimated.

There were afloat at Chicago 194,740 bushels of wheat, and 754,668 bushels of corn, about two-thirds of which were included in the stocks as noted above. In the total visible supply March 26, 1870, Toronto, Montreal, Philadelphia, Baltimore, Oswego and Boston were not included. Comparing the stock of wheat reported in store in Milwaukee on the 25th inst. and that of the 18th, there was evidently an error at the earlier date. It was, however, given as published in the *Daily Wisconsin*.

GROCERIES.

FRIDAY EVENING, March 31, 1871.

There has been a very fair movement in Sugars, but aside from this the market for Groceries throughout the week was in a most decidedly flat condition and the majority of goods so very dull as to reach an almost entirely nominal state on values. The cause is to be traced to the continued delay in the development of the interior demand and consequent indifference on the part of jobbers about stocking up until they can see an outlet for their goods. Speculation does not appear to be thought of and movements are now based entirely upon the legitimate law of supply and demand, every day showing an extreme spirit of caution among all operators. The stocks of goods now accumulated here are, as a rule, fair, but in only one or two cases can be called large.

The entries direct for consumption, and the withdrawals from bond, showing together the total thrown on the market for the week, were as follows:

Tea, black	6 205 pkgs.	Laguayra	1,239 bags.
Green	8,704 pkgs.	Other	1,148 bags.
Japan	2,857 pkgs.	Sugar, Cuba	2,746 boxes.
Various	1,875 pkgs.	Cuba	5,297 hhds.
Coffee, Rio	8,?86 bags.	Porto Rico	1,053 hhds.
Java	1,554 mats.	Other	1,6?7 hhds.
Maracaibo	1,405 bags.		

Sugar, Brazil	.... bags.
Manila, &c.	34,691 bags.
M'las's, Cuba	4,147 hhds.
Port Rico	580 *hhds.
Demerara	.... hhds.
Other	139 *hhds.

*Hhds. include bbls. and tcs. reduced

Imports this week at this port have included 5,000 bags Rio Coffee, and 4,859 grass mats of Singapore. The receipts of Sugar and Molasses have been liberal, and include 3,377 bags of Brazil Sugar. There have been no arrivals of Tea.

The stocks in New York at date, and imports at the five leading ports since Jan. 1, 1871, are as follows:

TEA.

There has been no change in this market, either for the better or the worse, that we can discover, a few invoices selling, as the necessities of buyers forced them to operate, but business throughout dragging, and values, for want of some direct influence, remaining at about the former range. Jobbers, very naturally, will not commence handling stock with any freedom until they can see some chance of selling it again, and this chance, just at the moment, appears remote, as interior buyers are extremely chary of their orders, both personal and by mail. The supply offering is, on the whole, quite liberal, and the assortment first class on all grades, though some of the leading holders refuse to offer their samples for the present. Sales of 11,606 Greens, 2,780 Oolongs, and 2,750 Japans.

There have been no imports of Tea during the week past.

The following table shows the imports of Tea into the United States (not including San Francisco), from January 1 to date, in 1871 and 1870:

	Black.	Green.	Japan.	Total.
1871	6,629,569	10,078,270	4,389,274	21,097,813
1870	8,391,602	7,073,226	2,402,911	17,867,738

The indirect importations, including receipts by P. M. Steamers via Aspinwall, have been 6,145 pkgs. since January 1, against 12,664 last year. During the week past 598 packages have also been received by rail.

COFFEE.

We find few if any really new features on this market for the current week, the volume of business still footing up quite small, and the whole position very dull and uninteresting. Few buyers have made their appearance from the interior, and the mail orders amount to almost nothing, and jobbers, therefore, are naturally unwilling to purchase stocks for which they have no use, especially as supplies in first hands are in the meantime accumulating somewhat, and the chances are that the assortment may ultimately increase to a sufficient extent to cause some desire to realize and a modification in value, though importers talk quite differently. On Brazils there is the old complaint about an absence of margins on goods laid down here at present prices, and in addition to this, holders have obtained further confidence from the tenor of later advices from Rio Janeiro, while the stocks are considered as not of sufficient magnitude to cause any trouble, and there is said to be no possibility of a considerable increase for many weeks to come. The assortment of Rio here is a fair one, though the desirable roasting grades are comparatively scarce, and held with rather the greatest firmness. There have been some negotiations on Java, both here and at Boston, but not to amount to much business. The West India styles have scarcely been noticed beyond an occasional small lot taken to keep up assortments, and prices in reality are merely nominal, though former figures are still retained. The stocks are moderate. Sales here of 1,000 bags Rio, 4,406 mats Singapore, 2,100 bags Maracaibo, 250 bags Costa Rica, 325 bags Savanilla. At Baltimore, 5,014 bags Rio; at Mobile, 1,290 bags do., and at New Orleans, 11,900 do.

There have been no arrivals of Rio Coffee during the week. Of other kinds the imports have included 4,859 bags of Singapore Coffee by the "W. A. Farnsworth," and 237 bags of sundry kinds.

The stock of Rio March 30, and the imports since Jan. 1, 1871, are as follows:

In Bags.	New York.	Philadelphia.	Baltimore.	New Orleans.	Savan. & Mobile.	Galveston.	Total.
Stock	37,712	3,668	31,842	17,849	10.542	....	90,713

* Includes mats, &c., reduced to bags. † Also, 35,093 mats.

SUGAR.

The demand for Raws has not been quite so sharp and quick as last week and less continuous, some few days showing rather a quiet tone, but the market has gained rather than lost tone, and most of the transactions were at a slightly higher range of values. The small receipts and scarcely any parcels offering from wharf, and the goods in store displayed with moderation have given holders a great advantage in maintaining their position, and some have assumed quite an indifferent tone about operating, especially as refiners were securing a good margin between the price of the raw and manufactured Sugar. There could not, however, be said to prevail any decided buoyancy, and at no time did we hear complaints from buyers of their inability to secure about all the goods required, while evidences were not wanting that many sellers considered the safest plan to accept all full aids as soon as made. The receipts now certainly are small, but a change of wind for a few days may make a great difference in this respect, while nearly all the refiners have not only bought freely but some to the full extent of their storage room, and finding the refined article already selling with less freedom, are inclined to move with greater caution in making purchases. Old and new crops now sell closely together, with fined cured lots of the latter frequently commanding the higher figure. Refined have sold irregularly, but without much activity in the aggregate, and values rather favored the buyer, the production of some grades exceeding the outlet and stocks accumulating. Sales of 5,787 hhds. Cuba; 1,215 do. Porto Rico; 200 do. Demerara; 250 do. English Island, &c.; 300 hhds. Martinique; 40,527 bags Manila, on spot, and about 40,000 to arrive; 2,350 boxes Havana, and 1,127 hhds. Melado.

Imports at New York, and stock in first hands, Mar. 30, were as follows:

	Cuba, bxs.	Cuba, *hhds.	P. Rico, *hhds.	Other *hhds.	Brazil, bags.	Manila, &c, bags.	Melado hhds.

MOLASSES.

We have once more to advise a dull and unchanged market for foreign goods in a general way, the demand prevailing being spasmodic and uncertain, and buyers requiring every attention imaginable to induce them to operate. The distillers now and then take an odd parcel of old crop if it is offered cheap enough, but as a rule are indifferent. Refiners can be found in the market every day, but their purchases are small, as direct receipts have of late increased somewhat, with a corresponding addition to their wants, while the Trade, though taking a little more within one day or two, are far from anxious, and must be treated with liberally. On choice parcels of grocery stock and high testing boiling cargoes prices are reasonably steady, but poorer qualities weak and unsettled. Domestic has been so plenty this season that the Trade are becoming tired of it, and the market is slow, with prices on all except the fancy grades reduced somewhat. Sugar house Molasses dull and lower (18c hhds. and 22c bbls.) under a larger offering. For Syrups the demand is moderate and prices steady. Sales of 650 hhds. Cuba Muscovado, 955 hhds. Porto Rico, 86 hhds. St. Croix, 115 hhds. Barbadoes and 400 bbls. New Orleans.

The receipts at New York, and stock in first hands, Mar. 30, were as follows:

*Including tierces and barrels reduced to hhds.

SPICES.

There is scarcely any market worth reporting at present, either in a wholesale or retail way, the movement being confined to very small parcels, absolutely required by purchasers for their immediate wants. The stocks are moderate as a rule, not well assorted and receiving few additions, and holders as a consequence retain a fair amount of faith, but prices for the time being are not remarkably strong, and a first-class buyer can obtain many small favors. Importers report that all recent advices from the points of production are of a stimulating nature, but have no effect upon our market in the absence of a demand.

FRUITS, &c.

The market since the date of our last has shown rather more activity and firmness at the decline noted then. The movement in Layer Raisins is small and confined to the jobbing wants of the trade, who buy only enough to carry them along from day to day. Holders, generally, are firm, and good brands cannot be bought below $2 77½. Sardines declined early in the week, which caused a movement, and prices reacted again, closing about steady, as quoted in our last. Currants have ruled rather quiet but easy. Prunes favor the buyer and are slow of sale. All kinds of Nuts are quiet, but Almonds are held with confidence. Brazils sell in a small way at 10c. Walnuts are steady but slow of sale. Fire Crackers are active.

Mediterranean box fruit has sold less freely this week, but sound stock has brought fair prices. The large supply of Mediterranean has forced the price of West India down, and $8 per bbl. is the price of Porto Rico Oranges. Baracoa Cocoanuts sell fairly at former prices. Bananas are in moderate request at fair prices. The first lot of Pine Apples arrived since our last and sold at $25 per 100. At the auction sale to-day Messina Oranges sold at $3 85@4 00 per box; do. Lemons $3 80@3 90; Naples Oranges $2 10@2 90, and do. Lemons $2 50@2 60.

The market for Dried Apples is dull, and buyers are exerting themselves to force down prices; holders are generally unwilling to accept lower rates, but the advantage seems in the buyer's favor. A lot of some size has been sold for export, but the quantity and kind is kept a secret, lest it should have influence on the market. Blackberries move slowly, but are held at full prices. Pared Peaches are firm, but the high prices asked for them checks their sale. We note one lot of 1,800 pounds Eastern Shore sold at 26c. Raspberries sell fairly at easy prices. Prime pitted Cherries are steady and in demand, but sugared and wet sell at 2@3c. per pound less. Plums are steady, but quiet. Peanuts have ruled less active this week; neither buyers nor sellers seem anxious to do much, and the market is not quotably changed in price. Pecans are firm.

Domestic Green Apples are slow, except choice kinds. They are rotting badly, and sound selected sell at $4@$4 50 per barrel. Cranberries are in good supply for this season of the year, and meet with a small demand; sales of the best at $3 50 per crate in a jobbing way, fair at $2@$2 50 per crate.

ADVICES FROM PRODUCING MARKETS.

Tea.—Mail advices from all the China ports are at hand, dating as follows:

Shanghae, February 11.—A business during the past month had been done to the extent of 31,000 half chests, reducing the stock to 20,000 half chests, composed of inferior quality. The quantity of Tea yet to come from the country is unknown, but it is confidently expected that the total season's supply will fall below last year's by fully 4,000,000.

Amoy.—The season is closed, no settlements and no stock.

Foochow, January 31.—For the month an active business had been done, both in Congous and Oolongs, with firm prices, which reduced the stock of both descriptions, leaving only undesirable Teas on offer, for which holders are asking a relative advance over the rates of recent transactions. Oolongs in stock amount to about 13,000 half chests.

Yokohama, February 22.—Transactions in Japan Teas for the month past amounted to 10,000 piculs, showing a fair business, and causing an advance in price of $1@$2 ₱ picul. Stock now on offer about 6,500 piculs.

The following shows the quantity of Tea afloat for the United States at latest dates (not including San Francisco), and which has not yet arrived:

Rio Coffee.—Messrs. Wright & Co.'s telegram, dated Rio Janeiro, March 7, 1871, says:

Sales of Coffee for United States since March 4.....	30,000	bags.
Shipments " " "	6,000	"
Loading "	45,000	"
Stock " at date.....	72,000	"

Exchange, 24¼d.

Cuba Sugar.—HAVANA, March 24.—The enquiry has been fair throughout the week, and the transactions effected might have been of more importance had not the same causes alluded to in several of our previous reviews, as difficulties regarding holders and buyers to agree upon prices, scantness of staple of suitable descriptions for certain markets, checked buyers desires to operate and prevented them to extend their purchases so far as they felt disposed to.

Owing to better news from abroad the market closes very firm at 10¼@10¾ rs for current No. 12, fit for the United States and Northern Europe, while crystalized sorts suitable for the Spanish and Mediterranean markets are paid for at from 10¾@10¾ rs. Our to-day's quotations are calculated on the basis of 10¾ rs. for good strong No. 12. The sales which have been reported during the week amount to about 19,000 boxes of all kinds, against 12,000 boxes last week.

Shipments this week from Havana and Matanzas have been as follows:

To	Boxes.	Hhds.
New York.....	18,546	3,786
Boston.....	428	100
Baltimore.....	162	440
New Orleans.....	688	440
Total export of the week to all countries.....	40,528	4,716

The general movement at both ports has been as follows:

	Rec'ts this week. Boxes.	Rec'ts this week. Hhds.	Exports since January 1. To U. S. Boxes.	Exports since January 1. To U. S. Hhds.	Exports since January 1. To all Ports. Boxes.	Exports since January 1. To all Ports. Hhds.	Stock at date. Boxes.	Stock at date. Hhds.

Manila Sugar.—Market reports to February 1, advise a good business having been done at an advance in prices. Total settlements for fortnight were set down at 25,000 piculs at $5 for superior, and $5 50@$5 75 for extra, though at the close the demand at these rates seemed filled and the market was weaker. Nothing done in Brown and no Taal arrived.

The following shows the quantity of Sugar afloat for the United States at last advices, and which has not yet arrived:

Ship.	For.	Piculs (139 lbs.)	Ship.	For.	Piculs (139 lbs.)

THE DRY GOODS TRADE.

FRIDAY, P. M., March 31, 1871.

There has been no important change in the trade since our last review, and the general features of the trade are much the same as at that time. Prices have been declining on nearly all cotton fabrics to complete the revision begun earlier in the month, and the market is more settled at the close, though there are still several makes of different goods which are yet to be marked down. The trade has been more evenly distributed among the large and small jobbing houses, and the latter are doing a more satisfactory business. The aggregate distribution continues considerably in excess of that of the same period last year, and jobbers generally express satisfaction with the season's business, thus far. The Western and near-by trade are well represented in the market and are buying with fair freedom, though purchasers, as the rule, display marked caution, and few large lots are placed. There are very few small Southern buyers in the market, as these dealers are purchasing comparatively small amounts, and are buying mostly on mail orders. Large Southern dealers are also limiting their purchases to such amounts as will meet their requirements during the early part of the season, but the aggregate movements to this section are fair, and the cautiousness displayed by buyers is considered a very favorable feature by dealers here. Collections are easy in most sections, and the trade appears to be in a healthy condition, with the prospects favorable for a satisfactory season's business and comparatively few losses.

DOMESTIC COTTON GOODS.—The demand for all classes of cotton goods suited to the current wants of the trade has been fair, and although individual purchases have been small, the aggregate movement is very satisfactory. Prices have been reduced in a few makes of medium count brown and bleached goods, and Lonsdales have also been marked down ¼c. This will, it is thought, cause a decline in other makes of similar grades, which are now held at 15½@16c., but as yet no other changes have been made. Prints are fairly firm, and are selling well, the supply of desirable patterns in light work being unusually small for this season of the year. Colored cottons are unsettled, but the list of prices so far as revised is firm, while other quotations are chiefly nominal.

DOMESTIC WOOLEN GOODS.—The trade with agents has not been very spirited since our last report, as jobbers generally, though doing a fair trade, do not find it necessary to canvas the market as yet for second purchases. Light weight fancy cassimeres are selling well, while jobbers and agents hold unusually light stocks of all grades. Cloths sell fairly, but are not in very active request either with agents or jobbers. Quotations are stiffly maintained, however, and there is no apparent prospect of a break this season. Heavy weight woolens are in better demand, but the transactions remain light in consequence of the high prices at which the limited stock is held. Shawls and other light wooolen fabrics are selling freely, and prices are well sustained.

FOREIGN GOODS.—This department of the market is without notable change in any particular. Trade is fair, and in the aggregate is considerably in excess of a corresponding period last year. Dress goods of British and Continental makes are in good demand, and desirable effects are well sold up. Prices are fully maintained, and are advancing in the European markets, but no change is likely to occur here before the close of the season. The firm tone is favorable for trade, however, as buyers have more confidence in the stability of the market and purchases are liberal, though but little in excess of the current requirments of the trade. Prices are too low to admit of much profit to importers, in consequence of the competition among them, but in view of the increased sales it is thought that the result of the season's business will be fairly profitable. The same complaints of competition and low prices are made in all departments of the foreign market, but with this exception trade is in a very satisfactory condition.

The exports of dry goods for the past week, and since January 1, 1871, and the total for the same time in several previous years are shown in the following table:

Publication.

THE NEW YORK

DAILY BULLETIN,

A First-Class Daily Commercial and Financial Journal.

The BULLETIN furnishes—

1st. The most complete FINANCIAL REPORT published in any daily paper, embracing:

The daily sales and quotations of every Security dealt in at the Stock Exchange and the Mining Board.

The quotations of Securities not on the Stock Exchange list, including Southern Stocks and Bonds.

A transcript of the official register of the Gold Room, showing every quotation from the formal opening to the formal closing of the Room—published in no other paper.

A summary of the daily transactions at the SUB-TREASURY, the GOLD EXCHANGE BANK, and the CLEARING-HOUSE.

A full table of quotations of STERLING and CONTINENTAL EXCHANGE.

THE CHANGES IN THE REDEEMING AGENTS OF THE NATIONAL BANKS, AND THE OFFICIAL PERIODICAL STATEMENTS OF THE NATIONAL BANKS IN EACH STATE, as furnished by the Comptroller of the Currency—published by no other daily paper.

2d. The most accurate and the ONLY DAILY report of the DRY GOODS MARKET, including a full PRICE CURRENT of staple and domestic fabrics, which is corrected daily.

3d. A carefully prepared report on the PRODUCE MARKETS, much fuller in its details than that of any other daily journal, embracing a full Price Current semi-weekly.

4th. A daily statement of the RECEIPTS OF PRODUCE, the IMPORTS FROM FOREIGN PORTS, and the MANIFESTS OF VESSELS CLEARED AT THE CUSTOM HOUSE.

5th. Its CITY COMMERCIAL and FINANCIAL NEWS is fuller than that of any other journal.

6th. In its EDITORIAL DEPARTMENT the BULLETIN gives a fuller discussion of current commercial and financial topics than any other journal in the United States; and in this especially its influence ranks second to that of no other paper in the country.

7th. Its PRICE IS ONLY ABOUT ONE-HALF that of other leading commercial papers, and yet its information is fuller and in all respects as valuable.

THE Commercial AND Financial Chronicle

HUNT'S MERCHANTS' MAGAZINE,

A Weekly Newspaper,

REPRESENTING THE INDUSTRIAL AND COMMERCIAL INTERESTS OF THE UNITED STATES.

VOL. 12. NEW YORK, APRIL 8, 1871. NO. 302.

Advertisements.

Advertisements will be inserted at the following prices per line for each insertion:

If ordered less than 4 times			20 cents per line.
"	5 times or more		16 "
"	9 "		14 "
"	13 "		12 "
"	26 "		10 "
"	52 "		8 "

If the advertisement occupies one column or upwards, a discount of 15 per cent on these rates will be allowed.

Space is measured in agate type, 14 lines to the inch.

Advertisements will have a favorable place when first put in, but no promise of continuous insertion in the best place can be given, as all advertisers must have equal opportunities.

Paid for Losses and Expenses, less Savings, &c., during the same period	345,355 70
Return Premiums	42,670 02

The Company has the following Assets:

Cash in Bank	$76,532 85	
United States and other Stocks	417,918 33	
Loans on Stocks Drawing interest	272,540 00	
		$766,990 73
Premium Notes & Bills Receivable		175,133 84
Subscription Notes in advance of Premiums		56,000 00
Reinsurance and other Claims due the Company, estimated at		18,575 83
Total Assets		$1,016,700 40

SIX PER CENT INTEREST on the outstanding Certificates of Profits will be paid to the holders thereof, or their legal representatives, on and after TUESDAY, the 7th day of February.

FIFTY PER CENT OF THE OUTSTANDING CERTIFICATES OF THE COMPANY, OF THE ISSUE OF 1866, will be redeemed and paid in cash to the holders thereof, or their legal representatives, on and after TUESDAY, the 7th day of February, from which date interest on the portion redeemed will cease. The Certificates to be produced at the time of payment and cancelled to the extent paid.

A Dividend in Scrip of TWENTY PER CENT, is declared on the net amount of Earned Premiums for the year ending December 31st, 1870, for which Certificates will be issued on and after TUESDAY, the 4th day of April next.

By order of the Board.

FIRST MORTGAGE

Seven Per Cent Bonds

OF THE

PEORIA, PEKIN & JACKSONVILLE RAILROAD COMPANY,

Issued in sums of $500 and $1,000, redeemable July 1st 1894, with coupons for semi-annual interest, payable on the first days of January and July, in the City of New York, and secured by a Mortgage for $1,000,000 upon the Railroad, its franchises and all equipment, on the well protected basis of about $12,000 per mile.

This Road, with its 88 miles of main, and over 8 miles of side track, is completed and in successful operation between the cities of Peoria and Jacksonville, in the state of Illinois. At Peoria, the third city in the state in respect to business and population, it intersects four prominent Railroads, with connections for Chicago, Rock Island and other points North, East and West but having its principal connection with that of the Chicago, Rock Island and Pacific Company. At Jacksonville it connects with three Roads forming, with the Jacksonville Division of the Chicago and Alton Road, the shortest line between Peoria and St. Louis.

Its rental receipts from other Roads, whose trains pass over less than ten miles of its track, are $40,000 per annum, being more than one half of the amount of the annual interest on its First Mortgage Bonds, otherwise amply provided for by its existing business.

A portion of the $1,000,000 of First Mortgage Bonds, aforesaid, the high character of which for investment will be observed, are now offered for sale by

BANK RESERVES AND THREE PER CENT. CERTIFICATES.

The course of the money market is somewhat disturbed by the causes we have for some weeks been anticipating. Reports are also current that five millions of greenbacks have been locked up by certain persons who are anxious to produce stringency for speculative purposes. Whether true or not this story has had considerable moral effect; and as the deposits and reserves of the banks have declined under the influence of the usual April drain to the interior, the rates of interest have ruled higher for call loans. Time loans are but little affected, and the banks are not curtailing seriously the usual accommodations to their dealers. The perturbation is only temporary, but it has been to some extent augmented by the recent notice from the Secretary of the Treasury that in sixty days he will withdraw 5 millions more of the three per cent. certificates, which are held by the banks as part of their reserve. In making this announcement, Mr. Boutwell is acting in strict accordance with the law of July, 1870, for increasing the bank currency. The aggregate of notes has now reached $313,312,531; and the law provides that as fast as the bank notes are issued the Government three per cents. shall be called in. The first four calls up to the 31st of March covered 8½ millions. On the 30th of April 2 millions more are to be redeemed, and on the 31st of May, 3 millions, making the aggregate to that date 13½ millions. Mr. Boutwell has very judiciously made an arrangement to prevent the bank reserves from being deranged, and for that purpose he keeps the Clearing House Certificates to the old level of 20 millions. As fast as any of these Certificates are called in for redemption, he stamps other outstanding three per cents to take their place. Notwithstanding this arrangement, our New York banks have allowed their legal-tenders to run down to a lower point than for some months past.

It will be remembered, however, that the April drain to the interior always has this effect of reducing the reserve. Still, it has now fallen to a lower point than usual and its condition is awakening no small apprehension. On the 1st April the total liabilities of our Clearing House Banks were $253,713,884, while the reserve was 71 millions, or 28·09 per cent.; of which 21 per cent. was in legal tenders and 7·09 per cent. in specie. The legal tender aggregate was $53,270,543 of which about 27 millions were 3 per cent. certificates. The specie reserve was $17,975,692. The aggregate reserve is thus 8½ millions in excess of the legal minimum. Considering the important functions, which the New York reserve has to perform in the general banking system of the whole United States the public cannot without anxiety observe its reduction below 30 or 35 per cent. Hence it is of the very highest importance that the banks should replenish their reserves without delay. The reserves have always been the strong point of our banking system; and we cannot, without serious danger, allow them to be impaired.

Some time ago it was suggested in the CHRONICLE that the withdrawal of the Clearing House Certificates would probably have the effect of tempting the banks to let their reserves decline to as low a point as the law would allow. This anticipation was founded on the inveterate practice of paying interest on deposits. As these banks have to pay large sums to their depositors, they are tempted to make all their funds productive so as to earn dividends. As long as they they can gain interest on part of their reserves, the temptation is not so strong. But when the certificates cease wholly to bear interest, and the whole reserves of legal-tenders become a dead weight, we argued that the banks would be likely to hold no more than they could possibly avoid. By calling in the Clearing House Certificates, we should, therefore, weaken the reserves, and might thus sap the foundations on which rests the whole of our national banking fabric. This view of the case commended itself to Mr. Boutwell, and he has consequently applied a temporary remedy by making the arrangement which we mentioned

Digitized by Google

above, that the Clearing House Certificates shall not be suffered to fall below 20 millions. This is a partial aid so far as our Clearing House and the New York banks are concerned. Still the 1,600 banks outside this city, which have many of them been used to keep the three per cents so as to earn interest on their reserves, will find these securities more and more scarce; and we recommend Mr. Comptroller Hulburd to keep a very sharp eye upon these institutions, and to apply prompt discipline whenever defective reserves call for it. A little early vigilance will soon check the incipient evil.

NATIONAL PRODUCTION AND WORKMEN'S STRIKES.

Yesterday, at Scranton, the coal strike culminated in a riot. Five hundred ruffians, armed with muskets, clubs and revolvers, visited the coal-pit known as "Trapp's Mines" early in the morning and prevented the peaceable workmen from entering the mine to their daily labor. Three of these workmen were shot dead in cold blood by the mob, while others were beaten with stones, so that they will probably die. The rioters displayed the Irish-American flag; and having got possession of the arms of the militia companies they visited in rapid succession all the mines within reach, compelling a general stoppage of work. Of course the blame of this outrage will not be charged on the thirty thousand miners who are on strike in the disturbed district, if they exert themselves as good citizens to quell the violence of the rioters. This unfortunate outbreak is so contrary to the peaceable spirit which the miners have hitherto exhibited that they owe it to themselves and to their cause to put it down at once.

The report of the Judiciary Committee of the Pennsylvania Legislature on the Coal Strikes has disappointed expectation. Instead of inquiring primarily into the causes of the strike it devotes its chief attention to the railroads, whose place in the quarrel is very subordinate. One good object will, however, be doubtless gained in the formation of a Board of Arbitration, with power to decide in all cases of dispute, so as to protect our people from the mischiefs of which the strikes of the past two years have been prolific. There is too much disposition to take a narrow view of these strikes. They are regarded as a question simply between the masters and their hired workmen. In truth, however, these unhappy conflicts are of grave public moment, and touch the interests of all orders of the community.

It is a difficult to foresee the far-reaching effects which will be produced on the growth of industry and national wealth by the contest between capital and labor, and by the strikes thus originating among the workmen in this country and in Europe. One result which has been often pointed out is the accumulating disadvantages of small capital, and the tendency of the more opulent establishments to swallow up the poorer ones, so that instead of a multitude of diffused manufactories there are large monopolies, and concentration of workmen in the service of rich capitalists or powerful corporations. It was formerly the boast and the pride of this country that a man of small means, if he were a skilled workman and a frugal economist, could begin business for himself, with good prospects of success. And in no country in the world could a poor man of frugal industry hope to stand as good a chance in so many departments of industrial production. Now, however, this is no longer so. Large capitalists are suppressing their smaller competitors, and while the employed class are growing more numerous, the employers are every year diminishing in numbers and aggregating their wealth in larger masses. Various causes have contributed to this comminuting process by which industrial society in many branches of business during the past ten years has been disintegrated and broken down among us into the two great classes of rich and poor—capitalists and their employes.

If workmen could see how much it is to their interest to have a large number of small masters they would be less hasty in organizing the frequent strikes by which the poorer establishments are crippled and ruined. A man of small capital, when his manufactory is stopped by a strike, cannot wait events as his more affluent rival can. Notes are coming due. Taxes, rent, incidental expenses must be paid. His floating reserve is soon spent. And if he be not ruined before the end of the strike, he resumes operations with weakened nerves and crippled means and like a heavily laden ship shattered by a storm, he is very liable to founder with the next gale and needs the best seamanship to keep afloat in fair weather.

There are other effects of strikes which are of a more general character, and attract some attention in England just now. In the iron trade for example there have for years been a series of strikes which have had the effect of closing up numerous establishments, and driving thousands of the miners, puddlers, moulders and other operatives to emigrate from their old homes and to become the active agents in organizing strikes here among us in the New World. Happily in England a system of Arbitration has been established during the last two years which has had the best results. Much mischief however had been done by previous strikes and many years may perhaps be insufficient to undo the evil. A few months ago a dispute between the Yorkshire iron-men and their masters was settled by the arbitrator, Mr. Thomas Hughes, and a strike prevented. A year earlier, at the beginning of 1870, there was the same trouble. The iron masters and the various manufacturers found themselves at the verge of ruin, and were unable to take contracts because wages were unsettled, and they could not tell what the cost of production would be. No sooner was this obstacle overcome by arbitration than another formidable difficulty was started, by the persistent refusal of the men to work on Mondays, thus diminishing production by one-sixth, with little corresponding diminution in the running expenses. This refusal continues, and is producing serious losses to the weaker class of manufacturers. Now what has been the result of these feuds and protracted strife? One result has been to drive away business, and cause it to emigrate. In some cases manufacturers have closed their English factories and established others in Belgium, where labor is cheap and employers are not liable to be so heavily taxed by strikes. In more numerous instances English capitalists have entered into contracts with continental houses to execute orders for machinery and iron work of various kinds, of which England ten years ago had almost an exclusive monopoly. Street cars are at this moment running in London which were made in Copenhagen from a model got from New-York. Nor is this movement confined to narrow limits To show how it is spreading, we are told that a strike in the building trades some time ago disturbed the calculations of the committee of a new Hospital now building in London. Accordingly a contract was made in Norway for the whole of the wood work of the edifice, and even the window-sashes and frames were fitted and put together there and sent over finished and ready to be inserted in the brickwork. Another striking fact is reported from the "Black Country," as the coal and iron district of the midland counties in England is called. In this vicinity iron-works are proved on pretty good evidence to have been carried on for fully 2,000 years. An

Digitized by Google

iron bridge was wanted three or four years since to span one of the numerous canals and railroads which intersect that region. Proposals were advertised for. A multitude of estimates came in, among them several from Belgium. One of these was the lowest. It was accepted. And to-day the Belgian bridge is in daily use in the midst of this oldest iron district of England.

If some departments of the iron trade in England are suffering, and especially those in which "wages" form a chief part of the value of the product, there are other departments where England for ages to come need fear no rival in the old world. The limited supplies of coal and iron in Belgium and Continental Europe prevent much competition in the production of pig iron and rails. Belgium raises but 13 million tons of coal per annum, and her interior consumption is but 8 millions of tons. England, on the other hand, though her coal fields are much less extensive than ours, produces 107 millions of tons every year, and exports 10 millions, retaining over 90 millions of tons for home consumption. Of this it is estimated that 20 millions of tons are used for generating steam and create a power equivalent to the labor of 80 millions of men. But for this prodigious aggregate of steam power and the myriad of labor-saving machines which it works, the strikes among workmen would have crippled England more and hindered her material growth. As it is, however, the machine takes the place of the human unskilled or skilled labor, and thus a part of the prodigious waste of force caused by strikes is compensated. From what has been said we can understand how it is that while in the English iron trade the production of the expensive descriptions in which labor forms a large part of the value is decreasing, the production of pig iron has increased to 6,000,000 tons in 1870, against 4,000,000 tons in 1860. Comparatively little labor is required in making pig iron. Moreover, the large discoveries of minerals on the northeast and northwest coasts of England have given of late a new impetus to the trade. To some extent analogous causes to those which have operated on the product of pig iron have increased the supply of rails, of which England exported in the first 11 months of last year 984,949 tons, the United States taking 371,188 tons, Russia 277,765 tons, and India 146 413 tons.

From the troubles of the coal and iron production of England we may derive lessons that are suggestive and useful in respect to our own. The Pennsylvania strikes which have inflicted during the past two or three years such a heavy tax on the productive energies of this country are to be dealt with on the same principles as have almost suppressed strikes in England. The chief of these expedients is the appointment of a Board of Arbitration armed with power to examine every cause of difference which may arise between men and their employers. The Board consists of an equal number of representatives of the masters and the workmen. If they cannot settle the difficulty they appoint two umpires. These appoint a third whose decision is final. The criminal struggles and misdirected zeal of the Pennsylvania miners in the late strike will establish for us a safeguard against future trouble in a well-constituted Board of Arbitration.

REVIEW OF THE MONTH.

The month of April was marked by a decidedly easy money market throughout, a strong tone in Government securities, considerable activity in stocks, great firmness in foreign exchange, and a fair activity in the gold market, without important fluctuations. The chief influence bearing on the money market has been the fact that the Secretary of the Treasury is considered to be decidedly committed in favor of easy money during the negotiation of the new loan, as a stringent money market could not fail to seriously impede the progress of funding operations.

The city banks have shown a steady decline from week to week in their legal-tender reserve, and at their last statement, on Saturday, April 1, the figures were as follows, compared with the statement of March 4:

	March 4.	April 1.
Loans and discounts	$282,631,886	$291,082,927
Specie	24,332,207	17,975,692
Circulation	31,660,282	31,575,789
Net deposits	225,059,574	222,138,095
Legal-tenders	58,019,768	53,270,543

The excess of reserve over the 25 per cent required by law amounted to $7,817,764 April 1, against $18,172,011 on the 4th of March. The Comptroller of the Currency called for a statement of the condition of the national banks on the 18th of March, and such a statement having been rendered it is generally supposed that the banks will be more free with their funds and less careful about keeping a strong reserve. It is quite possible, however, that the Comptroller may at some time surprise the banks by making calls upon them in quick succession, in order to obtain a statement of their condition at a time when the banks least expect such a requirement to be made.

Government bonds opened strong and advancing at the beginning of March, under the stimulus of the introduction of the new loan and a very easy money market, but subsequently reacted, and declined a fraction on rather a dull business. There was much hesitation among dealers for a week or two, while the progress of the new five per cents was being closely watched, but toward the close more confidence was shown and bonds generally advanced both in this market and in London, with larger dealings in all issues, the advance of the month amounted to about 1¼ per cent on the 6s of 1881, and 2 per cent on currency 6s, while Five-Twenties closed at about the same figures, and 10-40s showed a decline of ¼ from the prices of March 1, to which they had been run up just before the opening of the loan. The prospect of a successful negotiation of the five per cents at the close of the month was generally considered good; several of the most prominent banking houses of this city had taken hold of the business with some earnestness, and it was expected that Mr. Boutwell would soon make important changes in the business details for placing the loan on the market, which would greatly assist its successful negotiation.

Railroad and miscellaneous stocks have been active, and the volume of transactions in the whole month of March was probably greater than in any one month for a long time past. Prices

Digitized by Google

advanced largely, and closed with a steady tone and confident feeling as to the future course of the market. In regard to the prices at which stocks are now selling, compared with the range at previous dates, the following comparison will be found interesting:

	Oct. 1, '70.	Jan. 3, '71.	March 1, '71.	March 31, '71.
N. Y. Central & Hud. R.	92	91¼	96¼	96⅝x
do. do. certificates.	87⅛	87½	92½	92⅝x
Lake Shore	92⅛	91⅝	97⅛	102¼
Reading	97¼	99⅝	99⅛	108
Rock Island	116	104½	109⅝	114⅝
Wabash	51⅝	49⅝	54⅛	58¼
Northwestern	82	71¼	79	89
do. preferred	88	82	90¼	97⅛
St. Paul	63¼	51	53¾	61⅝
do preferred	80⅜	72½	76	80
Ohio & Mississippi	32⅜	28	42¼	47½
Illinois Central	136½	136½	133⅝	135
Union Pacific	25½	11⅜	29	25⅛
Pacific Mail	42¼	39⅜	43¼	43¾
Western Union Telegraph	36⅝	44¼	52	53¾

From the preceding it will be seen that prices are generally much higher than they were six months or three months ago, although it is to be remembered, in considering the actual value of stocks, that the market was then without life and depressed by long dulness. Speculative transactions have been large, and have unquestionably done much to advance the prices of those leading stocks which are largely controlled by cliques.

The following table will show the opening, highest, lowest and closing prices of railway and miscellaneous stocks during the months of February and March, 1871:

	February.				March.

Gold has been comparatively steady, without much speculative activity in the market, and during the latter part of the month showed a downward tendency in consequence of the anticipation that a very large amount might be thrown upon the market by the Treasury sales of April, an expectation which was not fulfilled by the April programme of sales as subsequently announced. The demand for customs has been unusually large, the receipts at the Sub-Treasury on this account being $15,651,969 for the month. Exports of specie were also large, amounting to about $8,000,000, a part of which was reshipments of silver.

Foreign Exchange has been exceedingly firm, ranging between 109⅜ and 110 for best bankers' 60 day sterling bills. There has been no sign of weakness in the market and the fluctuation from the highest rates which have at times occurred, seemed to be nothing more than the fractional decline which naturally comes at intervals when rates are so high as to be near the specie shipping point. Leading drawers seem to anticipate continued firmness in the market, on account of the large imports of foreign goods into this country, and the comparatively small amount of government and other bonds which are going abroad this year in settlement of balances.

The following have been the quotations of Foreign Exchange:

COURSE OF FOREIGN EXCHANGE (60 DAYS) AT NEW YORK.

Days.	London. cents for 54 pence.	Paris. centimes for dollar.	Amsterdam. cents for florin.	Bremen. cents for rix daler.	Hamburg. cents for M. banco.	Berlin cents for thalers.

The Pacific Railroad bonds are all issued under the acts of July 1, 1862, and July 2, 1864; bear six per cent interest in currency, payable January 1 and July 1, and mature 30 years from their date.

ILLINOIS CENTRAL RAILROAD COMPANY.

REPORT OF THE PRESIDENT FOR THE YEAR ENDING DECEMBER 31ST, 1870.

The unusually light yield of corn in Illinois, in 1869, gave rise to serious apprehensions as to the result of the Company's operations during 1870; but the statements and reports herewith submitted exhibit a much more gratifying result than was anticipated.

During the year the lines in Iowa leased by this Company were completed, and the number of miles now in operation is 402 15-100, being about 134 miles more than were in operation at the date of my last report.

The gross earnings of the whole line were $8,678,958 22; operation expenses, $4,759,007 81; State taxes, $490,111 56; and rent of leased lines in Iowa, $572,517 05—leaving net earnings, $2,857,321 80, against $2,887,375 38 in 1869; a decrease of $30,053 58. The percentage of expenses to earnings, including State taxes, was 60 5-10 per cent, against 61¼ per cent in 1869.

The gross earnings in Illinois were $7,211,552 81, and the net $2,790,105 22, being an increase over last year of $37,349 06; and of leased lines the gross earnings were $1,467,405 41; working xpenses, $802,144 74; State taxes, $25,527 04; and rent, $572,517 05—leaving a net profit of $67,216 58.

During the year 1,623,944 tons of freight of all classes were hauled, against 1,601,972 tons in 1869; the rates for which averaged 2 81-100 cents per ton per mile, against 2 43-100 cents in 1869.

The motive power and rolling stock of the Company have been maintained in efficient order. In the maintenance and renewal of track, the expenditures amount to $1,237,290 79, and include the cost of re-rolling 7,146 6-10 tons of iron. In Illinois, 65 miles of track were relaid with re-rolled iron, and 84¼ miles, with repaired and old iron; and in Iowa 6 6-10 miles with re-rolled iron, and 20¼ miles with repaired iron.

Bridges have received thorough repairs, and of the amount charged to this account, $28,171 78 was for replacing six spans of the bridge over the Illinois river with iron. This bridge (2,888 feet long) is, with the exception of the draw, entirely of iron, with substantial stone abutments and piers.

The amount of permanent expenditures was $414,309 95, of which $195,263 33 was for construction, and $214,288 11 for equipment. Included in the construction expenditures is the cost of ballasting with stone 21 9-10 miles of track—a portion of the cost of new spans in Illinois river bridge—of new and substantial engine-house and workshops at Waterloo, and of 2 1-10 miles of new siding. Of the total amount charged for construction, $28,308 30 was expended on leased lines. The equipment has been increased by the addition of ten locomotives, three sleeping cars three mail and express cars, eight caboose cars, twenty-three house cars, two flat cars and two snow-plows.

Arrangements were perfected during the past year with the Belleville and Southern Illinois Railroad Company, by which we run through passenger and freight trains between St. Louis and Cairo; and we have also made satisfactory relations with the St Louis and Southeastern Railroad Company. Our arrangement with the St. Louis, Vandalia and Terre Haute Railroad Company for a direct route between Chicago and St. Louis, has proved to be of benefit to us. Negotiations are pending for the construction of a road between Cairo and the Mobile and Ohio Railroad, but no definite arrangement has as yet been made. The completion of the Iowa Falls and Sioux City Railroad to Sioux City enables us to compete for the trade of Dakota and the territories of the Northwest. The country west of Fort Dodge is unsettled, and until the lands adjacent to that line are disposed of and improved, the traffic will be light.

The Land Department during the past year collected $2,111,865 84, and sold 60,858 22-100 acres of land for $625,991 90, at an average of $10 28 per acre. The total expenses of the Department were $104,058 56. The lands sold averaged 54 acres to each purchaser. The amount owing to the Department at the close of the year for lands sold was $2,989,024 40. During the past year 4,120 deeds were issued, embracing 264,872 93-100 acres, which cancelled $2,018,536 of Construction Bonds. The total amount of cancelled Bonds used to the close of the year by the issue of deeds was $12,163,262. Of the original grant of land (2,595,000 acres) there had been sold at the close of the year 2,179,390 acres, of which 1,621,703 44-100 acres had been deeded and are now subject to taxation. There are 415,610 acres remaining unsold, of which 256,847 53-100 acres are located south of the Ohio and Mississippi Railroad, and being heavily timbered and not so readily brought under cultivation as the open prairie lands, they have been and are slow of sale.

The total amount paid during the year for interest on Funded Debt, Sterling Exchange, and premium on gold used to pay coupons in New York was $622,053 28. For Dividends and United States taxes thereon, $2,594,391 59. We closed the year with a balance of $1,840,090 55 in net assets; a stock of working supplies costing $749,665 56; a fund of $1,552,500 for the purchase of Construction Bonds; and with $1,414,738 Bonds in hands of Trustees in advance of deeds and collections.

The Funded Debt was reduced during the year by the purchase of $97,500 of 7 per cent Construction Bonds, and now amounts to $6,869,500, after deducting the amount set aside for the purchase of Construction Bonds.

REPORT OF THE LAND COMMISSIONER.

The cash receipts from sales of lands and collections amount to $2,111,865 84. Of this amount $1,386,329 17 is applicable to the cancellation of construction bonds, $383,221 69 to Free Land Fund, and $230,644 85 to Interest Fund. The total expenses were $104,058 56. Construction bonds to the amount of $1,248,000 have been canceled, at a cost for premiums paid of $138,807 99. Sales to 1,124 purchasers were made of 60,858 22-100 acres, for $625,991 90, the average being $10 28 per acre, and 54 acres to each settler. Cancellations of contracts were made for 18,489 05-100 acres, and 4,120 deeds were issued for 264,872 93-100 acres. Of the original grant 1,621,703 44-100 acres have been deeded, and are subject to taxation

Digitized by Google

The obligations due to the Company, and yet to mature, for lands sold, amount to $2,989,024 40 (secured on outstanding contracts for 557,686 56-100 acres), of which $2,303,218 57 belongs to Construction Fund, $512,289 11 to Free Land Fund, and $173,516 72 to Interest Fund.

Up to the close of the year $13,578,000 of the Construction Bonds of the Company had been surrendered to the trustees, and of these $12,163,262 have been finally canceled by the issue of deeds, leaving in their custody $1,414,738 as against collections made on contracts for lands not deeded.

The lands remaining unsold consist of 415,610 acres, located as follows:

ON MAIN LAND.	
South of Ohio & Mississippi Railroad	256,847.33 acres.
Between Sandoval and Decatur	59,735.71 "
Between Decatur and Dixon	12,254.45 "
Between Dixon and Dunleith	13,981.41 "
CHICAGO BRANCH.	
Between Odin and Tolono	45,579.76 acres.
Between Tolono and Chicago	27,158.34 "

GENERAL RECAPITULATION,

which shows the aggregate of all sales to December 31, 1870 (inclusive), after deducting all the cancellations:

Kind of Land.	Average Rate Per Acre.	Total Acres Sold.	Total Amount of Principal.	Total Amount of Net Cash.

Rent of cars	19,185	23,371	.....	4,186
Total	$8,746,776	$8,884,320	.....	$137,543

Showing a decrease of $137,543 27 from the earnings of 1869:

COMPARATIVE STATEMENT OF OPERATION EXPENSES FOR THE YEARS 1869 AND 1870.

	1870.	1869.	Increase in 1870.	Decrease in 1870.
Salaries	$188,946	$175,630	$13,235	.....
General expenses	261,572	257,959	3,612	.....
Claims and damages	84,998	68,501	16,496	.....
Station expenses	672,471	696,587	.....	24,115
Train expenses	1,009,431	992,749	16,681	.....
Maint'ance of machin'y.	1,150,589	1,246,478	.....	95,889
Maintenance of way	1,257,290	1,314,028	.....	56,738
Repairs of fencing	69,226	107,062	.....	37,835
Operating St. Charles Air Line	4,589	7,567	.....	2,977
Legal expenses	26,112	17,365	8,746	.....
Insurance	33,779	40,673	.....	6,894
Total	$4,759,007	$4,924,594	.....	$165,586

Showing a decrease of $165,586 39 from the expenses of 1869, and the operation expenses of an average of 1,008½ miles of road for the year.

MACHINERY DEPARTMENT.

The locomotives and cars have been thoroughly repaired, and the efficiency of the equipment maintained in all respects.

The expenditures of this department have decreased during the year.

We built during the past year eleven new first-class locomotives—one in place of the No. 21, sold. The number of locomotives now owned by the Company is 187, which were employed at the close of the year as follows: 36 on passenger trains, 110 on freights, 21 switching, and one running pay car; 19 were undergoing repairs.

Since the last report of this department the rolling stock has been increased by the addition of three new sleeping cars, three mail and express cars, eight caboose cars, 23 house cars, two flat cars, and two snow plows.

During the year we repaired thoroughly 45 locomotives and made general repairs on 42, rebuilt two passenger cars, thoroughly repaired 24, repainted 27, revarnished 84, and added new raised roofs to eight, rebuilt two baggage and mail cars, thoroughly repaired three, made general repairs of 19, repainted 28, and revarnished 33. Of freight cars we rebuilt 84, thoroughly repaired 155, made general repairs on 5,121, repainted 301, put new tin roofs on 49, and used in the repairs of cars 4,574 new wheels.

The cost of repairing passenger cars was 2 18-100 cents, and of freight cars 58-100 cents per mile run.

CHANGES IN THE REDEEMING AGENTS OF NATIONAL BANKS.

The following are the changes in the Redeeming Agents of National Banks since the 30th of March, 1871. These weekly changes are furnished by, and published in accordance with an arrangement made with the Comptroller of the Currency.

LOCATION.	NAME OF BANK.	REDEEMING AGENT.
Wisconsin—Oshkosh	The Union National Bank	The Fourth National Bank of New York, approved.
Ohio—Dayton	The Merchants' National Bank	The Fourth National Bank of New York, approved.

New National Banks.

The following is a list of national bank organized since the 30th of March, 1871:

Official No.

1,806—The Exchange National Bank of Polo, Ill. Authorized capital, $60,000; paid in capital, $30,000. R. Wagner, President; W. T. Schell, Cashier. Authorized to commence business March 31, 1871.

1,807—The First National Bank of Harrodsburg, Ky. Authorized capital, $100,000; paid in capital, $64,580. C. C. Moore, President; D. J. Curry, Cashier. Authorized to commence business March 31, 1871.

1,808—The First National Bank of Lewistown, Ill. Authorized capital, $50,000; paid in capital, $25,000. George S. King, President; Moses Turner, Cashier. Authorized to commence business April 1, 1871.

[From our own correspondent.]

LONDON, Saturday, March 25.

March is now drawing to a close, and it may be truly said that the farmers have had a most remarkable time for sowing their spring crops. There has, indeed, been an absence of these keen, cutting winds from the east which are so characteristic of the month, but the weather has been dry, and the land has been only occasionally moistened by falling showers. The seed, therefore, has been sown under very favorable circumstances, for the unprecedented severity of the mid-winter has, where sound farming is carried on, thoroughly matured the soil, while the dryness of the weather during the last few weeks has also rendered it to a fit state to receive the seed. Nothing, indeed, can be worse for the farmers than to have a wet seed time. This year, the seasons seem to be remarkably in order. We had winter at the proper time, and of an unusually severe character, and now we are enjoying a delightful spring. Vegetation is making steady but not rapid progress. The days are bright and warm, and the nights are cold, with occasional frosts, but as there is an absence of rain, these frosts are not calculated to effect much, if any, injury. In fact, so long as the rain keeps off, the pastures are not likely to become rich with herbage, or the foliage of the forests to develop itself rapidly. In this country, however, we do not expect it this month, April being the month when, with frequent showers and frequent sunshine, we expect to notice very perceptible progress in the vegetable world. I think I may unquestionably affirm that the agricultural prospect is remarkably satisfactory. Indeed, it can scarcely be otherwise, for if the severe winter has had the effect of damaging the wheat plant in cold districts, an unusual opportunity has been presented to the farmer of resowing with spring wheat or with spring corn of some description. It is greatly to be hoped that this will be a good year for the grass and turnip lands, for the droughts which have visited us during the last few years have materially diminished our food resources in the shape of beef and mutton. Both these commodities are still very dear, and there is certainly no prospect of any material abatement in the quotations.

The wheat trade during the present week has been firm, but at the same time both home and foreign buyers have operated with extreme caution. The news of an insurrection in Paris has naturally moderated the export movement to France, as it is not likely that, with the possibility of a great convulsion in that country, the trade would feel disposed to sell to French buyers except for cash. Prices, however, are maintained, and it is still the opinion that between now and harvest a further improvement will take place.

Annexed is a return showing the imports and exports of breadstuffs into and from the United Kingdom during last week, and since the commencement of the season, compared with the corresponding periods in 1869–'70:

FOR THE WEEK ENDING MARCH 18.

	1870-'71. Imports.	1870-'71. Exports.	1869-'70. Imports.	1869-'70. Exports.
Wheat.....cwt.	711,641	45,408	681,945	4,438
Barley.....	118,273	....	170,670	90
Oats.....	50,214	7,983	61,219	2,896

Indian Corn.....	290,973	7,956,314	25	667
Flour.....	110,049	2,389,299	358	20,804

The trade of the country, although showing no activity, is in a healthy state, and as the trade in spring goods is now becoming very active, both the wholesale and retail houses are likely to be very busy during the next few weeks; at the same time I question very much if the disorders in France have the unfavorable effect upon our commerce which is in many quarters attributed. France is a manufacturing country of very considerable importance, and the prints, &c., manufactured in the ceded districts have been known throughout the world for their superior texture and for the beauty of the designs. It may be contended, therefore, that the difficulties which have unfortunately overtaken the French manufacturers must have the effect of throwing a large amount of trade into our hands. Throughout the world the increase in the means of communication by the construction of railways and roads is assuming great proportions, and with this increase the requirements of the world for articles of clothing are sensibly augmented. Rather than a diminution we may, on the contrary, anticipate a steady increase, and if France should continue in a state of revolution a rapid increase in our trade. The following relates to the trade of Manchester:

A fair business has been going on in this market since Tuesday. At the end of last week prices were firm, but there was little actual business doing. The disturbances which broke out in Paris a few days since startled people, and offers which had been previously made were withdrawn. Since Tuesday, however, more confidence has prevailed. Prices are so moderate, and money remains so abundant, that buyers have not hesitated to give out considerable orders for future delivery. Producers, strengthened by the large supplies of cotton coming forward, have had the courage to add to their existing contracts at prices which they were afraid to take previously, and are now in a position to contend for extreme rates. For early delivery both spinners and manufacturers are in a position to command extreme rates, and the business done to-day has been at the full quotations of the week. A good inquiry goes on for the India and China markets, and a very trifling giving way on the part of producers would bring about a large business. The disturbances in Paris have caused a most unpleasant feeling. Still things have got to such a pass in France that they cannot probably get much worse; and, commercially speaking, the very worst results in the shape of a collapse of credit have been anticipated. The supplies of cotton coming forward continue on so large a scale that the lowest estimates of the American crop are being abandoned. Spinners buy freely to cover their contracts, but whenever the slightest excitement in the Liverpool market begins to show itself they immediately withdraw, and the cotton market becomes flat. This market is very much in the same position, except that there are no needy sellers. Buyers are prepared to give out large orders at something like existing prices, but whenever producers insist upon a decided advance they immediately withdraw from the market, and prices revert back to their former level.

Annexed is a return showing the imports and exports of cotton into and from the United Kingdom, from September 1 to March 28, compared with the corresponding period last year:

	1870-1. Imports.	1870-1. Exports.	1869-70. Imports.	1869-70. Exports.
American.....bales	1,340,751	194,417	659,582	59,229
Brazilian.....	280,591	31,053	267,482	35,127
East Indian.....	636,796	315,359	302,487	326,935
Egyptian.....	180,058	5,763	124,884	2,453
Miscellaneous.....	164,081	4,890	69,377	9,634
Total.....	2,552,207	551,442	1,923,662	433,361

All symptoms of an upward movement in the value of money have disappeared with the insurrection in Paris. The payment of the indemnity-money was expected to influence our money market to some extent, but with France in a state of chaos it would now be impossible for the Government to raise money out of the country. How or by what means Germany will be satisfied it is most difficult to foresee. The Germans will undoubtedly retain their grasp, and will not let it go until the first instalment has been paid, and until an undoubted guarantee has been given that the balance will be forthcoming. There is every probability that the stay of Germany in France will be longer than was anticipated a few weeks since. It was thought that matters would progress peaceably, and that a large amount of money would be raised to satisfy the German claims. But the prospect to-day is widely different, and the future has become more uncertain than ever. Our money market, therefore, is likely to remain extremely quiet. As the year advances its employment may increase, for the world and commerce will not stand still because party is pitted against party in France. The money which would have been ready to assist France must seek employment in other quarters, and until that is effected the supply in the London market must exceed the demand. The present quotations, including those current at this date last year are subjoined.

	1870. Per cent.	1871. Per cent.		1870. Per cent.	1871. Per cent.

In the market for Continental bills of exchange the principal feature is the difficulty of negotiating bills on Paris. The quotation for short bills has advanced from 25f 15c to 25f 30c, to 25f 30c to 25f 40c. In bills on Belgium a large business is doing.

An important scheme has been announced by the Grand Trunk Railway Company of Canada. That company is inviting subscriptions to the International Bridge Capital, which is to comprise £205,600 six per cent mortgage bonds, and £66,000 six per cent preferential stock. The interest and repayment of principal of both bonds and stock at par is secured by a payment of £20,000 a year by the Grand Trunk Railway Company, specially appropriated for that purpose by an Act of Parliament of the Dominion of Canada as part of its working expenses, and also by the tolls receivable from other railway companies, and also from all other general traffic. The object of the International Bridge Company, and for which it has the legislative sanction of the United States and the Dominion of Canada, is to construct a railway and carriage bridge across the Niagara river, for the purpose of connecting the Canadian railways converging at Fort Erie with the important system of American railways centring at Buffalo, and of facilitating at these points a more general intercommunication between the two countries. By a special Act of Congress the bridge and its approaches are declared to be a national post-road. The importance of this bridge to the railway systems of the United States and Canada cannot be over-estimated. It will practically bring into a joint working connection the following railways, viz., the Grand Trunk, the Great Western of Canada, the New York Central, the Erie and the Atlantic and Great Western and their tributaries, and thus a large proportion of the vast stream of traffic flowing East and West between the Atlantic seaboard and the Western States must pass over it. Indeed it is impossible to state the limits of the traffic that may be expected when the bridge is completed, but it may be mentioned that it is anticipated by competent authorities that it will be the means of giving to the Grand Trunk Railway an additional traffic of at least £100,000 a year. The payment from the Grand Trunk Company is to commence with the first of January, 1872. Every effort will be made to ensure the completion of the bridge at the earliest possible date, and it is confidently believed, from the progress already made in the works, that it will be ready for traffic in the early part of next year.

The amount of business doing in securities during the week has been very moderate, and those descriptions which are largely dealt in in the Paris market, and which have been partially floated

Digitized by Google

there, have been depressed. Sound English securities, however, are firm, and British railway shares continue to advance in price. The traffic receipts on all our principal railways are very satisfactory, and they show a large increase as compared with last year. The following were the highest and lowest prices of consols and the principal American securities on each day of the week:

	Monday.	Tuesday.	Wed'sy.	Thu'sy	Friday.	Sat'day
Consols	91¾-92¼	92 -92¼	92 -92¼	91¾-92¼	92 -92¼	92 -92¼
U. S. 5-20's, 1863	92 -92¼	91¾-92¼	91¾-92¼	91¾-92	92 -92¼	92 -92¼

Atlantic & G't West.						
consol'd mort. b'ds	34 -35	35 -35¼	34¾-35¼	35 -35¼	35 -35¼	26¼-37
Erie Shares ($100)	18 -18¼	18 -....	18 -	17¾-18	17¾-17¾	17¾-....
Illinois shares ($100)	110½-111	110½-110¾	110½-110¾	110¾ ...	110 -111	110 -111

Atlantic and Great Western Railway debentures are quoted at 41½ to 42½, and the reorganization stock has been dealt in at 5½ to 6 premium.

The Funded 5 per cent loan of the United States has now been advertised in the London and provincial papers for about a fortnight, but is not attracting much attention. Very few applications have, in fact, been received. In the Stock Exchange a few transactions have been effected, but at 1 to 2 discount. There are, in fact, so many sound English securities yielding a higher rate of interest that the public do not perceive anything in the loan to tempt them to invest, besides which Peruvian, Chilean, and Brazilian securities, about which no one expresses any doubts, are a much more profitable investment.

Annexed is a return showing the present position of the Bank of England, the bank rate of discount, the price of consols, the average quotation for English wheat, the price of middling upland cotton, and of No. 40 mule yarn, fair second quality, compared with the four previous years:

	1867. £	1868. £	1869. £	1870. £	1871. £
Circulation, including bank post bills	22,727,729	23,772,878	23,369,894	22,475,851	23,459,869

COMMERCIAL AND MISCELLANEOUS NEWS.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show a large increase in both dry goods, and general merchandise. The total imports amount to 11,930,286 this week, against $7,580,607 last week, and $7,383,892 the previous week. The exports are $5,525,810 this week, against $4,441,092 last week, and $5,123,187 the previous week. The exports of cotton the past week were 26,421 bales, against 19,817 bales last week. The following are the imports at New York for week ending (for dry goods) March 31, and for the week ending (for general merchandise) April 1.

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

	1868.	1869.	1870.	1871.
Dry goods	$2,067,907	$2,173,266	$2,096,115	$4,625,725
General merchandise	3,633,918	5,509,226	3,756 597	7,304,561
Total for the week	$5,701,225	$7,682,492	$5,8 2,712	$11,930,286
Previously reported	55,627,198	69,684,863	67,933,916	85,199,129
Since Jan. 1	$61,328,423	$77,367,354	$73,816.628	$97,129,415

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports, for the week ending April 4:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1868.	1869.	1870.	1871.
For the week	$4,731,689	$3,878,954	$3,109,503	$5,525,810
Previously reported	42,462,945	37,103,152	41,385,883	59,955,122
Since Jan. 1	$47,194,634	$40,982,106	$44,495,386	$65,480,932

The following will show the exports of specie from the port of New York for the week ending April 1, 1871:

March 28—Br. Grace Kelley, Maracaibo— American gold	$20,000	April 1—Str. Samaria, Liverpool— American gold	$75,000
March 29—Str. Thuringia, London— Silver bars	50,500	Silver bars	86,635
March 30—Str. Calabria, Liverpool— American gold	75,000	Gold bars	81,360
March 30—Str. Abyssinia, Liverpool— American gold	75,000	April 1—Schr. Jason, Aux Cayes— American silver	5,000
Foreign silver	10,000	April 1—Str. The Queen, Liverpool— American gold	75,000
Silver bars	121,684	April 1—Str. City of Limerick, Liverpool— British gold	39,700
April 1—Str. Hermann, Southampton—		Gold Bars	25,000
Total for the week			$742,881
Previously reported			13,389,016
Total since Jan. 1, 1871			$14,131,847
Same time in 1870	$6,582,814	Same time in 1867	6,513,641
1869	8,797,027	1866	5,368,304
1868	14,724,399	1865	4,471,834

The imports of specie at this port during the past week have been as follows:

March 27—Str. City of Mexico, Vera Cruz— Gold ore	$1,000	March 31—Str. Tybee, San Domingo— Silver	$3,684
March 30—Str. City of Limerick, Halifax— Bar gold	4,550	Gold	410
March 30—Str. Missouri, Havana— Gold	120	March 31—Str. Ocean Queen, Aspinwall— Silver	18,500
		Gold	1,365
Total for the week			$28,630
Previously reported			2,748,378
Total since January 1, 1871			$2,777,007
Same time in 1870	$5,818,954	Same time in 1868	$1,796,025
1869	4,372,055	1867	477,340

—At a meeting of the stockholders of the Portland, Saco and Portsmouth Railroad Company, on March 18th, a perpetual lease to the Eastern Railroad Company was effected on a basis of ten per cent of its estimated value. This shuts out the Boston and Maine Railroad from its old benefit of a connection, and it will now proceed to build an independent road into Portland from Berwick Junction, having already accepted the charter obtained last winter.

BANKING AND FINANCIAL.

BANKING HOUSE OF HENRY CLEWS & CO., 32 WALL ST., N. Y.

Our business is the same as an incorporated bank.

Deposit accounts can be opened with us in either Currency or Coin, subject to check without notice. Five per cent. interest will

Digitized by Google

be allowed on all daily balances. Checks upon us pass through the clearing house as if drawn upon any city bank.

We issue Circular Letters of Credit for travelers, available in all parts of the world; also Commercial Credits. We make telegraphic transfers of money to any desired point, and transac every description of foreign banking business.

We draw Bills of Exchange in sums from £1 upward on.

The Imperial Bank, and Messrs. Clews, Habicht & Co., London.

The Provincial Bank of Ireland, The National Bank of Scotland, and all their branches.

We issue Certificates of Deposit payable on demand or at fixed date, bearing interest, and available at all money centres.

Orders executed for Government and other investment securi ties; also Gold and Exchange.

Advances made on approved collaterals and against Merchan dise consigned to our care.

We make collections of Notes, Drafts, Coupons and Dividends with promptness on all points, and are fully prepared to offer banking facilities upon either currency or gold basis.

NORTON, SLAUGHTER & CO.,
WM. ALEXANDER SMITH & CO.,
HALLGARTEN & CO.,

Recommend, after a thorough investigation into the affairs of the Company, as a very safe and desirable investment, the Eight Per Cent First Mortgage Bonds of the Elizabethtown and Paducah Railroad Company of Kentucky. We are only authorized to offer a limited amount of these securities at 87½ and accrued interest The bonds offered are on the completed portion of the road, which is in successful operation.

HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH, BANKERS,
No. 5 NASSAU STREET, NEW YORK, March 27, 1871.

☞THE FIRST MORTGAGE SIX PER CENT GOLD BONDS OF THE CHESAPEAKE & OHIO RAILROAD COMPANY—of which about $6,000,000 have already been marketed—are secured upon an East and West Trunk Line of Road, 427 miles in length, the greater part of which (227 miles) is in profitable operation, and the remainder rapidly building. When completed it will estab. lish a short, economical and favorite route between tide-water navigation and the chief railroad and river cities of the West.

Beside the immense volume of through traffic between the East and West which this road can command by its superior advantages in distance, grades, fuel, and unfailing navigable connections, this road must convey enormous quantities of the superior, smelting, cannel, and bituminous coals of the Kanawha Valley, and the iron ores of Virginia and West Virginia, which are in demand at both ends of the line.

The value of the property, the certainty of a large and profitable business, the established reputation and credit of the Company, and its able and honorable management, give to these securities an assurance of superior value and safety.

They may be had in *Coupon* or *Registered* form, and in denominations of $1,000, $500 and $100.

Price, 90 and accrued interest from November 1.

We have prepared pamphlets, showing the agricultural, mineral, and manufacturing advantages of the adjacent territory, and the traffic facilities and financial prospects of the road, which will be furnished on application.

FISK & HATCH, Financial Agents.

NEW LOAN OF THE UNITED STATES.

To the Editor of the Commercial & Financial Chronicle:

SIR:—The subscription to the new 5 per cent Loan of the United States reported at the Treasury to Saturday last amounted to $50,600,000. They now amount to about $55,000,000. The same day the 1st of April schedule of the Public Debt was issued showing a reduction since March 1 in the principal of $11,011,251, and in the interest charge upon the Debt of $515,537 per annum. The following table exhibits the progress of reduction in the Public Debt and in the annual interest charge thereon since the Debt reached its maximum at the close of the War of the Rebellion:

PROGRESS OF REDUCTION OF PUBLIC DEBT OF UNITED STATES.

	Maximum War Debt, July 31, '65.	Debt at close of last Adm'n, March 1, '69.	Present Out-stand'g Debt, April 1, 1871.

	$686,612,938	$400,399,383	$372,638,294
Less currency balance	81,401,775	16,853,529	18,666,667
Net Treasury circulation	$605,211,163	$383,545,854	$353,971,627
Total principal of debt	$2,755,995,275	$2,491,399,904	$2,268,315,977
Yearly interest in gold	$64,419,628	$124,255,350	$113,714,999
Yearly interest in currency	87,412,423	2,134,200	1,621,570
Total amount of int. charge	$151,832,051	$126 389,550	$114,336,569

The results of the above exhibit are as follows:

Principal of debt, 1865	$2,755,995,275
Paid under Johnson	264,595,371
Principal March 4, 1869	$2,491,399,904
Paid under Grant	223,083,973
Present public debt	$2,268,316,931
Interest charge, 1869	151,832,051
Reduced in four years by payment and funding	25,443,551
Interest charge, 1869	$126,389,550
Reduced in two years by payment	12,052,950
Present interest charge	$114,336,569

The proposed further reduction of the annual interest charge upon the Public Debt by the funding are as follows:

By exchange of $500,000,000 U. S. 6 per cents for new 5 per cents of 1881	$5,000,000
By exchange of $300,000,000 U. S. 6 per cents for 4½ per cents of 1886	4,500,000
By exchange of $700,000,000 U. S. 6 per cents for 4 per cents of 1901	14,000,000
Total saving per annum by refunding	$23,500,000

New York, April 8, 1871. C. C. N.

UNION PACIFIC LAND-GRANT BONDS.

OFFICE OF MORTON, BLISS & CO., BANKERS,
NEW YORK, March 20, 1871.

The undersigned offer for sale the balance of the Land-Grant Bonds of the Union Pacific Railroad Company. The road has been in operation about twenty months. It is completed in all respects, and its earnings have averaged $3,000,000 per annum. These bonds bear 7 per cent interest, coupons payable April and October.

They are receivable at par in payment for the Company's lands.

The following summary of the financial condition of the Company is from the address of Colonel Thomas A. Scott to the stockholders, upon his accepting the presidency, at the annual meeting in Boston, March 8:

"Land Department.—Bonds, 7 per cent currency, $10,400,000.

"Land Sales.—292,900 acres; proceeds, $1,306,566; average price per acre $4 46.

On account of these sales the company has received and redeemed land-grant bonds to the extent of	$736,000
For the remainder the Company holds land-notes maturing in one, two and three years with accruing interest	576,650
Total	$1,312,650

"The condition of the land department may, therefore, be stated thus:

Bonds	$10,400,000
Principal reduced by bonds redeemed	$736,000
Land Notes on hand	576,650
Showing an absolute reduction	$1,312,650
The Company is entitled, under the grants from Government, after deducting total lands preempted before passage of the act to	12,080,000 acres.
From which deduct the amount heretofore sold	292,883 acres.
Leaving on hand as an asset	11,787,117 acres,

—which at an average value of two dollars per acre, being twenty per cent below the minimum Government price for adjoining lands owned by us, should yield the gross sum of $23,574,234, so much thereof as may be required to be applied to the payment on redemption of the land-grant bonds, and the balance to go into the Treasury. The average land sales amount to about $75,000 per month.

From present indications it would seem reasonable to estimate the gross receipts of the coming year at a minimum of	$9,000,000
With a cost of maintaining and operating the line on this increased earning of not exceeding say	4,500,000
Leaving as net receipts to be applied to interest and dividend, exclusive of the operations of the land department	4,500,000

"The operations of the line for the first twenty months of its existence as a completed road show net earnings sufficient to meet the interest upon its entire bonded debt.

"This result cannot but be deemed, by all practically versed in the history of new railway lines, as indicating a successful future. The yearly increase of traffic, costing but little additional to transport, and therefore yielding a large percentage of net revenue, must soon give a value to your property not readily appreciated at present.

MORTON, BLISS & CO., No. 30 Broad street.

FRIDAY EVENING, April 7, 1871.

The Money Market.—The money market has developed some peculiar features since the date of our last report, in the advance of rates on call loans, fully 1 per cent on Monday, 3d inst., and the maintenance of the higher rates until Thursday, when active business for the week virtually closed. To-day, being Good Friday, and partially observed as a holiday, there was no demand for money, and balances were left in some cases at lower interest. The extraordinary circumstance in regard to this decided advance in money, is the fact, that there has been no scarcity of funds, but an abundance offering at the higher rates; neither has there been any positive evidence that money has been "locked up" for the purpose of creating an artificial stringency. The actual cause for the change, so far as now ascertainable, seems to be found in an effort among the banks to advance the rates of interest, made simultaneously with an active shifting of loans on the street in connection with some heavy stock operations, and assisted also by the low condition of the city bank reserves, and by a general caution arising from the reports of an approaching "lock up," as noticed in our report of last week. The banks have for a long time been anxious to get better interest on their call loans, but every attempt to mark them up had been defeated by the readiness with which money was obtainable on the street at easier rates. The bulk of the week's business has been done at 6@7 per cent on stock collaterals, and 5@6 on governments. These rates, however, are generally thought to be temporary, and an easier market is looked for, as a return of currency from the interior is soon expected, and the speculative attempt to make money stringent, is said to have been abandoned for the present, on account of the apprehension that the project might be defeated by the action of Secretary Boutwell.

The last statement of the city banks, on the 1st inst., showed another decrease of $2,653,226 in the excess of reserves, the whole of that excess over 25 per cent of their liabilities being $7,817,764. A decrease was shown in every item as follows: Loans, $31,393; specie, $1,641,315; circulation, $7,609; deposits, $3,636,207; legal tenders, $1,922,865.

The following statement shows the present condition of the associated banks, compared with the same date in the last two years:

	April, 1. 1871.	April 2, 1870.	April 3, 1869.
Loans and discounts	$291,062,927	$271,700,000	$261,900,000
Specie	17,975,692	29,900,000	10,700,000
Circulation	31,575,789	33,700,000	34,500,000
Net deposits	222,186,095	206,400,000	176,300,000
Legal Tenders	56,270,543	50,000,000	48,500,000

Loans on time have been made at 6@7 per cent for different periods from 60 days to 6 months—choice grades of Commercial Paper are still in good demand, although rates are about ¼ per cent higher than last quoted, in consequence of the higher quotations of money on call.

		per cent

United States Bonds.—Government Securities have been comparatively dull without very important fluctuations in prices during the week. The Treasury programme for April was not announced until Monday, and when it was known that the purchases of bonds would be only $10,000,000 against the sale of $8,000,000 gold, there was much disappointment on the part of those who had expected some very startling and unusual operations on the part of Secretary Boutwell, in regard to his purchases of bonds. The schedule for the month is as follows:

BIDS FOR GOLD.	OFFERS OF BONDS.
Thursday, April 6—Two Millions.	Wednesday, April 5—Three Millions.
Thursday, April 13—Two Millions.	Wednesday, April 12—Two Millions.
Thursday, April 20—Two Millions.	Wednesday, April 19—Three Millions.
Thursday, April 27—Two Millions.	Wednesday, April 26—Two Millions.

It is generally considered by our best informed financial men, that the Secretary will act much more wisely in pursuing a steady course in regard to his sales of gold and purchases of bonds, and will also in the end be much more successful in placing the new five per cent loan, than if he should resort to any extraordinary measures for stimulating subscriptions, either by excessive purchases for a short time, or by creating any false impressions that the Five-Twenties will be paid, sooner than the actual situation warrants the belief that they can be. At the Treasury purchase of $3,000,000 on Wednesday, bids amounted to the large sum of $10,901,950.

The amount of subscriptions to the new loan have not been precisely given to the date of writing, but will probably aggregate about $55,000,000 by the close of the week.

The Treasury has ordered to be called in $3,000,000 additional three per cent certificates of the following denominations: $5,000 numbered from 1,100 to 1,801, and $10,000 numbered from 1,072 to 1,389 inclusive.

The following were the highest and lowest prices of leading government securities at the Board on each day of the past week:

	Saturday, April 1.	Monday, April 3.	Tuesday, April 4.	Wednesd'y April 5.	Thursday, April 6.	Friday, April 7.

Good Friday

* This is the price bid and asked, no *sale* was made at the Board.

State and Railroad Bonds.—Southern State Bonds have been tolerably active, but closed generally below the prices of last week. The slight decline which is noticeable in the bonds of several states is apparently a re-action from the advance previously made, on account of sales to realize. The Governor of Alabama has given notice that the interest due January 1st last on $2,000,000 Alabama State Bonds, issued for the Alabama and Chatanooga Railroad Company, also the interest on the first mortgage bonds of the same company, numbered from 1 to 4,000, endorsed by the State, would be paid on and after Thursday last, at the banking house of Duncan, Sherman & Co. If there are endorsed bonds numbered above 4,000 the holders of the same are requested to present them for inspection and registration. Central Pacific bonds have been firmer, closing at 95¼@95¾; Union Pacific First Mortgages, 84⅝@84¾; Land Grants, 73½@73⅝; Incomes, 69⅛@69½; and Stock, 27⅝@27½.

The following are the highest and lowest prices of the most active State Bonds at the Board on each day of the week:

	Saturday, April 1.	Monday, April 3.	Tuesday, April 4.	Wednesd'y, April 5.	Thursday, April 6.	Friday, April 7.

Good Friday

* This is the price bid and asked, no *sale* was made at the Board.

Railroad and Miscellaneous Stocks.—The stock market has, upon the whole, been strong and closes at prices 1@2 per cent higher than the lowest point of the week. On Monday there was considerable weakness shown, and prices declined materially on the appearance of a closer money market and the sales of some large blocks by the "bear" clique; but since then the tendency has been upward, and the decline has in many cases been more than recovered. On Thursday the market had a strong tone, and the prevailing sentiment seemed to favor the idea of continued high prices. There have been some indications recently, however, of the unloading of stocks at the prices now current, which are high compared with the previous range, and there is little doubt that a very considerable "short" interest has been created. The most conspicuous advance has been made in Reading, Union Pacific, Rock Island, Wabash and Ohio and Mississippi. To-day (Good Friday) was virtually observed as a holiday, and no business of consequence transacted.

The following were the highest and lowest prices of the active list of railroad and miscellaneous stocks on each day of the last week:

Good Friday

* This is the price bid and asked, no *sale* was made at the Board.

The Gold Market.—Gold has been dull with very little speculative business, and a weak tone to the market. On the announcement of the Treasury programme, the price advanced to 110⅝, as the sales of gold for April were only $8,000,000, contrary to the exaggerated reports which had been circulated that sales would be made this month of a very large amount. Those who had previously sold "short" resisted stubbornly any advance in the premium, and as there is no special influence to support the market beyond the custom and export demand, the price fell off, and the street quotation to-day (the gold room being closed) was 110¼@110⅜. Customs for the week are about $3,000,000. The bids at the Treasury sale of $2,000,000 on Thursday amounted to $5,318,000. The exports of the week will be small. Rates for carrying have ranged from "flat" to 1, 2, 3 and 4 per cent, and on Thursday 3, 2, 2½, 1½ and 1 per cent to flat.

The following table will show the course of the gold premium each day of the week past:

Foreign Exchange.—Foreign Exchange has advanced ½ on our last prices, and closes firm at 109¾@110 for 60 days sterling. There has been little doing in the market, and to-day quotations are hardly more than nominal. Commercial bills are scarce and not in sufficient supply to meet the demands of trade. Cotton bills have been making quite freely, as the exports from all ports amount to 82,375 bales, for the week, producing $5,189,625 in gold; against 66,193 bales in the same week of 1870, producing then $5,206,142 in gold, with Middling Uplands at 23c. and gold at 112.

Quotations are as follows:

The Railway Monitor.

☞ EXPLANATION OF THE STOCK AND BOND TABLES.

1. Prices of the Active Stocks and Bonds are given in the "Bankers' Gazette" *ante*; quotations of other securities will be found on the preceding page.

2. Bank and Insurance Stocks, Mining, Petroleum, City Railroad and Gas Stocks, and Southern Securities of those kinds which are least active, are all quoted either regularly or occasionally at the end of "Bankers' Gazette," on a previous page.

3. The Table of Railroad, Canal and Other Stocks, on the next page, comprises all Companies of which the stock is sold in any of the principal cities (except merely local corporations). The figures just after the name of the company indicate the No. of the CHRONICLE in which a report of the Company was last published. A star (*) indicates *leased roads*; in the dividend column x=*extra*; s=*stock or scrip*.

4. The Tables of Railroad, Canal and Other Bonds occupy in all, four pages, two of which will be published in each number. In these pages the bonds of Companies which have been consolidated are frequently given under the name of Consolidated Corporation. The date given in brackets immediately after the name of each Company, indicates the time at which the statement of its finances was made. In the "Interest Column" the abbreviations are as follows: J. & J.=January and July; F. & A.=February and August; M. & S.=March and September; A. & O. April and October; M. & N.=May and November; J. & D.=June and December Q.—J.=Quarterly, beginning with January; Q.—F.=Quarterly, beginning with February. Q.—M.=Quarterly, beginning with March.

5. The Table of State Securities will be published monthly, on the last Saturday of the month.

6. The Table of City Bonds will be published on the third Saturday of each month. The abbreviations used in this table are the same as those in the tables of railroad bonds mentioned above. The Sinking Fund or assets held by each city are given on the same line with the name.

Baltimore and Ohio Railroad.—ANNUAL REPORT FOR THE FISCAL YEAR ENDING SEPTEMBER 30, 1870.—Statement of the earnings and working expenses for the fiscal years 1868, 1869 and 1870, including the Winchester and Potomac and Washington County branches for 1868, 1869 and 1870, and the Winchester and Strasburg branch from July 1, 1870:

	1868.	1869.	1870.
Earnings	$7,558,644 51	$8,794,915 74	$8,497,728 16
Expenses.			
General expenses	70,054 73	61,913 84	74,800 00
Losses by accidents, &c	17,287 08	54,962 82	66,514 59
Expenses of transportation	1,317,388 82	1,505,218 85	1,610,962 21
Repairs of railway	1,161,513 49	1,514,479 26	1,548,695 11
Repairs of water stations	45,239 77	54,220 20	45,015 86
Repairs and construction of depots	265,406 85	263,651 43	264,057 10
Repairs of bridges	343,235 45	279,495 96	221,349 97
Repairs of telegraph lines	11,454 95	9,491 96	6,359 68
Repairs of stationary machinery	147,237 86	126,478 11	132,257 68
Watching cuts	42,685 40	44,255 40	47,549 90
Watching tunnels	1,201 75	1,740 60	2,940 15
Watching bridges	10,794 95	12,743 35	12,089 25
Pumping water	15,848 99	14,169 69	20,121 18
Repairs of locomotives	606,753 11	665,742 97	550,086 36
Repairs of passenger cars	104,695 50	117,297 40	122,832 90
Repairs of burden cars	423,089 68	556,068 92	312,496 61
Cleaning engines and cars	79,913 37	83,944 12	89,903 12
Contingent expenses of the machinery department	8,292 91	7,362 84	7,623 29
Fuel	249,802 70	253,166 38	281,571 96
Preparing fuel & filling tenders	31,491 23	32,491 26	36,230 15
	$5,054,448 73	$5,756,166 46	$5,453,460 00
Earnings more than expenses	$2,504,195 78	$2,968,809 28	$2,974,268 16
Working expenses	66 86-100 %	65 97-100 %	64 7-10 %

It is shown that the earnings, in comparison with the fiscal year 1869, have decreased $297,187 58, and the working expenses have decreased $302,646 46, making a comparative increase in the net profits of $5,458 88. Compared with the fiscal year 1868, the increase of earnings being $869,083 65, and the increase of working expenses $399,011 27, the increase of net profits amounts to $470,072 38.

The aggregate earnings, working expenses, and net results of the Main Stem, including the Winchester and Potomac and the Washington County branches; and the Winchester and Strasburg Branch, from July 1st, 1870; of the Washington Branch and Parkersburg Branch Railroads; of the Central Ohio Division for the fiscal year, and of the Lake Erie Division from July 1st, 1869, to September 30th, were, viz.:

	Earnings.	Expenses.	Deficit.	Net Earnings.
Main stem, including the Winchester and Potomac and the Washington County Branches, and the Winchester and Strasburg Branch from July 1, 1870	$8,497,728	$5,453,460	.....	$2,974,268
Washington Branch	321,814	199,128	.....	122,686
Parkersburg Branch	561,994	661,790	$99,895	.....
Central Ohio Division	842,655	774,112	.....	68,333
Lake Erie Division	696,506	419,152	.....	207,354
Total	$10,840,370	$7,507,633	.....	$3,432,632
Deduct deficit on Parkersburg Branch	.....	.....	99,895	99,895
Net result				$3,332,736

During the fiscal year, the sinking fund for the redemption of the city loan increased to $1,277,379 09, showing a gain of $75,940 27.

The balance of cash in the Treasury on September 30th, 1870, was $272,279 19, after deducting $134,965 for payment of the interest on the city loan, and on the bonds of the Company, which matured October 1st, 1870.

The liabilities of the Company, compared with the statement of September 30th, 1869, have increased, as follows:

Preferred Stock, second series, 6 per cent	$282,500
Sterling loan £800,000@$4 84 gold	3,872,000
	$4,154,500

The entire original mortgage debt incurred for construction and equipment was $11,995,166 67.

In addition to the payment of all dividends upon stock, payments have been made from the earnings of the Company in liquidation of the mortgage indebtedness of $4,519,295.

The Baltimore and Ohio Company has also advanced from its earnings for the payment of mortgage debts on the Northwestern Virginia, now the Parkersburg Branch Railroad $2,401,500

Making an aggregate of payments from the earnings of the Baltimore and Ohio Company, of mortgage debts of $6,920,795

The comprehensive policy of the Company in opening and extending the great lines which have been aided and improved or organized under its auspices, has required large investments of capital. The Board, therefore, decided to obtain a loan of £800,000, which was negotiated promptly and successfully in July last, through Messrs. Barings Brothers & Co., in London.

The following investments of capital have been made within a brief period, viz.:

In mortgage bonds of the Marietta and Cincinnati R. R. Co., as reorganized	$1,490,099 60
In mortgage bonds of the Pittsburg and Connellsville R. R. Co	1,000,000 00
In stock in Washington County Railroad	763,280 00
In stock and debt of the Winchester and Strasburg Railroad	596,663 66
In the Metropolitan Branch Railroad	800,671 40
In the Ohio River Bridges	1,414,909 70
In Parkersburg Branch, for arching tunnels	1,349,518 90
Total	$7,395,043 66

It will be observed that after deducting the entire sum received from the sale of preferred stock and the sterling loan, more than three millions of the amount thus invested were derived from the earnings of the road, in addition to which the increase of equipment, substitution of iron for wooden bridges, of steel for iron rails, the construction of double track, the erection of piers, wharves, and of extensive and costly buildings, to meet the requirements of business at various points, have all been paid from the revenues of the Company.

It will be further noted that the increased liabilities, for the past year, are $2,766,295 76 less than the aggregate of the amount heretofore paid from the earnings of the Baltimore and Ohio Company, of original mortgage debts, on the Baltimore and Ohio and Parkersburg Branch roads.

The Profit and Loss Account shows an increase for the past year of $1,013,374 72. It will be seen by this account that the surplus fund, which represents the capital invested in the various branch and connecting roads and the great improvements which have been continuously constructed on the main line, now amounts to $21,875,050 73.

It will be seen by the particulars stated in the report of the Master of Machinery, that the equipment of the Baltimore and Ohio Company, upon the Main Stem and Branches, the Lake, Erie and Central Ohio Divisions, now consists of 363 locomotives, 946 passenger and baggage cars, and 6,001 eight-wheel house, stock and other cars.

During the year, the work upon the bridges over the Ohio river has been rapidly prosecuted, and the Board have the satisfaction of stating that the great bridge which will connect the Parkersburg Branch with the Marietta and Cincinnati Road, is so near completion that its opening is looked for in January next. [Since opened.] The principal masonry for the bridge connecting the Main Stem with the Central Ohio Road at Bellaire has been constructed, and the iron superstructure is being erected. The early completion of this work is also anticipated. The expenditures for these bridges, at the close of the year, amounted to $1,414,909 70.

The construction of the road between Cumberland and Connellsville has been pressed with great vigor and rapidity. It is expected that the Pittsburg and Connellsville Road will be completed and this important work opened for the great business which awaits it, early in 1871.

In July last, the Winchester and Strasburg Road was completed. This road forms the extension of the Winchester and Potomac Road from Winchester, nineteen miles to Strasburg, in Virginia. It there connects with the Orange, Alexandria and Manassas Road, and thus opens the line through to Harrisonburg, 102 miles from Harper's Ferry. This line is destined to connect with the projected Valley Road, which is to be a part of the great interior route, passing through most fertile and extensive regions, and which promises to become ultimately the Great Trunk Line from Baltimore to New Orleans. The Baltimore and Ohio Company has invested in the Winchester and Strasburg Company, by subscription to its stock and advances, $596,663 66. A contract has been made with that Company for the lease of its road. As this contract is of a permanent character, the Articles of Agreement are appended to this report.

STATEMENT OF THE LIABILITIES AND ASSETS, SEPTEMBER 30TH, 1870.

Liabilities.

The Chicago and Northwestern Railway Company.—A statement of the business of this company for the past nine months, while showing a diminution in gross receipts of about half a million, as compared with the corresponding months of last year, exhibits at the same time a decrease of a million and a quarter in the operating expenses. The exact figures are as follows:

Gross earnings for nine months ending February 28th, 1870	$9,570,094 29
Gross earnings for nine months ending February 28th, 1871	9,033,178 06
Diminution in gross earnings	$536,916 23
Expenses for nine months ending February 28th, 1870	6,353,284 08
Expenses for nine months ending February 28th, 1871	5,086,600 99
Actual reduction in operating expenses	$1,266,683 09
Diminution in gross earnings same period	533,916 23
Net increase for nine months	$732,766 86

New York and Oswego Midland.—The annual report of the New York and Oswego Midland Railroad contains the following: The earnings of the road for the year ending September 30, 1870, as shown in our report to the State Engineer, were:

From all sources	$309,988 76
While the expenses for the same period were	167,509 24
The interest on the first mortgage bonds for the same period was	120,645 00
Leaving a net earning of	21,834 52

This is for the main line from Oswego to Sidney, and the New Berlin Branch, a distance of 147 miles. It must be remembered that the 147 miles were not operated for the whole year, but were gradually brought into use as follows: From October, 1869, to November 25th, 1869, 30 miles; November 25th, 1869, to June 15th, 1870, 100 miles; June 15th, 1870, to August 1st, 1870, 125 miles; August 1st, 1870, to September 30th, 1870, 147 miles; or 31 miles two months, 100 miles six and a half months, 125 miles one and a half months, and 147 miles two months. In order to correctly understand the business which has been developed on the line, we should take the earnings from July 1st to December 31st, 1870, during which time the whole 147 miles, with the exception of the New Berlin branch for one month, were in operation, which were $196,791 64. This is exclusively from the local freight and passenger business, and it is a fair average for the year.

The progress of the work of construction is shown by the following recapitulation:

	Miles.
Of the main line from Oswego to Middleton	223 11
There is finished and in operation	154
Nearly graded, and iron partially laid, and to be operated not later than July, from Sidney to Walton	21
One-third graded from Thompson's to Westfield Flats	27
Not under contract	30
Total	232
Of the branches	121
The New Berlin Branch and Ellenville are now in operation	29½
On the Auburn branch the iron is laid to De Ruyter	29
The Delhi branch, and from De Ruyter to Truxton, on the Auburn branch, will be ready for the iron early in the Summer	23½
Not under contract, Truxton to Auburn	30
Total	121

The equipment of the road is as follows:

Locomotives	22
Passenger coaches	17
Baggage cars	7
Baggage and smoking cars	5
Flat cars	192
Box cars	175
Stock cars	10
Coal cars	196

The finances of the company are in satisfactory condition, and it is expected that the road will be opened from New York to the State Line by the middle of August next.

The Atchison, Topeka and Santa Fe Railroad.—The St. Louis *Journal of Commerce* says, in a recent issue, that this road is in a very prosperous condition. The company's charter extends from Atchison to the western boundary line of the State of Kansas—in general direction toward Santa Fe, with a land grant of ten sections per mile. The road is in operation from Topeka to Emporia, sixty-two miles, and under contract to Florence at the mouth of Doyle Creek, forty-five miles west of Emporia. The material is on hand, at Emporia, to complete this forty-five miles, and the work is being pushed rapidly forward, and the road will be opened to that point by the 1st of May next. The gross earnings of the road for five months since the road was opened to Emporia were $168,721, and the running expenses are less than fifty per cent. One hundred stock cars have been ordered, in addition to their already liberal supply of rolling stock. This company have near Topeka 75,000 acres of the justly celebrated Pottawattamie reserved lands, which were acquired by purchase, now open to sale on five years' time, and they will have from four to five hundred thousand acres of granted lands in market by the first of March.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, April 7, 1871.

General trade is not active, and prices for leading staples are unsettled. The lower prices, (as compared with last year) now ruling for Cotton, Provisions and Tobacco, have weakened the buying capacity of the country, while importations have been large, and renewed stringency in the money market gives an additional impulse to the desire to sell. The markets are partially closed to-day.

The following is a statement of the stocks of leading articles of merchandise at dates given.

	1870.	1871.	
	April 1.	April 1.	Mar. 1.
Beef.....tcs. and bbls.	29,944	40,902	32,069
Pork.....bbls.	40,902	109,246	76,547
Tobacco, foreign.....bales.	18,439	19,433	23,482
Tobacco, domestic.....hhds.	12,563	13,645	12,779
Coffee, Rio.....bags.	15,139	37,213	11,637
Coffee, other.....bags.	18 783	13,887	17,320
Coffee, Java.....mats.	65,929	30,184	38,553
Sugar.....hhds.	66,597	26,589	30,329
Sugar.....boxes.	88,534	38,497	30,960
Sugar.....bags, etc.	344.452	206,036	366,965
Melado.....hhds.	340	3,284	1,694
Molasses.....hhds.	19,930	9,114	7,409
Molasses.....bbls.	.....	5,000	2,686
Hides.....No.	42,000	151,200	145,850
Cotton.....bales.	53,000	111,000	107,000
Rosin.....bbls.	65,600	31,015	28,400
Spirits Turpentine.....bbls.	3,811	3,047	5,014
Tar.....bbls.	25,762	11,263	10,149
Rice, E. I.....bags.	6,350	3,800	3,000
Rice, Carolina.....casks.	2,420	610	500
Gunny Cloth.....bales.	7,400	14,400	13,300
Gunny Bags.....bales.	6,700	12,000	12,100
Linseed.....bags.	138,700	98,900	111,100
Saltpetre.....bags.	4,700	16,600	16,950
Jute and Jute Butts.....bales.	9,500	13,050	18,100
Manila Hemp.....bales.	34,770	30,216	35,640

Provisions have been depressed, and in some particulars show considerable decline. The large stock of Pork shown on the first instant weakened the confidence of holders of that article while in other hog products there has been a marked absence of demand. Yesterday, 700 bbls. prime Mess Pork sold for London at $18 50 per bbl., a decline of four dollars from the highest point of the season. Prime Lard has declined to 12@12⅛c. per lb.; Bacon is down to 10⅛@10¼c. for Short Rib and Long Clear, and Hams have been drooping and unsettled. Beef is not in large stock, but is very dull. Cheese has declined under an absence of demand, and a probable early receipt of the new season's product. Butter has ruled steady, except for the poorer qualities of old.

East India goods have met with a good general demand, and prices have generally ruled firm. Metals have been quiet; a movement in Straits Tin has subsided.

Naval Stores have been irregular, and close lower, owing partly to an advance in ocean freights. Oils show no change except a further advance in Linseed Oil. Petroleum has been steady, with rather more inquiry for lots on the spot. Refined closed at 23½c.

Hides have been in more request at 24½c, gold, for prime ry Buenos Ayres; but Leather continues dull. Goat skins e met with a fair demand. Tallow has been in but de rate request, and has declined ½c, prime and choice sin g at 8¼@8⅜c.

Hops have continued in fair export demand at full prices. ay is a shade easier. Whiskey has been dull and drooping. r uits and fish very quiet at old prices.

Wool has become comparatively quiet; stocks in the hands of importers and dealers are quite small, and manufacturers are disposed to await better assortments.

Freights have been firmer for weight, owing to free shipments of grain; the Liverpool steamers were paid 7½d, and three charters to Cork for orders at 5s 6d@5s 9d; but the rate for cotton to Liverpool by steam declined to ¼@5-16d.

The market for Tobacco the past week has shown some depression, although fairly active. In Kentucky Leaf a slight decline must be quoted, with some business even below our inside quotation. The sales have been about 600 hhds., of which 250 hhds., mostly old crop, for home use, and 350 hhds. new crop in irregular parcels for export. Lugs are quoted at 5¾@6½c.; Leaf, 6¾@12c. Seed Leaf shows no new feature from last week. The principal business was in Pennsylvania new crop, of which 1,700 cases sold on private terms; 409 do fillers on private terms, and 150 cases various qualities of wrappers at 30@60c. Spanish Tobacco has been quite active, at full prices; the sales include 190 bales Havana, at 30@35c., gold, in bond; 600 do. at 85@$1, currency, duty paid. There is nothing new in manufactured Tobacco.

Exports of Leading Articles from New York.

The following table, compiled from Custom House returns, shows the exports of leading articles from the port of New York since January 1, 1871, to all the principal foreign countries, and also the totals for the last week, and since January 1. The last two lines show *total values*, including the value of all other articles besides those mentioned in the table.

ARTICLES.	Great Britain.	France.	Holland. & Belg.	Germany.	Other N. Europe.	Spain.	Other S. Europe.	China & Japan.	Australia.	Br. N. A. Colonies.	Cuba.	Hayti.	Other W. Indies.	Mexico.	British Guiana.	Brazil.	Other S. American.	All oth. Ports.	Total this week.	Total since January 1, 1871.	Same time 1870.

COTTON.

FRIDAY, P. M., April 7, 1871.

By special telegrams received by us to-night from the Southern ports, we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening April 7. From the figures thus obtained it appears that the total receipts for the seven days have reached 67,543 bales against 71,744 bales last week, 81,426 bales the previous week, and 102,484 bales three weeks since, making the total receipts since the first of September, 1870, 3,383,081 bales against 2,443,986 bales for the same period of 1869–70, showing an increase since September 1 this year of 939,095 bales. The details of the receipts for this week (as per telegraph) and the corresponding week of 1870 are as follows

RECEIPTS Rec'd this week at—	1871.	1870.	RECEIPTS Rec'd this week at—	1871.	1870.
New Orleans bales	29,293	19,726	Florida bales.	202	278
Mobile	5,101	3,592	North Carolina	603	301
Charleston	4.101	3,878	Virginia	6,919	2,456
Savannah	9,224	4,341			
Texas	6,689	4,507	Total receipts	69,832	42,490
Tennessee, &c	7,701	4,511	Increase this year	27,342	

The exports for the week ending this evening reach a total of 90,461 bales, of which 51,808 were to Great Britain, 5,935 to France and 32,718 to rest of the Continent, while the stocks as made up this evening, are now 555,208 bales. Below we give the exports and stocks for the week, and also for the corresponding week of last season, as telegraphed to us from the various ports to-night:

Week ending April 7.	Exported to— G. Brit	Contin't	Total this week.	Same w'k 1870.	Stock. 1871.	1870.
New Orleans	11,185	26,254	37,439	28,683	226,928	182,693
Mobile	7,198	2,012	9,210	10,574	54,696	50,678
Charleston		2,411	2,411	280	21,269	15,646
Savannah	[illegible]	2,775	10,814	6,049	49,081	44,382
Texas	[illegible]	2,224	10,0-6	9,336	56,184	26,579
New York	[illegible]	2,977	17,311	8,831	113,000	80,000
Other ports	[illegible]	....	3,190	2,410	34,000	35,533
Total	[illegible]	[illegible]	90,461	66,193	555,208	395,511
Total since Sept. 1	[illegible]	[illegible]	2,870,350	1604,691	....	....

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an increase in the exports this week of 24,268 bales, while the stocks to-night are 159,797 bales more than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to March 31, the latest mail dates. We do not include our telegrams to-night, as we cannot insure the accuracy or obtain the detail necessary by telegraph.

PORTS.	RECEIPTS SINCE SEPT. 1. 1870.	1869.	EXPORTED SINCE SEPT. 1 TO Great Britain	France	Other Foreign	Total.	Northern Ports.	Stock.

There has been little change in the general position of the market since our last, nothing in the tenor of either the domestic or foreign advices being calculated to have a decided influence. On the whole, however, the general tone has been slightly to the advantage of the buyer, the receipts at the Southern ports keeping up to about the previous percentage of excess over last year, while larger arrivals at Liverpool, without indications of corresponding increase of distribution, and a pretty general inclination to regulate purchases on a close calculation of actual necessities, all contributing to check an advance. The offerings also have been somewhat larger, the pretty free deliveries on matured March contracts last Friday putting considerable cotton into the hands of holders who preferred realizing at once instead of carrying the stock, though care was taken to prevent any undue pressure on a market showing a weak undertone; by this means a break in values was prevented. The official quotations have changed very slightly, but have been extreme throughout, and at almost any time purchases could be made at something under current figures, except on the very fine spinning grades, and these, if anything, were quoted too low. At one time Good Ordinary appeared to be in special favor, and the rate was advanced ¼c., while other grades remained stationary, but the call was met without much difficulty. The close on Thursday was very slow and tame, and exporters inclined to withdraw in view of the suspension of business at Liverpool, until after the Easter holidays. To-day (Good Friday) the Exchange, and most of the brokers' offices are closed, and there is no regular market. For forward delivery the movement has been moderate, and marked by much caution, both buyers and sellers evidently holding off and awaiting the development of some matter more decided influence by which an advantage could be gained. This month is about ¼c. higher, but the later months unchanged the closing sales on basis of Low Middling standing at 13¼c. for April; 13¾c. for May; 13¾c. for June; 14c. for August, and August and September together 14 3-16c. The total sales in this way for the week are 23,300 bales including 500 full on board. For immediate delivery the total sales foot up this week 15,314 bales including 12,269 for export; 2,422 for consumption; 423 for speculation; and 200 in transit. Of the above 2,775 bales were to arrive. The following are the closing quotations:

	Upland and Florida.	Mobile.	New Orleans.	Texas.
Ordinary per lb.	10¼@....	11 @....	11¼@....	11¼@....
Good Ordinary	12¼@....	12¼@....	13 @....	13¼@....

bales.	cts.
100	14 3-16
900 total August.	
For September. 100	14¼
100	14 3-16
200 total Sept.	

The sales during the week of free on board have reached 500 bales. The particulars of these sales are as below:

500 free on board at Charleston ..... p. t.

The following exchanges have been made during the week:

1-16c. paid to exchange 200 June for 200 April.
100 June for 100 April, even terms.
900 April for 900 July, even terms.

WEATHER REPORTS BY TELEGRAPH.—The weather throughout the South has been, as a general thing, very favorable the past week. At Mobile there has been no rain and the temperature has been warm and satisfactory. So also at Savannah, Augusta, Columbus, Selma, Montgomery and Galveston it has been warm and dry all the week. At Macon our correspondent states that it rained

Digitized by Google

slightly on Saturday last, but with that exception the weather has been pleasant. At Memphis and Nashville they have had one rainy day, but otherwise clear, fine weather. At Charleston it has rained two days. The thermometer at Charleston has averaged 62; at Macon, 67; at Columbus, 66; at Selma, 70; at Memphis, 63; Galveston, 66.

THE CROP.—Our reports all state that good progress is being made with the new crop. We notice that over the most of the South there are complaints that the planting has been retarded by the storms, and that the crop is late. Our correspondents, at Nashville, however state that in that vicinity they are three weeks earlier than last season, and our telegram from Galveston says that a good stand of cotton has been secured in Texas.

As to the extent of the planting, our advices do not at present indicate any decided falling off. There has been an increased acreage put under food products and much less amount of fertilizers have been used.

GUNNY BAGS, BAGGING, &C.—The market for cloth has been extremely quiet; sales are confined to jobbing lots from store; we quote the market steady, however, at 19@19½c. currency, duty paid, from store, and 12½@12⅝c. gold, in bond, to arrive. Bags are very dull, and in the absence of any business we quote nominally 16c. Manila Hemp has been in very limited demand, but is held at 9¼c. gold. Jute is dull and merely nominal at 5½@6¼c. gold. Jute Butts have also ruled quiet, but remain steady in price; sales are 400 bales in Boston and 1,000 bales here at 4c. currency, cash, to paper-makers.

MOVEMENTS OF COTTON AT THE INTERIOR PORTS.—Below we give the movements of cotton at the interior ports—receipts and shipments for the week, and stock to-night and for the corresponding week of 1870:

	Week ending Apr. 7, 1871.			Week ending Apr. 7, 1870.		
	Receipts.	Shipments	Stock.	Receipts.	Shipments.	Stock.
Augusta	2,183	2,853	21,072	1,291	2,247	19,486
Columbus	639	787	7,751	463	1,083	12,400
Macon	650	1,252	7,947	438	843	12,860
Montgomery	805	1,202	6,038	396	1,071	8,389
Selma	676	1,198	4,676	404	597	5,282
Memphis*	5,810	15,723	23,525	4,623	4,974	16,586
Nashville	1,093	1,362	6,491	894	1,202	5,274
	11,856	24,462	77,500	8,509	11,997	80,077

* A recount of stock at Memphis to-night brought to light 7,468 bales more than running count of stock.

These totals show that the interior stocks have decreased during the week 2,577 bales, notwithstanding a recount at Memphis increased the stock at that point 7,468 bales, (being now 2,577 bales less than for the same period of last year), while the aggregate receipts are 3,347 bales more, and the shipments 10,846 bales more than for the corresponding period of 1870.

VISIBLE SUPPLY OF COTTON.—The following table shows the quantity of cotton in sight at this date of each of the two past seasons:

	1871.	1870.
Stock in Liverpool.....bales.	751,000	455,000
Stock in London	72,154	59,931
Stock in Glasgow	300	400
Stock in Havre	40,170	60,690
Stock in Marseilles	4,000	8,541
Stock in Bremen	9,250	8,486
Stock rest of Continent	25,000	29,000
Afloat for Great Britain (American)	370,000	218,900
Afloat for France (American and Brazil)	21,566	40,300
Total Indian Cotton afloat for Europe	190,433	139,261
Stock in United States ports	555,208	395,511
Stock in inland towns	77,500	80,077
Total	2,116,581	1,495,199

These figures indicate an *increase* in the cotton in sight to-night of 621,382 bales compared with the same date of 1870.

The exports of cotton this week from New York show an increase since last week, the total reaching 26,421 bales, against 19,817 bales last week. Below we give our table showing the exports of cotton from New York, and their direction for each of the last four weeks; also the total exports and direction since September 1, 1870; and in the last column the total for the same period of the previous year:

Exports of Cotton (bales) from New York since Sept. 1, 1870

Of the present stock of cotton in Liverpool nearly 58 per cent is American against 49 per cent last year. Of Indian cotton the proportion is nearly 16 per cent, against 24 per cent.

LONDON, March 25.—Cotton has been in good demand throughout the week and prices have advanced ⅛c per lb. The following are the particulars of imports, deliveries and stocks:

	1869. bales.	1870. bales.	1871. bales.
Imports, January 1 to March 23	58,290	33,614	44,191
Deliveries	126,754	95,927	39,860
Stocks, March 23	76,765	59,931	72,154

HAVRE, March 24.—The stock of Cotton yesterday evening amounted to 39,556 bales, of which 20,300 bales were American and 15,620 bales were East Indian. It is estimated that 1,665 bales of American and 909 bales of East Indian Cotton were afloat to the port.

ALEXANDRIA, March 10.—Business is very quiet, and prices are irregular. Fair to fully fair Cotton is quoted at 7¼d@7⅜d per lb., free on board. Annexed is the statement of shipments:

From	Great Britain. bales.	Continent. bales.	Total. bales.
Nov. 1, 1870, to Mar. 9, 1871	130,092	34,518	164,612
Same period, 1868–69	108,055	32,967	141,020
Same period, 1867–68	108,840	36,290	145,130
Same period, 1866–67	117,320	33,858	151,178

BREADSTUFFS.

FRIDAY P. M., April 7, 1871.

The market the past week has been fairly active, but under more liberal supplies and an increased desire to realize, prices are lower in most cases, although there are some exceptions produced by speculation. The Erie Canal will be opened for the season on the 24th of April.

The receipts of Flour have shown some increase, while the demand has been very moderate, whether for export or home use. The orders for Europe have been at reduced prices, rarely over $6 55@6 60 for fair to good extras, and the business to the British Provinces has been largely diverted to Corn Meal, which is much cheaper than last year, while Flour is higher; still, in view of the relative dearness of wheat, holders do not press sales, and prices at the close are somewhat nominal. To-day's market was very quiet.

The wheat market has been barely supported by firm Liverpool accounts. There has been a decided advance in Ocean freights. There is much speculative confidence in the article; many "outside" parties have been operating for a rise; but shippers have bought sparingly, and millers have rarely taken anything besides irregular parcels and car lots. Receipts of Winter Wheat have increased, and prices are lower. Yesterday, on an advance reported from Liverpool, parties from Wall street took about 50,000 bushels on speculation—$1 58 being paid for prime No. 2 in store—and to-day's market, prices were not so firm—No 2 Spring sold at $1 57@1 58 in store, and Amber Winter $1 63, afloat.

Corn has arrived freely, and shippers being embarrassed by the scarcity and higher rates of ocean freights, a concession has been necessary to meet their views. New Mixed Western sold largely yesterday and to-day, at 80@80½c, and Yellow Western and Southern at 81@82c., at which the market closed steady.

Rye has been dull and Barley shows a decline. Oats have been the subject of a speculative movement, which carried up prices 2c., but a portion of this advance has since been lost.

The following are the closing quotations:

Flour—		Wheat, Spring, bush	$1 45@1 61
Superfine	$ bbl. $6 00@6 40	Red Winter	....@....
Extra State	6 55@6 75	Amber do	1 62@1 65
Extra Western, common	6 50@6 80	White	1 65@1 65
Extra and double extra Western & St. Louis	6 85@9 00	White California	1 75@1 85
Southern shipp'g extras	6 75@7 25	Corn, Western Mix'd	79@ 80½
Southern, trade and family brands	7 50@9 25	Yellow, new	81@ 82
Rye Flour, super & extra	5 85@6 40	White	81@ 88
Corn Meal, Western and Southern	3 75@4 45	Rye	1 10@1 18
		Oats	65@ 71
		Barley	85@1 15
		Malt	1 00@1 20
		Peas, Canada	1 20@1 50

The movement in breadstuffs at this market has been as follows:

GROCERIES.

FRIDAY EVENING, April 7, 1871.

The entire market has been dull throughout the week and few if any really new features are developed. Supplies show no important increase and holders generally are inclined to remain pretty steady at about former figures, but on all goods an attempt to realize would necessiate somewhat of a modification in values in the absence of an open outlet. Buyers when they appear have their wants thoroughly calculated and in no case take more goods than they can use to immediate advantage, no inducements of low cost or fine assortments appear to have the least effect to increase the demand. The wants of the country are either reduced, or buyers have adopted and are adhering to a policy of the most rigid economy.

The entries direct for consumption, and the withdrawals from bond, showing together the total thrown on the market for the week, were as follows:

Tea, black....	21,290 pkgs.	Laguayra ..	296 bags.	Sugar, Brazil.	bags.
Green.....	6,968 pkgs.	Other.....	3,554 bags.	Manila, &c..	27,502 bags.
Japan.....	2,687 pkgs.	Sugar, Cuba..	4,263 bxes.	M'las'es, Cuba	4,091 hhds.
Various.....	2,288 pkgs.	Cuba.....	6,828 hhds.	Porto Rico.	418 hhds.
Coffee Rio....	7,978 bags.	Porto Rico	824 hhds.	Demerara..	25 hhds.
Java.....	1,277 mats.	Other.....	1,091 hhds.	Other.....	186 hhds.
Maracaibo..	1,125 bags.		*Hhds. include bbls. and tcs. reduced		

Imports this week at this port have included 18,022 bags of Rio Coffee, 6,709 do. of Laguayra, and 1,277 do. of sundry kinds. The receipts of Sugar include 13,694 boxes and 4,701 hhds. In Tea there has been a single arrival of 224,831 pounds of Blacks.

The stocks in New York at date, and imports at the five leading ports since Jan. 1, 1871, are as follows:

	Stocks in New York at date.		Imports at leading ports since January 1.

TEA.

Business in a general way has contined slow and uncertain, and the market without improvement; indeed, in some instances prices are a trifle easier. There has been a fair amount of negotiation, and this encouraged importers somewhat, but buyers and sellers could not get near enough together to effect any large sales, and the stocks have suffered little decrease. The grade most in favor was a choice quality of Green, and if any distinction is to be made this rules firmest, while Japans appear to be suffering the greatest depression. Among the jobbers there has been a slight movement, but of a spasmodic, uncertain character, and confined mainly to parcels required for the immediate necessities of buyers. Sales of 2,200 Greens, 11,300 Oolongs, and 800 Japans.

The imports this week consist of a single arrival of 224,831 pounds of Black Tea, per brig "Belle," from Amoy.

The following table shows the imports of Tea into the United States (not including San Francisco), from January 1 to date, in 1871 and 1870:

	Black.	Green.	Japan.	Total.
1871.....	6,854,400	10,078,970	4,389,274	21,322,644
1870.....	8,396,570	7,462,318	2,402,911	18,761,794

The indirect importations, including receipts by Pacific Mail steamers via Aspinwall, have been 8,495 pkgs. since January 1, against 12,864 last year.

COFFEE.

The market has undergone no very decided change since our last review, the same dull, flat and doubtful tone prevailing, and values on all grades proving little better than nominal. Jobbers receive no encouragement whatever from the interior, and of course in the absence of a distributive outlet, will not handle invoices, and business has came to an almost complete stand. The indifference of buyers is again attributed to the expectations of a removal of duty, and until the pending bill is finally disposed of by the Senate, this will undoubtedly serve to retard the movement, but aside from this influence, the cautious feeling which been growing among consumers for months past keeps all operations down to an aggregate of the most positive necessities. For Brazils, importers consider the market as decidedly in their favor, were there any life at all, but the almost complete withdrawal of even bids largely counteracts all other influences, and the tone has been tame throughout. A few holders have also shown some anxiety to realize, the dullness having the usual discouraging effect, and on the upper qualities of which the bulk of the stock is composed, prices are somewhat modified. The general accumulation is small, not only here, but along the seaboard, and receiving few additions. On the East and West India grades pretty much the same condition of affairs prevails, buyers seldom appearing and never calling for more than the ordinary job lots required for current necessities, while values are weak and have recently been modified sufficiently to warrant a general reduction in quotations. Sales of 1,820 bags Rio, 300 bags Costa Rica, and 200 bags Maracaibo. At Baltimore, 4,000 bags Rio, and at Hampton Roads to go to Baltimore, 6,000 bags Rio.

Imports this week have included 14,522 bags of Rio, per steamer "Halley," 3,500 do. Santos, per "O. Blanchard." Of other kinds the imports are 6,709 bags of Laguayra, per "Thomas Dallett" and "Jennie," and 1,277 do. sundry, mostly per steamer from Aspinwall.

The stock of Rio April 6, and the imports since Jan. 1, 1871, are as follows:

In Bags.	New York.	Philadelphia.	Baltimore.	New Orleans.	Savan. & Mobile.	Galveston.	Total.
Stock.....	55,234	3,668	34,000	9,349	8,641	....	110,892

SUGAR.

The aggregate of business foots up smaller on Raws than for two or three weeks past, and the market during the greater portion of the period under review has shown quite a dull tone. Grocers, as usual, were very moderate operators, and refiners largely withdrew owing to slow sale and declining value of their product, as well as the fact that in nearly all cases they were owners of fair supplies from previous purchases. Prices naturally under the circumstances were without buoyancy, and it is not improbable that in view of the dullness some slight concessions were allowed, though as a rule holders have refrained entirely from pressure, and express a very confident feeling. The stocks are small, and the additions comparatively few, and with the increased export duty now going into effect upon the island of Cuba, the cost it is claimed will be so increased as to make any reduction of prices an impossibility, except at a loss. It is also thought that the quiet feeling now prevailing on refined goods is merely the natural lull after the first spring rush, and that a steady demand will soon set in and enable refiners to keep sold up closely to production. It is hardly possible, however, that buyers will be any less cautious in handling Sugars than on other articles of merchandize, and purchases to the extent of positive wants and no more seem to be in order, especially as freight charges from this point are still somewhat costly. Refined have continued plenty, the demand moderate, and prices easy on most grades, as producers preferred realizing to allowing stocks to accumulate. Sales of 1,978 hhds Cuba; 350 hhds Porto Rico; 296 hhds Demerara; 104 hhds New Orleans; and 4,192 boxes Havana.

Imports at New York, and stock in first hands, April 6, were as follows:

MOLASSES.

Buyers as a rule are still disposed to make a close calculation upon actual wants before appearing in the market, and as the jobbing distribution and general consumption is not brisk the demand has been rather slow and uncertain. Still, in the absence of direct receipts of any magnitude, refiners have been obliged to buy and wanting only first-class stock, all high testing cargoes have shown much strength on values, with some sales made amounting to a virtual advance. Other qualities of foreign however were in ample supply for the comparatively moderate outlet and have been frequently shaded a trifle in order to quicken business. As a whole the market may be called moderately active and steady, but not possessed of any great amount of strength. Domestic has been in a very unsettled condition but the turn largely in buyers favor and materially reduced bids willingly accepted. The stock is not only ample but excessive and some lots failing for want of an outlet, which induces holders to urge business, but consumers themselves are well stocked and have handled so much New Orleans molasses this season that they are quite unwilling to purchase except for positive wants. Syrups are dull and plenty but the stock not increasing rapidly as there is no margin on

Digitized by Google

the present production. Sugar House molasses plenty, dull and heavy. Sales of 628 hhds. Cuba muscovado; 900 hhds. Cuba clayed; 555 hhds. Porto Rico; 200 hhds. English Island, etc.; and 555 bbls. New Orleans.

The receipts at New York, and stock in first hands, April 6, were as follows:

*Including tierces and barrels reduced to hhds.

SPICES.

For invoices the market has continued comparatively quiet, a little business recently transacted not being general enough to have any decided effect upon the position, and jobbers only taking goods where they were pretty sure of an early re-sale. Importers and all holders of the large parcels, however, remain firm and in a confident mood, advices recently at hand from abroad being construed as stimulating in their bearing upon our market. This is probably the most decided on Pepper and Nutmegs, though of the latter some very fair purchases have been made for shipment hither. Some of the jobbers report a slight improvement in business, and though buyers are evidently working cautiously hopes are entertained of an early increase of the distribution on all goods.

FRUITS, &c.

The market for Foreign Dried continues without improvement; jobbers appear to be pretty well stocked for the present, and buy only such lots as are necessary to keep up assortments. Layer Raisins sell in a small way at $2 75 per box, at which price they are held pretty confidently, but cannot be sold in lots. Turkish Prunes are lower and still favor the buyer, with many sellers and few buyers. Currants are also a shade easier, with a full supply on the market. Sardines have met with a moderate sale, but with sellers rather willing to dispose of stock, prices have favored buyers, and the close was quiet and not very steady. Citron, with a small supply, is held confidently at former quoted rates. Almonds meet with a fair demand, but all other kinds of nuts rule very quiet. Fire Crackers are firm but rather less active than at the date of our last report.

In Green Foreign Fruit the market has been less active, but prices remain steady. The offerings of Mediterranean at auction have been less liberal, but the trade have had to store a good part of their purchases, as the demand has materially diminished; prices, however, rule about as quoted in our last. At the auction sale Thursday, Sorrento Oranges sold at $2 15@2 80 per box do; Lemons, $3@3 80; Messina Oranges, $2 50@3 15 per box; do Lemons, $3 60@3 65; Palermo Oranges, in poor order, $1 20@1 80, and do Lemons, $3 30@3 40. West India kinds have come in more freely, but meet with a good demand, and were pretty steady in price. Baracoa Bananas have sold at $1, $1 25, $1 87½, $150, $2 and $2 25 per bunch for lots. Baracoa Cocoanuts have sold quite largely at $38 per thousand, Porto Rico Oranges at $8 per bbl, and Havana do at $9. Carthagena Cocoanuts sell at $50@55 per thousand.

Domestic Dried are very quiet; we do not hear of a movement in any kind worth mentioning. Apples are heavy, but at a decline of about ¼c. we think there would be a good trade; holders are not inclined at present to accept the bids of buyers, but the advantage seems to be decidedly in the favor of bidders. The best parcel Peaches can be sold in small lots, but the high price at which they rule, compared with most foreign fruits, makes them very little inquired after. There has been no movement in Blackberries, which are without further sales reported; they are nominally firm for lots. Pitted Cherries and Raspberries have met with a light demand, and are steady in price. Peanuts have been quite dull all this week; the large business in Oranges and Lemons interferes with their sale, perhaps, as much as with any other article in the fruit line.

The demand for Green Apples is confined to the wants of the city and Southern trade, and neither are buyers to any extent. The best sell at $4@4 50 per bbl, and from that down to $2 for poor. Cranberries of the choicest kinds sell slowly, but any other kinds are dull, selling at $3@3 25 for extra, and $1 75@2 25 for fair to good.

ADVICES FROM PRODUCING MARKETS.

Tea.—The *London and China Telegraph* of a recent date has an article upon the outlook for the tea season of 1871-'72, from which we extract, "The success of the Suez Canal being now thoroughly demonstrated, the supplies from China will be poured in faster than hitherto, and it becomes more than ever necessary to prepare for holding stocks. * * * * The number of steamers which will be in China waters about May will be probably not under thirty, the competition for freight will certainly be very great, and the rates probably very low; but even low freights have little appreciable effect upon the profit or loss on tea, as 15s. per ton is but ¼d. per lb. The tendency of consumption seems very decidedly in an increase of middling to fine, to the extinction of the low and common grades." The loss of the Russian trade is then referred to, and said to be now carried on through Odessa, the increase of Indian and Java teas is noted, as well as the decrease in the consumption of Green teas, which description, it is said, will soon be unknown in the London market.

The following shows the quantity of Tea afloat for the United States at latest dates (not including San Francisco), and which has not yet arrived:

Rio Coffee.—The market report of Messrs. Boje & Co., bearing date of March 6th, gives a review of the market for the fortnight previous, during which time there had been an active demand, and holders had in nearly all transactions obtained higher prices. The coffees on offer were of decidedly inferior kinds, and amounted in stock to about 100,000 bags, the daily arrivals having averaged about 10,000 bags per diem. The report that the 1871-'72 crop would be a short one, was gaining more credence, though it was too early to form a reliable estimate of the expected yield. At the close there were transactions of 30,000 bags at still higher prices, and a very strong and advancing market was reported.

Java Coffee and Sugar.—From Messrs. Dummler & Co's Market Report of February 2, we learn the state of the Java markets:

Coffee—Shipments to the United States for 1870 were apparently some 10,000 piculs short of the previous year, which was partially balanced by the fact that a portion of the Government September sale had not been shipped up to December 31. Without this the discrepancy would amount to only a few thousand piculs; however, the crop of 1870 is slightly below 1868 and 1869, but over the average of the last ten years. Looking to this years' product a decrease of fully one-third is expected as compared with 1870, caused chiefly by the damage done by the severe rains during the early growth of the present season's supply. During January, 1871, a brisk demand existed, and good ordinary Java was held latterly at ƒ33, while ƒ37 was refused for some 3,000 piculs of December's sale. The Government will sell during 1871 100,000 piculs Java, an increase of 50,000 over 1870.

Sugar—The first effect of the European war was a decline in the sugar market, but prices soon recovered under the influence of fears of a short beet-root crop in both France and Germany. At this turn in the market, prices were about ƒ15 25@ƒ15 75 for American descriptions, and continued to advance upon a reported large decrease in the Mauritius sugar crop. During January, 1871, several sales of ready sugars took place at from ƒ16@ƒ17 25, while contracts for delivery from the new crop ranged from ƒ15@16. Offers now stand of ƒ15 75 on delivery, and about 600,000 or 700,000 piculs have been closed. Planters here have refused to contract at this. There seems never to have existed so great a demand so early in the season. The Government will sell during this year 600,000 piculs, an increase of 150,000 over last year.

THE DRY GOODS TRADE.

FRIDAY, P. M., April 7, 1871.

The first two days of the current week were moderately active with wholesale dry goods dealers, but the subsequent trade has been light in all departments, and the aggregate shows very little improvement as compared with previous weeks. The large buyers who were in the market during the previous week had nearly all completed their purchases and returned home, and the sales effected this week have been chiefly to the representatives of the smaller trade and on mail orders to replenish broken assortments in the interior. Later in the week there has been a more active demand from near-by dealers, and the small houses have been doing more business. The trade is well distributed through all the departments, and no very heavy jobbing sales are reported in any line. The aggregate, however, is considerably in excess of that of a like period last year, and is generally satisfactory. An important feature of the market, since our last review, has been the adoption of the old terms of sale on domestics—nett 30, 1 off 10 days—by a leading jobbing house here, instead of the terms adopted at the close of the war—1 off 30, 2 off 10 days. As yet only this house has changed its terms, but jobbers generally approve of the system, we understand, while commission men also favor its adoption, and we presume it will shortly become popular.

DOMESTIC COTTON GOODS.—The market for cottons remains about as last reported, the only important changes since our last review being a decline of ¼c in several makes of low grades of brown and bleached cottons, and an advance to 10½c on the several makes of prints recently marked down from that price to 10c. Sprague's are still held at 10c, with the exception of one or two new styles. The demand for domestics suited to the current trade has been fair, and the sales are relatively greater than those in other departments. The revision of prices has been so far completed as to give firmness to quotations, and buyers are taking fair amounts with apparent confidence. Light prints sell freely and continue in short supply. The advance in cloths has strengthened the market for prints, and the movements are more liberal. In colored cottons there are no important changes to report.

DOMESTIC WOOLEN GOODS.—The firmness of the wool market has given a better tone to goods, and although the season for the sale of heavy weights from first-hands is drawing to a close, the market continues very firm and no concessions are offered except to close out undesirable styles. The jobbing movement is fair and improves gradually both in cassimeres and faced goods. Coatings are in good request and the most popular styles of cheviots, diagnals and mixtures are sold close to the supply. There is a better inquiry for heavy weights from clothiers and other early buyers, but the high prices at which the stocks are held prevent any heavy speculative purchases.

FOREIGN GOODS.—The market has not been very active in first hands during the past week, but fair sales have been effected of most fabrics, and the trade is still reported satisfactory. Jobbers have been doing a moderately active business in fabrics suited to the current requirements of the trade, but the occurrence of two Jewish holidays has had considerable effect upon the retail distribution, and the trade has not been very greatly in excess of that of the preceding week. Stocks of all classes of goods are held with firmness, at full prices, and the light stocks in hand and to arrive preclude the probability of a decline in prices.

The exports of dry goods for the past week, and since January 1, 1871, and the total for the same time in several previous years are shown in the following table:

	FROM NEW YORK.				FROM BOSTON
	Domestics.		Dry Goods.		Domestics.

Bankers and Brokers

SPENCERIAN

STEEL PENS,

Manufactured by the Original Inventor of Steel Pens.

THE CELEBRATED durability and perfection of action of these Pens are owing to a peculiar process of Carbonizing, and to the great care taken in their manufacture by the most skilled and experienced workmen in Europe.

They are a nearer approximation to the real **SWAN QUILL** than anything hitherto invented.

For sale by Dealers generally.

☞ **SAMPLE CARD**, containing all the **14 Numbers**, artistically arranged and securely inclosed, sent by mail on receipt of **25 Cents.**

1st. The most complete FINANCIAL REPORT published in any daily paper, embracing:

The daily sales and quotations of every Security dealt in at the Stock Exchange and the Mining Board.

The quotations of Securities not on the Stock Exchange list, including Southern Stocks and Bonds.

A transcript of the official register of the Gold Room, showing every quotation from the formal opening to the formal closing of the Room—published in no other paper.

A summary of the daily transactions at the SUB-TREASURY, the GOLD EXCHANGE BANK, and the CLEARING-HOUSE.

A full table of quotations of STERLING and CONTINENTAL EXCHANGE.

THE CHANGES IN THE REDEEMING AGENTS OF THE NATIONAL BANKS, AND THE OFFICIAL PERIODICAL STATEMENTS OF THE NATIONAL BANKS IN EACH STATE, as furnished by the Comptroller of the Currency—published by no other daily paper.

2d. The most accurate and the ONLY DAILY report of the DRY GOODS MARKET, including a full PRICE CURRENT of staple and domestic fabrics, which is corrected daily.

3d. A carefully prepared report on the PRODUCE MARKETS, much fuller in its details than that of any other daily journal, embracing a full Price Current semi-weekly.

4th. A daily statement of the RECEIPTS OF PRODUCE, the IMPORTS FROM FOREIGN PORTS, and the MANIFESTS OF VESSELS CLEARED AT THE CUSTOM HOUSE.

5th. Its CITY COMMERCIAL and FINANCIAL NEWS is fuller than that of any other journal.

6th. In its EDITORIAL DEPARTMENT the BULLETIN gives a fuller discussion of current commercial and financial topics than any other journal in the United States; and in this especially its influence ranks second to that of no other paper in the country.

7th. Its PRICE IS ONLY ABOUT ONE-HALF that of other leading commercial papers, and yet its information is fuller and in all respects as valuable.

N. Y. DAILY BULLETIN ASSOCIATION,
79 & 81 William St., New York.
P. O. BOX 3,906.

PRICE $8 00 PER ANNUM.

THE Commercial AND Financial Chronicle

HUNT'S MERCHANTS' MAGAZINE,

A Weekly Newspaper,

REPRESENTING THE INDUSTRIAL AND COMMERCIAL INTERESTS OF THE UNITED STATES.

VOL. 12. NEW YORK, APRIL 15, 1871. NO. 303.

Advertisements.

Advertisements will be inserted at the following prices per line for each insertion:

It ordered less than 4 times			20 cents per line.
"	5 times or more		16 "
"	9	"	14 "
"	13	"	12 "
"	26	"	10 "
"	52	"	8 "

If the advertisement occupies one column or upwards, a discount of 15 per cent on these rates will be allowed.

Space is measured in agate type, 14 lines to the inch.

Advertisements will have a favorable place when first put in, but no promise of continuous insertion in the best place can be given, as all advertisers must have equal opportunities.

UNITED STATES DISTRICT COURT.

In the matter of ABRAHAM BININGER and ABRAHAM B. CLARKE, Bankrupts.

Notice is hereby given that the undersigned, as Assignee of the above-named bankrupts, will sell at public auction, at the Merchant Exchange Salesroom, No. 111 Broadway, in the City of New York, on the 17th day of May, 1871, at 12 o'clock at noon, by E. H. Ludlow & Co., auctioneers, two parcels of land adjoining each other, situate partly in Spottsylvania County, Virginia, and partly in Orange County, Virginia, containing together seven hundred and seven acres of land, known as the Vaucluse Gold Mining property, together with the mines, minerals, metals and metallic substances, buildings, improvements, fixtures, and appurtenances thereto belonging, including two steam engines, and all other mining machinery and utensils used in the mining operations now, or recently, carried on at the said Vaucluse mine. &c.

The sale will be subject to confirmation by the Court.

Detailed description of the property, and an inventory of the improvements, fixtures, &c., may be had upon application to the undersigned, or to his attorneys, Messrs. BANGS, SEDGWICK & NORTH, No. 137 Broadway, or to the Auctioneers.

OUR YEAR BOOK FOR 1871.

On the first of May we shall issue our Year Book, making a volume of about 500 pages, furnishing the most complete ANNUAL OF COMMERCIAL AND FINANCIAL INFORMATION ever issued in the United States.

It is published of the same size and shape as the past volumes of "HUNT'S MERCHANTS' MAGAZINE," and is designed to supply a compact volume, which will perpetuate annually all the important and useful statistics heretofore recorded in the pages of the magazine.

The following is a brief statement of the contents of this valuable work:

STEEL PLATE ENGRAVING OF HIRAM WALBRIDGE.

CHAPTER I.—FINANCIAL REVIEW FOR 1870.

National Progress in Wealth; Report of the Secretary of the Treasury; Report of the Treasurer of the United States; Report of Commissioner of Internal Revenue; Internal Revenue; Internal Revenue Receipts for Three Years; Daily Price of Gold for Nine Years; Treasure Movement at New York for Twelve Years; Treasure Movement at San Francisco; Prices of Government Securities for Two Years; Course of the New York Stock Exchange, Five Years; Foreign Exchange Weekly, Four Years; Debt of the United States in Detail, with Acts; Director of the Mints' Report; Gold and Silver Coins in Different Countries; Receipts and Disbursements of United States since 1791; American Shipping and Foreign Commerce; Purchases by Government of United States Bonds.

CHAPTER II.—DEBT AND FINANCES OF EACH OF THE UNITED STATES.

General Review of the States Financially; Debt and Finances of Tennessee, Georgia, New York, New Jersey, Maine, New Hampshire, Massachuse ts, Ohio, Maryland, North Carolina, Missouri, Kentucky, Connecticut, Minnesota, Vermont, Illinois, Rhode Island, Michigan, Pennsylvania, Mississippi, Alabama, Indiana, Louisiana, South Carolina, Virginia, Florida, California, Arkansas, Delaware, Nevada, Oregon, and Texas; Detailed Statement of State Bonds; Detailed Statement of City Bonds and Debts.

CHAPTER III.—BANKING.

The National Banking System; Comptroller of the Currency's Report; Totals of Quarterly Reports since 1863; New York Savings Banks; Clearing House Banks Three Years; European Money Markets.

CHAPTER IV.—RAILROADS.

Review of Railroad Progress in Europe and America for 1870; New York Railroads; Ohio Railroads; Massachusetts Railroads; Railroad Bonds in Detail; Railroad Stocks in Detail.

CHAPTER V.—POPULATION, ETC.—EUROPE AND AMERICA.

European Progress in Wealth and Population; British Income Tax; France; Income and Resources; European Armies and Navies; Germany; Immigration into the United States for Fifty-one Years; Census of the United States.

CHAPTER VI.—TRADE AND COMMERCE.

Review of the Year 1870; Mercantile Failures; Prices of Merchandise; New York, Foreign Trade of, for 1870; Statistics of Commerce and Navigation; Trade of the United States with Great Britain; Imports into the United States, Cereals.

CHAPTER VII.—COTTON.

Review of 1870 and Prospects for 1871; Crop of 1869-70; Crop of Cotton each Year since 1821; Weekly Receipts for Five Years; Manufacturers' Association Report for 1869-70; Average Factory Wages; Consumption in Europe.

CHAPTER VIII.—COMMERCIAL REPORTS.

Breadstuffs, Tobacco, Coal, Petroleum, Iron.

CHAPTER IX.—ACTS OF CONGRESS—A COMPLETE LIST.

CHAPTER X.—BIOGRAPHICAL.

Hiram Walbridge, Robert L. Maitland, Joseph Wesley Harper, James De Peyster Ogden, Henry A. Wilmerding, Abraham M. Bininger.

Price, $5; on receipt of which sum it will be mailed free of postage to any part of the United States or Canada.

WILLIAM B. DANA & CO., Publishers,
79 and 81 William Street, New York.

THE PUBLIC CREDIT AND THE APPRECIATION OF THE CURRENCY.

The quietude of the money market is being restored, and as the return flow of currency is setting in this way there is a fair prospect that permanent ease would supervene if the disturbing forces which caused the late stringency had not been in part artificial. But as there has been some locking up of currency, and as the tight money men have not accomplished much by their manoeuvres, there is some fear lest this clique of speculators may make another desperate effort to accomplish their purposes. The heavy engagement for shipping gold by the European steamer to-day and the recent drain of the legal tender reserve from the banks may possibly encourage some movement of this sort. The late activity and advance at the Stock Exchange increases the danger of such a contingency. Hence cautious, prudent men will for the present avoid being too sanguine, and will be circumspect and wary in their engagements for the immediate future. For the moment the state of the money market has had an unfavorable influence on the progress of the new loan. Mr. C. C. Norvell, the Government agent, informs us that the aggregate is 59 millions, and he is very sanguine that by the 1st of May, when the bonds are ready for delivery, the first 100 millions will be taken. If this should be so, the second 100 millions will probably go rapidly, especially as Mr. Boutwell says that when these 200 millions shall have been subscribed for there are to be no more Fives issued alone at par, but subscribers will be obliged to take equal amounts of 4, 4½ and 5 per cent bonds. In this event the Fives will be worth a premium, and a considerable impetus will be given to the demand for them directly the public mind becomes satisfied that this programme will be carried out without delay.

And why should it not be successfully carried out? Nothing can be more certain than that a five per cent. long bond of the United States, principal and interest payable in gold, is worth more than par, even were there no exemption from taxation. Nothing has prevented our six per cents. from going far above the present quotations but the incertitude which has settled upon these securities, first

Digitized by Google

from the talk about repudiation; then from the expectation of early redemption; next from the projects for a forced exchange of these sixes for bonds at four per cent; and finally, from the foolish attempts of certain interested parties to stir up hostility and to foster irritation between this country and England, so as to produce an impression in foreign money markets hostile to our national credit and to the popularity of our bonds.

These and similar causes have disturbed the demand for our securities; and of course the Franco-Prussian war caused a sudden cessation of the new demand in one of our best European markets. But every such influence has ceased to operate to the prejudice of our bonds, and now there is no conceivable reason why our new fives should not go up above par. This being conceded the new loan is a bargain and all who buy the bonds at existing prices will make money by the operation.

Mr. Norvell has prepared some very interesting tables showing the progress of the war debt since it reached its maximum in July, 1865, almost six years ago. The principal of the debt was then 2,756 millions. In four years on the 1st of March, 1869, it fell to 2,491 millions, showing a reduction of 265 millions. Since March, 1869, the principal of the debt has fallen to 2,268 millions, showing a reduction of 223 millions more. By this it appears that in less than six years we have paid off no less than 488 millions of dollars, or half as much as the war indemnity the exaction of which from France has called down on Prussia so much of public reproof throughout Europe. Such a simple exhibition of the fiscal strength of our country which has twice paid off its debt is very timely, and does more to improve our credit in the money markets of the world than whole reams of ingenious argument or elaborate disquisition.

There is another series of facts set forth in Mr. Norvell's tables. We refer to those regarding the currency. In 1865, 1869, and 1871 the aggregate legal tenders outstanding were as follows:

CIRCULATING NOTES AFLOAT IN 1865, 1869 AND 1871.

	July 31, 1865.	March 1, 1869.	April 1, 1871.
Greenbacks	$473,114,799	$356,021,073	$356,098,621
Greenbacks, certificates	205,822,845	71,140,000	53,493,000
Fractional currency	25,750,032	36,781,547	40,340,445
Compound interest notes	212,121,470	.....	.....
National bank notes	131,452,158	292,457,098	313,000,000
	$1,048,261,304	$756,399,718	$762,932,066

From these figures we observe that during the 4 years ending 1st March, 1869, the volume of the currency fell from 1048 millions to 756 millions, or nearly one-third. During that period gold fell from 145 in July, 1865, to 131 in April 1869. From the latter date to the present time the gold premium has further declined to 110 although the currency has not declined but has, indeed, just begun to increase again. From these facts it might seem as if the volume of the greenback currency has little or nothing to do with the price of gold. Hence many persons have positively affirmed that there is no direct control exercised by the volume of the currency on its rates of depreciation. This inference is of course incorrect and arises from a misinterpretation of the facts. The law which regulates the value of an irredeemable currency sustained by the credit of a firm government is well established. Such a currency depreciates as the volume rises above the proper level and appreciates as its volume falls below that level. If, then, with a circulation of 1000 millions gold is at 150 it shows the proper currency level ought to be 666. Again, it with the level of 760 millions the premium is 110 the proper currency level would be 680 millions. In other words the country has expanded its business since 1865. It has built a Pacific railroad. It has added to the national wealth. It has increased its population. It requires more currency now than it did. And for practical purposes it amounts to the same thing whether the demand for currency is increased or the supply is diminished; for the premium on gold is lowered by every change which brings the supply and demand nearer together. From this we see that two different influences have gone on together since 1865 which have tended to depress the price of gold. First, our paper currency has been appreciated by the contraction of its volume from 1,048 millions to 762 millions; and secondly, the field for the use of currency has been enlarged so that we now need 30 millions at least more than in 1865. The effect which this appreciation should legitimately exert on the public credit is too obvious to need proof.

GOVERNOR GEARY AND THE COAL STRIKES.

The proclamation of Governor Geary has been productive of the best results; and although it is open to grave objection in several important points, still it was evidently prepared with a view to the exigencies of the situation. The explosive elements of a general conflagration have been long accumulating among the miners under the leadership of men of great experience, cunning, and sagacity. If any further outbreak occurs the authorities will probably lose no time in securing the ringleaders, and in incarcerating without bail the men who are chiefly responsible for the strike, and for the vote which ordered it at the close of last year.

It is largely due to Governor Geary's prompt action that the troubles at Scranton, to which we referred last week, have not been extended. The men injured by the rioters are not dead, but are in a fair way for recovery. The strike itself is less popular, however, and the miners generally want to go to work. Every true friend of the workmen in this country will rejoice at this. The indications of returning subordination are increasing every day, but the coal strike has inflicted untold sufferings and losses on the people. If in any modern nation forty or fifty thousand operatives had for four months been without cause condemned to idleness by the command of some despotic sovereign, the whole world would have exclaimed against the outrage, and he would be in imminent danger of being hurled from his throne by a general uprising. Most of the Pennsylvania miners have families, and their numbers will aggregate 250 thousand persons, many of whom have been plunged into poverty, and now see starvation staring them in the face. Their frugal savings are spent, their credit is exhausted, they have gone into debt to the shopkeepers, who are now themselves on the verge of bankruptcy. One million of persons it is computed are directly dependent on the coal mining business for a livelihood, and 300 millions of capital is invested in this business in Pennsylvania alone. When the fiat was issued to strike last December the miners were evidently ill-advised. They overestimated their own strength and they underestimated the forces with which they had to cope.

These men are mostly immigrants, and have yet much progress to make before they will unlearn the mischievous lessons instilled into them in their European serfdom, and rise to the level of the privileges of freedom in the American Republic. We are in favor of giving these men good wages. They ought to earn the full value of their labor. But this labor is unskilled, or nearly so. After a year's experience as laborers, multitudes of them have become miners, with no further instruction or training; so little of skill and knowledge does their art demand. But unskilled workmen in no other occupation, agricultural or manufacturing, earn so large wages as miners in England or here, because of the greater risk and the more repulsive surroundings under which the miners work in the bowels of

Digitized by Google

the earth. The miners have their rights and we would not curtail them. Every miner has, for example, the undoubted privilege of setting his own price on his work, and he may refuse to labor if his employer will not pay as large wages as the miner thinks he is worth. He may also make combinations with his fellow-workmen, and adopt lawful methods for increasing his wages; and failing to accomplish this he may leave his unappreciative master and go elsewhere in quest of better fortunes. When we welcomed these men as emigrants to our free soil we did so because we expected them to be good citizens and honest workers. When they cannot earn a living at one trade it is their duty to peacefully betake themselves to some other. They must not seek to control their employers' business, nor to intimidate and prohibit any fellow-miner from earning bread by going to work.

The miners, we say, were ill-advised when they began this strike. What is it that they claim? First they say that the coal product of this country is too large, and that somebody must be intrusted with the duty of making coal scarce, and of reducing the annual product from 25 million tons to 15 millions. They say that they, the hired workmen, are the proper persons to use this control, and to produce an artificial scarcity; so that high prices may be kept up and coal may be prevented from becoming cheaper. The coal companies and the railroad people, as these miners say, cannot control the supply, or will not control it, because it is to their interest to bring as much coal into the market as possible. Hence, as there is nobody else to cut off the alleged surplus product, it is a matter of necessity that the workmen shall take the responsibility. This bold and novel reasoning was carried out with corresponding audacity. The miners had previously been gathered into one compact, well-organized society, which is the strongest trades-union in the country. It bears the euphemic name of the Workmens' Benevolent Association. Before the late strike the union had become so rich as to afford to pay its officers handsome salaries, one or two ranging as high, we believe, as five thousand dollars a year. These ingenious leaders propounded the following scheme and got their ignorant followers to adopt it to their own ruin. Eight months work, said these plausible leaders and guides of the miners, were enough to supply all the coal that could be sold at high prices. A year of 12 months work would not enable a miner to earn a larger sum than a year of 8 months, because the rate of his wages rose and fell with the price of coal, and 12 months yield would fill the market so full that coal would be cheap and wages therefore low. This sophistical reasoning inflamed the imagination of the miners, who were delighted at the thought of getting 12 months' wages for 8 months' work. This discussion closed in last December. The strike was then decreed. It soon became general. And now, after four months idleness, the miners want to go to work again. The majority have long been anxious to do so. But the question is on what terms?

Arbitration has been often prescribed as a remedy for strikes. But arbitration is evidently inapplicable when, as in this case, the workmen's claims are so sweeping and so unprecedented. To settle disputed rates of wages and other subordinate matters arbitration has often found itself a sufficient expedient. But to decide who shall control production, and whether 25 million tons a year shall be produced or 30 millions or 50 millions, is not a matter for arbitration between 40 thousand hired workmen who do not own a dollar of mine property and their employers who have 300 millions of dollars invested in the coal fields. The question of supreme control has to be first settled and finally decided. Not until then will there be free scope for arbitration.

This is really the gist of the whole difficulty. The workmen want to wield supreme control. They ask to be allowed to enforce laws, and to make regulations controlling the work in the mines, and prohibiting their masters from employing "black-legs," by which enviable name they distinguish men not belonging to their Union. They seek to place supreme power over the coal fields and their millions of capital in hands of the leaders of the miners, the chief of whom work neither as miners nor laborers, nor owners, nor operators. Thes leaders do not possess a single dollar of property in any mine, and some of them, it is said, have never earned wages in any mine by honest toil since they came to this country to live by their wits. How true this may be we do not know. What is certain is these leaders wield a prodigious influence, are extremely adroit and have evidently acquired experience in organizing strikes abroad, for in this country until of late they have had little scope for displaying their organizing and controlling powers.

From what has been said it will be seen that there is doubt as to the early termination of the strike. The men will not concede the supreme control, and their masters say that mining property will not be safe with control in their workmen's hands. Both parties are willing to arbitrate on other points. But on this fundamental article both are firm.

Meanwhile there is one thing which is too much forgotten by both parties to this terrible struggle. The mines form an important part of the national wealth. We need the coal and must have it. Forty millions of people claim the right to have a rapid development of this and other coal fields of the United States. We want from Pennsylvania not only 15 millions of tons but 50 millions, to generate steam, drive myriads of labor-saving machines, increase the natural production, and enlarge the public wealth. England raises annually 100 millions of tons of coal. Why should we raise less? She would never have borne so easily her huge national debt but for her vast productive machinery, which, with the steam engines that drive it and with the economies which attend it, is computed to be equivalent to the work of an army of producers outnumbering the whole adult inhabitants of the globe. If there is any one mineral product which our stupendous debt and heavy taxation compel us to have free from prohibitive enactments, either by miner's unions or more legitimate authorities, it is coal.

RAILROAD EARNINGS IN MARCH AND FROM JANUARY 1 TO APRIL 1.

Earnings for the month of March are, with some few exceptions, larger than in the same month last year. The increase is not in every case of large amount, but it is satisfactory to parties interested in Railroads to see a balance on the side of increase, although the amount may in itself be insignificant. The month of March, 1870, was not a particularly favorable one for railroad traffic, and earnings were generally below those of the previous year, a fact which is to be remembered in estimating the relative importance of the increase in each case, as shown in the table below. The new tariff upon through freights, which was in operation during the last half of April does not appear to have unfavorably affected earnings, or, at least, not so materially that its effect is perceptible in the returns of those roads which would naturally feel it most.

The tendency of freight movements is now continually towards an increase of railroad bnsiness as against the slower transportation by water, and it is reasonable to assume that if the crops of the next few years should be no larger than the average of those grown during the past five, the rela-

Digitized by Google

tive proportion of produce shipped by rail would be much larger than it has been heretofore.

Telegrams have taken the place of letters as a means of communication between merchants, and it is often more profitable to ship goods by rail at a slightly increased cost, than to take the risk incurred by waiting a longer time, with all the uncertainties of a changing market. A topic of much interest in this connection is the subject of steam power on the Erie Canal, which has been so largely discussed during the past few weeks; it is possible that the appropriation of $50,000 by the New York Legislature, and the great importance given to the subject in Commercial circles at the present time, may result in drawing out some invention which will apply steam power successfully to canal navigation.

The Chicago and Northwestern road, which has not published its monthly earnings under the new administration, has recently issued a statement showing the following: Gross earnings for nine months ending February 28, 1870, $9,570,094; gross earnings for nine months ending February 28, 1871, $9,033,178; diminution in gross earnings, $536,916; expenses for nine months ending February 28, 1870, $6,353,284; expenses for nine months ending February 28, 1871, $5,086,600; actual reduction in operating expenses, $1,266,683; Diminution in gross earnings same period, $533,916; net increase for nine months, $732,766.

RAILROAD EARNINGS IN MARCH, 1871.

	1871.	1870.	Increase.	Decrease.

Total	$4,449,104	$3,934,902	$537,080	$22,578

*Approximate.

The first quarter of 1871 now having elapsed, the comparison of railroad traffic with the previous year becomes of more interest than heretofore, and it is gratifying to observe that in most cases the roads show a considerable improvement in their earnings over the first quarter of 1870. It is also noticeable that a material increase is shown by several roads which have not increased their mileage, while others which are working a number of miles more than during the same period of 1870, show a decrease in traffic. There is nothing remarkable in this exhibit, however, when it is remembered that new roads are usually opened in a sparsely settled country and make very small earnings at first, although they may subsequently be of great value to the original main line.

EARNINGS FROM JANUARY 1 TO APRIL 1.

CHANGES IN THE REDEEMING AGENTS OF NATIONAL BANKS.

The following are the changes in the Redeeming Agents of National Banks since the 6th of April, 1871. These weekly changes are furnished by, and published in accordance with an arrangement made with the Comptroller of the Currency.

LOCATION.	NAME OF BANK.	REDEEMING AGENT.
Rhode Island—Bristol	The National Eagle Bank	The First National Bank of New York, approved in place of the National Bank of Commerce, New York.
Tennessee—Chattanooga.	The City National Bank	The Fourth National Bank of New York, approved.
Virginia—Richmond	The Merchants' National Bank	The National Park Bank of New York, approved.
Illinois—Kankakee	The First National Bank	The Continental National Bank of New York and the Traders' National Bank of Chicago, approved.
Nebraska—Lincoln	The First National Bank	The National Park Bank of New York, approved.
Michigan—Flint	The Citizens Nat'l Bank	The Ninth National Bank of New York, approved.

New National Banks.

The following is a list of national bank organized since the 6th of April, 1871:

Official No.

1,809—The First National Bank of Jefferson City, Mo. Authorized capital, $ 5 000; paid in capital, $75,000. J. S. Fleming, President; William C. Boon, Cashier. Authorized to commence business April 8, 1871.

1,810—The First National Bank of Charles City, Iowa. Authorized capital, $50,000; paid in capital, $38,000. Almon G. Case, President; Charles C. Siver, Cashier. Authorized to commence business April 7, 1871.

1,811—The First National Bank of Indianola, Iowa. Authorized capital, $50,000; paid in capital, $30,0 0. David Hallam, President; Thomas W. Hallam, Cashier. Authorized to commence business April 13, 1871.

[From our own correspondent.]

LONDON, Saturday, April 1.

We are now approaching the close of the financial year, and the last returns issued by the Exchequer department shows that notwithstanding the war, the financial position of the country is most satisfactory. As a finance minister, Mr. Lowe has been entirely successful, for not only do the actual receipts exceed his estimates, but the real expenditure falls below that upon which he had calculated when delivering his last statement. We find, therefore, that from the 1st of April, 1870, to March 25, 1871, the total receipts into the Exchequer, amounted to £68,532,249, against £74,193,865 in the corresponding period in 1869–'70, a diminution which is due to certain important remissions of taxation. Mr. Lowe's estimated receipts were only £67,634,000, so that, although another week's collections have to be received, they are nearly £1,000,000 less than the real receipts. Again, the total expenditure has been £79,223,180, against £82,483,177 in the previous year, being a decrease of rather more than £3,000,000. Mr. Lowe estimated that the charges for the interest on the National debt, the supply services voted by Parliament, and for the telegraphs, would be £69,486,000. But up to the close of last week only £66,138,011 had been disbursed on those accounts, being about the same as during the corresponding period in 1869–'70. When we remember that for some months past, our expenditure for the army has been largely increased, and that immense preparations are being made with a view to provide against the uncertainties of the future, the above figures come upon us with surprise. They are not only an indication of the ability of our Finance Minister, but they also show that the country is in a very prosperous condition. Mr. Lowe has promised to deliver his financial statement on the first convenient Government night after the Easter recess. The statement will be looked forward to with more than usual interest, as most persons anticipate an increase of taxation in consequence of the large military preparations now in progress. Mr. Lowe, however, has deceived us more than once, but it is gratify-

Digitized by Google

ing to think that it has been a deception pleasing to the community at large. The following is the last return issued by the Exchequer:

REVENUE AND OTHER RECEIPTS.

	Budget estimate for the Financial Year 1870-71.	Total Receipts into the Exchequer from April 1, 1870, to March 25, 1871.	Total Receipts for corresponding Period of last year.
Balance on April 1, 1870:			
Bank of England	£	£7,633,761	£3,775,717
Bank of Ireland	....	972,887	931,541
		8,606,648	4,707,258
REVENUE.			
Customs	19,300,000	19,985,000	21,359,000
Excise	21,660,000	22,539,000	21,649,000
Stamps	8,589,000	[illegible]	9,148,000
Taxes	2,850,000	2,639,000	4,421,000
Income tax	6,350,000	6,063,000	9,861,000
Post Office	4,775,000	4,680,000	4,500,000
Telegraph Service	675,000	500,000	....
Crown Lands	385,000	385,000	375,000
Miscellaneous	3,050,000	2,972,249	2,880,865
Revenue	67,634,000	68,582,249	74,193,865
Total, including balance		77,188,897	78,901,123
OTHER RECEIPTS.			
Advances, under various Acts, paid to the Exchequer		1,934,283	2,082,054
Money raised for Fortifications		150,000	200,000
Money raised by Exchequer Bonds		....	1,300,000
Temporary Advances not repaid		....	....
Totals		£79,223,180	£82,483,177

EXPENDITURE AND OTHER PAYMENTS.

Expenditure.	Budget Estimate for the Financial Year 1870-71.	Total Issues from Exchequer to meet payments from Apr. 1, '70, to Mar. 25, '71.	Total Issues fr'm Exchequer for correspond'g period of last year.
Interest of Debt	£26,840,000	£26,836,437	£27,053,559
Other charges on Consolidated Fund	1,890,000	2,008,328	1,648,797
Supply Services voted by Parliament	40,466,000	36,940,972	37,505,978
Telegraph Service	360,000	362,274	....
Expenditure	£69,486,000	£66,138,011	£66,208,334
OTHER PAYMENTS.			
Advances, under various Acts, issued from the Exchequer		1,382,308	1,516,698
Expenses of Fortifications		150,000	200,000
Exchequer Bonds and Bills, &c., paid off (£600,000 Exchequer Bonds paid off out of surplus income)		770,500	4,434,600
Surplus Income applied to reduce Debt (exclusive of £1,500,000 applied to repay Bank advances for deficiency)		2,483,796	....
		£70,924,615	£72,489,632
Balances on March 25, 1871—			
Bank of England		6,952,472	8,868,600
Bank of Ireland		1,346,093	1,174,945
Totals		£79,223,180	£82,483,177

The following figures bring the revenue receipts up to the close of the financial year:

	Year ended March 31, 1871.	Year ended March 31, 1870.
Customs	£20,191,000	£21,529,000
Excise	22,788,000	21,763,000
Stamps	9,007,000	9,248,000
Taxes	2,725,000	4,500,000
Property Tax	6,350,000	10,044,000
Post Office	4,770,000	4,670,000
Telegraph Service	500,000	100,000
Crown Lands	385,000	375,000
Miscellaneous	3,229,220	3,205,252
Totals	£69,945,220	£75,434,252

Mr. Gosehen, the successor of Mr. Childers at the Admirality, brought forward the navy estimates on Monday night. The service was represented as being in an excellent condition, if the difficulty of finding competent seamen to man the modern men-of-war be excepted. If this cannot be overcome, the First Lord of the Admirality proposes to supply the defect by training a larger number of boys for the service. The failure of the French fleet to carry out any plan during the late war has induced the government to stop the building of any additional turret ships, and to decide on the construction of a class of vessels adapted for fighting in shallow water. The amount voted for the navy was £9,756,856.

A rapid accumulation of money is now taking place in the London market, owing to the distress which has been occasioned by the state of affairs in France. The outward movement which was about to take place has been entirely checked, and there is now an entire absence of an export demand for gold. The arrivals of late have been very considerable, and the result has been that since the news of the disturbances in Paris more than £1,000,000 has been sent into the bank; and there is every indication that the accumulation of gold in the bank vaults will be very considerable. For not only is a stop put to the outflow to France, but numbers are also leaving the country, and are bringing with them all the wealth they have the power of converting into cash. As regards any rise in the bank rate, that is a question about which there can be but one opinion, and the possibility of it may now be entirely dismissed. Indeed, the return of order in Paris, and the adhesion of the country to the Thiers government would not, I think, have the effect of inducing our capitalists to give pecuniary aid to France. The want of capacity that the government and the National Assembly have so far shown, and the absence of all signs of authority, and the disposition of the lower classes to profit by the disorders which exist, must render the negotiation of loans on the part of the French a most difficult task. What course she will pursue, and what measures Germany will adopt are certainly difficult questions to reply to. Here, we are but spectators, and are certainly quite helpless in the matter, but the terrible language contained in the journal of the insurgents causes much anxiety, as there will unquestionably be a fearful slaughter in the streets of Paris, if the Versailles Government should find itself in a position, and should be compelled to enforce obedience to the authority of the National Assembly. The money, therefore, which would have been advanced to France will be retained, and will tend to keep the rates of discount down until some new channel for its employment has been opened. The quotations compared with those of last year are as follows:

	1870. Per cent.	1871. Per cent.		1870. Per cent.	1871. Per cent.
Bank minimum	3 @...	3 @ ..	4 months' ba'k bills	3 @3½	2½@3
Open-market rates:			6 months' ba'k bills	3½@3¾	3½@3¾
30 and 60 days' bills	2⅞@3	2⅛@2½	4 and 6 trade bills	4 @4¼	3¾@4
3 months bills	3 @	2⅜@2½			

The rates of interest allowed by the joint stock banks and discount houses for deposits are as under; for those at fourteen day's notice a reduction of ¼ per cent has been made:

	1870.	1871.
Joint stock banks	2	2
Discount houses at call	2	2
Discount houses with 7 days' notice	2	2
Discount houses with 14 days' notice	2½	2½

According to the return made up to last Wednesday evening the stock of bullion held by the Bank shows an increase of £1,500,000 as compared with the last year, the total supply being £22,358,064, against £20,866,161. The reserve shows an increase of £870,000. The position of the Bank, however, has been materially improved since the rate of that return.

Annexed is a statement showing the present position of the Bank of England, the Bank rate of discount, the price of Consols, the average quotation for English wheat, the price of Middling Upland Cotton, and of No. 40 Mule Yarn, fair, second quality compared with the five previous years:

	1867. £	1868. £	1869. £	1870. £	1871. £
Circulation, including bank post bills	23,655,770	24,691,553	24,090,016	23,115,841	23,934,723
Public deposits	8,619,051	6,910,477	7,893,042	11,293,341	11,833,980
Other deposits	17,671,100	20,291,681	17,479,293	17,162,382	19,164,165
Government securities	13,110,675	13,271,754	14,999,053	12,831,460	12,939,100
Other securities	20,751,596	20,698,418	20,130,310	21,104,347	22,954,786
Reserve of notes and coin	11,291,558	11,936,807	8,961,496	13,112,401	13,984,949

Consols	91⅛	91	92⅞	93⅛	93
Price of wheat	60s. 11d.	72s. 10d.	46s. 5d.	42s. 5d	55s. 2d.
Mid. Upland cotton	12⅝d.	11⅝d.	12⅝d.	10⅞d.	7s. 9 16d.
No 40 mule yarn	1s. 6d.	1s. 3⅛d.	1s. 3⅛d.	1s. 3⅛d.	1s. ⅜d.

There is very little change in rates of interest on the Continent. The following are the quotations at the leading cities:

	B'k rate 1870.	B'k rate 1871.	Op. m'kt 1870.	Op. m'kt 1871.		B'k rate 1870.	B'k rate 1871.	Op. m'kt 1870.	Op. m'kt 1871.
At Paris	2½	6	2	—	Brussels	2½	4	2½	3¾
Vienna	5	6	5	5	Madrid	5	5	5	5
Berlin	4	4	3½	3¾	Hamburg	—	—	2½	3½
Frankfort	4	3	2½	2½ 3	St. Petersburg	5	8	4½	7
Amst'd'm	4	3½	3¾	3					
Turin	5	6	5	6					

It has been found difficult to negotiate bills on Paris, but bills on Brussels and Antwerp are largely in demand. The Russian exchange is flat. The state of the gold market has been referred to above, and the silver market is scarcely better than that for gold; but Mexican dollars are in fair demand for China. The following prices of bullion are from Messrs. Pixley & Co's. circular:

GOLD

		s.	d.		s.	d.
Bar Gold	per oz. standard	77	8¾	@	77	9
do fine	do	—	—	@	—	—
do Refinable	do	—	—	@	—	—
Spanish Doubloons	per oz.	77	11	@	—	—
South American Doubloons	do	—	—	@	—	—
United States gold coin	do	73	8	@	74	—

SILVER.

		s.	d.		s.	d.
Bar Silver, Fine	per oz. standard last price	5	0⅛	@	—	—

Fine Cake Silver	per oz.	no price.				
Mexican Dollars	per oz. last price	4	10⅛	@	4	10⅜

In the Stock Exchange business has partaken of much excitement, and home securities, and more especially British railway shares, have been dealt in at a considerable advance in prices. Foreign stocks, however, have been dull, and Turkish have been prominently depressed. United States 5-20's and 10-40's, however, have been dealt in to a fair extent, and have improved somewhat in value. In Atlantic and Great Western Railway securities, a

Digitized by Google

large business has been done, and an important advance in prices has taken place. Atlantic and Great Western Railway debentures closed this evening at 43¾ to 44¼; do Consolidated Mortgage bonds, 42¾ to 43¼, and the Reorganization Stock at 7¼ to 7¾ premium. Erie Railway shares are firmer, but Illinois Central show very little change. The following were the highest and lowest prices of consols and the principal American securities on each day of the week:

	Monday.	Tuesday.	Wed'sday.	Thu'sday	Friday.	Sat'day.
Consols	92¼-92¼	92⅜-92⅝	92⅜-93	92⅞-93⅛	93¼-93⅛	92⅝-92⅞
U. S. 5-20's, 1882	92 -92¼	92 -93¼	92⅛-92⅜	92⅜-92⅝	92⅜-92⅝	92¼-92⅝

Illinois shares ($100)	110 -111	110 -111	110 -111	111	110¾-....	110¼-110¾

The funded loan of the United States still attracts but little attention here, and is not dealt in on the Stock Exchange. The agents have nevertheless received some small subscriptions.

Trade remains firm, and a good business is in progress. The manufacturers appear, however, to have pretty nearly completed their Spring trade, but as we are now fairly into Spring, the retail houses may be expected to be very busy. The following relates to the trade of Manchester:

The tone of this market since Tuesday has been quiet, and the tendency of prices where any change has occurred has been rather in favor of buyers. What change has taken place, however, has been so very slight that quotations remain the same, and any orders which have been given out to-day have been at least at the full prices of this day last week. The unsettled state of affairs in France has not been without its effect here, but things in that country have got into such a state that really any further developments against order and authority would have very little effect. The very worst has now been discounted, and money has become more abundant here in consequence of the insecurity in France. The cotton market remains rather flat, owing to the large receipts of American cotton which are reported for the week. The imports, however, are small, owing to the east winds, and there has been no pressure to sell. Spinners are so full of orders that they make any concession in prices with the greatest reluctance, but to-day they have been rather more open to contract further engagements than they were on Tuesday last.

The demand for export yarns has been rather flat since Tuesday last; nevertheless prices remain very steady, and quotations are unaltered since this day last week.

The following statement shows the imports and exports of cotton into and from the United Kingdom, from September 1 to March 30, compared with the corresponding period in 1869–'70:

	1870–1.		1869–70.	
	Imports.	Exports.	Imports.	Exports.
American...bales	1,561,228	208,442	762,723	60,873
Brazilian	241,408	32,209	275,930	35,683
East Indian	658,547	327,312	924,194	336,246
Egyptian	181,003	6,128	128,826	2,484
Miscellaneous	167,956	4,927	72,059	9,791
Total	2,610,212	579,018	2,062,531	445,077

During the week the weather has been colder, but dry, and sowing is now completed. There is every indication of a favorable season. The wheat trade has been firm, and English produce is rather dearer. For export a good business is doing.

Annexed is a return showing the imports and exports of bread stuffs into and from the United Kingdom during last week, and since the commencement of the season, compared with the corresponding periods in 1869–'70:

FOR THE WEEK ENDING MARCH 25.

	1870'71.		1869'70.	
	Imports.	Exports.	Imports.	Exports
Wheat...cwt.	837 408	232 746	503 168	7,388

COMMERCIAL AND MISCELLANEOUS NEWS.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show a decrease in both dry goods and general merchandise. The total imports amount to $8,543,409 this week, against $11,930,286 last week, and $7,580,607 the previous week. The exports are $3,867,399 this week, against $5,525,810 last week, and $4,441,092 the previous week. The exports of cotton the past week were 18,260 bales, against 26,421 bales last week. The following are the imports at New York for week ending (for dry goods) April 7, and for the week ending (for general merchandise) April 8.

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

	1868.	1869.	1870.	1871.
Dry goods	$1,283,873	$2,288,958	$2,018,978	$4,274,151
General merchandise	3,238,364	5,693,865	4,814,753	4,269,258

Central Pacific R R Gold Bonds.—An important advance is again noticed in these favorite securities, which are now quoted in all the principal financial markets of the World. The entire issue of these bonds is a little under $26,000,000 and no more can be issued by the company. Nearly the entire amount is distributed among private investors and financial corporations in this country and among investors in Germany and Great Britain, where they are ranked with our Government bonds. In view of the probable early reduction of the interest on the Government bonds a sharp demand has recently developed itself from the same class of investors who have been holding five twenties. Should this demand continue, as it now seems likely, there is no reason why the bonds should not advance to about the price of the five per cent. Government issues.

New York & Harlem.—The stockholders of the New York & Harlem Railroad Company held a meeting in their office on Tuesday, to consider the proposed increase of capital stock, recommended by the Board of Directors in the following resolution, passed March 14:

Resolved, That it be recommended to the stockholders to increase the capital stock of the Company by the amount of $2,000,000, for the purpose of completing the new depot at Forty-second street, and the Madison avenue line from Forty-second street to Eighty-sixth street, and for the purchase of the necessary equipments for operating the same; such increase to be issued at such time and upon such conditions as the Board of Directors may from time to time determine.

A large number of stockholders were present, and the vote was as follows: In favor of the increase, 128,334 shares; against it, 800 shares.

Minnesota State Bonds.—On May 2d next, the citizens of the State of Minnesota are to vote upon the adoption or rejection of an act which has been prepared by the Legislature, with a view to terminating the controversy long waged in that State, on what are known as loan amendment bonds. Should the popular vote approve the act submitted by the Legislature, the Governor is to appoint three persons as a Board of Commissioners to take the whole matter in review, and ascertain the rights and liabilities of all parties in question; their report to be made before July 1, 1871.

The Finances of Texas.—The message of Governor Edmund J. Davis, to the Legislature, dated January 10th, 1871, says:

"The Auditorial Board, created by the provisional act of November 9th, 1866, reported total debt, principal and interest, on the 1st of December, 1868, at $332,436 17. This, however, includes the sum of $78,466 51, audited and unaudited 'non interest notes,' which are by said section of the Constitution, declared void. Deduct this latter sum, and it will leave $243,969 66, as the total debt on 1st December, 1867, which, with interest added to date, and the amount unaudited (about $50,000,) as above mentioned, due from the Penitentiary, presents the total indebtedness of the State. The exact amount cannot be ascertained from data within my possession, but it certainly does not exceed, at this time, $ 360,000, principal and interest, of which only that part due from the Penitentiary, may properly be considered specie.

"Under the act approved August 5th, 1870, providing for the issuance and sale of $750,000 of the bonds of the State, for Frontier Defense, I have had the bonds properly engraved, printed and signed.

"Beyond the debt for Frontier Defense, we owe but very little, and this is more than balanced by just claims, which we have against the United States, accruing before the war."

These seven hundred and fifty thousand dollars Frontier Defense Bonds bear 7 per cent interest, payable semi-annually in the city of New York, in gold coin, and are redeemable after twenty and payable in forty years from date, in gold, the Interest and Sinking Fund being secured by direct taxation, by special act of the Legislature of Texas.

BANKING AND FINANCIAL.

BANKING HOUSE OF HENRY CLEWS & Co., 32 WALL ST., N. Y.

Our business is the same as an incorporated bank.

Deposit accounts can be opened with us in either Currency or Coin, subject to check without notice. Five per cent. interest will be allowed on all daily balances. Checks upon us pass through the clearing house as if drawn upon any city bank.

We issue Circular Letters of Credit for travelers, available in all parts of the world; also Commercial Credits. We make telegraphic transfers of money to any desired point, and transact every description of foreign banking business.

We draw Bills of Exchange in sums from £1 upward on.

The Imperial Bank, and Messrs. Clews, Habicht & Co., London.

The Provincial Bank of Ireland, The National Bank of Scotland, and all their branches.

We issue Certificates of Deposit payable on demand or at fixed date, bearing interest, and available at all money centres.

Orders executed for Government and other investment securities; also Gold and Exchange.

Advances made on approved collaterals and against Merchandise consigned to our care.

We make collections of Notes, Drafts, Coupons and Dividends with promptness on all points, and are fully prepared to offer banking facilities upon either currency or gold basis.

NORTON, SLAUGHTER & CO.,
WM. ALEXANDER SMITH & CO.,
HALLGARTEN & CO.,

Recommend, after a thorough investigation into the affairs of the Company, as a very safe and desirable investment, the Eight Per Cent First Mortgage Bonds of the Elizabethtown and Paducah Railroad Company of Kentucky. We are only authorized to offer a limited amount of these securities at 87½ and accrued interest The bonds offered are on the completed portion of the road, which is in successful operation.

HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH, BANKERS,
No. 5 NASSAU STREET, NEW YORK, March 27, 1871.

☞THE FIRST MORTGAGE SIX PER CENT GOLD BONDS OF THE CHESAPEAKE & OHIO RAILROAD COMPANY—of which about $6,000,000 have already been marketed—are secured upon an East and West Trunk Line of Road, 427 miles in length, the greater part of which (227 miles) is in profitable operation, and the remainder rapidly building. When completed it will establish a short, economical and favorite route between tide-water navigation and the chief railroad and river cities of the West.

Beside the immense volume of through traffic between the East and West which this road can command by its superior advantages in distance, grades, fuel, and unfailing navigable connections, this road must convey enormous quantities of the superior, smelting, cannel, and bituminous coals of the Kanawha Valley, and the iron ores of Virginia and West Virginia, which are in demand at both ends of the line.

The value of the property, the certainty of a large and profitable business, the established reputation and credit of the Company, and its able and honorable management, give to these securities an assurance of superior value and safety.

They may be had in *Coupon* or *Registered* form, and in denominations of $1,000, $500 and $100.

Price, 90 and accrued interest from November 1.

We have prepared pamphlets, showing the agricultural, mineral, and manufacturing advantages of the adjacent territory, and the traffic facilities and financial prospects of the road, which wil be furnished on application.

FISK & HATCH, Financial Agents.

UNION PACIFIC LAND-GRANT BONDS.

OFFICE OF MORTON, BLISS & CO., BANKERS,
NEW YORK, March 20, 1871.

The undersigned offer for sale the balance of the Land-Grant Bonds of the Union Pacific Railroad Company. The road has been in operation about twenty months. It is completed in all respects, and its earnings have averaged $8,000,000 per annum. These bonds bear 7 per cent interest, coupons payable April and October.

They are receivable at par in payment for the Company's lands.

The following summary of the financial condition of the Company is from the address of Colonel Thomas A. Scott to the stockholders, upon his accepting the presidency, at the annual meeting in Boston, March 8:

"Land Department.—Bonds, 7 per cent currency, $10,400,000.

"Land Sales.—292,900 acres; proceeds, $1,306,566; average price per acre $4 46.

On account of these sales the company has received and redeemed land-grant bonds to the extent of	$736,000
For the remainder the Company holds land-notes maturing in one, two and three years with accruing interest	576,650
Total	$1,312,650

"The condition of the land department may, therefore, be stated thus:

Bonds	$10,400,000
Principal reduced by bonds redeemed	$736,000
Land Notes on hand	576,650
Showing an absolute reduction	$1,312,650

Digitized by Google

The Company is entitled, under the grants from Government, after deducting total lands preempted before passage of the act to..... 12,080,000 acres.
From which deduct the amount heretofore sold..... 292,883 acres.

Leaving on hand as an asset..... 11,787,117 acres,

—which at an average value of two dollars per acre, being twenty per cent below the minimum Government price for adjoining lands owned by it, should yield the gross sum of $23,574,234, so much thereof as may be required to be applied to the payment on redemption of the land-grant bonds, and the balance to go into the Treasury. The average land sales amount to about $75,000 per month.

From present indications it would seem reasonable to estimate the gross receipts of the coming year at a minimum of..... $9,000,000
With a cost of maintaining and operating the line on this increased earning of not exceeding say..... 4,500,000
Leaving as net receipts to be applied to interest and dividend, exclusive of the operations of the land department..... 4,500,000

"The operations of the line for the first twenty months of its existence as a completed road show net earnings sufficient to meet the interest upon its entire bonded debt.

"This result cannot but be deemed, by all practically versed in the history of new railway lines, as indicating a successful future. The yearly increase of traffic, costing but little additional to transport, and therefore yielding a large percentage of net revenue, must soon give a value to your property not easily appreciated at present.

MORTON, BLISS & Co., No. 30 Broad street.

NEW LOAN OF THE UNITED STATES.

The subscriptions to the New Five Per Cent. Stock of the United States now amount to about $60,000,000. They are confidently expected to reach $200,000,000 by the time the New Bonds are ready for delivery in May. The proposals of the Secretary of the Treasury will then be changed to the following programme:

First. Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after ten years from the date of their issue, and bearing interest payable quarterly in coin, at the rate of five per cent. per annum.

Second. Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after fifteen years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four and a half per cent. per annum.

Third. Bonds to the amount of seven hundred millions of dollars, payable in coin, at the pleasure of the United States, after thirty years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four per cent. per annum.

Subscriptions to the loan will have preference, after the above-mentioned two hundred millions are taken up, in the following order, namely:

First. Subscriptions for equal amounts of each class of bonds.

Second. Subscriptions for equal amounts of bonds bearing interest at the rate of four and a half per cent., and of bonds bearing interest at the rate of five per cent.

Third. Subscriptions for any five per cent. bonds that may not be subscribed for in the preceding classes.

Subscriptions to the remainder of the $200,000,000 of five per cents., which are unconditional, are now going on, and the bonds will soon be issued to the subscribers, who can receive a scrip certificate in advance, if they desire to pay their gold or exchange United States 5-20s at once, in the registered or coupon form. Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000; and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depositary of the Government, quarterly, on the first days of February, May, August and November, in each year.

The bonds of the several classes aforesaid, and the interest thereon, are exempt from the payment of all taxes or dues of the United States, as well as from taxation in any form by or under State, municipal, or local authority.

After maturity, the bonds last issued will be first redeemed, by classes and numbers, as may be designated by the Secretary of the Treasury.

The reduction of the public debt since the close of the war of the rebellion, and the relief, at the same time, to the annual burden of interest, are as follows:

Principal of debt, 1865..... $2,755,995,275
Paid under Johnson..... 265,595,371

Principal March 4, 1869..... $2,491,399,904
Paid under Grant..... 223,083 673

Present public debt..... $2,268,316,231
Interest charge, 1865..... $151,832,051
Reduced in four years by payment and funding 7-30s..... 25,442,501

Interest charge 1869..... $126,389,550
Reduced in two years by payment..... 12,052,998

Present interest charge..... $114,336,552

The proposed further reduction of the annual interest charge upon the public debt by refunding is as follows:

By exchange of $500,000,000 U. S. 6 per cents for new 5 per cents of 1881..... $5,000,000
By exchange of $300,000,000 U. S. 6 per cents for 4½ per cents of 1886 4,500,000
By exchange of $700,000,000 U. S. 6 per cents for 4 per cents of 1901. 14,000,000

Total saving per annum by refunding..... $23,500,000

The whole proceeds of the new loans will be applied to the payment or redemption and cancellation of the 5-20 years six per cent. bonds, and in addition to these proceeds the 5-20s are now being reduced by purchase at the rate of $10,000,000 per month.

C. C. NORVELL,
In charge of advertising United States loans.
TREASURY OFFICE, NEW YORK, April 15.

DIVIDENDS.

The following Dividends have been declared during the past week:

Company.	Per Cent.	When P'able.	Books Closed.
Miscellaneous.			
Columbia Oil Company	3	April 17	——— ———
Home Petroleum Company	20 cents	on dem.	——— ———

FRIDAY EVENING, April 14, 1871.

The Money Market.—The money market has shown some irregularity during the week, closing at rates much easier than those current for the first few days. The movements, which we previously noticed in the direction of a "lock up" of legal tenders, have been further developed, showing pretty clearly that from $3,000,000 to $5,000,000 had been withdrawn from circulation since the first of the current month, though it was done so gradually as not to disarrange the daily clearing house bank statements, and therefore did not attract the usual attention. The funds thus withheld have recently been returned to the market, and the attempt to make stringent money and depress stocks is generally considered to have been a complete failure, either from dissensions among the parties to the combination, or because it was abandoned by common consent, through fear that the project might be defeated by the Secretary of the Treasury. The sharpest activity in call loans was on Saturday, which, coming between Good Friday, a semi-holiday, and Sunday, gave the clique a good opportunity to surprise those parties who had not been careful to make their arrangements for money beforehand, and rates went up to 7 per cent and 7 gold, with a commission also paid in some cases. On Monday rates opened firm under the impression that the manipulation would be continued, but all efforts to keep up the firmness failed, and there was an abundance of loanable funds in the afternoon at 6@7 per cent with exceptions at five; upon which basis the bulk of business has since been transacted, with a growing tendency towards ease, and some loans made to-day on Government collatteral at 4 per cent.

The Bank reserves as shown by the last statement are unusually low, though it is expected that the weekly clearing house returns of to-morrow will show an improvement, as some of the leading banks report moderate receipts of currency from the interior, and it is generally expected that this return of currency will now steadily increase.

The following was the decrease in each item of the bank returns from the previous week: Loans, $975,057; Specie, $2,463,506; Circulation, $6,888; Deposits, $6,344,438; Legal tenders, $2,324,546. The net result of these figures show the banks to be $3,200,220 weaker in their excess over legal reserve, the whole excess being only $4,617,544.

The following statement shows the present condition of the associated banks, compared with the same date in the last two years:

	April, 8, 1871.	April 9, 1870.	April 10, 1869.
Loans and discounts	$240,107,870	$242,300,000	$257,500,000
Specie	15,512,186	28,800,000	8, 00,000
Circulation	31,568,901	35,700,000	34,000,000
Net deposits	215,793,657	201,700,000	171,500,000
Legal Tenders	50,945,997	47,000 000	48,000,000

Commercial paper has been in good demand, particularly during the past few days since the call loan market has assumed a more settled aspect. The supply of paper offering is not large and with the prospect of continued ease in money rates are a little easier than last quoted.

United States Bonds.—Government Securities were dull and inactive in the early part of the week without any important features in the market, but during the past two days have been stronger with an improved business, closing at an advance of about ⅜ per cent on 5–20s of 1867; ½ per cent on 10–40s and ⅝ on currency sixes. The advance has been based to some extent upon the higher quotations in London, where the 5–20s of 1862 sold to-day at 90¼ ex-interest, and 1867s at 92½, the former being at the price named only ⅜ per cent below par in Gold. Subscriptions to the new loan have progressed moderately and will agregate at the close of this week about $60,000,000. Mr. Boutwell has deferred any changes in his arrangements for negotiating the loan until the first of May, when his action in the matter will be influenced by the progress which has been made up to that time.

It is said that the honorable Secretary entertains some different ideas in regard to the business details necessary for placing the loan, since his recent visit to New York and Boston, and there seems to be good reason to anticipate that when the bonds are ready, after the first of May, the progress of the loan will be rapid, both at home and abroad; there is, indeed, a possibility that a very large proportion of the five per cents may then be taken in one lot by a combination of capitalists.

One element of strength in our own market is now found in the diminished supply of 5–20 bonds, since the large purchases by Government, continued for two years, have withdrawn so considerable an amount of the floating stock. Offerings at the Government purchase of $2,000,000 on Wednesday amounted to $7,419,550.

The following were the highest and lowest prices of leading government securities at the Board on each day of the past week:

Railroad and Miscellaneous Stocks.—Stocks have been strong and advancing, several of the leading speculative favorites showing the highest prices of the year. When the market was relieved from the depressing influence caused by the attempts to tamper with money, and call loans returned to 6 per cent, a new life was imparted to stock ~~operations, with much~~ buoyancy in prices, as above noticed. The attempt to depress the market was, in fact, rather favorable than otherwise, as it had the effect of creating a large "short" interest—always a good basis upon which to advance prices. Stocks are undoubtedly controlled very much by cliques, who are carrying large blocks, and are obliged to take what is thrown on the market by outside parties, until prices shall have been kept at a high point sufficiently long to enable them gradually to "unload." New York Central and Hudson River has sold up to 97⅞, equal to 101¼, plus dividend; Lake Shore 105¼, Reading 109⅛, Northwestern 90⅛, do. preferred 98, Ohio and Mississippi 52¾, Wabash 62⅞, and Union Pacific 32, which are above the highest figures that have been known on these stocks for a long time past. Mariposa preferred sold up to 12⅝ under the manipulation of the new party having control of it. The announcement that the stockholders of Harlem Railroad have voted to add $2,000,000 to the capital stock had but little effect on the price, as it had been discounted. The proceeds of the sale of this stock is to be devoted to the completion of the new union depot at Forty-second street. Cleveland, Columbus, Cincinnati and Indianapolis sold up to 91½; Panama has declined to 61½. At the close the market was off from the highest point of to-day, and the tone somewhat unsettled.

The following ~~were the highest and lowest~~ prices of the active list of railroad and miscellaneous stocks on each day of the last week:

State and Railroad Bonds.—The Southern State bonds have been variable on a fair volume of transactions, and close in most cases at an advance on the prices of last week, except South Carolinas, which are lower.

There have been some purchases of the North Carolina special tax railroad bonds, said to be for the account of parties who are largely interested in railroad property, and who are seeking to obtain control of roads in North Carolina by exchanging these bonds, purchased at a very low price, for the stocks held by the State.

The questions before the Courts in Louisiana as to the right of the State authorities to increase the debt beyond the limit of $25,000,000 established by constitutional amendment, has been decided in favor of the State auditor, the Court directing him not to draw further warrants; the case has now been appealed to the highest Court of the State.

The interest on the Alabama and Chattanooga Railroad bonds, is being paid by the State of Alabama, we understand, upon all the bonds issued or endorsed by the State, as it was not found practicable to establish distinctions between different holders; the course pursued is creditable to the State authorities.

Central Pacific Railroad bonds are reported in active demand and have advanced to 97½. Union Pacifics have also been stronger on the better prospects for the road under a new administration. Closing prices were as follows: Firsts, 85½@85¾; Land Grants, 77½@77½; and Incomes, 75½@75¾.

The bids for the new loan of the Ohio and Mississippi Railroad were opened on Monday and were found to amount to a total of $3,500,000 at 80@81.08. The amount offered—$2,500,000—was awarded at an average of about 80½ per cent.

The following are the highest and lowest prices of the most active State Bonds at the Board on each day of the week:

The Gold Market.—Gold remained dull and without any feature of interest until Thursday, when the large amount of bids for the $2,000,000 sold by Government—footing up some $10,375,000—developed such a large demand as to give strength to the market and advance the premium to 110⅛. To-day there was considerable activity on the prospect of large shipments of coin to-morrow, reported at about $1,100,000, and the price further advanced to 110¼. The principal supports to the market previously have been the large customs demand amounting for the week to $2,952,000, and the short interest, which is shown to be considerable by the rates for carrying, which have ranged from "flat" to 2 per cent, these rates being also the quotations to-day. The tone is strong at the close under the influences noted, but the prevailing speculative feeling for the week has been rather on the side of lower prices.

The following table will show the course of the gold premium each day of the week past:

	Quotations. Opening.	Lowest.	Highest.	Closing.	Total Clearings.	Balances. Gold.	Currency.
Saturday, April 8	110¼	110¼	110¾	110¼	$37,047,000	$1,882,165	$1,533,846

Foreign Exchange.—There have been uniform firmness in the rates of leading drawers, and 110 has been the asking price for 60 days sterling, some houses not even allowing the usual commission off this price. The reduction of the Bank of England rate to 2½ on Thursday, made in consequence of the non-withdrawal of specie to the Continent, has seemed to have little effect upon our rates, as the reduction was probably anticipated. The demand for exchange has been very fair, though in many cases buyers have been held in check by the high rates, and orders in brokers hands could not be filled within the limits named by their customers. A natural result of this condition of affairs is seen in a comparatively large amount of specie shipments, the total engagements for to-morrow's steamers being reported this evening at upwards of $1,000,000. The large imports of foreign merchandise, small exports of U. S, Bonds or other securities, and the natural falling off in the supply of Cotton bills as the season advances, would all seem to point towards continued firm rates and considerable specie exports.

Cotton exports for the week amount to 83,987 bales—producing about $5,265,984 in Gold, against 49,051 bales in the same week of 1870, producing $4,610,794 Gold, at the prices then current.

The Railway Monitor.

☞ EXPLANATION OF THE STOCK AND BOND TABLES.

1. Prices of the Active Stocks and Bonds are given in the "Bankers' Gazette" *ante*; quotations of other securities will be found on the preceding page.

2. Bank and Insurance Stocks, Mining, Petroleum, City Railroad and Gas Stocks, and Southern Securities of those kinds which are least active, are all quoted either regularly or occasionally at the end of "Bankers' Gazette," on a previous page.

3. The Table of Railroad, Canal and Other Stocks, on the next page, comprises all Companies of which the stock is sold in any of the principal cities (except merely local corporations). The figures just after the name of the company indicate the No. of the CHRONICLE in which a report of the Company was last published. A star (*) indicates *leased roads*; in the dividend column x—*extra*; s—*stock or scrip*.

4. The Tables of Railroad, Canal and Other Bonds occupy in all, four pages, two of which will be published in each number. In these pages the bonds of Companies which have been consolidated are frequently given under the name of Consolidated Corporation. The date given in brackets immediately after the name of each Company, indicates the time at which the statement of its finances was made. In the "Interest Column" the abbreviations are as follows: J. & J.=January and July; F. & A.=February and August; M. & S.=March and September; A. & O. April and October; M. & N.=May and November; J. & D.=June and December Q.—J.=Quarterly, beginning with January; Q.—F.=Quarterly, beginning with February. Q.—M.=Quarterly, beginning with March.

5. The Table of State Securities will be published monthly, on the last Saturday of the month.

6. The Table of City Bonds will be published on the third Saturday of each month. The abbreviations used in this table are the same as those in the tables of railroad bonds mentioned above. The Sinking Fund or assets held by each city are given on the same line with the name

Report of the South Carolina Railroad Company for the Year ending December 31, 1870.—The business of this year will be found to show, as was the case also last year, a marked increase, and to have attained its full average before the war.

It is thus stated:

Gross earnings of road	$1,468,340 53
Receipts from other sources	16,798 01
Total	$1,485,138 54
And has been disposed of as follows.	
Road expenses, including renewal of rails	916,095 82
Interest—Foreign bonds	74,272 35
Interest—First mortgage, domestic bonds	60,865 00
Interest—Domestic six and seven per cent bonds	142,621 50
Interest—General	45,003 66
Total	$1,238,858 33
The net income of the year, after charging up the road expenses and foreign and domestic interest, is	$246,280 21
Against this have been charged—	
Dividends	116,388 00
Leaving a balance of	$129,892 21

which has been carried to the "reduction of debt, purchase of locomotives, cars and real estate."

The Domestic Bond debt has been very largely increased by the transfer to that account *from* the Foreign Sterling debt of that portion of the Sterling debt which was owned in this country. The exchange was made under a provision of the Mortgage Deed, for seven per cent. Currency Bonds, payable here. It is needless to add that a corresponding reduction of the "Sterling Debt" account is consequent upon this increase. The "Domestic Bonds" debt account has also been increased by issues in redemption of the bills of the South Western Railroad Bank, settlement of past due bonds, and purchases of property; and in like manner has occurred the increase of bills payable.

During the year the exchange of First Mortgage Bonds for the past due sterling and other securities of the company, having reached that point at which a compliance with the resolution adopted by the holders on the other side, could properly be considered as accomplished, to wit: "That the exchange in the United States must first be made, &c." Complete and very full evidences of the fact of exchange here, and of cancellation also, were prepared and sent over to London, and as the company has done all that was required, and perhaps more, we are at liberty to anticipate that this protracted negotiation will meet with no further obstacle to its completion. The amount now remaining unexchanged is $1,492,015 64; the holders of which, to a greater amount than is needed to cover the requirements of the Mortgage Deed, as the stockholders have been already advised, have agreed to exchange, upon the terms and conditions just above referred to.

The earnings of the road have been:

From Passengers	$292,853 35
Freights	1,148,945 83
Mails	26,541 35
Incidentals	3,680 06
Total	$1,472,020 59
The expenses	916,095 82
Leaving net earnings	555,924 77

As compared with 1869 the earnings are:

	Passengers.	Freights.	Mails.	Incidentals.
1870	$292,853 35	$1,148,945 83	$26,541 35	$3,680 06
1869	325,180 85	1,009,067 40	30,088 46	17,830 29
Increase		$139,878 43		
Decrease	$32,327 50		$3,547 11	$14,150 23

Total earnings, 1870	$1,472,020 59
Total earnings, 1869	1,382,167 00
Increase	89,853 59

As compared with 1869 the expenses are:

1870	$916,095 82
1869	909,405 43
Increase	$6,690 39

Owing to a change in the system of keeping the expense accounts, the items cannot be tabulated for comparison, but the sum given above as the total for 1869 includes only such items as make up the total expenses for 1870.

As indicated in their report of 1870, the Board commenced on the 1st of August last the payment of small dividends out of the earnings of the six months, terminating on June 30th preceding; and they have since declared a further dividend from the earnings of the last six months, payable on February 1st. It is proposed to continue these payments, and with the present figures of income the Board regard the purpose quite practicable.

Condensed balance sheet of the South Carolina Railroad Company, December 31, 1870:

Missouri, Kansas and Texas Railway Company, organized under General Laws of Kansas and Missouri.

	Miles.
Length of main line of road from Junction City, Kansas, to Preston, Texas	432
Length of branch from Sedalia, Mo., to Parsons, Kansas	160
Total	592
Completed road, from Junction City to Chetopa, Kansas	182
From Sedalia, Mo., to Parsons, Kansas	160
Total	342
From Chetopa, south to Arkansas River, is mostly graded and iron all purchased, and en route to St. Louis, and will be completed by May, 1871	90
Total	432

(*a*) First mortgage six per cent sinking fund gold bonds, dated 14th November, 1868, interest payable in New York January and July, and principal payable in 1899, issued by the Union Pacific Railway Co. (south. branch) ,on the line from Junction City to Chetopa, Kansas, and on about 1,300,000 acres of land in Kansas granted by the United States and State of Kansas, to aid in its construction

Nos. 1 to 4,250	$4,250,000
Less bonds cancelled by accumulation of sinking fund from sale of land	105,000

NOTE.—There is belonging to this sinking fund, arising from the sale of lands, $389,575 66 in mortgage notes, bearing interest at rate of 10 per cent per annum, which, as paid, will be used in the purchase of bonds for cancellation.

Total bonds outstanding	$4,145,000

Bonds $1,000 each.

Trustees, { RUSSELL SAGE, N. A. COWDREG.

(*b*) First mortgage 7 per cent sinking fund gold bonds, dated June 1, 1870, interest payable in New York, June and December, and principal payable in 1903, issued by the Tebo and Neosho Railroad Company, on the line from Sedalia, Mo., southwesterly in direction of Fort Scott to the west boundary of the State, about 100 miles 2,000,000

Union Trust Company of New York, Trustee.

Bonds $1.000 each, Nos. 1 to 2,000

(*c*) Consolidated mortgage 7 per cent land grant and sinking fund gold bonds, dated February 1, 1871, interest payable in New York February and August, and principal payable in 1904, issued by the M. K. and T. Railway Company on 592 miles of railroad, being at the rate of $23,650 per mile of completed road, and on about 440,000 acres of land in Kansas and in the Indian Territory, granted by acts of Congress of the United States, approved July 25 and 26, 1866; 3,100,000 acres subject to the Indian occupancy until that shall be extinguished 4,000,000

These bonds are entitled to the benefit of a sinking fund equal to 1 per cent in gold on the principal of the bonds, issued to be paid to the Trustees annually, commencing after three years from date of the bonds, with interest on all prior payments, also payable annually in gold coin, by which means the whole issue of bonds will be retired in 33 years from their date.

Union Trust Company of New York, Trustee.

(*d*) Of the foregoing consolidated mortgage bonds, $6,145,000, Nos. 1 to 6,145 inclusive, can only be issued by the trustee in exchange for bonds for like amount previously issued, as above recited by the Union Pacific Railway Company, Southern branch, and by the Tebo & Neosho Railroad Company $6,145,000

And there is to be issued, pro rata, on or before May, 1871, as the road from Chetopa to Arkansas River (90 miles) is completed 2,250,000

And at once, on about 75 miles of road in Kansas, already constructed 1,605,000

(*e*) And there is reserved Nos. 10,001 to 14,000, both inclusive, to be issued only on completed sections of the line, south from Arkansas River to Preston in Texas (160 miles), as certificates of the Chief Engineer and General Superintendent of road and President of the Company, shall be filed from time to time with the trustees 4,000,000

	$14,000,000

On 90 miles from Chetopa to Arkansas River, to be completed by May 1, 1871:

Capital stock	$2,250,500	
Mortgage bonds		$2,250,000

On 160 miles, from Arkansas River to Preston, not yet under contract, but on which the preliminary surveys are being made:

Capital stock	4,000,000	
Mortgage bonds		4,000,000

Total on 592 miles of road:

Capital stock	16,257,500	
Mortgage bonds		14,000,000

No stock or bonds are issued, except on a completed section of road, as certified by the Chief Engineer, $25,000 per mile in stock, and a like amount in bonds when there is a land grant, and when there is no land grant, $20,000 per mile in bonds only is issued.

Of the 100,075 shares of capital on 342 miles of completed road, 11,300 shares are owned by counties along the line in Missouri, and cannot be sold or offered or sale, except as taxpayers paying the special tax levied to pay the county

Digitized by Google

bonds issued, and receiving scrip therefor, shall withdraw such shares by presenting scrip in amounts of one hundred dollars in exchange. The company have also the right, under acts of the Legislature of Texas, passed August 2d and 3d, 1870, to extend its line southwest from Preston, via Waco and Austin to the Rio Grande, and also south from Preston to the waters of Galveston Bay, in all about 1,000 miles, in the State of Texas, for which it will be entitled to receive, under an ordinance of the Convention of 1866, approved November 13, 1866, sixteen sections of land per mile (10,240 acres per mile), as its road shall be constructed, in all about ten million acres of land in that State.

Register of Stock, Union Trust Company of New York.

The Texas Pacific Railroad.—An official notice is given that the Texas Pacific Railroad Commissioners will meet in this city, on April 15th next, for the purpose of opening books of subscription to the capital stock of the Company, of receiving subscriptions to the said stock and for electing a Treasurer.

The bill for the construction of this important road having become a law, weannex the following particulars of the route:

The main track commences at Marshal, Texas, and extends thence by the most direct and eligible route, to be determined by said company, near the thirty-second parallel of north latitude to a point near El Paso; thence by the most direct and eligible route, to be selected by said company, through New Mexico and Arizona, to a point on the Rio Colorado at or near the southeastern boundary of the State of California, thence by the most direct and eligible route to San Diego, California. The New Orleans, Baton Rouge and Vicksburg Railroad Company, chartered by the State of Louisiana, has the right to connect by the most eligible route to be selected by said company, with the said Texas Pacific Railroad at its eastern terminus, and shall have the right of way through the public lands to the same extent granted hereby to the said Texas Pacific Railroad Company, and in aid of its construction from New Orleans to Baton Rouge, thence by way of Alexandria in said State, to a connection with the said Texas Pacific Railroad Company at its eastern terminus, there is hereby granted to said Company, its successors and assigns, the same number of alternate sections of public land per mile in the State of Louisiana as are by this act granted in the State of California to the said Pacific Railroad Company, and said lands shall be withdrawn from market, selected and patents issued therefor and opened for settlement and pre-emption upon the same terms and in the same manner and time as is provided for and required from the said Texas Pacific Railroad Company, within said State of California, provided that said company shall complete the whole of said road within five years from the passage of this act. For the purpose of connecting the Texas Pacific Railroad with the city of San Francisco, the Southern Pacific Railroad of California is hereby authorized, subject to the laws of California, to construct a line of railroad from a point at or near Tehachapa Pass, by way of Los Angelos, to the Texas Pacific Railroad at or near the Colorado River, with the same rights, grants and privileges, and subject to the same limitations, restrictions and conditions as were granted to said Southern Pacific Railroad Company of California, by the act of July 27th, 1866; provided, however, that this section shall in no way affect or impair the rights, private or prospective, of the Atlantic and Pacific Railroad Company or any other railroad company.

Lehigh Coal and Navigation Company.—The lease of the Lehigh and Susquehanna Railroad and its branches to the Central Railroad Company of New Jersey, which we have previously noticed, is, in terms, substantially as follows:

First.—The Central Railroad Company will pay as rent one-third of the gross receipts derived from all the business of the road.

Second.—They will purchase all the equipments of the Lehigh and Susquehanna road, and pay therefor by assuming the payment of about $2,300,000 of the $5,000,000 gold loan, at or before maturity, and will pay the interest thereon until the bonds are surrendered for cancellation. The Central Railroad also agree to assume all liabilities under the two car trust organizations, and to purchase all materials on hand, and shop tools and machinery.

Third.—They will maintain and perpetuate the railroad at their own cost, but the loss by freshets, when exceeding $5,000 at any one time, to be paid by the Lehigh and Susquehanna Company.

Fourth.—They will provide at their own cost all of the rolling stock and machinery necessary for all the business of the company.

Fifth.—They covenant to protect the interests of the Lehigh and Susquehanna Company in case of a merger, or close alliance of any kind between them and the Lehigh Valley Railroad Company.

Sixth.—They will furnish all cars required for the transportation of the coal from the Lehigh mines.

Seventh.—They will provide all cars that may be required for the transportation of coal to the canal from collieries on the line of the Lehigh and Susquehanna road, or roads connecting therewith.

Eighth.—They covenant to pro-rate all transportation charges on traffic interchanged between the Lehigh and Susquehanna road and other roads controlled by them.

Ninth.—All the coal from the Lehigh lands of the Lehigh Coal and Transportation Company is pledged to the leased road and to the canal of that company, and to the Central Railroad of New Jersey; and also three-fourths of the coal from the Wyoming lands, where not pledged by existing contracts to other lines.

Tenth.—The Central Railroad of New Jersey have the option for three years of leasing the Lehigh Canal, at a net annual rent of $300,000.

Eleventh.—All necessary further sidings, double track, stations, shops or other buildings, to be made with the consent and at the expense of the Lehigh and Susquehanna Railroad Company. The money to be advanced by the Central Railroad of New Jersey, and at a rate of interest not to be less than seven per cent. The Lehigh and Susquehanna Company to have the right to repay the advance at any time.

Twelfth.—All differences between the two companies to be arbitrated.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, April 14, 1871.

There has been some improvement in trade the past week. The demand for merchandize from Western and Southern dealers has improved, and most articles of importation have ruled steady, or have slightly improved, but on the great agricultural staples of the country which depend upon an export demand, Cotton, Breadstuffs, Provisions and Tobacco, prices have declined, with unimportant exceptions, and the decline has not in all cases led to an increased business.

Cotton has declined to 14⅞c for Midland Upland. Flour is easier at $6 60@6 65 for good shipping extras. Wheat closes weak at $1 57½@1 60 for New Spring. Corn has declined to 76@77c for prime mixed, leading to a large business. Groceries show more activity in Coffees at the late decline, while Sugars have taken an upward tendency.

Tobacco shows a further decline in Kentucky Leaf, with a dull market. Cutters and dealers have held off, and the sales for the week have been only about 450 hhds mostly for export to various parts. Quotations are reduced to 5½@6c for lugs, and 6½@9c for common to good leaf, but really very little selling over 7½c. The business in Seed Leaf Tobacco has nearly come to a standstill, and prices are quite unsettled. Sales include 250 cases New Ohio on private terms, 100 cases Connecticut Wrappers, crop of 1869, at 45@52c; 100 cases Old Wrappers, assorted lots, 35@60c. Spanish Tobacco has been in fair request, with sales 500 bales Havana at 88c@$1 02, and 94 bales Old Yara, 3 cut, on private terms.

In most staples of Provisions prices show a further decided decline, but there is, at the close, some indications of a better demand, both for export and home use, buyers apparently only waiting for prices to touch bottom. Mess Pork closed at $19 25@$19 50; prime Mess, $17 75@$18; prime Lard, 11½c.; Cumberland Bacon, 9c.; Beef also shows an irregular decline. Cheese is lower, and shippers have been able to buy the finer factories at 18c. Butter has given way 2@3c.

Wool has been more active, but is still rather quiet, awaiting supplies from California.

Freights have been active. The charters to carry Petroleum have amounted to about 60,000 bbls. from here and Philadelphia. The shipments of grain have also been large, and rates have advanced to 7½@8d. by sail and steam to Liverpool; 8d. by steam to Glasgow, and 8d. by sail to London, with charters to cash for orders at 5s. 6d.@5s. 9d.

Rosin has been depressed by the scarcity and firmness of ocean freights, and closes nominal at $2 60 for Strained. Spirits Turpentine early in the week was weak under larger receipts, but closes scarce, in good demand and very firm at 54½c.

Metals have been quiet, excepting copper, which has sold for speculation to the extent of 7,000,000 lbs at 21@21⅜c for Lake, closing unsettled. Petroleum has remained firm at last weeks prices with a moderate business.

Hides have been fairly active at steady prices. Leather quiet. In Tallow, the export movement has been large, mainly at 8⅞c. In Oils, we notice the sale of 1,700 bbls Crude Sperm for London at or about $1 30. Hops have been firm, with a good demand for export. Whiskey has been dull and unsettled.

Of East India goods the principal transactions have been a line of Manila Hemp, 1,500 bales, at 9⅝c, gold, and several parcels of Calcutta Linseed at $2 30@2 32½, gold, per 56 lbs cash and time.

Exports of Leading Articles from New York.

The following table, compiled from Custom House returns, shows the exports of leading articles from the port of NewYork since January 1, 1871, to all the principal foreign countries, and also the totals for the last week, and since January 1. The last two lines show *total values*, including the value of all other articles besides those mentioned in the table.

ARTICLES.		Great Britain.	France.	Holland & Belg.	Germany.	Other N. Europe.	Spain.	Other S. Europe.	China & Japan.	Aust'ralia.	Br. N. A. Colonies.	Cuba.	Hayti.	Other W. Indies.	Mexico. COTTON.

FRIDAY, P. M., April 14, 1871.

By special telegrams received by us to-night from the Southern ports, we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening April 14. From the figures thus obtained it appears that the total receipts for the seven days have reached 64,156 bales against 67,543 bales last week, 71,744 bales the previous week, and 81,426 bales three weeks since, making the total receipts since the first of September, 1870, 3,448,720 bales against 2,488,867 bales for the same period of 1869–70, showing an increase since September 1 this year of 959,853 bales. The details of the receipts for this week (as per telegraph) and the corresponding week of 1870 are as follows

RECEIPTS Rec'd this week at—	1871.	1870.	RECEIPTS Rec'd this week at—	1871.	1870.
New Orleans bales	25,473	19,251	Florida bales.	206	177
Mobile	4,531	4,041	North Carolina	1,339	887
Charleston	2,614	2,655	Virginia	5,994	2,168
Savannah	7,966	6,181			
Texas	7,309	5,986	Total receipts	64,156	44,574
Tennessee, &c	8,824	3,733	Increase this year	19,582	

The exports for the week ending this evening reach a total of 83,987 bales, of which 65,364 were to Great Britain, 3,391 to France and 15,232 to rest of the Continent, while the stocks as made up this evening, are now 529,177 bales. Below we give the exports and stocks for the week, and also for the corresponding week of last season, as telegraphed to us from the various ports to-night:

Week ending April 14.	Exported to— G. Brit	Contin't	Total this week.	Same w'k 1870.	Stock. 1871.	1870.
New Orleans	22,065	10,968	33,033	34,038	216,208	159,688
Mobile	15,619	2,750	18,369	1,000	42,750	51,897
Charleston	4,036	....	4,036	....	17,313	17,094
Savannah	2,905	....	2,905	5,211	51,501	45,425
Texas	1,944	....	1,944	2,562	57,415	27,854
New York	18,702	4,467	23,169	6,210	108,000	53,000
Other ports	93	438	531	....	36,000	25,000
Total	65,364	18,623	83,987	49,051	529,177	379,958
Total since Sept. 1	1,896,009	557,594	2,453,603	1666,261	....	....

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an increase in the exports this week of 34,936 bales, while the stocks to-night are 149,219 bales more than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to April 7, the latest mail dates. We do not include our telegrams to-night, as we cannot insure the accuracy or obtain the detail necessary by telegraph.

PORTS.	RECEIPTS SINCE SEPT. 1. 1870.	1869.	EXPORTED SINCE SEPT. 1 TO— Great Britain	France	Other Forign	Total.	North-ern Ports.	Stock.
New Orleans	1208,018	961,704	608,793	22,024	281,501	915,718	152,412	226,535

Total this year	3384,564	....	1830,645	27,583	511,388	2369,616	958,427	587,194
Total last year	....	2444,293	1048,002	270,520	298,688	1617,210	691,868	394,464

The market the past week has continued dull, with prices in buyers favor. There has been neither an active nor a general demand, while holders have shown increased disposition to supply any inquiry there might be. The finer grades have been (in absence of any spinning demand sufficient to absorb the offerings), particularly heavy, and Middling Uplands closed to-night at 14⅞c. against 15⅛c. last Friday, and Low Middlings at 13⅜c. against 14c. a week ago; the grades below Low Middling remain unchanged. The cause of the dull feeling may be found in the continued large receipts at our ports, with a belief that the planting this year is not to be materially decreased, while the disturbed condition of France prevents any industrial recovery there. Under these circumstances holders begin to lose heart, fearing that the long expected upward movement in prices during the spring or early summer months may fail to be realized. This feeling is further reflected in the business for forward delivery. Prices, on the basis of Low Middling, closing to-night at 12⅞c. for April; 13 11-16 for May; 13⅝c. for June; 13⅞c. for August, August and September together 13¾c., and for September 14c. The total sales of this description for the week are 19,350 bales including 400 free on board. For immediate delivery the total sales foot up this week 16,633 bales including 11,149 for export; 2,901 for consumption; 240 for speculation; and 2,343 in transit. Of the above 301 bales were to arrive. The following are the closing quotations:

	Upland and Florida.	Mobile.	New Orleans.	Texas.
Ordinary per lb.	10¼@....	11 @....	11¼@....	11¾@....
Good Ordinary	12¾@....	12¾@....	13½@....	13¾@....
Low Middling	13¾@....	14 @....	14½@....	14½@....
Middling	14¾@....	15 @....	15½@....	15½@....
Good Middling	15¼@....	16 @....	16¼@....	16½@....

Below we give the total sales of cotton and price of *Uplands* at this market each day of the past week:

	Total sales.	Ordinary.	Good Ordinary.	Low Middling.	Middling
Saturday	1,976	10¾@....	12¾@....	14 @....	15⅛@....
Monday	No	Report.	German	Peace Celebration.	
Tuesday	4,055	10¾@....	12¾@....	13⅞@....	15 @....
Wednesday	2,458	10¾@....	12¾@....	13⅞@....	14⅜@....
Thursday	4,575	10¾@....	12¾@....	13⅞@....	14⅜@....
Friday	3,569	10¾@....	12¾@....	13⅞@....	14⅜@....

For forward delivery the sales (including 400 free on board) have reached during the week 19,350 bales (all low middling or on the basis of low middling), and the following is a statement of the sales and prices:

For April. bales.	cts.

100 seller's option all this year	13½

The sales during the week of free on board have reached 400 bales. The particulars of these sales are as below:

200 free on board at any ports..... p. t.
200 free on board at Savannah..... p. t.

The following exchanges have been made during the week:

100 each April and May for 100 each June and July, even.
300 April for 300 August, even terms.
⅛c. paid to exchange 200 May for 200 April.

WEATHER REPORTS BY TELEGRAPH.—Unsettled, rainy weather appears again to have visited a large section of the South. From different points our telegrams state that the rains have been excessive, and are injuriously interfering with crop work. This is reported to be the case at Memphis, where it has rained two days, and also at Columbus and Augusta, where there has been the same number of rainy days this week. At Macon it has rained three days and the weather is still unsettled, at Charleston one day, and at Selma an unusually severe storm is reported. On the other hand our correspondent at Nashville says that planting is progressing finely in that vicinity, and from Galveston our telegram states that the plant is well up. The Thermometer has averaged during the week at Charleston, 71; at Macon, 74; at Columbus, 69; at Mobile, 68; at Selma, 67; at Galveston, 70; and at Memphis, 63.

Digitized by Google

THE NEXT CROP.—There are some points established with regard to the next crop which are very satisfactory.

1. There has certainly more corn and breadstuffs been planted throughout the South this year than last year. We hear this from almost all our correspondents, and think there can be no doubt of it. It is not simply true of limited districts ut is nearly if not quite universal.

2. The expense of putting the cotton crop into the ground has been much less than last year. This has arisen from the necessities of the planter. He has had neither the money nor the credit to do otherwise. As a consequence very much less has been spent for fertilizers.

3. Bacon, ham, and all "hog products" are now from 3@4c per pound lower than they were last year at this time, and the market for products of this description has at present a downward ten-

4. These three facts, together with the further one (which is only true to a limited extent, however,) that better terms have been made with the freedmen, ensure, we think, a cheaper cotton crop than any since the war. It is hardly necessary to say that "hog and hominy" enter very largely into the price of cotton, and with these articles low the cost of the crop to the planter will be very materially reduced.

GUNNY BAGS, BAGGING, &c.—The market for cloth continues very quiet, and no great improvement is looked for immediately. The present prices here and in Calcutta show no profit to the importer, and it is thought that thereis likely to be a falling off in the shipments on the other side. We quote East India 18@18¼c., and Domestic 19½@20c. The only sale since our last is 100 bales Borneo to be delivered in New Orleans at 20c., currency. Bags are excessively dull, and merely nominal in price; we quote 15@15½c. Hemp has ruled quiet most of the time, and with liberal arrivals prices gave way a fraction, but close again steady, with the advance fully recovered. Sales are 1,500 bales from store at 9⅛c., gold, for Manila, and at the close to-day 500 bales X "Glenlyon" at 10c., 30 days. Jute has ruled very quiet. We have heard since the date of our last, though sold previously, of 1,000 bales on private terms. Jute Butts are in better supply, but rule pretty steady. The business is 350 bales at 4@4 1-16c., currency, 500 bales at 4c., currency, and 100 bales at same price, closing steady.

MOVEMENTS OF COTTON AT THE INTERIOR PORTS.—Below we give the movements of cotton at the interior ports—receipts and shipments for the week, and stock to-night and for the corresponding week of 1870:

	Week ending Apr. 14, 1871.			Week ending Apr. 14, 1870.		
	Receipts.	Shipments	Stock.	Receipts.	Shipments.	Stock.
Augusta	1,673	2,357	20,288	1,775	2,701	18,510
Columbus	412	1,279	6,884	382	1,334	11,448
Macon	377	992	7,332	401	1,143	12,118
Montgomery	690	1,673	5,455	384	1,068	7,655
Selma	446	1,145	3,977	376	408	5,200
Memphis	5,862	9,702	19,685	4,143	2,865	17,814
Nashville	783	1,369	5,905	1,215	1,173	5,316
	10,243	18,517	69,526	8,676	10,692	78,061

These totals show that the interior stocks have decreased during the week 7,974 bales (being now 8,535 bales less than for the same period of last year), while the aggregate receipts are 1,567 bales more, and the shipments 7,825 bales more than for the corresponding period of 1870.

VISIBLE SUPPLY OF COTTON.—The following table shows the quantity of cotton in sight at this date of each of the two past seasons:

	1871.	1870.
Stock in Liverpool.....bales.	813,000	477,000
Stock in London	69,928	53,792
Stock in Glasgow	300	300
Stock in Havre	39,428	65,540
Stock in Marseilles	3,200	11,450
Stock in Bremen	18,346	7,878
Stock rest of Continent	27,000	30,000
Afloat for Great Britain (American)	320,000	211,000
Afloat for France (American and Brazil)	17,300	85,000
Afloat for Bremen (American)	38,627	17,289
Total Indian Cotton afloat for Europe	214,000	160,000
Stock in United States ports	529,177	379,958
Stock in inland towns	69,526	78,061
Total	2,159,832	1,577,268

These figures indicate an *increase* in the cotton in sight to-night of 582,564 bales compared with the same date of 1870.

The following are the receipts of cotton at New York, Boston, Philadelphia and Baltimore for the last week, and since Sept. 1, 1869:

RECEIPTS FROM—	NEW YORK.		BOSTON.		PHILADELPHIA		BALTIMORE.	
	This week.	Since Sept. 1.	This week.	Since Sept 1.	This week.	Since Sept 1.	This week.	Since Sept 1.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 81,738 bales. So far as the Southern ports are concerned, these are the ame exports reported by telegraph, and published in THE CHRONICLE last Friday, except Galveston, and the figures for that port are the exports for two weeks back. With regard to New York we include the manifests up to last Saturday night:

	Total bales.
NEW YORK—To Liverpool, per steamers City of Limerick, 1,347....City of Washington, 1,159....City of Brooklyn, 1,102....Colorado, 3,539....Java, 1,152....Tripoli, 1,181...Erin, 3,783....per ship Alexander Marshall, 2,019	15,282
To Continent via Glasgow, per steamer Anglia, 250	250

Mobile	5,748	1,450	....	757	....	....	1,255	...	9,210
Charleston	...	...	...	....	1,650	....	761	....	2,411
Savannah	8,039	....	2,775	....	....	....	....	....	10,814
Texas	1,040	....	....	....	990	....	....	....	2,030
Baltimore	1,574	....	....	....	....	....	....	....	1,574
Total	42,868	1,450	5,935	6,046	6,934	7,195	2,620	4,738	81,738

Included in the above totals are from New York 250 bales to Continent via Glasgow, 100 bales to Hamburg, and 200 bales to Rotterdam; from New Orleans, 1,512 bales to Antwerp, 1,070 bales to Venice, and 820 bales to Vera Cruz.

GOLD, EXCHANGE AND FREIGHTS.—Gold has fluctuated the past week between 110⅛ and 110¼, and the close was 110¼. Foreign Exchange market is strong to-day. The following were the last quotations: London bankers', long, 109⅞@110; short, 110⅛@110¼, and Commercial, 109½@109⅝. Freights closed at 5-16@⅜. by steam and ¼@5-16d. by sail to Liverpool.

BY TELEGRAPH FROM LIVERPOOL.—

LIVERPOOL, April 14, 5 P. M.—The market has ruled dull to-day, with sales footing up 10,000 bales. The sales of the week (three days) have been 47,000 bales, of which 7,000 bales were taken for export and 2,000 bales on speculation. The stock in port is 813,000 bales, of which 479,000 bales are American. The stock of cotton at sea bound to this port is 510,000 bales, of which 320,000 bales are American.

Of the present stock of cotton in Liverpool 55 per cent is American against 56 per cent last year. Of Indian cotton the proportion is 17 per cent, against nearly 21 per cent.

LONDON, April 1.—The Cotton trade has been firm, and in some instances, a further advance in prices has taken place. The following are the particulars of imports, deliveries and stocks:

	1869. bales.	1870. bales.	1871. bales.
Imports, January 1 to March 30	70,058	34,493	47,469
Deliveries	132,107	102,945	45,364
Stocks, March 30	83,180	53,792	69,938

BREADSTUFFS.

FRIDAY P. M., April 14, 1871.

The markets for Flour and Grain the past week have been variable in tone, though the fluctuations in prices have been inconsiderable. The close, however, is pretty uniformly in favor of buyers.

The receipts of flour have continued moderate, but there has been little done for Europe, and except for the West Indies the export demand would be hardly worth referring to. The West India orders have been mainly for grades worth $7@7.25, and have been partially filled with Southern flours. The shipping extras from Spring Wheat close somewhat nominal at $6.50@6.75, with holders seeking bids. The trade demand has been fair, and the Minnesota brands have brought very full prices. Rye flour has declined 25c per bbl., and corn meal has ruled very dull. At to-day's market, good lines of shipping extras from Spring Wheat sold at $6.65 delivered, but the bids were generally limited to $6.60, which sellers were unwilling to accept.

The wheat market shows very little change. Receipts have been moderate, and foreign accounts have reported an advance; but a disposition to realize and the scarcity and higher rates of ocean freights have operated to prevent any general advance, although rather more money was paid in special instances. We shall be in receipt of large supplies by canal the first week in May. To-day, under dull private advices from Europe, the market showed weakness, leading to a moderate business for export at $1 58 for new No. 2 spring in store, and $1 65 for amber winter and common white.

Corn has declined under liberal receipts by rail, reduced bids from shippers, and an advance in ocean freights. But at each concession buyers took hold freely. The sales of Western mixed at 75@76c were very large, and to-day, with better accounts from abroad, there were large sales, including yellow at 77¼c, and mixed at 77c, but the close was about 76¼c. There are large quantities of corn coming forward, but the wants of buyers seem to be very great.

Rye has been dull and drooping. Barley has been closing out freely at very full prices. Oats have been dull, and the late advance has not been fully sustained. Prime mixed Western sold in store to-day at 65½c.

The following are the closing quotations:

Flour—		Wheat, Spring, bush	$1 45@1 61
Superfine	$ bbl. $6 00@6 40	Red Winter	....@....
Extra State	6 55@6 75	Amber do	1 62@1 65
Extra Western, common	6 50@6 80	White	1 65@1 65
Extra and double extra Western & St. Louis	6 85@8 75	White California	1 75@1 85
Southern shipp'g extras	6 80@7 25	Corn, Western Mix'd	76@ 77
Southern, trade and family brands	7 50@9 00	Yellow, new	77@ 78
Rye Flour, super & extra	5 40@6 15	White	76@ 85
Corn Meal, Western and Southern	3 75@4 40	Rye	1 10@1 18
		Oats	64@ 70
		Barley	90@1 20
		Malt	1 00@1 20
		Peas, Canada	1 15@1 45

The movement in breadstuffs at this market has been as follows:

*Estimated.

In the comparative statement of stocks April 1, 1870, Boston, Montreal, Oswego, Toronto, Philadelphia and Baltimore were not included.

GROCERIES.

FRIDAY EVENING, April 14, 1871.

The calculations of the Trade have again been somewhat disappointed, the volume of business proving smaller than usual for the season, and indications of an improvement thus far amounting to indications and nothing more. As a rule, however, we find holders but little inclined to lose confidence in the future owing to the almost certainty of exhausted supplies in the interior, the near approach of the general resumption of canal navigation and consequent lower freights, and the fact that many goods are now down to about the cost of importation. Buyers are not expected to depart from the caution so long shown, but their actual wants, it is thought, must make a considerable impression upon the accumulation. Our cereals must also begin soon to reach the seaboard freely and the money realized on these is likely to be partially expended on foreign goods for return freights.

The entries direct for consumption, and the withdrawals from bond, showing together the total thrown on the market for the week, were as follows:

Tea, black	8,444 pkgs.	Laguayra	414 bags.	Sugar, Brazil	.... bags.
Green	7,018 pkgs.	Other	981 bags.	Manila, &c.	.... bags.
Japan	3,070 pkgs.	Sugar, Cuba	8,047 boxes.	M'las'es, Cuba	5,490 hhds.
Various	7,552 pkgs.	Cuba	6,052 hhds.	Porto Rico	96 hhds.
Coffee, Rio	10,374 bags.	Porto Rico	265 hhds.	Demerara	.... hhds.
Java	3,589 mats.	Other	715 hhds.	Other	470 hhds.
Maracaibo	2,430 bags.				

*Hhds. include bbls. and tcs. reduced

Imports this week at this port have included 7,290 bags of Rio Coffee, 2,775 do. of St. Domingo, 312 do. Laguayra, and 2,355 do. sundry kinds. The receipts of Sugar include 9,824 boxes, 19,759 hhds. and 40,733 bags of Manila. In Tea there has been a single arrival of 485,583 lbs. of Green.

The stocks in New York at date, and imports at the five leading ports since Jan. 1, 1871, are as follows:

	Stocks in New York at date.		Imports at leading ports since January 1.	
	1871.	1870.	1871.	1870.
Tea, lbs.	....	....	21,808,227	20,478,049

Molasses, hhds.	14,366	20,541	94,726	107,479

TEA.

The impression among some of the leading brokers is that Greens are a little more steady, that Oolongs have about touched bottom, and that Japans—well not much is said in favor of the latter grade and they are somewhat doubtful. At the best, however, the market is only a nominal one and exact quotations are for the present difficult to decide upon. Jobbers have bought to some extent but without freedom and in no case beyond actual wants and business generally has continued in the same slow state so long noticeable with little prospect of improvement until Congress adjourns, as there is plenty of evidence to indicate that country buyers are afraid of some change in the tariff and are determined not to operate until they are sure of the rate of duty. The amount of stock on sale continues fair and the assortment good. Sales of 6,650 pckgs Green; 1,300 pckgs. Oolong; 1,950 pckgs. Japan. The auction sale on Wednesday was neglected by the leading members of the trade, and the prices obtained were low. The following is the range: On Japans, 56½@76½c.; Gunpowder, 71c.@$1 15; Imperial, 87c.@$1 02½; Young Hyson, 43c.@[illegible]. The imports this week consist of an arrival of [illegible] per "Nellie Abbott," from Shanghae.

The following table shows the imports of Tea into the United States (not including San Francisco), from January 1 to date, in 1871 and 1870:

	Black.	Green.	Japan.	Total.
1871	6,854,400	10,564,553	4,389,274	21,808,227
1870	8,902,238	8,623,852	2,951,960	20,478,049

The indirect importations, including receipts by Pacific Mail steamers via Aspinwall, have been 8,495 pkgs. since January 1, against 15,309 last year. The receipts of Tea overland by railroad have this week amounted to 6,306 pkgs.

COFFEE.

The general position remains much the same as noted for a week or two past, buyers coming forward only as forced to through actual necessity and business moving in a sluggish, uncertain manner, with values naturally slack and frequently so very uncertain as to render quotations little better than useless. The fear of some political trickery by which the duty will be changed is undoubtedly keeping a great many buyers back, and the impression in the market is that no activity can be looked for until the adjournment of Congress. Some holders, however, look upon the prospects as rather brighter, and insist that a quick call is now likely to spring up at any moment in view of the opening of inland navigation, and the lower rates of freights and the almost certainty that the supplies of interior dealers are much reduced. Of Brazils the accumulations have increased somewhat, and the call has been very light notwithstanding a further modification of prices, and even at the decline the tone is somewhat slack, though importers assert that they are offering below the cost of goods, and cannot reasonably be expected to make further concessions. The fine grades still embrace the principal portion of the supply, and this gives ordinary relatively the firmest tone by ¼c. per lb. There have been some negotiations on Java in view of recent favorable foreign advices, and prices commence to strengthen. West India styles dull and slow throughout with stocks slightly increasing, but holders at the close were a shade firmer in view of a better movement from second hands. Sales of 11,025 bags Rio; 2,500 bags Laguayra; 367 Costa Rica; 180 Mexican; 15,000 mats Java, since resold; 3,500 bags Maracaibo, second hands; 350 bags St. Domingo; and shipments of 2,075, the latter from first hands. Also, 4,000 bags Rio at Hampton Roads to go to Baltimore; 9,943 bags Rio at Baltimore, and 3,200 at New Orleans. At the close we learn of sales at Boston of some 12,000 mats Java per Rocket. This reduces the stock in first hands throughout the country to 15,251 mats, the cargo of the Knight of Snowden, and infuses a much stronger tone to the market. In fact, on all grades there are evidences of a more healthy feeling, and holders are quite hopeful.

Imports this week have included 7,290 bags of Rio, per "A. Prendergast" and "Brother's Pride;" 312 do. Laguayra, per "Jeune Adolphe;" 2,775 do. St. Domingo, per sundry vessels; 310 do, Savanilla, per "Lottie Wells;" 1,3[illegible]2 do. Jamaica, per "Mary H. Banks," and 693 do. sundry, per steamer "Rising Star," from Aspinwall.

The stock of Rio April 13, and the imports since Jan. 1, 1871, are as follows:

In Bags.	New York.	Philadelphia.	Baltimore.	New Orleans.	Savan. & Mobile.	Galveston.	Total.
Stock	54,781	3,000	31,215	9,100	6,778	....	104,869

Imports	411,525	11,808	183,517	90,760	24,870	3,000	495,899
" in 1870	168,787	....	185,607	62,827	14,300	8,045	379,016

Of other sorts the stock at New York, April 13, and the imports at the several ports since January 1, 1871, were as follows:

In bags	New York stock.	New York import.	Boston import.	Philadel. import.	Balt. import.	N. Orle's import.	Total imports at all the ports
Java and Singapore	† 197	*26,664	*26,175	*1,963	....	....	
Ceylon	3,000	....	....	....	....	....	
Maracaibo	1,884	5,066	....	....	....	....	
Laguayra	8,038	13,907	....	5,601	....	....	
St. Domingo	517	28,768	3,671	....	288	....	
Other	11,825	31,040	642	714	915	6,987	
Total	24,661	105,366	30,338	8,277	915	7,190	152,186
Same time, 1870	21,473	93,677	18,790	3,556	3,218	38	119,279

* Includes mats, &c., reduced to bags. † Also, 15,251 mats.

SUGAR.

The market for Raws has been somewhat unsettled and at times quite doubtful, but on the whole the tendency was rather toward a lower range and values were somewhat modified. Refiners have found the sale of their product fair and have bought stock in proportion thereto, but seldom if ever exceed the wants of a few days and were met by a more liberal offering. Importers do not look upon the future of the market with any but the most confident feelings, though for the present it is necessary to give way somewhat under the natural depression consequent upon accumulating stocks, more liberal offerings from pier and comparatively full receipts present and prospective. Nothing as yet fairly indicates the probable wants of the interior, but it is supposed that supplies must be pretty nearly exhausted and the first call to restock likely large, buyers now holding off for an adjustment of Summer freight tariffs, and the full opening of navigation. Operators are as usual on a dull market somewhat apart in their views of grading, but the irregularities apparent on the first arrival of the new crop have nearly all disappeared. Refined goods have met with an unsettled demand, but large enough in the aggregate to prevent the accumulation of any surplus stock and values were pretty well sustained on most grades. Grocers have bought quite freely of the common sorts for retail distribution in place of raws. The general market closes with a pretty firm tone owing to indications of a quicker call from all sources. Sales of 6,915 hhds. Cuba; 1,125 hhds. Porto Rico; 300 hhds. Demerara; 156 bags Laguayra; 5,986 boxes Havana, and 372 Melado.

MOLASSES.

Business in foreign grades still has a dull appearance, rather more so than usual for the season, but prices are without variation and the position may be called steady. In fact there has really been no change in the market for the past three or four weeks, buyers coming forward when actually in need of goods, and paying full prices for desirable assortments; but present exigencies provided for, there was an immediate withdrawal of all bids. The good to prime grocery, descriptions in jobbing lots and fine boiling stock by cargo, are the only kinds sought after, distilling qualities dealers [illegible] very large stock, and all that is here is available on comparatively easy terms, but holders are cautious not to resort to any undue pressure, as extremely low prices must in that case be accepted. Sugar House Molasses in moderate demand and weak at 17c. in hhds. and 21c. in bbls. Sales of 45 hhds. Cuba Muscovado; 130 hhds. Cuba clayed; 300 hhds. Porto Rico; 425 hhds Barbadoes; 230 hhds. St. Croix, and 550 bbls. New Orleans.

The receipts at New York, and stock in first hands, April 13, were as follows:

*Including tierces and barrels reduced to hhds.

SPICES.

The jobbers have been doing some little business on nearly all grades, and as they have the position very fairly under control former prices were obtained without much difficulty. Still no advance is reported, as buyers do not evince enough anxiety to warrant the asking of higher figures. In the way of invoices the movement has been quite moderate, the distributors in a small way having already become fairly stocked, and advices from abroad, though encouraging, failing to stimulate any speculative feeling. At the outports there has been a little doing, the leading sales embracing about 1,000 piculs Singapore Pepper at Boston, per Natier and Jungfrau.

FRUITS, &c.

There is a little more doing in Foreign Dried than at the date of our last report. The jobbing trade, however, is light, and dealers are not willing to stock up, and bring only in a small way, as their wants require. Importers generally look for a revival of trade and an advance in prices, but still to make sales at present, are obliged to accept buyers prices for most articles. The purchasing of Layer Raisins by an importer have apparently subsided and they are very dull jobbing at $2 75. Prunes are very heavy and favor the buyer. Currants sell slowly at the late decline. Sardines move very slowly at prices showing no quotable decline but which are not very firm. Citron is firm and in fair demand. Nuts of all kinds are rather quiet but rule at about former prices. Fire Crackers have moved quite freely but close rather easier.

Foreign Green box fruit sell fairly and although in good supply rules steady in price. At the auction sale to-day Messina Oranges sold at $2 00@3 95 per box; do. Lemons, $4; Palermo Oranges $2 50@$3 25 per box, and do. Lemons $3 00@4 25 per box. West India Oranges have nearly all come in for this season. Bananas are becoming plenty, but sell well; Baracoa at $1 50@2 00 per bunch and Aspinwall at $2 50@3 50 per bunch. Cocoanuts are in fair demand at $38 per thousand for Baracoa and $50@55 for Carthagena. Pine Apples are beginning to come in more freely; they sold at $15 per hundred for Nassau Red.

Domestic Dried have ruled very quiet for all descriptions. Apples are heavy and although there have been no sales of moment, at a decline to sell at all freely lower prices must be accepted. Blackberries are not plenty but sell only in small lots at about former prices. Cherries and Plums are quiet. Peanuts hardly so firm but a little more active.

Domestic Green are in small demand for apples for city use and for the best kind full former prices are realized. Cranberries are dull and favor the buyer although at present are very cheap; the supply is large.

ADVICES FROM PRODUCING MARKETS.

Rio Coffee.—Messrs. Wright & Co.'s telegram, dated Rio de Janeiro, March 23, 1871, says:

Sales of Coffee for United States since March 7	68,000	bags
Shipments " " "	56,000	"
Loading "	22,000	"
Stock " at date	180,000	"
Price	6$100	
Exchange, 25¼d.		

Cuba Sugar.—HAVANA, Wednesday evening, April 5, 1871.—CLAYED.—The demand noticed at the date of our last has become a little more active during the past few days, owing principally to the receipt of further favorable advices from the United States and some desire to dispatch vessels before the Easter holidays. Prices have continued to rule firm at from 10¼@10⅝rs. per arrobe for No. 12, common train. Little has been done for the North of Europe, where the principal markets continued quiet at last accounts. The market closed quiet to-day, but firm at quotations. Complaints of a heavy decrease in this year's crop continue to be received from every producing place on the Island; and there is not, we think, one estate which can boast even of an average production. Many of them have had a decrease of between 30 and 50 per cent.

MOLASSES SUGARS.—We have no change to report in these sorts of Sugars, which are held very firm.

CENTRIFUGALS.—The transactions effected since our last do not amount to much, and we continue quoting as per last sales.

MUSCOVADOES.—In good demand and under very short supplies. We quote almost nominally—8@8¾rs. for inferior to fair Refining; 9@9½rs. for good fair to good do. Superior descriptions continue scarce, and bringing fancy rates out of the limits of quotations.

Shipments this week from Havana and Matanzas have been as follows:

To	Boxes.	Hhds.
New York	9,592	2,891
Boston	....	....
Baltimore	6,671	773
New Orleans	157	150
Total export of the week to all countries	88,385	5,006

The general movement at both ports has been as follows:

	Rec'ts this week. Boxes.	Rec'ts this week. Hhds.	To U. S. Boxes.	To U. S. Hhds.	To all Ports. Boxes.	To all Ports. Hhds.	Stock at date. Boxes.	Stock at date. Hhds.
1871.....	59,328	4,700	123,309	40,228	289,350	44,282	341,940	22,722
1870.....	83,383	7,376	144,288	8,600	484,162	61,530	441,584	21,086
1869..	66,553	5,570	242,630	454	506,569	41,717	240,275	15,805

New Orleans Sugar and Molasses.—SUGAR.—The supplies are small, but the demand has been limited since our last semi-weekly review, and the market is dull though prices are unchanged. The supplies are selling slowly at 5¾@6¾c. for Inferior; 7⅛@8c. for Common; 8⅛@8⅝c. for Fair; 8¾@9¼c. for Good Fair; 9⅛@9⅜c. for Fully Fair; 10@10¼c. for Prime; 10⅜@11c. for Prime to Choice; 12@12¼c. for Yellow Clarified, and 12⅜@13c. for White. Clarified is very dull.

MOLASSES.—The market is dull; the demand is principally for Fermenting; the supplies are light, but are selling slowly at 30@50c. for Centrifugal; 15@25c. for Inferior Fermenting; 30@45c. for Good to Prime Fermenting; 35@45c. for Plantation Reboiled, as in quality; 30@60c. for City Refinery Reboiled, and 90c.@$1 for Golden Syrup. Arrived since the 4th inst., 969 bbls.

THE DRY GOODS TRADE.

FRIDAY, P. M., April 14, 1871.

There has been a fair jobbing trade done during the past week, the demand being chiefly from Western and near-by dealers who were making their first purchases or replenishing stocks laid in earlier in the season. The Southern trade has been light, though there has been some demand from dealers in that section for assorted lots, and, as compared with the West and localities near this city, the retail distribution in the South appears to be active. The demand from consumers in the interior generally is reported backward, and dealers are deferring their purchases in consequence, but we note a moderate improvement in the demand from small dealers since our last report, and the smaller jobbing houses are doing a better trade. There have been no important changes in the market since our last review, and the general list of quotations is well maintained, though jobbers are said to be cutting agent's prices on many fabrics, as an inducement to buyers. The sales from first-hands, during the week, have not been large excepting of staple cotton goods, which are in good request and are, in some instances, sold to arrive.

DOMESTIC COTTON GOODS.—Fine grades of brown and bleached goods continue in fair request and the most favorably known makes are sold close to the production. Medium grades are, also, fairly active, while low grades are slow of sale but are firmer than at the time of our last report. Prices are generally steady on the best grades, though some of the heaviest makes of bleached cottons are said to be quiet and not very firmly sustained. Prints are in good request and stocks are light, which, with the advance in cloths gives firmness to prices, and on two or three grades an advance has occurred, as will be seen by our quotations. Cambrics are also very firm and the agents for goods which are sold to arrive contemplate an advance on rolled. Colored Cottons are selling more freely at the revised quotations and prices are steady.

DOMESTIC WOOLEN GOODS.—Light weight cloths have not sold very freely first hands, but the jobbing demand has been rather more liberal and aggregates a fair amount. Castors are selling freely to jobbers and clothiers, at prices about 25c per yard higher than were current last fall. Fine light weight Cassimeres are in good demand and agents are well sold out. Medium and low grades are jobbing to some extent, but the demand is chiefly from small buyers. In heavy weights these grades are selling freely to clothing manufacturers and jobbers. Light woolen fabrics are in fair demand for current distribution and no noteworthy changes are reported in any line. Shawls sell freely, and the best styles are well sold out, several brands being sold to arrive at an advance of 25c on the opening prices.

FOREIGN GOODS.—The trade in foreign fabrics has been irregular but aggregates a fair amount both with importers and jobbers. Dress Goods have sold fairly to the retail trade and sales are effected from first hands of such amounts as are required to maintain jobbers' assortments. Linens are jobbing well but are quiet in first hands. Silks continue in good request, though gros grains are not selling so freely as was noted a few weeks since. There is a good trade in progress in Japanese silks at prices considerably above those current at the opening of the season, and holders are very firm on the comparatively light stocks remaining in the market. Millinery silks and ribbons are in better demand, and sales through the auction houses are readily effected at advancing prices on all desirable numbers.

The exports of dry goods for the past week, and since January 1, 1871, and the total for the same time in several previous years are shown in the following table:

	FROM NEW YORK.				FROM BOSTON
	Domestics.		Dry Goods.		Domestics.

THE NEW YORK

DAILY BULLETIN,

A First-Class Daily Commercial and Financial Journal.

The BULLETIN furnishes—

1st. The most complete FINANCIAL REPORT published in any daily paper, embracing:

The daily sales and quotations of every Security dealt in at the Stock Exchange and the Mining Board.

The quotations of Securities not on the Stock Exchange list, including Southern Stocks and Bonds.

A transcript of the official register of the Gold Room, showing every quotation from the formal opening to the formal closing of the Room—published in no other paper.

A summary of the daily transactions at the SUB-TREASURY, the GOLD EXCHANGE BANK, and the CLEARING-HOUSE.

A full table of quotations of STERLING and CONTINENTAL EXCHANGE.

THE CHANGES IN THE REDEEMING AGENTS OF THE NATIONAL BANKS, AND THE OFFICIAL PERIODICAL STATEMENTS OF THE NATIONAL BANKS IN EACH STATE, as furnished by the Comptroller of the Currency—published by no other daily paper.

2d. The most accurate and the ONLY DAILY report of the DRY GOODS MARKET, including a full PRICE CURRENT of staple and domestic fabrics, which is corrected daily.

3d. A carefully prepared report on the PRODUCE MARKETS, much fuller in its details than that of any other daily journal, embracing a full Price Current semi-weekly.

4th. A daily statement of the RECEIPTS OF PRODUCE, the IMPORTS FROM FOREIGN PORTS, and the MANIFESTS OF VESSELS CLEARED AT THE CUSTOM HOUSE.

5th. Its CITY COMMERCIAL and FINANCIAL NEWS is fuller than that of any other journal.

6th. In its EDITORIAL DEPARTMENT the BULLETIN gives a fuller discussion of current commercial and financial topics than any other journal in the United States; and in this especially its influence ranks second to that of no other paper in the country.

7th. Its PRICE IS ONLY ABOUT ONE-HALF that of other leading commercial papers, and yet its information is fuller and in all respects as valuable.

THE Commercial AND Financial Chronicle

HUNT'S MERCHANTS' MAGAZINE,

A Weekly Newspaper,

REPRESENTING THE INDUSTRIAL AND COMMERCIAL INTERESTS OF THE UNITED STATES.

VOL. 12. NEW YORK, APRIL 22, 1871. NO. 301

Advertisements.

Advertisements will be inserted at the following prices per line for each insertion:

If ordered less than 4 times			20 cents per line.
"	5 times or more		16 "
"	9 "		14 "
"	13 "		12 "
"	26 "		10 "
"	52 "		8 "

If the advertisement occupies one column or upwards, a discount of 15 per cent on these rates will be allowed.

Space is measured in agate type, 14 lines to the inch.

Advertisements will have a favorable place when first put in, but no promise of continuous insertion in the best place can be given, as all advertisers must have equal opportunities.

DRAKE BROTHERS,
BANKERS, 16 Broad St.

SEVEN-THIRTY GOLD LOAN
OF THE
NORTHERN PACIFIC RR.
RAPID PROGRESS OF THE WORK.
The building of the Northern Pacific Railroad, (begun July last), is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific Coast. The grade is nearly completed 266 miles westward from Lake Superior; trains are running over 130 miles of finished road, and track-laying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul & Pacific Road, the Northern Pacific Company now has 413 miles of completed road, and by September next this will be increased to at least 560.
A GOOD INVESTMENT.—Jay Cooke & Co. are now selling, and unhesitatingly recommend, as a Profitable and perfectly Safe investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-Tenths per cent gold interest (more than 8 per cent currency) and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the Road is completed, on
23,000 ACRES OF LAND to every mile of track, or 500 Acres for each $1,000 Bond. They are exempt from U. S. Tax; Principal and Interest are payable in Gold; Denominations: Coupons, $100 to $1,000; Registered, $100 to $10,000.
LANDS FOR BONDS. Northern Pacific 7-30's are at all times receivable at TEN PER CENT ABOVE PAR, in exchange for the Company's Lands, at their lowest cash price. This renders them practically INTEREST-BEARING LAND WARRANTS.
SINKING FUND. The proceeds of all sales of Lands are required to be devoted to the re-purchase and cancellation of the First Mortgage Bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment, accessible to the people, which is more PROFITABLE OR SAFE.
EXCHANGING U. S. FIVE-TWENTIES. The success of the New Government 5 per cent Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.
OTHER SECURITIES. — All marketable Stocks and Bonds will be received at their highest current price in exchange for Northern Pacific Seven Thirties. EXPRESS CHARGES on Money or Bonds received, and on Seven-Thirties sent in return, will be paid by the Financial Agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned.
FOR SALE BY JAY COOKE & CO.,

AN ERA OF INFLATION.

The tight money speculators who have made of late several attempts to use their well-known expedients for causing stringency, have acquired apparently a salutary fear of opposing the prevalent tendency to expansion, and scarcely any indications of the locking up of greenbacks have been reported during the past week. There is little doubt that in the absence of unforeseen contingencies the money market will be easy for some time to come. The policy of currency inflation, which has been urged in Congress, and was, in part adopted, has had the usual effects at the Stock Exchange, and has produced a notable advance in almost all descriptions of speculative securities. How long this excited state of the financial atmosphere will continue is of course problematical, and one cannot easily foresee how far it will extend. The stimulus of easy money always favors violent changes in the sensitive values dealt in at the Stock Exchange, and it has been often remarked that the monetary atmosphere which is favorable for speculation is also stimulative to general business. For two years past a widespread depression has extended itself through almost every department of industrial enterprise. The times are ripe for a reaction, and it will not be surprising if a general revival of commercial and manufacturing prosperity should soon arrive.

Whether this opinion is to prove true or not, it is entertained by a considerable number of shrewd men of experience; and they support it by cogent arguments. Some of these are well worthy of consideration. First, they say that there is an abundance of capital seeking investment, and that in regard to mercantile and industrial borrowers, the general confidence to lend is increasing. The banks of this city, for example, are discounting freely, and are offering greater facilities to their dealers than for some time past. In the other great financial centres the same favorable state of things exists. Many enterprises which have long been languishing for want of the needful capital, can now, therefore, be prosecuted with vigor. The troubles in France and the slow recovery of Europe from the ravages of the late war, prevent the outflow from this country of the foreign capital which has been for months past accumulating here to an unusual extent. This large aggregate of foreign capital will probably remain here for a long time to come.

Secondly. The banks all over the country are in a sound, strong position, and the extension of the banking system in the Western and Southern States will impart an active impulse to the productive energies of those States. In token of this the bank statement of New York last week was very favorable, clearly showing that the April drain is over, and that both currency and deposits had begun to return. The average is, moreover, a rising one, and the statement this afternoon may fairly be expected to be equally favorable.

Thirdly. The Government is pledged to do nothing which would conduce to make money tight or to discourage the activity of business. One paramount object of the Admin istration is stated to be to use such power as the Treasury may possess over the monetary mechanism of the country in the waywhich will best conduce to the material wealth of the country, and to make the people contented and prosperous. No doubtful experiments will be tried for a restoration of specie payments. No unwise and untimely contraction of the currency will be made. Nothing will be done to derange the credit system of the country. The assurance that there will be no tampering with the currency will give a stability to public confidence which has long been wanting. Moreover, a multitude of taxes have been repealed; and these vexations, wasteful imposts being removed, the vital energies which were repressed by them will suffer a recoil, so that many sources of prosperity which have been long dried up will speedily be opened again.

These and many similar arguments are urged to prove that we are on the eve of a season of lively improvement and material progress. Still it must not be forgotten that the foundation on which all these improvements builds is one of inflation. The paper money basis on which rests the

Digitized by Google

and until a more substantial and stable currency is reached there will always be more or less of uncertainty in all our prognostications as to the future.

Still there is one advantage in our present currency system which offers a partial compensation for its numerous evils. An illustration of this is just occurring in the case of our money market, which continues to work easily and is exempt from spasms, in face of the heavy foreign exports of coin. Formerly when we were on a specie basis the banks were always sensitive to a heavy exportation of gold; it never failed to throw the money market into confusion, because it drained away from the banks the specie reserve on which they did business. If we were now on a specie basis we could scarcely escape monetary stringency under the present and prospective export of coin. Under our present system, however, legal tender notes are just as well adapted as specie for bank reserve; and as fast as the banks lose their specie they must replace it with an equal amount of greenbacks or clearing-house certificates. Hence, as we have often shown our existing monetary system affords a greater protection to the money market against disturbance from causes arising in the domain of ourforeign exchanges. When we return to the solid, stable foundation of specie payments we may be able to contrive some method for perpetuating this advantage; and it will perhaps be found in the government gold notes which may in all probability give us just such a substitute for coin as will meet the requirements of the banks in such contingencies as we have referred to.

The era of specie payments, however, seems to be receding from us, and an era of inflation threatens to establish itself with the formidable evils which cannot fail to attend it. The past six months have witnessed a determined effort on the part of interested persons to obtain an expansion of the currency on the plea of imparting a stimulus to business, and recuperating the financial health of the country. Their partial successes in the past will doubtless lead them to further efforts in the future. We concede to these gentlemen that it is for the good of the nation to secure a stable money market, to prevent financial stringency and to stimulate the productive powers of the people. But there is a better way to achieve these results than by inflating the currency.

THE GOLD SPECULATORS AND THE TREASURY.

There is some apparent change of opinion as to the tendency of the gold premium in the immediate future. A year or more of gradual, steady decline has established in financial circles a prevailing conviction that the days of high gold are over, and that the premium must of necessity decline till coin and currency are at par. The gold panic in September, 1869, completely paralyzed the leading speculators for a rise, and so impoverished and disheartened them that till lately scarcely any of their movements were to be seen in Wall street. The influx of British capital this way has also helped to quiet the forces which might have caused a rise in gold. The exportation of bonds to Europe has also been on a large scale, and has conspired, with a multitude of other circumstances, to give a certain languor to the movements of the Gold Room. Of late, however, the tide has seemed to be turning, and a very strong undercurrent in Wall street is setting toward higher rates for gold.

To check this new movement is by some persons believed to be a policy both sound in itself and especially needful to promote the success of the new loan. Mr. Boutwell on Thursday, with a view to carry out this policy, sold four millions of gold, instead of two millions, as advertised. This unexpected increase was a surprise to a number of Wall street men who forgot that one of the express conditions of the sale is that the Government always reserves the liberty to dispose of more or less than is announced in the monthly programme. But the reserved privilege has been so seldom put in force that it was regarded as merely nominal, and the unexpected use of it caused a sudden depression and decline in the Gold Room. The extent of this decline may at first sight appear disproportionate to so small an addition as two millions to the advertised sale. It is quite true that twenty millions of gold and much more might be sold in the ordinary way without any such decline as has here been produced by the sale of two unexpected millions. Why is this? The reason is easy to explain. The gold sold from the Treasury is hoarded gold, which has been locked up in the government vaults and removed out of the market so as to be wholly incapable of disturbing the equilibrium of demand and supply. Hence an outpouring of coin from the Sub-Treasury augments the mass of gold pressing on the market, and gives greater volume to the current of the precious metals available for delivery. The ordinary transactions in the Gold Room neither enlarge nor lessen this current, for it is well known a single million of gold or of gold notes will serve on one day for the delivery of a vast aggregate of coin by the economies which have been established among the brokers for the facility of business, the security of property and the saving of expense. But this is not all. The customs receipts are large, and the Government holds some 75 millions of gold. A large amount of coin will be paid out for interest on the 1st of May. In this position of affairs the Secretary wields for the moment an unusual power over the gold market; and the sale of Thursday was interpreted to show that *he means* to use that power to prevent gold from going up. The moral effect of this argument we suppose was the chief reason for the sudden fall of gold and the temporary check of the speculative manipulations of the Gold Room.

If these speculative combinations were all that is operating to put up gold, the action of Mr. Boutwell might perhaps be sufficient to put a final end to the present advance. But there is a large class of persons who believe that gold is selling below its relative price as compared to other commodities. They claim that as gold is one of our largest products we are losing many millions a year by selling it at a cheaper price than it should fairly command. These men carry their argument a step further. They tell us that our export trade is suffering severely from the long continued depression of gold which is the unit of value in which our foreign trade is expressed. The depression of the gold premium, they say, prevents our crops from coming forward while a rise in gold to a point something nearer to its right standard would enrich the country and make its foreign commerce more lucrative. Such are the arguments of some of the leaders in the gold movement. Others point to the balance of trade, the scarcity of foreign bills, the immense excess of imports during several past years, and the diminished activity of the European demand for some classes of American securities. By other persons again the prudent increase of the bullion reserve in the Bank of England is deemed likely to go on and will promote with other causes a large shipment of gold from this side. Various classes of men are thus arguing from the peculiar aspect of the question which is most familiar to them that gold, independent of any speculative manoeuvres, ought to rise, and there is certainly the more force in their arguments from the fact that our paper money is gradually increasing in volume, the national bank notes having now reached the aggregate of 314 millions. The questions at issue are too numerous and subtle to admit of dogmatic opinions. If gold is really whole machinery of this country is essentially insecure;

Digitized by Google

selling at a price which does not fairly represent the depreciation of our paper money, the restoration of the equilibrium of value will, of course, be for the health of our commerce, and will contribute to the best interests of the whole people. If the depreciation of our paper money were really to demand that gold should range at 115, no legerdemain can long keep it at 110 or at 120 without inflicting losses on our industrial population and deranging the financial mechanism of the country. How accurately Mr. Boutwell has interpreted the signs of the times in adopting his policy for keeping gold down, and with what success he will be able to keep up that policy, the country will watch with much eagerness to see. Certainly it is on many accounts to be desired that coin and paper should be at par. Whatever legitimate action on the part of Congress or the Treasury shall keep them nearer together and prevent their divergence is a great public gain. It is because of its expected influence on the gold premium and on the inflation of the currency that the new bank law of 1870 was most vehemently opposed by a large majority of our leading financial men.

If this increase of bank notes shall have a tendency to postpone specie payments and to retard the steady appreciation of our paper money, which with constant progress has been going on for some years, the country will have purchased at too dear a rate the acknowledged advantages secured for the South and West by the new facilities for the multiplication of the banks.

THE RECENT CHANGE IN THE EASTWARD SPECIE MOVEMENT.

[COMMUNICATED.]

One of the elements most directly influencing the question of resuming specie payments is undoubtedly to be sought in the supply of the precious metals that we can retain for the purpose. The elaborate tables of the specie movement of the country, published annually in the CHRONICLE, and which constitute the first effort made here or elsewhere to systematize the records of the domestic and foreign movement combined, show pretty conclusively that for the last ten years we have exported annually very nearly our total annual production, leaving but a moderate amount for our domestic consumption, which is very large. Precisely how large this consumption really is we have no means of estimating but it undoubtedly largely exceeds the general belief. In a law-suit recently tried in this city the fact was developed that one single firm in Connecticut alone uses $20,000 of silver annually for plating knife blades, the last article, probably, that any one would think of, as requiring any large amount of the precious metals. Of such industries there are, however, a large number, which in the course of a year consume a very important aggregate of gold and silver for plating and gilding, in addition to the large amounts used for manufacturing directly into gold and silverware of every description. No reliable figures are in existence concerning the amounts thus used, but they are certainly important enough to lend an air of probability to the estimates which assert that any surplus of precious metals produced and not exported during the last ten years has been consumed in the arts and manufactures, and that the present stock of gold and silver in the country does not at best exceed, if it equals, that of 1861.

Without expressing a positive opinion on this subject, we think there can be no doubt but that our ability to resume and to maintain resumption depends far more upon the prospect of a drain after resumption than upon a large stock of specie at the time of resuming; that, in fact, if we could be guaranteed against an important foreign drain, we might safely resume with a very moderate amount of coin, while even a large reserve of coin and bullion might not prevent disaster, if immediately after resumption we were compelled to re-commence heavy shipments abroad. We repeat, therefore, that the most important question connected with resumption is the probable amount of our annual production that we may be able to retain for the purpose, and on this subject some recent movements of the bullion trade throw important and valuable light.

Of the total gold and silver production of the United States and Australia, averaging since the first California gold discoveries in 1847, not far from 100 millions a year, it is estimated by the best statisticians that fully one half has gone to the East: India, China and Japan. The English exports direct, and the French and English by the Messageries Imperiales from Marseilles, via Isthmus of Suez have, of late years, been very accurately recorded, and they show that prior to 1860 the shipments averaged 50 millions a year. There was besides an unrecorded flow Eastward by passengers, and overland down the Danube into Greece, Turkey and Egypt, and thence further East, mainly of German and French silver coin. Though large in the aggregate, it is not, however, probable that this movement materially affected the recorded results, which, up to 1861, show comparatively unimportant fluctuations. But at that time the outbreak of the war created in the specie movement of the East, as in many other channels of trade the most violent changes. The cutting off of all supply of cotton from our seceded States, compelled England to drain China and the East Indies of their stocks, and to encourage increased cultivation of this important staple in all her Eastern colonies. The consequent increased importation of cotton from those countries, at very high figures, necessarily led to an increased export of specie to pay for it, the comparative ignorance and poverty of the producers not admitting of a corresponding increase in the consumption of British products. The effect was almost instantaneous. From less than 50 millions in 1860, the bullion export to the East in 1862 had risen to nearly 100 millions, and in 1864 exceeded 130 millions, actually requiring nearly 30 per cent more than the whole production of the year, and reducing the stock at the disposal of the commercial community by at least fifty millions in the two years of 1863 and 1864, a circumstance which probably had a greater influence in bringing about the crisis of 1866 than is generally believed. In 1864 the highest figures were reached, and they have since steadily though irregularly declined; for the last two years they have fallen below the average of the period prior to 1861.

Almost simultaneously with the increased silver production of our Pacific coast, and improved refining facilities, our direct trade from San Francisco with the East was developed, and a large portion of our annual silver product was shipped directly from California, although principally for British account, to China, Japan and the East Indies, the export to those countries running as high as ten and twelve millions a year, and being at times limited only by the insufficient supply of refined bars and Mexican dollars, of which the shipments principally consist. But not only have we thus furnished an important part of the supply for the Eastern demand by our direct shipments from California, but we have furnished by our exports from New York to England, and from California to England, a far larger proportion of the whole. Indeed, during the last ten years it is scarcely an exaggeration to say that our exports of specie have been regulated chiefly by the demand from the East. For some years past the accumulation of coin and bullion at all the European financial centres has far exceeded the legitimate requirements of commerce, and in a healthy condition of our own trade, there is no reasonable probability that we should have been called upon for large shipments, had it not been for the enormous demand from the East. But the absence of our usual cotton supply to balance our European accounts, the consequent necessity of cotton from the East, which could only be paid for in specie, compelled Europe to look to us for the coin and bullion to fill the vacuum which the Eastern drain would otherwise have made in their reserves. Our suspension enabled us to furnish the bullion without financial disaster, and our scarcely diminished annual production will enable us to do so for some time to come, if required.

But a tremendous change has taken place in the relations of our two great staples. Our cotton crop of 1869 approached the magnitude of anti-war times, while that of 1870 promises to nearly equal the most favored years. Whether or not it will net producers as much at present low figures as a smaller crop might have done at higher prices is not now important. The fact is, that it supplies the demand of English spinners to a larger extent, and diminishes the need of supplies from East India and other cotton-producing countries. Already the imports from those countries into England are diminishing, and with the diminished cotton receipts come diminished exports of coin to pay for them. Throughout the earlier part of 1870 the direct exports of coin from England to the East dwindled down to very small figures, while our California shipments fell off nearly one-fourth. But during the latter part of 1870, while our California exports still further declined,* the English shipments ceased entirely, and a

* Accounting for the increase in our overland receipts of silver bars, which has been repeatedly noticed of late, and attributed, erroneously, to increased production of silver.

Digitized by Google

very decided return movement set in, the receipts at London from China, Japan, and the East Indies exceeding fifteen millions in the last two months of the year, and continuing steadily ever since—a circumstance almost unheard of in the history of East Indian commerce.

If then, we have not over-estimated the effect of the eastward shipments upon our own coin exports, it would appear that the principal cause of our heavy bullion drain for the last ten years has been removed. With the very large accumulations of coin now in the principal financial centres of Europe, it seems improbable that we shall be called upon to furnish any considerable addition to the useless reserve.

[From our own correspondent.]

LONDON, Saturday, April 8.

The public were of the opinion that they had heard very nearly the last of the affairs of Overend, Gurney & Co., limited and only anticipated that now and then there would be a notice of a return of the remaining assets to the shareholders. Up to the present time, however, the official liquidators have failed to announce that they are in a position to adopt any such course. This week an important case has been heard at the Manchester Bankruptcy Court, and the disclosures which have been made give an insight into the method adopted by some in the matters of business. It appears, therefore, that Mr. Thomas Howard commenced business as a cotton spinner at Hyde, in Cheshire, about 50 years ago, and about the year 1858 had amassed a fortune of £250,000. About that time Mr. Howard made the acquaintance of Mr. J. Orrell Lever, M. P. for Galway, and shortly afterwards they were engaged in business at Preston in Lancashire. Notwithstanding the large fortune that Mr. Howard had accumulated, the prospect of "making" £25,000 in one month induced him to enter into a speculation with Lever, which the latter contended would yield £50,000 which was to be equally divided. This speculation was no less than the celebrated Galway line of packets to America, and Lever contended that the eight steamships necessary might be bought at a very low price and be sold to the Government in a month at the above named profit. Howard was persuaded, therefore, to advance £220,000, partly in cash, and accepted bills for the remainder, which were drawn by Lever and were discounted by Overend, Gurney & Co. In 1860 and 1861 Howard executed mortgages to Overend, Gurney & Co., and gave up title deeds representing property worth considerably more than £60,000. He also met bills with cash to the extent of £62,000, but in June, 1863, Messrs. Overend, Gurney & Co., sent him an account whereby they made him their debtor to the extent of £616,710. A very large proportion of the charges was made up of Lever's banking account, which Messrs. Overend had united to that of Mr. Howard, who had been made liable not only for transactions arising out of the sale and purchase of the eight ships, but for a mass of bills that related to a whole fleet of Lever's ships. The credits on the respective accounts of Howard & Lever reduced Messrs. Overend's claim on the former to £335,300. In discharge of that account, Messrs. Overend, on the 23rd of June, 1863, in consideration of the absolute purchase of all the property the bankrupt had mortgaged and the payment on their part of £3,000 in cash to Howard, gave him a deed of release. After Howard became bankrupt, proceedings were taken with a view to set aside that deed, and to reopen the whole of the transactions, and this week, Mr. J. O. Lever has been examined in connection with this new phase in the proceedings. Mr. Lever stated that Overend had an interest in the eight ships from the time they were built. In 1850 a small private steam-shipping business was transformed into a joint stock company under the title of the General Screw Company, with a capital of £1,000,000. Subsequently, the fleet was offered for sale and it was suggested to Lever that he should get somebody to join him in buying the eight vessels. The sale to Lever and Howard was effected on the 25th of May, 1859, for £220,000, and to secure that sum, bills were drawn for £253,000 the difference between the two sums being the amount allowed to the discounters (Messrs. Overend of course) for commission and other charges, a sum of £8,000 being included to prepare the ships for sea. Overend's commission, therefore, was £25,000. £200,000 of these bills was drawn upon Howard, and the remaining £53,000 was drawn by Howard upon Lever. On the same day that the bills were given viz.: the 25th of May, 1859, Howard gave a mortgage of the ships to two gentlemen who were afterwards discovered to be clerks to Messrs. Overend, and their names and addresses appeared on the ships registers with that of Howard. The discounting of the paper for £220,000 was effected through Mr. Mozeley, of the house of Messrs. Barned & Co., bankers, Liverpool. So little research did Messrs. Howard & Lever make, and so little did they inquire into the character and standing of the parties with whom they were contracting such large operations, that they were unaware at the time that Messrs. Barned were the Liverpool agents of Messrs. Overend. This was ascertained subsequently, when it was discovered that Messrs. Overend were dealing with the securities for the ships. When the Galway line of packets to America failed, Lever obtained a concession from the Austrian government to run a line of steamers from England to Trieste, and he proposed to employ the seven steamers (one having been wrecked) for that purpose. This concession was obtained at the commencement of 1861, but on the 11th of February of that year, Messrs. Overend wrote to Lever stating that they, as the mortgagees of the said ships, had sold them to the East India and London Steam Shipping Company for £225,000, and that they should place that sum to the credit of Mr. Howard's advance account, less commission. In August, 1864, after the East India and London Steam Shipping Company had experienced a loss of £300,000, the ships were in chancery, and Messrs. Overend stayed any further proceedings in regard to them, and secured them as their own property by paying £2 10s. for every £10 share. The question of Mr. Howard's bankruptcy is not yet settled, but it is easy to see that Messrs. Overend secured a fleet of seven vessels at a low price, and that, although some years elapsed before they obtained them; the transactions in connection with them during that period, were of a most profitable character. In fact, in about six years, Messrs. Overend received the greater part of Messrs. Howard's fortune of £250,000.

The state of anarchy which exists in France continues to affect favorably the market for English securities, and British railway shares have further advanced in price. The accumulation of money in the London market is unchecked, and notwithstanding the payments of the quarter which are now being made, the supply of gold held by the Bank of England has further increased. It is expected, however, that a considerable supply of sovereigns will be transmitted to Rio on account of the Brazilian loan, and it is not improbable that the Argentine loan, just introduced, for £6,000,000, will have a like effect. The tone of the market is nevertheless indicative of an absence of loans of sufficient magnitude, or of a commercial demand sufficiently extensive, to absorb our surplus capital. Of course, there are plenty of would-be borrowers, and if any response were likely to be made, Southern Europe would soon re-appear in our market. But there is a great distrust of Continental (excepting German) securities; and, consequently, it is thought that further loans for Turkey, Italy and Spain would be impolitic at the present time. It is remarkable, however, that the value of French government stocks should be so well maintained. French rentes are still at 50, and the six per cent. National defence loan has risen from 4 discount to 7 premium. Although the six per cent. loan is cheaper than the 3 per cent. rentes, it is difficult to account for the fact that the loan should have risen eleven per cent., and that that advance should be maintained, when France is in such a deplorable state, and when so grave a future appears before it. As regards American securities the tendency has been favorable, and government stocks have

Digitized by Google

somewhat improved in value. A less business has been done in Atlantic and Great Western railway securities at higher quotations; but Erie railway shares have been depressed. The following statement shows the highest and lowest quotations on each day of the week:

	Monday.	Tuesday.	Wed'sy.	Thu'sy	Friday.	Sat'day.

*Price March 30.

The Commercial markets have been rather quiet during the week, but on the whole, prices have ruled firm. The following relates to the trade of Manchester:

The tone of the market continues quiet, but good, and prices remain steady Superior makes of yarn and cloth are quite firm, and maintain their value with much steadiness. Inferior qualities are also steady, but are not so easy to sell as those made from superior cotton, and were producers forced to sell they would have to give way a little in the lower qualities of yarn and cloth. Prices, however, have been quite as firm as they were yesterday, and at a very trifling decline, judging from the inquiries made by buyers, a considerable business might be done. After to-day business will be nearly over until next Tuesday, and it seems probable that a number of warehouses will be closed entirely on Saturday. The first quarter of the year has passed off satisfactorily to producers, who have had a fair profitable trade. The production has been disposed of without difficulty, and generally at remunerative prices. Mills which have been closed and on sale for years have found purchasers, and been re-opened. Any further increase of the production must now be gradual, so that an extra demand for cotton is not likely to come suddenly. It has yet to be proved how distant foreign markets will be able to stand the enormous shipments which have been sent to them. In the meantime, so long as money keeps cheap and abundant, a steady demand, both for the Continent of Europe and the great Eastern markets may reasonably be expected.

Annexed is a return showing the quantities of cotton in stock the quantities imported, exported, and forwarded inland for consumption:

	American Bales.	American Cwt.	Brazilian Bales.	Brazilian Cwt.	East Indian Bales.	East Indian Cwt.

The weather has been exceedingly dry during the week, but bright with cold northerly and easterly winds. Vegetation, therefore, has made but little progress. Some warm rains would now be desirable, as the country, speaking from an agricultural point of view is not in a forward state. There continues to be a good export demand for wheat, and the exports of all kinds of cereal produce have been largely in excess of last year's. Annexed is a statement showing the imports and exports of cereal produce into and from the United Kingdom last week and since the commencement of the season, compared with the corresponding periods in 1869–'70:

FOR THE WEEK ENDING APRIL 1.

	1870'71. Imports.	1870'71. Exports.	1869'70. Imports.	1869'70. Exports.
Wheat cwt.	287 350	210 910	455 882	13,918
Barley	268.056	9,986	138,683	828
Oats	285,618	133,189	200,096	5,961
Peas	10.598	1,284	23,396	145
Beans	52 0?1	4,778	34.613	....
Indian corn	156,368	60	321.470	20
Flour	62,576	23,389	85,125	871

SINCE THE COMMENCEMENT OF THE SEASON (AUG. 28).

Wheat cwt.	19,385,172	2159.144	26,521,209	164,528
Barley	4,765.969	52.336	4,759,557	13.5 7
Oats	4,578 209	950,687	5,904,983	73,966
Peas	443.426	89 889	772,220	9,531
Beans	1,054,048	14,483	1,153,515	1,225
Indian corn	9,110,167	56,?56	12,340,297	12,696
Flour	2,776,291	1?69,843	3,985,919	12,408

For the corresponding periods in 1868–'69 the figures were as under:

	Imports. For the week.	Imports. Since Sept. 1.	Exports. For the week.	Exports. Since Sept. 1.
Wheat cwt.	426,543	17,514,470	488	136,309
Barley	119,712	7,370,807	....	85,706
Oats	76,112	8,818,797	294	71,123
Peas	7,854	780,992	....	6,976
Beans	43,371	1,860,830	....	3,814
Indian Corn	187,894	8,810,931	....	731
Flour	60,097	2,458,912	....	21,251

The Board of Trade returns for March and for the first three months of the current and last two years have been issued to-day, and they show that the declared value of our exports of British and Irish produce and manufactures in March amounted to £20,074,600, against £17,300,210, and £15,697,465; and for the three months to £46,431,415, against £45,678,774 and £42,803,605 in 1870 and 1869 respectively. The exports of cotton yarn in the three months were 42,570,548 lbs., against 43,497,956 lbs.; of cotton piece goods 788,364,164 yards, against 740,334,025 yards; of cotton thread 1,452,458 lbs. against, 1,428,903 lbs.; of linen yarn to 503,934 lbs., against 621,724 lbs.; of linen piece goods 45,844,886 yards, against 56,773,183 yards; of woolen yarns, 8,693,186 lbs., against 9,003,693 lbs.; of woolen cloth, 9,429,356 yards, against 7,878,074 yards; of worsted stuffs, 67,987,471 yards, against 65,739,689 yards, and of carpets, 2,453,360 yards, against 2,877,257 yards. The shipments of railroad iron in the three months were 174,479 tons, against 209,151 tons, of which 102,965 tons against 80,789 tons were to the United States.

The imports of provisions during the three months have been as follows: Bacon, 298,916 cwt., against 159,098 cwt.; beef salted, 96,152 cwt., against 40,477 cwt.; do. salted, 3,931 cwt., against 3,250 cwt.; butter, 203,884 cwt., against 217,039 cwt.; cheese, 182,683 cwt., against 93,030 cwt.; eggs, 444,851 great hundreds, against 707,704 great hundreds; hams, 14,654 cwt., against 7,886 cwt.; lard, 169,359 cwt., against 66,724 cwt.; pork, 143,923 cwt., against 54,649 cwt. in 1870.

English Market Reports—Per Cable.

The daily closing quotations in the markets of London and Liverpool for the past week have been reported by submarine telegraph as shown in the following summary:

Digitized by Google

London Money and Stock Market.—The market for American securities closes quiet at the same prices current last week, with the exception of United States 5-20s of 1865, which have declined ⅛.

COMMERCIAL AND MISCELLANEOUS NEWS.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show a decrease in both dry goods and general merchandise. The total imports amount to $5,813,857 this week, against $8,543,409 last week, and $11,930,286 the previous week. The exports are $3,810,849 this week, against $3,867,399 last week, and $5,525,810 the previous week. The exports of cotton the past week were 21,987 bales, against 18,260 bales last week. The following are the imports at New York for week ending (for dry goods) April 14, and for the week ending (for general merchandise) April 15.

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

	1868.	1869.	1870.	1871.
Dry goods	$1,261,409	$2,263,406	$2,131,875	$2,380,178
General merchandise	3,399,049	5,294,761	4,291,603	3,433,679
Total for the week	$4,660,458	$7,558,167	$6,423,478	$5,813,857
Previously reported	65,850,660	85,350,177	80,650,359	105,672,624
Since Jan. 1	$70.511,118	$92,908,344	$87,073,837	$111,486,681

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports, for the week ending April 18:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1868.	1869.	1870.	1871.
For the week	$4,111,405	$3,699,819	$3,306,325	$3,810,849
Previously reported	50,206,027	44,599,494	47,708,553	69,348,331
Since Jan. 1	$54,319,432	$48,289,313	$51,014,878	$73,159,180

The following will show the exports of specie from the port of New York for the week ending April 15, 1871:

April 10—Brig H. Trowbridge, St. Johns, P. R.—		April 12—Steamer Tybee, Puerto Plata—	
American gold	$30,000	American silver	2,500
April 10—Bark Thos. Dallett, Porto Cabello—		April 12—Steamer Russia, Liverpool—	
American gold	33,000	Silver bars	126,158
American silver	2,190	Gold bars	42 028
April 13—Bark Wheatland, Buenos Ayres—		Foreign silver	142,302
Spanish gold	$8,651	April 15—Steamer Ocean Queen, Aspinwall—	
April 15—Steamer Oceanic, Liverpool—		American gold	10,000
American gold	110,000	April 15—Str. City of Paris, Liverpool—	
American silver	14,000	American gold	950,000
April 15—Steamer Weser, Southampton—		Silver bars	223,592

Total for the week	$1,690,422
Previously reported	14,978,464
Total since Jan. 1, 1871	$16,668,886

Same time in		Same time in	
1870	$7,084,952	1867	7,080,022
1869	9,084,952	1866	5,697,744
1868	16,897,258	1865	5,153,102

The imports of specie at this port during the past week have been as follows:

April 7—Str. City of Merida, Vera Cruz—		Aspinwall—	
Gold	$44,663	Silver	$60,215
April 10—Str. City of Baltimore, Halifax—		Gold	3,160
Gold	900	April 11—Sch. J. B. Wyman, Savanilla—	
April 11—Sch. Lettie Wills, Savanilla—		Gold	108
Gold	3,336	April 18—Steamer Columbia, Havana—	
April 11—Str. Rising Star,		Gold	250

Total for the week	$120,627
Previously reported	2,787,040
Total since January 1, 1871	$2,907,667

Same time in		Same time in	
1870	$6,102,639	1868	$2,589,164
1869	7,187,685	1867	665,578

NATIONAL TREASURY.—The following forms present a summary of certain weekly transactions at the National Treasury and Custom House.

1.—Securities held by the U. S. Treasurer in trust for National banks and balance in the Treasury:

GROCERIES.—Advices from Producing Markets.

Tea.—Messrs. Heard's Monthly Telegram, via San Francisco, states:

HONG KONG, March 13.—Fair to good cargo Oolongs, 20½ taels per picul. The total export to the United States for the year ending June 1 will not probably exceed 12,500,000 lbs.

SHANGHAE, March 11.—The total export of green tea to the United States from all China and Japan for the year ending June 1 will not exceed 18,000,000 lbs. The season is closed.

YOKOHAMA, March 24.—Good medium tea, $34 per picul. Season closed.

The following shows the quantity of Tea afloat for the United States at latest dates (not including San Francisco), and which has not yet arrived:

Date of sailing 1870-71.	Name of Vessel.	From.	CARGO. Black. lbs.	CARGO. Green. lbs.	CARGO. Japan. lbs.	Total. lbs.

Rio Coffee.—Messrs. Wright & Co.'s telegram, dated Rio de Janeiro, March 25, 1871, says:

Sales of Coffee for United States since 23d inst.	7,000 bags.
Shipments " " "	12,000 "
Loading "	25,000 "
Stock " at date	148,000 "

Exchange, 25¼d.

Java Coffee and Sugar.—From advices of markets at Batavia up to Feb. 23 we learn as follows:

SUGAR.—Very large transactions had taken place on contracts for the new crop, estimated at so high a figure as 80',000, of which the Dutch Trading Co. take some 250,000 piculs under contract to them. The first transactions were at ƒ14 50@ƒ15, but have gradually advanced to ƒ16@ƒ16¼. Private exports sugar for Java, for Jan., 1871, were 246,261 piculs; 1870, 223,238 piculs; 1869, 260,071 piculs; 1868, 281,713 piculs.

COFFEE.—Only small parcels of last year's crop are offered, the bulk being already shipped. No sales of new crop have yet taken place, and planters not disposed to contract. Private exports sugar from Java for January, 1871, 17,859 piculs; 1870, 11,070 piculs; 1869, 12,393 piculs.

The following shows quantity afloat and not yet arrived.

Date.	Vessel.	Coffee. (pcls.) 136 lbs.	Sugar. (pcls.) 136 lbs.
November 16	Borneo	....	4,100
November 30	Astria	....	6,788

December 27	Bengal	328	8,996
January 11	Agincourt	7,480	....
Total piculs of 136 pounds		9,644	40,813

Cuba Sugar.—HAVANA, April 14.—There has been a comparatively small amount of business done since we last wrote, owing partly to the intervening holidays. Notwithstanding, the sales that we know of do not sum up less than 15,000 boxes, which have changed hands at previous values for No. 12 D. S.—say 10¼@10⅜rs. arrobe for common train sugars, and up to 10¾@11rs. for the finer or crystalized sorts. These figures, however, are not easily granted to-day.

Grinding in the principal districts is drawing to an end, and there is hardly any doubt that the whole crop of the Island will show a deficit of at least 30 per cent. compared with that of last year.

The sales which have been reported during this week amount to about 15,000 boxes.

Molasses Sugars—As other classes, close rather quiet, but steady, at from 8@8⅛rs. per arrobe for Nos. 8 to 10 in boxes.

Melado—Is dull, at from 5⅛@5 rs arrobe, on the coast.

Centrifugals are in fair demand for the United States, but as the majority of holders are rather adverse to sell at present or to cede in their pretensions, the amount of business is small.

Muscovadoes—The demand is rather quiet both here and on the coast, owing to the lower offers made, which are not accepted, these being generally about ¼ rl. lower, while previous prices are firmly maintained by planters.

Shipments this week from Havana and Matanzas have been as follows:

To	Boxes.	Hhds.
New York	3,336	2,830
Boston	855	...
Baltimore	....	....
New Orleans	1,710	....
Total export of the week to all countries	17,511	2,843

The general movement at both ports has been as follows:

	Rec'ts this week		Exports since January 1. To U. S.		To all Ports.		Stock at date.	
	Boxes.	Hhds.	Boxes.	Hhds.	Boxes.	Hhds.	Boxes.	Hhds.
1871	64,987	4,963	129,251	42,708	306,867	47,124	856,930	21,568
1870	66,650	6,229	152,569	55,397	545,377	70,961	457,908	24,362
1869	65,675	3,953	269,863	40,100	557,754	45,232	253,925	16,859

Progress of the Northern Pacific Railroad.—We learn from the financial agents of the road, Messrs. Jay Cooke & Co., that the building of this great thoroughfare is being pushed forward with much energy, and that the grading is nearly finished for 266 miles, from Lake Superior, through Central Minnesota, to the eastern border of Dakota; trains are running over 130 miles of completed track; the Mississippi river is bridged at Brainerd and once more joined to the Lakes by rail, and track-laying is rapidly progressing westward. By September next, trains will run to the Red river, and the grading will probably be far advanced toward the Great Bend of the Missouri river in Central Dakota.

In the meantime, they inform us, that work has been commenced for the present season on the Pacific coast, a large force of men being employed in the valley of the Columbia river, in Washington Territory, and hereafter the work of construction will be pushed both eastward and westward toward the centre with such rapidity as the best interests of the road may justify.

Including its purchase of the St. Paul and Pacific road, the Northern Pacific Railroad Company has 413 miles of road now in operation, and before the close of the present season the length of finished track will be at least 560 miles. The new highway to the Pacific is being constructed at the lowest cost compatible with first-class work.

Bank of British North America.—The agency of this prominent banking corporation will remove the 1st of May to No. 48 Wall street, (Bank of New York building), where they will continue to transact as heretofore their large business in demand and time bills of exchange, payable in London and elsewhere; also cable transfers, demand drafts on Scotland and Ireland; also on Canada, British Columbia and San Francisco, commercial credits, and the collection of bills, dividends, coupons, &c., purchase of securities and other banking business. Messrs. John Paton and A. McKinlay are the well-known agents.

—The following in relation to the transfer of the old registered debt of Virginia will be of interest to holders of and dealers in the same:

COMMITTEE ON SECURITIES, NEW YORK STOCK EXCHANGE,
NEW YORK, April 17, 1871.

This committee present the following letter relating to the transfer of the old registered debt of the State of Virginia, received from the Second Auditor of that State:

EDWARD BRANDON, Chairman.

"SECOND AUDITOR'S OFFICE, RICHMOND, VA., April 11, 1871.

"*Edward Brandon, Esq.:*

"DEAR SIR: Your communication referring to the act just passed for funding the public debt of the State, and the consequent stopping of transfer and issue of stock, and inquiring who is entitled to interest on Virginia registered stock, where the owner delivers the same to another for transfer, with power of attorney, dated prior to the 9th of June next, has been received.

"In order to afford facility, as far as possible, to a party holding stock with such a power of attorney, to obtain interest from the 1st of January last to the 1st of July next, a transfer may be made on the books of the Second Auditor at any time on or before the 9th day of June next and the same certificate will be returned, with an endorsement of such transfer. The transfer will be made only for the amount and on the original certificate. The power of attorney authorizing such transfer will be retained in this office, and a new power will be required for any subsequent transfer of the same certificate.

"Where bonds and certificates are ready to be issued under the Funding bill, which will be on or about the 1st of July next, the certificate can be surrendered either by the person to whom it has been last transferred, or his attorney, when it will be funded.

"The foregoing relates only to the transfer of old register stock, as the original owner or purchaser of the new stock holding the same, with power of attorney for transfer, is entitled to all the interest accrued or accruing from its date of issue until the same shall be surrendered and funded under the act just passed. Very respectfully,

"ASA ROGERS, Second Auditor."

—Among the advertisements on the page opposite our dry goods report will be found the card of Mr. Thos. C. Doremus, who deals specially in goods used in fitting up offices and counting rooms. Mr. Doremus, as the head of the late firm of Doremus & Nixon, is probably better known in this line of business than any person in this city, and all parties wanting carpets, oil cloths, cocoa matting, &c., for offices, will do well to send to Mr. Doremus at 45 Warren street.

BANKING AND FINANCIAL.

BANKING HOUSE OF HENRY CLEWS & CO., 32 WALL ST., N. Y

Our business is the same as an incorporated bank.

Deposit accounts can be opened with us in either Currency or Coin, subject to check without notice. Five per cent. interest will be allowed on all daily balances. Checks upon us pass through the clearing house as if drawn upon any city bank.

We issue Circular Letters of Credit for travelers, available in all parts of the world; also Commercial Credits. We make tele graphic transfers of money to any desired point, and transac every description of foreign banking business.

We draw Bills of Exchange in sums from £1 upward on.

The Imperial Bank, and Messrs. Clews, Habicht & Co., London.

The Provincial Bank of Ireland, The National Bank of Scotland, and all their branches.

We issue Certificates of Deposit payable on demand or at fixed date, bearing interest, and available at all money centres.

Orders executed for Government and other investment securi ties; also Gold and Exchange.

Advances made on approved collaterals and against Merchan dise consigned to our care.

We make collections of Notes, Drafts, Coupons and Dividends with promptness on all points, and are fully prepared to offer banking facilities upon either currency or gold basis.

NORTON, SLAUGHTER & CO.,
WM. ALEXANDER SMITH & CO.,
HALLGARTEN & CO.,

Recommend, after a thorough investigation into the affairs of the Company, as a very safe and desirable investment, the Eight Per Cent First Mortgage Bonds of the Elizabethtown and Paducah Railroad Company of Kentucky. We are only authorized to offer a limited amount of these securities at 87½ and accrued interest The bonds offered are on the completed portion of the road, which is in successful operation.

HARVEY FISK. A. S. HATCH.

OFFICE OF FISK & HATCH, BANKERS,
No. 5 NASSAU STREET, NEW YORK, April 20, 1871.

☞THE FIRST MORTGAGE SIX PER CENT GOLD BONDS OF THE CHESAPEAKE & OHIO RAILROAD COMPANY—of which about $7,000,000, or about one half the entire loan, have already been marketed—are secured upon an East and West Trunk Line of Road, 427 miles in length, the greater part of which (227 miles) is in profitable operation, and the remainder rapidly building. When completed it will establish a short, economical and favorite route between tide-water navigation and the chief railroad and river cities of the West.

Beside the immense volume of through traffic between the East and West which this road can command by its superior advantages in distance, grades, fuel, and unfailing navigable connections, this road must convey enormous quantities of the superior, smelting, cannel, and bituminous coals of the Kanawha Valley, and the iron ores of Virginia and West Virginia, which are in demand at both ends of the line.

The value of the property, the certainty of a large and profitable business, the established reputation and credit of the Company, and its able and honorable management, give to these securities an assurance of superior value and safety.

They may be had in *Coupon* or *Registered* form, and in denominations of $1,000, $500 and $100.

Price, 90 and accrued interest from November 1, at which rate they yield seven per cent, gold, interest on their cost.

We have prepared pamphlets, showing the agricultural, mineral, and manufacturing advantages of the adjacent territory, and the traffic facilities and financial prospects of the Road, which will be furnished on application.

FISK & HATCH, Financial Agents.

NEW LOAN OF THE UNITED STATES.

The subscriptions to the New Five Per Cent. Stock of the United States now amount to about $60,000,000. They are confidently expected to reach $ 00,000,000 by the time the New Bonds are ready for delivery in May. The proposals of the Secretary of the Treasury will then be changed to the following programme:

First. Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after ten years from the date of their issue, and bearing interest payable quarterly in coin, at the rate of five per cent. per annum.

Second. Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after fifteen years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four and a half per cent. per annum.

Third. Bonds to the amount of seven hundred millions of dollars, payable in coin, at the pleasure of the United States, after thirty years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four per cent. per annum.

Subscriptions to the loan will have preference, after the above-mentioned two hundred millions are taken up, in the following order, namely:

First. Subscriptions for equal amounts of each class of bonds.

Second. Subscriptions for equal amounts of bonds bearing interest at the rate of four and a half per cent., and of bonds bearing interest at the rate of five per cent.

Third. Subscriptions for any five per cent. bonds that may not be subscribed for in the preceding classes.

Subscriptions to the remainder of the $200,000,000 of five per cents., which are unconditional, are now going on, and the bonds will soon be issued to the subscribers, who can receive a scrip certificate in advance, if they desire to pay their gold or exchange United States 5-20s at once, in the registered or coupon form. Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000; and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depositary of the Government, quarterly, on the first days of February, May, August an November, in each year.

The bonds of the several classes aforesaid, and the interest thereon, are exempt from the payment of all taxes or dues of the United States, as well as from taxation in any form by or under State, municipal, or local authority.

After maturity, the bonds last issued will be first redeemed, by classes and numbers, as may be designated by the Secretary of the Treasury.

The reduction of the public debt since the close of the war of the rebellion, and the relief, at the same time, to the annual burden of interest, are as follows:

Principal of debt, 1865	$2,755,995,275
Paid under Johnson	265,595,971
Principal March 4, 1869	$2,491,399,904
Paid under Grant	223,083 673
Present public debt	$2,268,316,231
Interest charge, 1865	$151,882,051
Reduced in four years by payment and funding 7-30s	25,446,501
Interest charge 1869	$126,389,550
Reduced in two years by payment	12,052,998
Present interest charge	$114,336,552

The proposed further reduction of the annual interest charge upon the public debt by refunding is as follows:

By exchange of $500,000,000 U. S. 6 per cents for new 5 per cents of 1881	$5,000,000
By exchange of $300,000,000 U. S. 6 per cents for 4½ per cents of 1886	4,500,000
By exchange of $700,000,000 U. S. 6 per cents for 4 per cents of 1901	14,000,000
Total saving per annum by refunding	$23,500,000

The whole proceeds of the new loans will be applied to the payment or redemption and cancellation of the 5-20 years six per cent. bonds, and in addition to these proceeds the 5-20s are now being reduced by purchase at the rate of $10,000,000 per month.

C. C. NORVELL,

In charge of advertising United States loans.

TREASURY OFFICE, NEW YORK, April 15.

Fulton National	5	May 1.	April 19 to May 2.

FRIDAY EVENING, April 21, 1871.

The Money Market.—There has been an abundant supply of money at 5@6 per cent on governments and 6@7 on miscellaneous collateral. The natural tendency the past week should have been towards easier rates, but this was greatly checked by the remarkable activity in stocks, which has created, as usual, a large demand for new loans on call, and also given rise to much shifting of loans previously outstanding.

An event of much importance was the sale of $4,000,000 of gold by the Government on Thursday instead of the $2,000,000 previously advertised; this is generally accepted as an evidence that the Secretary of the Treasury intends to use the means in his power to influence the financial markets favorably to the negotiation of his new loan, and such being his purpose, the preservation of an easy money market is considered almost certain. Most of the gold sold was paid for to-day in national bank notes. The last statement of the associated Banks of this city was quite favorable, exhibiting in its results a material increase in legal tender reserves, and showing the effect produced by the return to business channels of the funds previously "locked up," and of the moderate currency movement from the interior towards thi s centre. The general opinion at the present moment is on the side of a continued easy money market for some time to come, an rates at the close were rather easier than above quoted, with balances offered in some instances at exceptionally low price s The details of last bank statement were a decrease of $4,527,804 i loans; an increase of $200,768 in specie; a decrease of $22,774 i circulation; a decrease of $1,067,819 in deposits, and an increase of $1,588,146 in legal tenders—the result being an increase of $2,061,562 in the excess of legal tender reserve over the 25 per cent requirement, the whole of such excess being $6,679,106.

The following statement shows the present condition of the associated banks, compared with the same date in the last two years:

	April, 15, 1871.	April 16, 1870.	April 17, 1869.
Loans and discounts	$285,580,566	$269,900,000	$253,200,0 0
Specie	15,712,954	26,900,000	7,800.00
Circulation	81,546,127	83,700,000	84,400,00
Net deposits	214,725,588	202,900.000	172,200,000
Legal Tenders	52,534,143	50,200,000	51,000,000

For Commercial Paper the demand has continued good with only a moderate amount of first-class paper offering. Rates have scarcely changed, and with the prospect of easy money for some time in the future there is reason to anticipate a continued demand at present prices.

United States Bonds.— Government Bonds have been strong in prices but without much activity in business. Currency 6s close about the same as last Friday, Five-Twenties of 1867 ¼@⅜ higher, and Ten-Forties ¼ per cent higher.

In the early part of the week bonds were apparently strengthened by the rise and further upward tendency of gold, but when the treasury sold $4,000,000 on Thursday this supporting influence was lost, and there was a fractional decline. It seems probable, however, that the effect of the gold sale referred to, was quite as much felt in unsettling business as in the immediate influence of depressing the gold premium, as the action of Secretary Boutwell in thus departing suddenly from his published programme for the month, without giving previous notice, brought an element of uncertainty upon the market which produced a temporary depression. Nothing is now assuredly known as to what amount of bonds may be purchased, or gold sold, next week, and it is this uncertainty, rather than the purchase or sale of a large or small amount of bonds or gold, which dealers in Government bonds particularly object to.

Subscriptions to the new loan have not recently been very large, and the total up to the close of this week will not probably exceed $63,000,000. All parties are waiting for the first of next month, when it is understood that the Secretary of the Treasury will take a review of what has been done up to that time, and change in some material respects his plans for negotiating the new bonds. In the mean time, it does not appear likely that subscriptions will be very large, and the total up to May 1 will not, therefore, greatly exceed the amount already made. At the Government purchase of $3,000,000 Five-Twenties on Wednesday, bids amounted to $6,391,600. At the purchase on Wednesday next it is anticipated by some that $5,000,000 of bonds will be taken by the Government, but this is without any official intimation to that effect.

The following were the highest and lowest prices of leading government securities at the Board on each day of the past week:

	Saturday, April 15.	Monday, April 17.	Tuesday, April 18.	Wednesd'y April 19.	Thursday, April 20.	Friday April 21.
6's, 1881 coup....	116⅝ 117	116⅝	117 117⅛	117	117⅛	116⅝ 117
5-20's, 1862 coup.	*113¼ 113⅜	113½	113⅜ 113¾	113⅜ 113⅝	114	113⅜ ....
5-20's, 1864 "	*113⅛ 113⅝	113⅜	*113⅜ 113⅝	113⅜	*113⅜ 113⅝	*113⅜ 114
5-20's, 1865 "	113¾ 113⅜	113⅜	113⅜	113⅜	113⅜ 113¼	*113⅜ 114
5-20's, 1865 n "	112⅝	112¼ 112⅝	112⅜	*112⅜ 112⅝	112⅝	112⅝ ....
5-20's, 1867 "	112⅜ 112¼	112⅜ 112⅝	112¼ 112⅝	112¼ 112⅝	112⅜ 112¼	112⅝ ....

Currency 6's	115½	115⅝	115¼	115⅝	115⅜ 115¼	*115¼ 115½

* This is the price bid and asked, no *sale* was made at the Board.

State and Railroad Bonds.—The general list of Southern State bonds has been only moderately active, with less fluctuation than usual. New South Carolinas, Tennessees and old North Carolinas show some advance on our last quotations. The Governor of South Carolina has written a letter, in which he states that the condition of affairs in that State is not nearly as bad as has generally been represented, that the absolute debt of the State does not exceed $8,000,000, and that the contingent liability by railroad endorsements is secured by liens on property sufficient to protect the State.

Pacific railroad bonds have shown a conspicuous advance on all classes. Central Pacifics have sold up to 101½@102, the closing price to-night, this important rise having been stimulated by the admission of the bonds to the regular call at the Berlin Exchange. Union Pacific bonds have advanced on the anticipation that they may be placed on the call of the London Stock Exchange, and also from the general improvement in the prospects of the road

Digitized by Google

under the new administration. Closing prices were as follows: First Mortgages, 90 to 90¼; Land Grants, 80¼ to 80⅜; Incomes, 82 to 82½.

The following are the highest and lowest prices of the most active State Bonds at the Board on each day of the week:

* This is the price bid and asked, no *sale* was made at the Board.

Railroad and Miscellaneous Stocks.—The past week has developed a further remarkable activity in the stock market, with great buoyancy in prices, and transactions of enormous extent. There has been no similar movement in stocks, with such wide fluctuations in prices, and so general a support from the outside public, since the panic of September, 1869. Although prices are now much higher than they have been for a long time previously, the confidence and enthusiasm of buyers seems to increase with the advance in prices, and a stock which was not considered a good purchase at 90 or even at 80 is now taken eagerly at 100, and this too, without any material change in the actual condition or income of the railroad or other property which the stock represents. New York Central and Hudson River has sold up to 100¾, scrip to 96¾, (both ex dividend of 4 per cent), Lake Shore to 111½; Reading to 110¾; Ohio and Mississippi to 53¾; Wabash to 65½; Northwest to 91¾; do. preferred to 100½; Western Union Telegraph to 58¼, and other stocks to similar high figures, as indicated in the quotations below. Cleveland and Pittsburg has sold above 130 on the rumor, which seems to be pretty well authenticated, that a scrip dividend will soon be made, though the exact amount of such dividend is not yet known, 50 per cent being the common report; it has also been stated, but without equal certainty, that the road will pass under the control of the Pennsylvania Central. Lake Shore has been the subject of a similar report, viz.: that it would be leased to the New York Central and Hudson River and a scrip dividend declared, after which a regular quarterly dividend of 2 per cent would be guaranteed on the enlarged capital, the report, however, lacks any official confirmation. Various other reports have been circulated in regard to leading stocks, and have unquestionably had a certain effect upon prices, in the present excited and sensitive condition of the market, but they lack any such authoritative confirmation as to warrant us in giving them a place in our report. The Erie Railway Company gave notice to the Stock Exchange on Wednesday that they had increased the common stock $3,000,000 by the issue of convertible bonds; this was in violation of the rule requiring thirty days' notice of any increase in stock to be given to the Exchange, but the governing Committee, instead of striking the stock from the call, resolved to suspend their rule *pro tempore*, and in the meantime, as the Farmers' Loan and Trust Company have agreed to admit no stock to registry till the end of thirty days, the new stock is not a good delivery.

As to the future course of the stock market, it is impossible to predict with any degree of certainty. A striking feature in the recent upward movement has been the readiness with which large amounts of stock thrown upon the market have been taken, without causing anything like a break in prices, or more than a slight and temporary depression. This undoubtedly shows great confidence in purchasers, but the movement cannot always go on in a *crescendo*, and, if the experience of the past is of any value, it would seem fair to conclude that after stocks have been well distributed by the cliques, among outside buyers at the present relatively high prices, the speculative support will be taken away from the market, and a decline of greater or less extent will be the result.

The following were the highest and lowest prices of the active list of railroad and miscellaneous stocks on each day of the last week:

	Saturday, April 15.		Monday, April 17.		Tuesday, April 18.		Wednesd'y April 19.		Thursday, April 20.		Friday, April 21.

* This is the price bid and asked, no *sale* was made at the Board.

The Gold Market.—During the first few days gold was very firm on account of the large shipments of last week and the prospect of a continuation of the outward movement during this week. There was also a party formed to advance the premium, and under these combined influences the price went up to 111½ on Wednesday and to 111¾ on Thursday morning. At this point, however, the upward movement was suddenly checked by the acceptance on the part of the Secretary of the Treasury of bids for $4,000,000 at the government sale, instead of $2,000,000 according to his published schedule for this month. This action was entirely unexpected and had the effect of knocking off the price to 111. The total amount bid for was $8,985,000 and the accepted offers were as follows:

Jameson, Smith & Cotting.		Parker Handy.	
500,000	111.57	7,000	111.54
500,000	111.56	10,000	111.55
500,000	111.55	Fred Brown.	
875,000	111.54	50,000	111.63
J. B. Summerfield & Co.		50,000	111.56
10,000	111.55	$4,000,000	
Jacob Meisenheimer.			
2,000,000	111.63¼		

The unusually large bid of $2,000,000 was supposed to represent the parties who were operating for a rise; and all the offers were, of course, made upon the supposition that $2,000,000 only would be sold. The action of Mr. Boutwell in thus purchasing a much larger amount than his published programme called for, is severely criticized, on the ground that it immediately throws a cloud of uncertainty over all his future purchases of bonds and sales of gold; and it is contended that public notice of the intention to sell a larger amount, should have previously been given, if only on the morning of the day of sale. To day the price ranged between 110¾ and 111¾, closing steady at 111½ on the prospect of the shipment of $1,170,000 to-morrow, making the total exports about $3,500,000 for the week.

There has been a good borrowing demand and rates for carrying gold have ranged from "flat" to 3 per cent; and "flat" to 1-64 per day for borrowing. Customs receipts for week amount to $3,671,000.

The following table will show the course of the gold premium each day of the week past:

	Quotations. Opening.	Lowest.	Highest.	Closing.	Total Clearings.	Balances. Gold.	Currency.

The following are the quotations in gold for foreign and American coin:

American gold (old coinage)	4 p. c. premium.	American silver (new).	96¾@ 97¼
Sovereigns	$4 86 @ $4 90	Dimes and half dimes...	95 @ 96¾
Napoleons	6 87 @ 8 91	Five francs.....	95 @ 96
German X thalers.....	7 85 @ 8 00	Francs.....	19 @ 19¼
Prussian X thalers.....	8 05 @ 8 15	English silver.....	4 75 @ 4 83
X guilders.....	3 90 @ 4 00	Prussian thalers.....	70 @ 71
Spanish doubloons.....	16 15 @ 16 40	Specie thalers.....	1 04 @ 1 06
Patriot doubloons.....	15 50 @ 15 65	Mexican dollars.....	1 03¼@ 1 04
American silver (old coinage)	1@2 p.c. premium.	Spanish dollars.....2@3 p.c.premium.	
		South American dollars.....	par.

Foreign Exchange.—Rates have been very firm throughout the week at 109¾@110 for prime 60 days sterling, one leading house asking for a time 110¼. Short sight has been 110⅜, and with these high rates business has been checked, and the specie shipments of the week ending to-morrow will amount to about $3,500,000, a large proportion being in gold coin.

A slightly easier feeling was to-day perceptible but not sufficiently marked to warrant a change in the quotations for prime bills. The extra sales of gold by the Treasury are not regarded as of much importance to the market, since the largest sales anticipated will not be sufficient to supply the Customs and export demand, if these are continued at the present large amounts.

Cotton exports for the week amount to 80,325 bales, against 59,142 bales in the same week of 1870.

Quotations are as follows:

	60 Days.	3 Days.

The Railway Monitor.

☞ EXPLANATION OF THE STOCK AND BOND TABLES.

1. Prices of the Active Stocks and Bonds are given in the "Bankers' Gazette" *ante*; quotations of other securities will be found on the preceding page.

2. Bank and Insurance Stocks, Mining, Petroleum, City Railroad and Gas Stocks, and Southern Securities of those kinds which are least active, are all quoted either regularly or occasionally at the end of "Bankers' Gazette," on a previous page.

3. The Table of Railroad, Canal and Other Stocks, on the next page, comprises all Companies of which the stock is sold in any of the principal cities (except merely local corporations). The figures just after the name of the company indicate the No. of the CHRONICLE in which a report of the Company was last published. A star (*) indicates *leased roads*; in the dividend column x=*extra*; s=*stock or scrip*.

4. The Tables of Railroad, Canal and Other Bonds occupy in all, four pages, two of which will be published in each number. In these pages the bonds of Companies which have been consolidated are frequently given under the name of Consolidated Corporation. The date given in brackets immediately after the name of each Company, indicates the time at which the statement of its finances was made. In the "Interest Column" the abbreviations are as follows: J. & J.=January and July; F. & A.=February and August; M. & S.=March and September; A. & O. April and October; M. & N.=May and November; J. & D.=June and December Q.—J.=Quarterly, beginning with January; Q.—F.=Quarterly, beginning with February. Q.—M.=Quarterly, beginning with March.

5. The Table of State Securities will be published monthly, on the last Saturday of the month.

6. The Table of City Bonds will be published on the third Saturday of each month. The abbreviations used in this table are the same as those in the tables of railroad bonds mentioned above. The Sinking Fund or assets held by each city are given on the same line with the name

---

Railroad Earnings.—In the article upon railroad earnings published last week, the statements were, *approximate* on several roads, as the complete returns had not been received. Statements for the whole month having since come to hand, the correct returns will be found in the table below. Missouri Pacific, Michigan Central and Union Pacific earnings have thus been corrected.

Union Pacific.—The following is a comparative statement of the earnings and expenses of the Union Pacific Railroad Company since the beginning of the year and including the month of March:

	Jan., 1870.	Jan., 1871.
Earnings	$528,529 22	$479,572 76
Expenses	473,950 38	281,061 63
Net income	$54,578 84	$198,511 13
	Feb., 1870.	Feb., 1871.
Earnings	$500,189 42	$373,924 77
Expenses	449,838 67	237,467 69
Net income	$50,300 79	$136,457 08
Increase net income Jan., 1871, over Jan., 1870		$148,932 29
Increase net income Feb., 1871, over Feb., 1870		86,156 33
	Jan. and Feb., 1870.	Jan. and Feb., 1871
Gross earnings	$1,028,668 64	$853,497 53
Expenses	923,789 05	518,529 82
Net income	$104,879 59	$334,968 21
Increase net earnings 2 months 1871 over 2 months 1870		$230,088 62
	March, 1871.	March, 1870.
Earnings	$499,899 12	$539,238 09
Expenses	275,483 43	442,900 61
Net income	$224,415 69	$96,337 48
Increase in net income for the month of March, 1871, over 1870		$128,078 21
Net increase for 3 months, in 1871, over corresponding time in 1870		358,166 83

Baltimore and Ohio.—At the sale of the Hempfield railroad in Philadelphia, on the 30th ult., the road was purchased by John King, Vice-President of the Baltimore and Ohio Railroad Company, the price being $181,000. The charter gives the company the right to construct a railway from Wheeling, West Va., to Greensburg, Pa. The road was completed from Wheeling to Washington, Pa., and has been in operation for several years, and considerable grading has been done on the eastern end of it. The probabilities now are that it will be completed at an early day to a point where it intersects the Connellsville, near West Newton.

Harlem River and Portchester.—The bill to extend the time for completing the Harlem River and Portchester Railroad for two years was passed by the Legislature on Tuesday evening. The capital stock of the Company is $1,000,000, of which the greater portion has already been subscribed. Under the original charter granted in 1866, the road was to have been completed within five years from the passage of the act. The greater part of the strip of land (four rods wide) required for the road has been given to the Company by the adjoining land owners. The road-bed has been partly graded, and in some places culverts have been constructed under the embankments. A few of the bridge abutments have also been built.

The Knoxville and Kentucky and the Knoxville and Charleston Railroads have made an agreed case with the Attorneys for the State of Tennessee. The State agrees to accept from the former eight hundred thousand dollars, and from the latter three hundred thousand dollars, of the bonds of the State, in full satisfaction of the debt which the State has against these roads. Ninety days are allowed within which one-fourth of the amount is to be paid. The stockholders in the former get rid, by this arrangement, of an indebtedness of over two millions of dollars, and in the latter of over half a million dollars.—*Wall Street Journal.*

Consolidation.—Articles of consolidation, by and between the St. Louis and Southeastern Railroad Company and the Evansville and Southern Illinois Railroad Company, under the name and style of the St. Louis and Southeastern Railroad Company, and the articles of consolidation of the above consolidated company with the Evansville, Carmi and Paducah County Railroad, under the name and style of the St. Louis and Southeastern Railroad Company, with a capital stock of $10,500,000, were filed in the office of the Illinois Secretary of State on the 11th inst. This consolidation makes a continuous line of road from East St. Louis to Shawneetown, running through a splendid country.

The Chesapeake and Ohio Railroad is progressing rapidly On the western end 90 miles are graded, and 100 miles will be ready for the iron within 90 days. There are 300,000 ties on hand, which are going down. Some 8,000 tons of iron are on the way, and track laying on the western end will be pushed with vigor, during the spring and summer months. The Company advertises for proposals for the construction of shops on a grand scale at the new city of Huntington, in Western Virginia. The city is likely to grow with great rapidity in consequence of the location of engine shops.

Jackson, Lansing and Saginaw.—Work on the northern extension of the Jackson, Lansing and Saginaw line is being pushed rapidly forward, and by the close of the present season the road will be finished well toward the Straits. The track is now laid to a point within ten miles of Pine River, and 100 more men are soon to be put on. According to the terms of the charter, the road must be finished by the close of 1872.

Louisville, New Albany and Chicago.—The first mortgage bondholders of the Louisville, New Albany and Chicago Railroad have brought suit in the United States District Court of Indiana for foreclosure of their mortgage, amounting in principal and interest to nearly $6,000,000. The case will be tried at the May term of the Court.

The Ohio and Mississippi Railroad.—The suit of the Erie Railway Company, to restrain the Ohio and Mississippi Railway Company from narrowing its guage, has been amicably settled and withdrawn, and mutual releases have accordingly passed between the two Companies.

—The Pittsburg and Connellsville Railroad was finally completed April 10, giving Pittsburg a direct connection with Baltimore. This company has for years been struggling under heavy disadvantages pecuniary and legal. Five years ago, rival interests were brought to bear against the company, which seemed almost friendless, and an act passed the Pennsylvania Legislature forfeiting its charter for abuse and misuse of its corporate franchise. The passage of this act was a crisis in the history of the road, the forfeiture of its charter being considered oppressive, and stirred up the friends of the road to unceasing energy. After a long struggle, the nullifying act was repealed, and the company restored to its franchise, and the city of Baltimore and the Baltimore and Ohio road then took an active interest in its behalf, subscribing largely to its stock, and through the active co-operation of President Garrett, of the Baltimore and Ohio road, its early completion was assured. Since that time President W. O. Hughart has pushed the road with extraordinary vigor, and to-day, together with B. H. Latrobe, Chief Engineer, and the former President, performed the duty of spiking the last rail at a point near Mineral Point. Immediately upon its completion, the first train proceeded to Cumberland, passing over a temporary road which had been constructed over Brook tunnel, which is not yet completed. The total length of the road from Pittsburg to Baltimore is three hundred and twenty-five miles; the highest grade fifty feet to a mile. Express trains, when running regularly, are expected to make the distance from Pittsburg to Washington in ten hours, via the Point of Rocks route. When completed, the road will have cost nine millions of dollars. Through passenger trains will commence running next Monday.—*Cincinnati Railroad Record.*

—The last spike of the Pittsburg and Connellsville Railroad, forming a continuous route between Pittsburgh and Baltimore, *via* Cumberland, was driven on April 11, at a point near the Forge Bridge, three miles west of Mineral Point, the ceremony having been performed by the President, W. O. Hughart and the Engineer and former President, B. H. Latrobe. Much praise is due to John W. Garrett, President of the Baltimore and Ohio Railroad, for his unwavering zeal and effort in behalf of the road.

—It is stated that President Huntington, of the Chesapeake and Ohio Railroad, left New York last week with a party of civil engineers, iron furnace men, for the western terminus of that road near Greyandotte to confer with the officers of the Western roads about connections with the Trunk Line, and to locate the Ohio River bridge site, company's shops, and other works. He will remain at the Ohio terminus about a week.

—A trial trip was made over the Alabama and Chattanooga Railroad on April 6, which was eminently satisfactory, the rate of speed being fifty-five miles per hour. The road will probably be opened for traffic on May 1, when passengers between New York and New Orleans, will save ten hours in time and a proportionate amount in the fare.

—The New Orleans, Mobile and Chattanooga Railroad Company, by legislative enactments in the different States through which it passes, has had its titled changed to the New Orleans, Mobile and Texas Railroad Company.

—The last spike of the Memphis and Little Rock Railroad, was driven at Duvall's Bluff, on April 12, and the road will shortly be opened for business.

Pacific Railroad of Missouri.—The annual report for the year ending February 28, 1871, contains the following: The Board of Directors state that on account of the large expenses for equipments, &c., in consequence of the change of guage in the preceding year, and the floating debt of over $1,850,000 they

Digitized by Google

"Took immediate steps to consolidate the floating debt into larger obligations maturing at convenient periods, and to provide the means of making all purchases for cash, thereby enabling purchases to be made at the lowest cash rates—a policy which enabled your Board to carry the entire debt of the Company at an average rate of less than eight per cent.; and notwithstanding the increase of the debt occasioned by extended improvements, the total interest liability of the Company for the year is $95,411 less than that of the preceding year."

The gross earnings of the fiscal year ending February 28, 1871, have been as follows:

For transportation of passengers	$1,355,001 77
For transportation of express freight	2,083,673 47
For transportation of mails	57,450 00
For miscellaneous	4,105 60
Total gross earnings	$3,500,230 84

The operating expenses and repairs (including $75,643 21, Eureka accident), were:

Running expenses	$1,150,404 50
Maintenance road and buildings	933,479 21
Maintenance rolling stock and machinery	438,025 76
Taxes, insurance, &c	32,931 96
	$2,554,841 45
Net earnings	$945,389 39

The Eureka accident, whilst it is properly chargeable as a loss to the contingencies of operating the road, yet is exceptional in its nature. If this be deducted from the running expenses, the account of the year would stand:

Total gross earnings	$3,500,230 84
Total expenses and repairs	2,479,198 60
Net earnings	$1,021,032 60
The total earnings for the year ending February 28, 1870, were	$3,158,356 78
The operating expenses and repairs were	2,371,447 94
Net earnings	$776,908 84
An increase in gross earnings of	$341,874 06
And of net earnings of	214,123 76

During the past year the operating expenses and repairs were 70 83-100 per cent., and during the previous year 75 8-100 per cent.

LEASED ROADS.

The following roads are operated, or under contract to be operated, by this Company.

The Missouri River Railroad; the Leavenworth, Atchison and Northwestern; the Osage Valley and Southern Kansas (Boonville); the Lexington and St. Louis, the St. Louis, Lawrence and Denver.

"At the last annual meeting the matter of the leases then newly made with the Missouri River (Kansas City to Leavenworth) and the Leavenworth, Atchison and Northwestern (Leavenworth to Atchison) companies, was brought to their attention and their investigation ordered by a committee of stockholders. Having reported at a subsequent meeting of the stockholders held on the 18th of April, the whole matter was referred to the Board, "with power to take such action as they might deem best for the stockholders and the public."

Under the leases referred to (not submitted to the stockholders), the Board had obligated this Company to pay to the Missouri River Railroad Company a guaranteed annual value of $50,000 for the first five years, $60,000 for the second five years, $70,000 for the third five years, and $80,000 for the forth five years.

It is unnecessary to detail the entire negotiation with reference to these leases. Believing them to be exceedingly burdensome to this Company and illegal (having never been ratified by the stockholders), your Board, whilst willing to make very reasonable concessions, refused to act under them unless large concessions were made. The result of the course of the Board was such that material modifications were secured, reducing the guaranteed rental of the Missouri River Railroad to $50,000 per annum, and the guaranteed rental of the Leavenworth, Atchison and Northwestern to $42,500, besides securing other important modifications in the details. The leases as modified were, on recommendation of your Board, ratified by the stockholders on the 14th of June, 1870."

OSAGE VALLEY AND SOUTHERN KANSAS.

"This road, better known as the Boonville Branch, has been successfully operated during the year, and its business and earnings have materially increased over those of any preceding year. During the year arrangements have been made by that company to extend their road southwardly to Versailles, in Morgan County, and thence westwardly towards and through the Osage valley. This company has no connection with such extension."

LEXINGTON AND ST. LOUIS RAILROAD.

"Extensive modifications were also secured in the leases of the Lexington and St. Louis, and the St. Louis, Lawrence and Denver Railroad, both of which were under construction, and are, when completed, to be operated by this company."

Disbursements of the year—Construction	$249,336 15
To rolling stock and machinery	129,416 01
To change of guage	131,798 57
To Missouri River Railroad	11,004 68
To Poplar street extension	33,590 98
To general expenses—including interest account	743,960 00
To audited accounts	3,286 95
To rent of leased roads	98,423 61
To mortgage construction bonds—paid this year	481,000 00
To balance	370,669 39
	$2,252,482 11

GENERAL STATISTICS.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, April 21, 1871.

The markets have shown more than average activity the past week. The upward tendency in articles of importation, noted in our last, has developed into a slight advance in a few of them, while the downward tendency in leading domestic products being followed by some decline, has produced more business.

Cotton shows a partial decline of ⅛c, Middling Uplands closing at 14⅜c. Breadstuffs are generally lower, closing with a fair export movement; Flour $6 40 for shipping extras; Wheat, $1 54@1 57 for new spring, and Corn 75c for prime mixed. Groceries have shown weakness in Coffee, but a slight advance and a brisk movement in Sugar and Molasses.

Tobacco has been more active. In Kentucky Leaf, at some further decline, shippers have taken hold quite freely, and the sales of the week aggregate 1,000 bales, mostly for export, at the following reduced prices for new crop: Lugs, common, 5@5½c: do. good to prime, 5½@6c; Leaf, low and common, 6@7c; common and medium, 7@8c; good, 8½@10c. In Seed Leaf, we also notice a much freer movement. We are informed that the demand is not so much speculative in its character as a few weeks since, but more to meet the actual wants of the market. The sales have been: Connecticut, 120 cases crop of 1869 on private terms; 160 cases new seconds and fillers, part at 13@23c; Ohio, 210 cases new at 28c; 203 do, private terms; 87 do. and the re sale thereof on private terms; Pennsylvania, 67 cases new crop on private terms; 30 cases fillers, crop of 1869, at 15½c; 52 cases, crop of 1869, on private terms: Wisconsin, 75 cases on private terms. In Spanish Tobacco there has been a very good demand for consumption; the sales embrace 50 bales Yara, old and new crop, at 89c@$1 20, and 500 bales Havana at 85@$1.

Hides and Leather have been steady, but quiet. Tallow is dull under adverse foreign advices, and closes somewhat nominal at 8½c for prime.

In East India goods we notice an improvement. Manilla Hemp has been in some speculative demand and held at 10½c gold; Calcutta Linseed fairly active, and at the close held at $2 35 gold, per 56 lbs.

Foreign dried fruits show a decided improvement in the demand. Hops have been active, part for export. Hay has slightly declined. Whiskey declined to 89½@90c, followed by some reaction.

Metals have been quiet except for Copper, which has been in more demand at full prices. Scotch Pig Iron is very firm owing to scarcity; Glengarnock $34.

Rosin has been depressed by the continued firmness of ocean freights and closes weak at $2 55 for strained. Spirits Turpentine advanced fully nine cents, owing to a very light stock; the close, however, is weak at 61c, owing to a better supply. Tar is lower, Wilmington having sold at $2 25.

Petroleum has been active at a decided decline in prices; refined on the spot closes steady at 22⅞@23c, and crude in bulk 13c. Linseed Oil has been in good demand from the trade and has advanced to 92@93c for small lots from crushers, and 89½@90c for large parcels. Other oils quiet and unchanged. Wool has been moderately active, and with light stocks prices have been firm; a lot of 10,000 lbs of the new California Spring Clip has arrived and is held at 40c.

In Provisions we notice a considerable decline in hog products, leading to a free movement for export and home use; Mess Pork closed at $18 50@$18 75; some 3,000 bbls prime Mess have been taken for export at $16@16 50, closing at the higher figure. Bacon has also been taken freely for export, closing at 8¾@9c for Cumberland and short rib. Pickled Hams have sold largely at 11½@12½c. Beef is firm but quiet. Butter was steadied temporarily by reduced supplies, but closes weak. Cheese further declined, closing at 14@14½c for prime factories.

Freights have been active for shipment of grain, but otherwise dull, the latest engagements being at 7d by sail and 8d by steam to Liverpool, 8d by steam to Glasgow, and 8d by sail to London; flour to London 2s 4½d@2s 6d; charters to Cork for orders 6s 3d.

Exports of Leading Articles from New York.

The following table, compiled from Custom House returns, shows the exports of leading articles from the port of NewYork since January 1, 1871, to all the principal foreign countries, and also the totals for the last week, and since January 1. The last two lines show *total values*, including the value of all other articles besides those mentioned in the table.

AMERICANS.	Great Britain.	France.	Holland & Belg.	Germany.	Other N. Europe.	Spain.	Other S. Europe.	China & Japan.	Br. N. A. Colonies.	Aus-tralia.	Cuba.	Hayti.	Other W. Indies.	Mexico.	British Guiana.	Brazil.	Other S. American.	All oth. Ports.	Total this week.	Total since January 1, 1871.	Same time 1870.

COTTON.

FRIDAY, P. M., April 21, 1871.

By special telegrams received by us to-night from the Southern ports, we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening April 21. From the figures thus obtained it appears that the total receipts for the seven days have reached 63,042 bales against 64,156 bales last week, 67,543 bales the previous week, and 71,744 bales three weeks since, making the total receipts since the first of September, 1870, 3,512,692 bales against 2,529,116 bales for the same period of 1869–70, showing an increase since September 1 this year of 983,576 bales. The details of the receipts for this week (as per telegraph) and the corresponding week of 1870 are as follows:

RECEIPTS Rec'd this week at—	1871.	1870.	RECEIPTS Rec'd this week at—	1871.	1870.
New Orleans bales	23,519	16,522	Florida bales.	176	175
Mobile	5,089	4,067	North Carolina	658	476
Charleston	2,991	3,320	Virginia	5,197	2,609
Savannah	7,172	5,971			
Texas	9,145	4,192	Total receipts	63,042	40,575
Tennessee, &c	9,095	3,243	Increase this year	22,467	

The exports for the week ending this evening reach a total of 80,325 bales, of which 63,805 were to Great Britain, 3,213 to France and 13,307 to rest of the Continent, while the stocks as made up this evening, are now 484,643 bales. Below we give the exports and stocks for the week, and also for the corresponding week of last season, as telegraphed to us from the various ports to-night:

Week ending April 21.	Exported to— G. Brit	Contin't	Total this week.	Same w'k 1870.	Stock. 1871.	1870.
New Orleans	23,387	14,164	37,551	34,619	201.018	139,417
Mobile	4,577	....	4,577	4,046	41.375	50,095
Charleston	....	450	450	6,149	17,577	12,356
Savannah	2,478	....	2,478	3,631	52,963	44,319
Texas	10,230	1,063	11,293	3,745	52,710	24,896
New York	21,982	842	22,824	6,932	85,000	50,000
Other ports	1,156	1	1,157	20	34,000	20,000
Total	63,805	16,520	80,325	59,142	484,643	341,083
Total since Sept. 1	1,937,404	573,814	2,531,218	1,719,478	....	....

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an increase in the exports this week of 21,183 bales, while the stocks to-night are 143,560 bales more than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to April 14, the latest mail dates. We do not include our telegrams to-night, as we cannot insure the accuracy or obtain the detail necessary by telegraph.

PORTS.	RECEIPTS SINCE SEPT. 1. 1870.	1869.	EXPORTED SINCE SEPT. 1 TO— Great Britain	France	Other Forign	Total.	North-ern Ports.	Stock.

We have had a quiet market the past week, but prices have been quite steady, the only change being a decline on Monday of ⅛c. in middling and grades above. Almost every traceable influence, however, has been against the market—the planting advices have in the main been good; the receipts have continued to show the same large percentage of increase of previous weeks; our own spinners have mostly kept out of the market having a considerable stock on hand, and the Liverpool reports have been dull with the quotations lower. And yet, notwithstanding all these adverse influences, prices have been maintained with an active demand for speculation to-day, and quite a firm undertone apparent at the close. The source of this apparent strength is thus speculative, and may be traced to the fact that holders think that a corner in cotton is probable towards the close of the month when the shorts meet their maturing contracts, and refuse therefore to make any concession in price. For future delivery the business has been fair, and prices have been well maintained. To-day the demand was light, but the offerings were also light, and Low Middling closed to-night at 13 15-16c for April; 13⅜c. for May; 13⅜c. for June; and 13⅜c. for August. The total sales of this description for the week are 36,440 bales including 440 free on board. For immediate delivery the total sales foot up this week 19,147 bales including 13,201 for export; 2,725 for consumption; 3,053 for speculation; and 168 in transit. Of the above 1,971 bales were to arrive. The following are the closing quotations

Good Middling	15⅜@....	15⅜@....	16⅛@....	16⅜@....

Below we give the total sales of cotton and price of *Uplands* at this market each day of the past week:

	Total sales.	Ordinary.	Good Ordinary.	Low Middling.	Middling
Saturday	3,711	10⅜@....	12⅜@....	13⅜@....	14⅜@...
Monday	3,371	10⅛@....	12⅜@....	13⅛@....	14⅛@....
Tuesday	3,892	10⅜@....	12⅜@....	13⅛@....	14⅛@....
Wednesday	2,690	10⅜@....	12⅜@....	13⅛@....	14⅛@....
Thursday	1,767	10⅜@....	12⅜@....	13⅛@....	14⅛@....
Friday	3,716	10⅜@....	12⅜@....	13⅛@....	14⅛@....

For forward delivery the sales (including 440 free on board) have reached during the week 36,440 bales (all low middling or on the basis of low middling), and the following is a statement of the sales and prices:

For April. bales.	cts.	bales.	cts.	For July. bales.	cts.	bales.	cts.
3,600	13⅜	8,600	13⅜	500	13⅜	200	14
200	13 25-32	100	13 13-16	100	13⅜	1,200 total August.	
1,700	13 13-16	700	13⅜	100	13 15-16		
5,600	13⅜	13,200 total May.		200	14	For September.	
800	13 15-16			900 total July.		100	14
3,400	14	For June.				For December, '71.	
15,300 total April.		400	13 11-16	For August.		200	14½
		4,200	13⅜	200	13 13-16	200 seller's option all this year	13⅜
For May.		200	13 13-16	700	13⅜		
100	13⅜	100	13⅜	100	13 15-16		
3,500	13 11-16	4,900 total June.					
200	13 28-32						

The sales during the week of free on board have reached 440 bales. The particulars of these sales are as below:

200 free on board at Charleston p. t.
240 free on board at Baltimore p. t.

The following exchanges have been made during the week:

3-16c. paid to exchange 200 May for 200 July.
¼c. paid to exchange 300 May for 300 April.
¼c. paid to exchange 1,000 May for 1,000 April.
¼c. paid to exchange 100 July for 100 April.
800 April for 800 August, even.
100 August for 100 May, even.

WEATHER REPORTS BY TELEGRAPH.—The general result of our reports to night would indicate that, in the main, good progress is being made in the work pertaining to the next crop; and yet the weather has been far from satisfactory in some quarters, especially during the early part of the week. From Macon our telegram states that it has rained three days, and on Saturday last the rain was very heavy. To-day it had cleared up, and gave promise of pleasant weather. Our correspondent at that point also states that less cotton and more corn has been planted in that neighborhood, and the same statement is contained in our Charleston, Augusta, Columbus and Memphis telegrams. At Selma there has also been an unusually severe storm, and the weather during the week is described as being warm, sultry and wet, and still the telegram reports that crop work is progressing satisafctorily. At Columbus and Charleston it has rained two days, at Montgomery,

Digitized by Google

Memphis and Nashville one day, but at each place the balance of the week has been pleasant. At Augusta the weather has been showery, and at Mobile there was rain early in the week, but fine weather later. At Galveston it has been delightful all the week, and the crop is developing promisingly. The thermometer at Charleston, Mobile, Montgomery and Galveston has averaged 70, at Memphis 63, at Columbus 69, at Macon 68, and at Selma 72:

SPINNERS' WANTS.—Just at this moment when the market appears to be in quite a stagnant condition, it becomes useful to see the extent of the actual takings for consumption and export thus far, in order that we may know how the balance of the crop is to be distributed. Last year (1869–70), up to April 13, our own spinners had taken about 563,820 bales. This year (1870–71), during the same period, the mills have taken about 650,918 bales, as may be seen in the following for the two seasons:

	1870—71.		1869–70.	
Rec'ts at ports to April 13..		3,449,650		2,488,541
Rec'ts overland direct (est.)		145,000		130,000
Total supply.....bales.		3,594,650		2,618,541
Foreign exports to April 13.	2,450,898		1,660,336	
Stock at ports April 13.....516,586		376,728		
Less stock Sept. 1..... 59,747	—456,839	12,343	—364,385	
In transit from South or burned..... 36,000	—2,943,732	30,000	—2,054,721	
Taken by spinners up to April 13....bales.	650,918		563,820	

These figures indicate that our spinners have already taken about 90,000 bales more than for the same period of last season, the larger portion of which must have gone to increase their stocks, since their actual consumption up to this time has not been much, if any, in excess of (and some put it less than) last year. The reason for this small consumption may be found in the fact that the drought of last summer and autumn enforced a reduction in hours of many mills, which, by reason of the small rain fall during the winter, was continued, except for a few weeks, until early spring. Not until March really, was full mill power restored. This fact will prevent the total consumption of our spinners for the entire year, from being much, if any, in excess of the last year, when for the North it was about 806,000 bales.

GUNNY BAGS, BAGGING, &c.—The market for both Cloth and Bags has, the past week, been excessively dull. Jobbers have all the stock they need for present demands, which, even from them, is very small, and are not buying except as they are obliged. A correct quotation cannot be given for a lot; the nominal price is 18½@19c. for India, and 19½@20c. for domestic, and 15@15½c. for Bags. Hemp has been in more demand for Manila, and rules higher, caused by small shipments from Calcutta and a good consumptive demand here; the close, however, is quiet at the advance. Sales are 2,500 bales at 9½@10½c, gold, 60 days, and 500 bales Tampico on private terms. Jute has ruled dull and nominal. Jute Butts have sold fairly, but at prices favoring buyers. Sales are 2,400 bales here at 4c. currency, 60 days, and 3⅞ cash, and in Boston 1,000 bales at 3½c. cash.

MOVEMENTS OF COTTON AT THE INTERIOR PORTS.—Below we give the movements of cotton at the interior ports—receipts and shipments for the week, and stock to-night and for the corresponding week of 1870:

	Week ending Apr. 21, 1871.			Week ending Apr. 21, 1870.		
	Receipts.	Shipments	Stock.	Receipts.	Shipments.	Stock.
Augusta.....	1,695	1,661	20,322	1,088	2,798	16,800
Columbus.....	347	1,206	6,025	856	1,204	11,100
Macon.....	384	1,255	6,561	321	659	11,780
Montgomery...	481	948	4,993	486	1,196	6,945
Selma.....	537	1,535	2,979	395	740	4,855
Memphis.	5,011	8,712	15,984	4,018	3,969	17,863
Nashville.....	767	1,545	5,127	891	548	5,659
	9,222	16,857	61,991	8,055	11,114	75,002

These totals show that the interior stocks have decreased during the week 7,535 bales (being now 5,476 bales less than for the same period of last year), while the aggregate receipts are 1,167 bales more, and the shipments 5,743 bales more than for the corresponding period of 1870.

VISIBLE SUPPLY OF COTTON.—The following table shows the quantity of cotton in sight at this date of each of the two past seasons:

	1871.	1870.
Stock in Liverpool.....bales.	923,000	484,000
Stock in London.....	77,079	45,478
Stock in Glasgow.....	350	300
Stock in Havre.....	34,920	53,250
Stock in Marseilles.....	2,800	11,700
Stock in Bremen.....	23,054	10,836
Stock rest of Continent.....	30,000	30,000
Afloat for Great Britain (American).....	249,000	216,000
Afloat for France (American and Brazil)...	20,513	87,000
Afloat for Bremen (American).....	74,949	35,585
Total Indian Cotton afloat for Europe.....	242,000	163,000
Stock in United States ports.....	484,643	341,083
Stock in inland towns.....	61,991	75,002
Total.....	2,224,299	1,552,334

These figures indicate an *increase* in the cotton in sight to-night of 671,965 bales compared with the same date of 1870.

The exports of cotton this week from New York show an increase since last week, the total reaching 21,987 bales, against 18,280 bales last week. Below we give our table showing the exports of cotton from New York, and their direction for each of the last four weeks; also the total exports and direction since September 1, 1870; and in the last column the total for the same period of the previous year:

Exports of Cotton (bales) from New York since Sept. 1, 1870

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 92,350 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRONICLE last Friday, except Galveston, and the figures for that port are the exports for two weeks back. With regard to New York, we include the manifests up to last Saturday night:

	Total bales.
NEW YORK—To Liverpool, per steamers Wisconsin, 3,899 ...Russia, 819 ....Halley, 1,315....City of Paris, 1,227....Oceanic, 2,150....Pennsylvania, 2,671....per ships Cleopatra, 600... Rooparell, 1,830....Harvest Queen, 1,991	16,502
To Cork for orders, per bark Czarina, 1,435	1,435
To Continent via Glasgow, per steamer Iowa, 294	294
To Marseilles, per brig E. Rowl, 400	400
To Bremen, per steamer Weser, 350	350
To Amsterdam, per ship Red River, 2,519	2,519
To Antwerp, per bark Mindet, 487	487
NEW ORLEANS—To Liverpool, per steamer St. Louis, 3,414....per ships Antartic, 4,123....Sarranak, 3,465....L. L. Sturges, 4,135....per barks Lannater, 1,780....Thos. Cochran, 1,940....Lowerison, 1,753....John Henry, 1,455	22,065
To Havre, per ship Arcturus, 3,391	3,391
To Bremen, per brig Anita Owen, 1,400	1,400
To Bremen via Havana and Southampton, per str. Hannover, 525....	525
To Hamburg, per bark Maggie M. Mitchell, 1,184	1,184
To Amsterdam, per bark Ploen, 1,163	1,163
To Cronstadt, per bark Finn, 1,202	1,202
To Antwerp, per schooner Anna Lyons, 1,153	1,153
To Barcelona, per brig General Urquiza, 525	525
To Vera Cruz, per brig J. M. Burns, 425	425
MOBILE—To Liverpool, per ships Carolus Magnus, 4,413....Greyhound, 3,585....Tuscarora, 3,718....Western Empire, 3,903	15,619
To Russia, per ship Europa, 2,750	2,750
CHARLESTON—To Liverpool, per barks Moselle, 1,053 Upland....Florence Chipman, 2,913 Upland and 70 Sea Island	4,036
SAVANNAH—To Liverpool, per ship Chance, 2,855 Upland and 50 Sea Island	2,905
TEXAS—To Liverpool, per ship Southampton, 3,882....per barks Elinor, 1,050 and 6 Sea Island....Jamaica, 906....Lord Palmerston, 1,376 and 5 Sea Island....per brig Brazilian, 971....per schr. Marion, 1,061....	9,257
To Bremen, per schr. Pascidon, 452	452
To Amsterdam, per bark Fletner, 1,012....per brig Sarah Hall, 760..	1,772
BALTIMORE—To Bremen, per steamer Leipzig, 438	438
BOSTON—To Liverpool, per steamer Siberia, 23	23
To British Provinces, 70	70
To other foreign ports, 8 bags	8
Total	92,350

The particulars of these shipments, arranged in our usual form are as follows:

	Liverpool.	Cork.	Havre.	Marseilles.	Bremen.	Hamburg.	Amsterdam.	Cronstadt.	Total.
New York..	16,502	1,435	....	400	350	....	2,519	....	21,987

GOLD, EXCHANGE AND FREIGHTS.—Gold has fluctuated the past week between 110⅝ and 111¼, and the close was 111¼. Foreign Exchange market is steady. The following were the last quotations: London bankers', long, 109⅞@110; short, 110¼, and Commercial, 109⅝@109¾. Freights closed at 5-16@⅜. by steam and ⅜@5-16d. by sail to Liverpool.

BY TELEGRAPH FROM LIVERPOOL.—

LIVERPOOL, April 21, 5 P. M.—The market has ruled dull to-day, with a downward tendency, with sales amounting to 10,000 bales, including 3,000 bales for export and speculation. The sales of the week have been 71,000 bales, of which 12,000 bales were taken for export and 4,000 bales on speculation. The stock in port is 923,000 bales, of which 572,000 bales are American. The stock of cotton at sea bound to this port is 457,000 bales, of which 249,000 bales are American.

	March 31.	April 6.	April 14.	April 21.
Total sales	81,000	51,000	47,000	71,000
Sales for export	15,000	8,000	7,000	12,000

Of the present stock of cotton in Liverpool 55.50 per cent is American against 60 per cent last year. Of Indian cotton the proportion is 15.25 per cent, against nearly 18 per cent.

LONDON, April 8.—The Cotton market has been quiet, and prices are rather lower. The following are the particulars of imports, deliveries and stocks:

	1869. bales.	1870. bales.	1871. bales.
Imports, January 1 to April 6	74,523	34,509	61,509
Deliveries	141,902	111,275	52,253
Stocks, April 6	77,850	45,478	77,079

HAVRE, April 6.—The stock of Cotton yesterday evening amounted to 32,690 bales, of which 14,300 bales were American, and 14,260 bales East Indian; 5,774 bales of American cotton were afloat to the port.

ALEXANDRIA, March 24.—The shipments of cotton from November 1, 1870, to March 16, 1871, have been:

	Great Britain. bales.	Continent. bales.	Total. bales.
From Nov. 1, 1870, to March 23, 1871	138,362	38,604	176,966
" " " 1869-70	112,108	34,305	146,413
" " " 1868-9	114,525	37,997	152,522
" " " 1867-8	127,895	34,793	162,688
" " " 1866-7	133,864	26,478	160,342

BREADSTUFFS.

FRIDAY P. M., April 21, 1871.

The markets for flour and grain the past week have shown weakness and depression. The decline in prices, though pretty general, is not great, but the close was quite unsettled

The receipts of flour show some increase, and under a pressure to sell both from store and from wharf prices have gradually yielded until a decline of 10@20c per bbl is established for the week. The shipping business has been moderate. Yesterday a line of 3,000 bbls. prime extra State was taken for the London market at $6 50 in store, and lots on the wharf sold as low as $6 35. To-day, with a decline of 6d quoted from Liverpool, buyers insisted upon lower prices, but holders refused to give way to any extent on shipping brands, but some of the trade brands could be bought for less money. At the close, however, 1,000 bbls. prime extra State sold at $6 40 in store, a decline of 10c from yesterday

Wheat has been taken freely for export till within the past two days. The demand was promptly met, and stocks materially reduced. But since Wednesday, with a slight decline in Liverpool, and a check to the advance in gold, buyers have insisted upon lower rates, and being able to pick up odd lots sufficient to supply their immediate wants they wholly neglected lines of new Spring yesterday. To-day holders gave way 3@4c from Wednesday's prices, with new Spring selling at $1 53½@$1 58 in store and afloat, at which there was some business for export. Old Spring sold at $1 40 in store, and choice Amber Winter $1 62 afloat.

Corn has arrived freely by rail, and being pressed for sale on arrival prices have ruled weak for some days, although there was some effort to check the decline. The failure of a party operating for a rise, precipitated considerable quantities upon the market, under which prices gave way; prime mixed closed at 75c for present and next two months delivery. The receipts of corn at the West have largely increased for the week under review, but a considerable portion thereof is found to be unsound from having lain in canal boats all winter.

Rye is very unsettled. Barley has been moving off pretty freely at about steady prices. For oats the market is very unsettled. There was a speculative movement on Wednesday which absorbed about all the lots pressing on the market, but the regular demand continues very dull and prices weak. The relative cheapness of corn causes it to be substituted more than usual for oats in feeding.

The following are the closing quotations:

Flour—		Wheat, Spring, bush	$1 40@1 58
Superfine	$ bbl. $5 90@6 30	Red Winter	1 50@1 54
Extra State	6 35@6 60	Amber do	1 57@1 62
Extra Western, common	6 30@6 65	White	1 65@1 95
Extra and double extra Western & St. Louis	6 75@8 75	White California	1 75@1 85
Southern shipp'g extras	6 80@7 25	Corn, Western Mix'd	74@ 75
Southern, trade and family brands	7 50@9 00	Yellow, new	77@ ....
Rye Flour, super & extra	5 40@6 15	White	75@ 88
Corn Meal, Western and Southern	3 70@4 30	Rye	1 10@1 18
		Oats	64@ 66
		Barley	90@1 17
		Malt	1 00@1 20
		Peas, Canada	1 15@1 45

The movement in breadstuffs at this market has been as follows:

*Estimated.

In the comparative statement of stocks April 1, 1870, Boston, Montreal, Oswego, Toronto, Philadelphia and Baltimore were not included.

GROCERIES.

FRIDAY EVENING, April 21, 1871.

There is nothing really fresh on the general market, though partly in realization and partly in anticipation, trade appears to be a little more healthy. In no case have further concessions in values been made, while on two or three of the leading articles there is a slight advance, and the stocks as a rule are kept within manageable proportions. There can be little doubt that the amount of goods now held by small dealers and consumers in the interior is much reduced, and admitting that buyers will continue to operate closely on actual necessity, they must soon be compelled to purchase to an extent sufficient to infuse a little more life into the market, especially as cheaper transportation is near at hand.

The entries direct for consumption, and the withdrawals from bond, showing together the total thrown on the market for the week, were as follows:

Tea, black	5 847 pkgs.	Laguayra	2,486 bags.
Green	9,733 pkgs.	Other	3,011 bags.
Japan	2,823 pkgs.	Sugar, Cuba	6,076 boxes.
Various	2,126 pkgs.	Cuba	7,396 hhds.
Coffee, Rio	13 330 bags.	Porto Rico	835 hhds.
Java	2,205 mats.	Other	1,059 hhds.
Maracaibo	1,308 bags.	Sugar, Brazil	165 bags.
		Manila, &c.	41,220 bags.
		M'las'es, Cuba	2,349 hhds.
		Porto Rico	800 hhds.
		Demerara	.... hhds.
		Other	733 hhds.

*Hhds. include bbls. and tcs. reduced

Imports this week at this port have included 4,500 bags of Rio Coffee, and 286 do. sundry kinds. The receipts of Sugar include 3,543 boxes and 7,592 hhds. In Tea the arrivals embrace 2,362,306 lbs. of Black and 683,327 lbs. of Green.

The stocks in New York at date, and imports at the five leading ports since Jan. 1, 1871, are as follows:

TEA.

The volume of business has increased somewhat and the market generally has shown more life, and in some cases an improved tone. Japans are still so irregular as to render quotations quite difficult and in all cases nominal, but Oolongs are evidently settling into a more steady position, and Greens have really become firm on all good to prime grades, with the ordinary qualities also commencing to partake of the improvement, and holders though accepting full bids showing no anxiety to hurry business, as foreign advices of late date are quite stimulating. Through reliable private sources we learn from Shanghae that the Tea season has closed, with a total export to the United States and Canada of only 18,750,000 lbs. The export to England is also reported short as compared with previous seasons. The season in China is thus closed on a short crop two months earlier than usual, and as a result we may look for a gradual falling off in our later receipts. Teas came to hand much earlier than usual this year owing to the introduction of steam transportation, and this giving the impression that the supply would be excessive undoubtedly caused the recent break in values. There is no doubt, however, that consumers are operating in a more cautious manner than in former years, and taking little stock in excess of known wants. Sales of 12,400 Greens; 20,000 Oolongs (part to arrive) and 1,800 Japans.

The imports this week consist of the arrival of 617,587 lbs. of Green tea and 3,807 lbs. of Japan, per "Levi Stevens" from Shanghae; 1,070,945 lbs. of Black, per "Orpheus" from Foochow; 528,000 lbs. Black and 65,740 lbs. Greens, per "Kingfisher" from Hong Kong; 66,838 lbs. of Blacks, per "James Shepherd" from Whampoa; and 696,533 lbs. Black, per "Annie Gray" from Shanghae.

The following table shows the imports of Tea into the United States (not including San Francisco), from January 1 to date, in 1871 and 1870:

	Black.	Green.	Japan.	Total.
1871	6,851,400	11,181,140	4,393,081	22,429,621
1870	11,088,553	8,623,853	3,346,227	23,053,631

The indirect importations, including receipts by Pacific Mail steamers via Aspinwall, have been 9,641 pkgs. since January 1, against 16,444 last year. The receipts of Tea overland by railroad have this week amounted to 2,010 pkgs.

COFFEE.

The anticipations of an increased call from the interior have not been realized, and the hopeful tone noticeable at the close of our last report is in part dissipated. Holders as a rule remain firm at former rates, and are not offering any very large amount of goods; but they are not encouraged by a demand from jobbers, and are simply obliged to muster up all the patience possible and await an opening of the outlet. A few buyers have appeared, but they were by no means anxious; and when finally induced to operate took invoices just large enough to satisfy early wants. Among the jobbers a small amount of stock has been distributed on mail orders from regular customers, but in the majority of cases there is a complaint of a dull business. The stock of Brazils has not increased to any extent, and the assortment continues poor; but there is evidently enough for the wants of the market, as the call generally is slack, and sellers more disposed to operate than buyers. The recent advices from Rio Janeiro show no margin for importers at current rates, and the natural inclination is to resist a further decline; yet it is pretty certain that on any good fair bid a number of parcels could be found available. Java is in small supply, and the stock being well under control owners show considerable firmness, though finding it extremely difficult to realize outside figures except on prime brown lots. West India descriptions are moving very slowly, and mainly in small retail parcels from second hands, with an occasional call for export, though shippers report their advices from abroad as not very encouraging. At the outports the movement is light for all grades, and prices weak. Sales here of 7,097 bags Rio, 3,500 bags Santos, 1,500 bags Laguayra, 510 bags Costa Rica, 15,201 mats Java. At Baltimore, 3,800 bags Rio; at New Orleans, 400 do.; and at Boston, 1,000 pockets Singapore.

Imports this week have included 4,500 bags of Rio, per "Italy," and 286 bags of sundry kinds by "Iris" and "May Stetson."

The stock of Rio April 20, and the imports since Jan. 1, 1871, are as follows:

In Bags.	New York.	Philadelphia.	Baltimore.	New Orleans.	Savan. & Mobile.	Galveston.	Total.

SUGAR.

There has been a gradually improving feeling noticeable in the market for Raws throughout the week and prices have finally advanced, especially on refining grades, with a pretty strong tone current at the higher figures. Buyers as a rule have not displayed an increased anxiety or an intention to depart from the previous policy of caution in regulating operations as closely as possible to actual wants, but these wants are now becoming larger and must be met. Refiners have sold their product about as fast as they could get it ready, and used up a great proportion of back purchases, and though the stock in first hands has not suffered materially from the business doing, the consumption has undoubtedly exceeded the receipts. There has been developed a slight speculative feeling, but the movement is not general, nor do either bulls or bears feel confident of a very large margin. The private advices from Cuba are said to still report the position of affairs as a little doubtful, but on the whole favorable for our importers, and for a few days past there has been noticeable among the trade an inclination to accept the rumors of a falling off in the amount produced as well founded. Clayed Muscovado and Centrifugal cured goods have all met with some call, and the last named grade is now rather scarce. Grocers can occasionally be found in the market, but they take only very small parcels. Refined have been in good and quite general demand, and the production was not allowed to accumulate to any extent on any grade, while prices gradually worked upward and rule comparatively strong at the close. The sales of raw include 7,580 hhds Cuba, 887 hhds Porto Rico, 600 hhds St. Croix, 450 hhds Demerara, 200 hhds Martinique, 62 hhds New Orleans, 3,586 boxes Havana, 24,650 bags Manila, and 987 hhds Melado.

Imports at New York, and stock in first hands, April 20, were as follows:

	Cuba, bxs.	Cuba, *hhds.	P. Rico, *hhds.	Other *hhds.	Brazil, bags.	Manila, &c, bags.	Melado hhds.

MOLASSES.

We find no improvement in the position of the market on foreign styles, the general demand proving moderate and business showing a sluggish tone. Refiners appear to have enough stock on hand for all current wants, either from previous purchases or direct importation. The trade are distributing too slowly to make them at all anxious about purchasing additional supplies, and with absolutely no call whatever from distillers the common qualities have simply to go into store and await an outlet. The stock in first hands, however, does not increase with much rapidity, and to some extent sympathizing with the sugar market values are very fairly sustained on all the upper qualities. For domestic there has been a moderate jobbing inquiry, and as the goods wanted were mostly of extra fine quality full prices were insisted upon and obtained. The stock, however, is mostly poor, and it is useless to offer it at present except with an intention of accepting very low bids, as buyers have no use for the goods. Sugar House Molasses is jobbing slowly at 17c. in hhds., and 21c. in bbls. Syrups are selling moderately at about former rates. The business for the week embraces 442 hhds. Porto Rico, 80 hhds. Cuba Muscovado, 642 casks St. Croix, 1,270 hhds. Cuba clayed, 50 hhds. English Island, 120 hhds. Trinidad, P. S., and 575 bbls. New Orleans.

The receipts at New York, and stock in first hands, April 20, were as follows:

* Including tierces and barrels reduced to hhds.

SPICES.

There is not much of call for invoices and few lots offering in the market, showing a nominal sort of position in a general way. Yet on the whole there is a fair amount of strength extant and it would probably be difficult to induce any important concessions as the supply available is not likely to increase for some time and foreign advices to latest dates were encouraging. In jobbing lots there has been a good uniform movement for the week embracing pretty much all styles of stock, and dealers are enabled to realize full former rates with sufficient ease to call the market firm.

FRUITS, &c.

There has been a slight improvement in the demand for Foreign Dried, as jobbers are and have been running on small stocks, and have been obliged to make purchases in order to keep up their assortment. They, however, act very cautiously, and take only small lots, preferring to risk an advance to carrying a stock while there is any possibility of a further decline. Raisins have not shared the slight improvement noticeable in most other articles, and with full stocks in the hands of importers gradually tend downward. $2 65 is now the jobbing price. A correct quotation for an invoice lot cannot be given. Turkish Prunes at a material decline have sold better, and close more steady. Patras Currants have sold more freely at 9c. @ 9¼c. for new. Trieste are rather quiet at 8¾c. for jobbing lots. Sardines are not actually lower, but the decline of last week has not stimulated any demand; they sell only in a small way. Brazil Nuts are in fair demand, but at low prices. Shelled Almonds have sold to some extent at full prices. Firecrackers are in good demand and firm in price.

Foreign Green are in steady increasing demand; there are no more West India Oranges in market, and Mediterranean sell freely. Lemons are in increased demand and firm in price. Bananas are plenty, and rule rather low. Cocoanuts sell fairly at former prices. We quote Baracoa Cocoanuts $38 per thousand. Carthagena do. $50, and Bananas $1 50@2 per bunch.

Domestic Dried are very quiet for all kinds. Apples still favor the buyer, but do not increase in demand. Peaches, both pared and unpared, are very quiet and hardly more than nominal in price. Blackberries met with some demand, which, however, did not amount to much, and only small lots were worked off. Holders have but few, and claim there will be a demand from the West for all there are here, at better prices. Pitted Cherries and Plums are slow of sale. Raspberries are a trifle easier.

Domestic Green are in fair demand for Apples; a few parties carry all the stock, which, however, does not sell at high prices. We quote for the bes $4@4 50, and for fair quality $3 50@3 75. Cranberries are dull and nominally quoted $1 75@2 25 per crate.

[For "Advices from Producing Markets," see Commercial and Miscellaneous News, on page 490.]

THE DRY GOODS TRADE.

FRIDAY, P. M., April 21, 1871.

The general trade has been quiet this week, both with first-hands and jobbers. Dealers in the interior laid in their stocks earlier in the season as the movements from the present time until the close will be confined to such amounts as are required from time to time to replenish broken assortments. At the moment there is comparatively little demand for goods for this purpose, as the retail trade has not been sufficiently active to necessitate a general replenishment of either jobbers' or retailers' stocks. This is especially the case with domestic cotton goods, which are held by distributors in more liberal supply than foreign goods. There is a moderate inquiry for second purchases from the trade in some of the larger cities, and business is by no means at a stand-still, though the movements are small as compared with those of a few preceding weeks. The weather has not been very favorable for an active retail trade, and until it becomes more settled the demand from consumers is not likely to be spirited. There is some complaint of the tightness of money in the country, but as the rule, collections are free, and the trade seems to be in a very healthy financial condition.

DOMESTIC COTTON GOODS.—The market for cotton fabrics has experienced few changes since our last review, and, as regards prices, remains steady. Brown and bleached cottons are in good request in the finer grades, and the stock of the most favorably known is very light. Lower grades are rather less active, and in some instances a moderate accumulation is reported. Prices are steady, however, and one or two brands have been advanced ¼c. in consequence of a scarcity. Colored cottons are quiet, but remain steady at unchanged quotations. Prints are in good demand, and the best makes are selling with comparative freedom. There is no important accumulation of stock reported, but, on the contrary, many styles of light colorings are entirely sold out. Prices are without change and are well sustained, both by the small supply and the rise in cloths, although the latter is thought by many to result chiefly from speculation.

DOMESTIC WOOLEN GOODS.—There is a good demand for light weight cassimeres, in the finer qualities, and the few commission houses who held any assortment of these goods are doing an active business. The production of these goods has been unusually small this season, and a majority of the commission houses are entirely sold out. There is a moderate inquiry for heavy weights, but no large transactions are made, in consequence of the scarcity of stock, and it is probable that transactions will be restricted for some time to come by the limited production, as manufacturers are indisposed to purchase wool in very large amounts at its present prices, unless higher prices can be established in goods. Cloths are selling fairly in heavy weights, but holders are firm and do not press sales. Light weights are jobbing well, but are inactive in first hands.

FOREIGN GOODS.—There is more activity in the jobbing movement in imported than in domestic fabrics, and a moderate business is doing in all classes of goods suited to the current wants of the distributive trade. Dress linens are selling well at full prices; other suiting fabrics are also in good request, especially thin goods designed for the Southern and Southwestern markets. There is a good inquiry for woolens in first hands, and orders for large amounss have been placed by jobbers and other early buyers. The prospect for higher prices on domestic woolens is stimulating the trade in foreign goods, and an active season is anticipated.

The exports of dry goods for the past week, and since January 1, 1871, and the total for the same time in several previous years are shown in the following table:

	FROM NEW YORK.				FROM BOSTON

SPENCERIAN

STEEL PENS,

Manufactured by the Original Inventor of Steel Pens.

THE CELEBRATED durability and perfection of action of these Pens are owing to a peculiar process of Carbonizing, and to the great care taken in their manufacture by the most skilled and experienced workmen in Europe.

They are a nearer approximation to the real **SWAN QUILL** than anything hitherto invented.

For sale by Dealers generally.

☞ **SAMPLE CARD**, containing all the **14 Numbers**, artistically arranged and securely inclosed, sent by mail on receipt of **25 Cents.**

THE NEW YORK

DAILY BULLETIN,

A First-Class Daily Commercial and Financial Journal.

The BULLETIN furnishes—

1st. The most complete FINANCIAL REPORT published in any daily paper, embracing:

The daily sales and quotations of every Security dealt in at the Stock Exchange and the Mining Board.

The quotations of Securities not on the Stock Exchange list, including Southern Stocks and Bonds.

A transcript of the official register of the Gold Room, showing every quotation from the formal opening to the formal closing of the Room—published in no other paper.

A summary of the daily transactions at the SUB-TREASURY, the GOLD EXCHANGE BANK, and the CLEARING-HOUSE.

A full table of quotations of STERLING and CONTINENTAL EXCHANGE.

THE CHANGES IN THE REDEEMING AGENTS OF THE NATIONAL BANKS, AND THE OFFICIAL PERIODICAL STATEMENTS OF THE NATIONAL BANKS IN EACH STATE, as furnished by the Comptroller of the Currency—published by no other daily paper.

2d. The most accurate and the ONLY DAILY report of the DRY GOODS MARKET, including a full PRICE CURRENT of staple and domestic fabrics, which is corrected daily.

3d. A carefully prepared report on the PRODUCE MARKETS, much fuller in its details than that of any other daily journal, embracing a full Price Current semi-weekly.

4th. A daily statement of the RECEIPTS OF PRODUCE, the IMPORTS FROM FOREIGN PORTS, and the MANIFESTS OF VESSELS CLEARED AT THE CUSTOM HOUSE.

5th. Its CITY COMMERCIAL and FINANCIAL NEWS is fuller than that of any other journal.

6th. In its EDITORIAL DEPARTMENT the BULLETIN gives a fuller discussion of current commercial and financial topics than any other journal in the United States; and in this especially its influence ranks second to that of no other paper in the country.

7th. Its PRICE IS ONLY ABOUT ONE-HALF that of other leading commercial papers, and yet its information is fuller and in all respects as valuable.

HUNT'S MERCHANTS' MAGAZINE YEAR BOOK,

1871.

U. S. FINANCES,
COMMERCE,
INTERNAL REVENUE,
STATE FINANCES,
&c.. &c.

BANKING,
COMMERCIAL,
RAILROADS,
POPULATION,
&c., &c.

COTTON,
BREADSTUFFS,
COAL,
IRON,
&c., &c.

A volume of 475 pages, forming the most complete

ANNUAL OF COMMERCIAL AND FINANCIAL INFORMATION

ever issued in the United States.

It is published of the same size and shape as the past volumes of "HUNT'S MERCHANTS' MAGAZINE," and supplies the former subscribers of that Magazine with a compact volume, which will thus perpetuate annually all the important and valuable statistics recorded in its pages.

An examination of the contents below will furnish the best information as to the real character and value of the work.

CONTENTS:

STEEL PLATE ENGRAVING OF HIRAM WALBRIDGE.

Financial Review for 1870.—National Progress in Wealth; Report of the Secretary of the Treasury; Report of the Treasurer of the United States; Report of Commissioner of Internal Revenue; Internal Revenue Receipts for Three Years; Daily Price of Gold for Nine Years; Treasure Movement at New York for Twelve Years; Treasure Movement at San Francisco; Range of Government Securities Monthly for Two Years; Highest and Lowest Prices Monthly of every Stock sold at the New York Stock Exchange for Five Years Past; Foreign Exchange, Weekly, Four Years Past; Debt of the United States in Detail, with Acts; Director of the Mints' Report; Gold and Silver Coins in Different Countries; Receipts and Disbursements of United States since 1791; American Shipping and Foreign Commerce; Purchases by Government of United States Bonds.

Debt and Finances of each State.—Containing Complete Articles upon the Debt and Financial Condition of the Several States of the Union, with the most Detailed Statement of all their Bonds Outstanding.

Banking—The National Banking System; Comptroller of the Currency's Report; Totals of Quarterly Reports since 1863; New York Savings Bank; Clearing House Banks Three Years; European Money Market.

Railroads.—Review of Railroad Progress in Europe and America for 1870; New York Railroads; Ohio Railroads; Massachusetts Railroads; Railroad Bonds in Detail; Railroad Stocks in Detail.

Population, etc.—EUROPE AND AMERICA.—European Progress in Wealth and Population; British Income Tax; France, Income and Resources; European Armies and Navies; Germany; Immigration into the United States; Census of the United States.

Trade and Commerce.—Review of the Year 1870; Mercantile Failures; Prices of Merchandise; New York, Foreign Trade of, for 1870; Foreign Imports, United States Foreign Exports; Cereals; Average Factory Wages.

Cotton.—Review of 1870 and Prospects for 1871; Crop of 1869–70; Crop of Cotton each Year since 1621; Weekly Receipts for Five Years; Manufacturers' Association Report for 1869–70; Consumption of United States Mills; Consumption in Europe.

Commercial Reports.—Breadstuffs; Tobacco; Coal; Petroleum; Iron.

A List of Acts of Congress Passed in 1870.

Biographical—Hiram Walbridge; Robert L. Maitland; Joseph Wesley Harper; James De Peyster Ogden; Henry A. Wilmerding; Abraham M. Bininger.

WILL BE ISSUED MAY 1.---PRICE, $5.00.

ON RECEIPT OF WHICH SUM IT WILL BE MAILED FREE OF POSTAGE TO ANY PART OF THE UNITED STATES

HUNT'S MERCHANTS' MAGAZINE,

A Weekly Newspaper,

REPRESENTING THE INDUSTRIAL AND COMMERCIAL INTERESTS OF THE UNITED STATES.

VOL. 12. NEW YORK, APRIL 29, 1871. NO. 305

Advertisements.

Advertisements will be inserted at the following prices per line for each insertion:

If ordered less than 4 times		20	cents per line.
"	5 times or more	16	"
"	9 "	14	"
"	13 "	12	"
"	26 "	10	"
"	52 "	8	"

If the advertisement occupies one column or upwards, a discount of 15 per cent on these rates will be allowed.

Space is measured in agate type, 14 lines to the inch.

Advertisements will have a favorable place when first put in, but no promise of continuous insertion in the best place can be given, as all advertisers must have equal opportunities.

In the matter of ABRAHAM BININGER and ABRAHAM B. CLARKE, Bankrupts.

Notice is hereby given that the undersigned, as Assignee of the above-named bankrupts, will sell at public auction, at the Merchant Exchange Salesroom, No. 111 Broadway, in the City of New York, on the 17th day of May, 1871, at 12 o'clock at noon, by E. H. Ludlow & Co., auctioneers, two parcels of land adjoining each other, situate partly in Spottsylvania County, Virginia, and partly in Orange County, Virginia, containing together seven hundred and seven acres of land, known as the Vaucluse Gold Mining property, together with the mines, minerals, metals and metallic substances, buildings, improvements, fixtures, and appurtenances thereto belonging, including two steam engines, and all other mining machinery and utensils used in the mining operations now, or recently, carried on at the said Vaucluse mine. &c.

The sale will be subject to confirmation by the Court.

Detailed description of the property, and an inventory of the improvements, fixtures, &c., may be had upon application to the undersigned, or to his attorneys, Messrs. BANGS, SEDGWICK & NORTH, No. 137 Broadway, or to the Auctioneers.

SPECULATION AND RESUMPTION.

The prospects of a resumption of specie payments, and of the restoration of a sound currency, do not seem to be improving. The wild excitement at the Stock Exchange, which was renewed yesterday, is founded almost wholly on the supposition that, with a view to give extreme ease to the money market, and thus to facilitate the negotiation of the new loan, various expedients will be resorted to by the Treasury, and that among these means an inflation of the currency will very probably be favored. In what way this inflation is to be effected does not appear. It is enough for the purposes of the speculators to suggest the probability of this expansion, and without any regard to the real values of the several stocks, a multitude of credulous buyers rush into the market to give a further impulse to the mounting tide of advancing quotations. The speculative mania has been more quiescent in the gold market, but there are not wanting significant indications of a change. The events of last week, when the unexpected Treasury sale of 4 millions broke the corner which was then manipulating, are not yet quite forgotten; but the movements for some days past have indicated a very firm market, while the heavy bids on Thursday for the Treasury gold, and the large exports of to-day, give new evidence that the premium is likely rather to go up than down

We have received some communications on this subject, founded on the figures we lately published, showing the volume of the currency in 1865 and at present. On the 31st July, 1865, as we showed, the aggregate volume of our paper currency was $1,048,261,304. Now it is but $762,832,066. At the former date gold was 145, while it stands now at 111. From these figures and the other data concerned in the calculation, some of our correspondents think gold should go up to 125, while others fix a higher limit still. Probably, however, further consideration will bring the conviction that these estimates are exaggerated. Our currency during the last 6 years has lost one-quarter of its volume; and the heavy fall of gold is due in part to this circumstance. But, meanwhile, another great change has taken place. There has been an active process of growth since 1865. The amount of currency which was then amply sufficient for the country will now be too small. The South has resumed planting on a large scale. The Pacific railroad has been opened and has developed a new field for industrial and farming and mercantile enterprise. Emigration has been extremely active, and the general business of the country has grown. The field for the use of currency has expanded and enlarged itself on all sides, and the present currency is not so much in excess of the true volume as if no such progress had been realized.

On the other hand, however, it is claimed that before the close of the war, in the beginning of the year 1865, when the volume of the currency was but 1,050 millions, the price of gold was 200. Hence the true volume of the currency might then be fixed at 500 millions, which might give 580 millions as the present volume demanded by the increased business of to-day. This estimate would give a much higher premium for gold, and would cause it to range above 132. On this point, however, the conjectures are innumerable, and the most careful estimates are little better than conjectures. The agitation of these conflicting opinions, however, has a sensible effect on the transactions of Wall street, and the active export movement has tended to give additional firmness to the quotations.

From these and other causes the subscriptions to the new loan have fallen off, and will probably come in slowly until the bonds are ready for delivery. There is an unexpected delay in the printing. The bonds were to be ready by the 1st of May. But a letter from Mr. Boutwell says that they will not be completed till a fortnight later, and it is scarcely probable that any large amounts will be ready for a month to come.

With a view to counteract existing obstacles and to stimulate the sale of this new loan, Mr. Boutwell has determined to adopt a new method for the payment of the interest on such of the bonds as are registered. Much trouble and

Digitized by Google

inconvenience will thus be saved to the people. The plan is to pay the interest by a cheque to the order of the Treasurer of the United States, sent directly by mail to the address of the bondholder, who will thus be freed from the necessity to attend in person as at present at the office of the Assistant Treasurer in order to collect their interest. Of course, this improved method applies to the registered bonds only. For the coupon bonds no such arrangement is necessary.

It has been a matter of surprise that so few of the savings banks of this city have subscribed for the new bonds. The reason, however, is obvious. They can gain larger profits by taking bonds and mortgages or by investing their funds in railroad bonds, of which there are large amounts offering in Wall street, which pay larger rates of interest than can be gained upon government securities. To some extent these savings banks are compelled to act thus by the high interest paid to depositors and by the active competition among the banks, which have increased of late with unexampled rapidity. The uncertainty of the gold market has, however, much to do with the present hesitancy in the movements of the new loan. And it is not less repressive to several departments of commerce and trade.

One of the facts relied on by the advocates of a high premium is the increase of the currency by the issue of bank notes. This increase, however, is only nominal, for as we have shown, Certificates of Indebtedness will be called in as fast as the bank notes are issued. And even if these certificates should be reissued hereafter, a considerable time must elapse before this can be done, when the situation may have undergone vital changes. On the whole, then, we may safely infer that although the inflationists are arguing their case with considerable plausibility, those persons who act on their theories will run inordinate risks. Nothwithstanding these risks are so obvious and so threatening, we are informed that a larger number of merchants and business men are "operating" in Wall street than have ventured there for several years.

MR. LOWE AND GENERAL PLEASONTON.

We have often derived valuable hints for tax reform from abroad, and might with advantage borrow many more. During the last week, for the first time in the history of international finance, England has attempted to copy an American impost, and to incorporate with her fiscal system a tax unknown elsewhere than in this country. In making this novel experiment, Mr. Lowe, the British Chancellor of the Exchequer, might have made a more judicious selection than the tax on matches, which is almost the sole survivor of a long list of objectionable minor imposts formerly levied under the pressure of our old system of war finance. Notwithstanding the cable telegrams which have passed between Mr. Lowe and General Pleasonton, the unpopularity of the proposed tax was so tumultuously demonstrated in London and elsewhere that the Government deemed it best to recede, and to add 50 per cent to the income tax instead. Thus ends, for the present, what has been called the "surplus period" of the English Budget. For several years past there has been an uninterrupted reduction of the burdens of the British taxpayers. In 1862 the amount of taxes remitted was $13,447,790, of which the paper duty was $7,750,000. In 1863 the taxes repealed amounted to $1,768,355; in 1864 to $23,231,595; in 1865 to $16,771,910; in 1866 to $26,724,905; in 1867 to $3,007,310; in 1868 to $1,575,000, and in 1870 to $24,243,350. To enable the Government to remit from 1855 to 1859 203 millions of oppressive taxation, there was a necessity to impose 88 millions of other taxes, so that the net gain to the people in repealed duties was 115 millions of dollars, distributed as follows:

ALTERATIONS IN THE BRITISH TAXES FROM 1855 TO 1869.

	Repealed or Reduced.	Imposed.	Actual Diminution.
Customs	£12,092,010	£2,336,484	£9,755,526
Excise	4,441,000	4,153,000	288,000
Income Tax	20,315,000	10,300,000	10,015,000
Other Taxes	1,411,983	.....	1,411,983
Stamps	2,350,000	411,200	1,938,800
	£40,609,993	£17,700,684	£22,909,309

Notwithstanding the heavy amounts of repealed taxation, and the supplementary vote in 1868 and 1869 of nearly 35 millions of dollars for the Abyssinian expedition, there was a year ago in the British Exchequer a surplus of $32,847,500, which was the largest ever known. The balance is now but 10 millions, and will be reduced to 4 millions by the remission of the house tax, conceded with a view to the consolidation of local taxation on a symmetrical model. This scheme for the readjustment of local taxes, for some unexplained reason, is pushed forward just at the very moment when the presence of a deficit seemed to admonish the letting of old evils alone for a while. By this new movement the British Treasury has its dwindling surplus of 10 millions of dollars reduced to 4 millions. Moreover, the recent war and the disturbed prospects of European politics warn England to remodel her army and extend her fortifications. She is thus confronted with 25 millions of dollars of extraordinary expenditure. These facts sufficiently account for the deficit and for the necessity for some new resources for the revenue of the government.

What is not so clear is the motive which prompted Mr. Lowe to adopt a new tax, to deviate from the well-worn track of tried expedients, and to risk his popularity by a dubious and novel exaction. By doing so he showed neither originality nor farsightedness, and, what is worse, he violated the fundamental principle of conservatism, which, for one or two generations has presided over the British fiscal system. Ever since Sir Robert Peel, in presence of a formidable deficit, proposed and carried the British Income tax, thirty years ago, this impost has been an unfailing resource in all such emergencies as that which now torments the Chancellor of the Exchequer. At first this tax was imposed for three years. It was renewed, and again renewed. In spite of all attacks it has survived to the present time for three simple reasons. First, it applies itself to the rich, who are able to pay, and lets the poor go free. Secondly, it restores the equilibrium of the other parts of the English tax system which press with undue force on the poor. Thirdly, the income tax has proved itself by experience to be capable of collecting more revenue with less derangement of industry than any other form of taxation known in Great Britain. In spite of its inequalities, therefore, and of the vehement opposition made to it, the income tax has survived; and although Mr. Lowe did not, like his predecessors, resort to this method of extrication from his deficit, the public clamor, the force of necessity and the goading of Mr. Disraeli and the opposition has driven him, however reluctantly, to take refuge in this old resource. The income tax last year was 4 pence in the pound; and as 2 pence more is to be added, the pressure of the tax will be, as we have said, 50 per cent. heavier than last year. The tax will thus have undergone 15 changes since it was first imposed in 1842. Sir Robert Peel first fixed it at 7 pence in the pound, which is equivalent to 2·916 per cent. This rate was maintained till 1854, when it was doubled to meet the expenses of the Crimean war. In 1855 it was raised to 16 pence, or 6·66 per cent. On the close of the war the rate of 7 pence was restored. In 1858 it was reduced to 5 pence, or 2·083 per cent; in 1859 the rate was 9 pence, or 3·750 per cent; in 1860, 10 pence, or 4·166 per cent; in 1861 the rate of 9 pence was restored, and in 1863, 7 pence. In 1864 the tax was 6 pence, or 2·50 per cent; in 1865, 4 pence, or 1·666 per cent. In 1867 it

Digitized by Google

was raised to 5 pence, or 2·083 per cent. In 1868, 6 pence was the rate; in 1869, 5 pence; in 1870, 4 pence, and in 1871 it will be 5 pence once more, which is 2 per cent, or ½ per cent below the rate of the United States income-tax.

To many persons it may seem strange that the balance kept in the British Treasury is so small. Accustomed as we are to see in Mr. Boutwell's reports a balance of 110 millions of gold and 10 or 12 millions of currency, it is not apparent how the English Chancellor of the Exchequer can pay his way with so meagre a balance that 33 millions is spoken of as the largest ever known. The necessity for our large balance lies in the peculiarities of the Sub Treasury system, which separates the Treasury from the banks, and compels the deposit in the Treasury vaults of all monies belonging to the Government. In England and in other European nations there is no such separation. The governments use the banks, and the need for a complicated and sometimes mischievous system like that of our Sub Treasuries does not exist. The Bank of England, for example, receives from the collectors of taxes all the Government revenues and pays out all the Government expenses. These payments are made for the most part every three months, and cause a quarterly tide in the London money market, similar to those recurring outward and inward currents with which our own money market is familiar.

We have often had to complain of the derangement of the monetary equilibrium caused by our Treasury. Under the English system similar complaints are not unknown, as may be supposed in view of the cast-iron policy of the Bank of England, and the insufficient coin balance on which it attempts to do its business. The half-yearly interest on the National debt forms one important part of those government payments which disturb the Bank of England and the British money market. In 1868 the amounts were reported as follows, exclusive of floating debt and interest on deficiency bills, amounting in 1868 to £213,075;

PAYMENT OF INTEREST ON THE BRITISH NATIONAL DEBT.

January and July.		April and October.	
Consols	£5,846,689	New 3 Per Cents	£2,864,339
New 5 Per Cents	10,574	Reduced Three Per Cents	1,592 579
New 3½ Per Cents	4,231	Exchequer bonds (1853)	5,458
New 2½ Per Cents	44,048	Annuities, Great Britain	467,900
Annuities	27,014	Exchequer	6,307
		Annuities (1885)	238,013
		Savings Banks (1885)	322,886
		Red Sea	18,000
Total	£5,932,556	Total	£5,515,482

Besides these disbursements, there is also twice as much much more paid out by the Bank of England for the ordinary expenditure of the government, a large part of which falls due quarterly. These payments occasion a large temporary withdrawal of money from the bank. The effect is enhanced by the fact that much of this money is paid to persons who have no banking account and keep part of the money by them. Moreover, whether they keep bank accounts or not, the recipients of these quarterly payments, and also the business community, have much larger quarterly payments to make than is usual here. Hence the drain for currency which is here more irregular occurs in London once a quarter. And investigations show that it amounts to £1,830,000 for each of the April and July quarters, £2,270,000 for the January quarter, and £1,370,000 for the October quarter. These figures are, of course, subject to variations from temporary causes. But it is well to trace the uniformity of such phenomena. Mr. Patterson, who read an interesting paper on this subject a year ago before the London Satistical Society, tells us that, however large these quarterly drains of currency from the Bank of England may be, the extra notes so issued find their way back to the bank in three weeks time after floating in the current of the general circulation and passing through a multitude of hands. In this country the money current requires, as we lately showed, a much larger period for its completion; except the April drain, which, being more local, resembles in its swiftness the quarterly drains of the English money market, and is often over in little more than a fortnight. On the whole, the British method of Treasury payments does not work much more smoothly than our own much abused Sub-Treasury system.

Another suggestion from the facts before us is the gratifying fact that while the tax rate of England, as of other European countries, is increasing; that of this country is diminishing. The budget of Great Britain for the current year is 360 millions of dollars, the local taxes being, as Mr. Gosehen, in a very elaborate speech lately showed, 225 millions a year more. Thus the 33½ millions of our British cousins have to raise 585 millions of dollars a year, or 16 dollars a head. On the other hand, our Federal taxes are but 300 millions, and are likely to be still further reduced, while our local taxes do not probably amount to much more than 200 millions. Hence we have to raise 500 millions a year, or an average of $12 82 per capita, from 39 millions of people, whose resources are multiplying, and whose growth in material wealth and productive power is unexampled in the records of any European nation.

CHANGES IN THE REDEEMING AGENTS OF NATIONAL BANKS.

The following are the changes in the Redeeming Agents of National Banks since the 13th of April, 1871. These weekly changes are furnished by, and published in accordance with an arrangement made with the Comptroller of the Currency.

LOCATION.	NAME OF BANK.	REDEEMING AGENT.
Virginia—Norfolk	The First National Bank	The Tradesmen's National Bank of Philadelphia and the National Mechanics' Bank of Baltimore, approved.
Michigan—Schoolcraft	The First National Bank	The Importers' and Traders' National Bank of New York, approved.
Ohio—Mansfield	The Richland Nat'l Bank	The Tradesmen's National Bank of Pittsburg, approved, and also the Fourth National Bank of New York, approved.*
Illinois—Jacksonville	The Jacksonville National Bank	The Fifth National Bank of Chicago, approved in addition to the Metropolitan National Bank of New York.
Massachusetts—Quincy	The National Granite Bank	The National Exchange Bank of Boston, approved in place of the Suffolk National Bank of Boston.

Kentucky—Richmond	The Madison Nat'l Bank	The Third National Bank of Cincinnati, approved.
Louisiana—New Orleans	The Union National Bank	The National Park Bank of New York, approved.

* The Central National Bank of New York, revoked.

New National Banks.

The following is the only national bank organized since the 13th of April, 1871:

Official No.
1,812—The First National Bank of Cassopolis, Mich. Authorized capital, $50,000; paid in capital, $50,000. Asa Kingsbury, President; C. W. Kingsbury, Cashier. Authorized to commence business April 18, 1871.

Lease of the United Companies of New Jersey.—The united railroads of New Jersey are about to pass under the control of the Pennsylvania Railroad Company, the committees appointed by the directors of the Pennsylvania Company and the New Jersey Companies having, it is understood, fully agreed to the terms, after long-pending negotiations. The united companies comprise the New Jersey Railroad and Transportation Company, the Camden and Amboy Railroad Company, the Philadelphia and Trenton Railroad Company, and the Delaware and Raritan Canal Company. By the terms of the lease, the Pennsylvania Company agrees to take the property and franchises of the united companies, to assume all their obligations, and to pay dividends of ten per cent per annum upon their capital stock. These terms will shortly be submitted to the stockholders of the New Jersey Companies for approval. The lines leased to the united companies, extending over nearly every county in the southern part of the State, will also be under the control of the Pennsylvania Company.—*Evening Post.*

New York City Debt.—The following is a statement of the principal and interest of bonds and stocks:—

CITY.	
Principal, including temporary loans and trust accounts	$60,467,364 51
Interest on the same	1,497,296 41
COUNTY.	
Principal	$21,591,350 00
Interest on the same	677,888 22

Of the above principal the Commissioners of the Sinking Fund hold $17,784,063 01, and the interest on this amounts to $371,301 05.

[From our own correspondent.]

LONDON, Saturday, April 15.

The feature of the week is the reduction in the bank rate of discount to 2½ per cent. Not many weeks since it was anticipated that, as the Franco-German war had been brought to a close, an upward movement in the rate of interest had been inaugurated The close of the war did, in fact, affect materially our position, and produced a considerable increase in the export demand for gold; but when the outbreak at Paris took place all confidence in the early restoration of credit in France was lost, and the export inquiry for gold immediately ceased. Since the rise of the Commune to power in Paris, the accumulation of gold in the London market has been very great, and there is now no expectation that France will become a drain upon our resources, for, in consequence of the grave position of affairs in that country, and of the uncertainty with regard to the future, there can be but little hope that English capitalists will venture upon investments or engage in speculations connected with it. It seems, indeed, that we have entered upon a period of very low rates of interest, the duration of which may be very considerable. The news from Paris and Versailles appears to indicate that there is no great prospect of a speedy termination to the dual government, notwithstanding the assurances of M. Thiers that—"the most perfect order reigns in France, Paris alone excepted;" "that the government is pursuing its plan, and will only act when it shall consider that the right time has arrived;" and "that our army, tranquil and confident, awaits the decisive moment with assurance, and if the government still delays to employ it, the object is to render the victory less sanguinary and more certain." But even with the triumph of the Government of Versailles over the Commune of Paris, questions of serious import are likely to arise and to be discussed. Only the other day the National Assembly voted in favor of the free elections of Mayors, which is one of the concessions demanded by the rebels in Paris. M. Thiers, on the result of the voting being announced, threatened to resign his functions unless the vote was reversed, and the discussion which ensued resulted in a compromise, whereby the nomination of Mayors by the government should be confined to towns having 20,000 inhabitants and upwards. France has evidently a great period of trial to pass through; but what is the Government to do, when all credit is lost and the means of raising money is greatly reduced? The payment of the first instalment of the war indemnity has been postponed until to-morrow, and it is difficult to see how M. Thiers is better able to provide the £20,000,000 now than he was on the 1st of April. Meanwhile the Prussian commander holding the St. Denis quarter of Paris until that sum has been paid, has removed his headquarters from Rouen to St. Denis, and has strengthened his position to an important extent. It may be readily assumed, therefore, that great interest and anxiety are attached to the news coming from the French capital and from Versailles.

This week's changes in the bank returns are chiefly due to the payment of the dividends. The bank is in a very strong position, the supply of bullion being £2,360,000, and the return of notes and coin £1,700,000, more than at the corresponding period last year. There is, however, an increase of £2,800,000 in the amount of "other securities," from which it may be inferred that the state of our trade is by no means so bad as some would induce us to believe. The securities held by the bank at the present time are considerably larger than at the corresponding date in the four previous years. It may be contended, therefore, that our trade has improved, but that the continental troubles have produced such an accumulation of capital in the London market that even a good and healthy commercial business fails to check the downward movement in the rates.

The following statement shows the present position of the Bank of England, the Bank rate of discount, the price of Consols, the average quotation for English wheat, the price of Middling Upland Cotton, and of No. 40 Mule Yarn, fair, second quality compared with the five previous years:

	1867. £	1868. £	1869. £	1870. £	1871. £
Circulation, including bank post bills	23,906,947	24,948,595	24,269,360	24,177,488	24,799,503
Public deposits	5,898,286	4 (80,116	4,346,229	7,292,714	5 040,918
Other deposits	16,800,517	20,157 426	18,1 1,544	16,041,710	21,351,917
Government securities	12,576,158	13,277,596	15,020,798	12,8 7,512	12,985,697
Other securities	18,523,873	17,798,321	17,369,894	19,289,796	21,630,855
Reserve of notes and coin	10,940,514	11,247,185	8,180,787	11,315,108	13,023,406
Coin and bullion	16,397,514	20,711,280	16,958,722	20,066,448	22,224,041
Bank rate	3 p. c.	2 p. c.	4 p. c.	3 p. c.	2½ p. c.
Consols	91⅞	93¾	93	94¼	93¾
Price of wheat	60s. 9d.	73s. 9d.	47s. 0d.	42s. 8d	56s. 7d.
Mid. Upland cotton	11⅝d.	12¼d.	12¼d.	11¼d.	7¾d.
No 40 mule yarn	1s. 5d.	1s. 4d.	1s. 3¼d.	1s. 3¼d.	1s. ¾d.

The quotations for accommodation at Bank and open market, compared with those of last year are as follows:

	1870. Per cent.	1871. Per cent.		1870. Per cent.	1871. Per cent.
Bank minimum	3 @...	2½@ ..			
Open-market rates:			4 months' ba'k bills	2⅝@3	2¾@2⅝
30 and 60 days' bills	2¾@3	2¼@2¾	6 months' ba'k bills	3¼@3¼	2¾@3
3 months bills	3 @....	2¼@2⅝	4 and 6 trade bills	3¼@4	3 @3¼

The rates of interest allowed by the joint stock banks and discount houses for deposits are as under:

	1870.	1871.
Joint stock banks	2	1½
Discount houses at call	2	1½
Discount houses with 7 days' notice	2¼	1½
Discount houses with 14 days' notice	2¼	1¾

The following are the quotations at the leading Continental cities:

	B'k rate 1870.	B'k rate 1871.	Op. m'kt 1870.	Op. m'kt 1871.		B'k rate 1870.	B'k rate 1871.	Op. m'kt 1870.	Op. m'kt 1871.
At Paris	2½	6 nom.	2	—	Brussels	2½	4	2¾	3¼
Vienna	5	6	5	5	Madrid	5	5	5	5
Berlin	4	4	3½	3¼	Hamburg	—	—	2½	3½
Frankfort	4	3½	2¾	2½@3	St. Petersburg	5	8	4¼	7
Amst'd'm	3½	3½	3½	3					
Turin	5	6	5	6					

There has been very little alteration in the rates of foreign exchange. The rate for bills on Paris is quite nominal, and for three months paper on the French provincial cities it is 25.75@ 25.85. Italian bills have been rather more offered; but for Hamburg and and Antwerp there has been a good demand.

Gold continues to flow into the Bank, there being no export inquiry. Mexican dollars, however, are in demand for shipment to the East, and are rather dearer. Annexed are the prices of bullion:

GOLD

The report of the directors of the Grand Trunk Railway Company of Canada states that after the payment of the interest on the first and second equipment mortgage bonds, a balance out of the half year's revenue of only £1,118 remains. This position of affairs is attributed to the circumstance that, owing to a ruinous competition, the Company has been compelled to accept low rates for the conveyance of merchandise, &c. Not long since a speculation was commenced in Grand Trunk securities, under the impression that the interest on the first preference stock would be paid. The advance established has been very considerable, but the publication of the report has caused as yet a very trifling fall to take place.

Business has been very quiet this week owing to the holidays, but the tone is healthy, and a steady improvement is looked forward to, The following relates to the trade of Manchester:

After the suspension from active operations for a few days at the end of last week and beginning of the present, business was resumed on Tuesday, and the market opened quietly but steadily at last week's prices. Since Tuesday a moderate business has been going on. The market has been quite without animation; nevertheless a fair business has been done, and in almost all departments prices are steadily maintained. Occasionally a little irregularity is apparent, according to the position of producers. In some instances spinners have been willing to make a slight concession in price, and have taken ⅛d. per lb. less than they were willing to agree to on Monday last. This, however, has only occurred in exceptional cases, and other spinners who have large

Digitized by Google

orders on hand, and have found a demand for their goods, have actually insisted upon getting an advance upon the prices at which they had previously sold. Some of the large spinnings suitable for the China markets are very well sold in advance, and are scarce for early delivery. The German buyers have done a moderate business during the week, but have made fewer inquiries to-day, and have seemingly satisfied their immediate wants.

In the beginning of the week the receipts of cotton in Liverpool were very large, and had a perceptible effect upon the market. Since Tuesday, however, they have only been small. The aggregate for the week amounts to 196,000 bales, and, as the trade have only taken 38,000 bales, the stock in Liverpool has materially increased, and now amounts to 812,000 bales, which is the largest total that has been reached for a long time. As it is well known that there is still a very large quantity at sea which favorable winds may bring in any day, spinners have no anxiety about the supply of cotton for the future. Good-stapled cotton, however, remains scarce, and, owing to the abundance of money, cotton is easily held. This prevents a collapse in prices which under other circumstances might have occurred. In spite, therefore, of the large stock of cotton, and good prospects for the future, confidence in something like present prices is pretty general, and buyers give out any orders for yarn and cloth which come to hand without hesitation. A very trifling giving way on the part of producers always commands a good business.

Annexed is a statement showing the imports and exports of cotton into and from the United Kingdom, from September 1 to April 13, compared with the corresponding period in 1869–70.

	1870–1.		1869–70.	
	Imports.	Exports.	Imports.	Exports.
American.....bales	1,560,771	230,724	866,414	65,607
Brazilian	256,205	32,720	291,757	36,775
East Indian	602,214	250,112	264,113	354,634
Egyptian	191,771	7,353	185,748	2,635
Miscellaneous	172,605	5,404	75,307	9,911
Total	2,883,566	627,333	2,235,339	469,542

The second series of public sales of colonial wool for the current year were commenced on Thursday. The arrivals are large, viz.: 196,429 bales, comprising 17,481 bales from Sydney, 93,065 bales from Port Philip, 1,664 from Van Dieman's Land, 35,459 from Adelaide, 952 from Swan River, 15,991 from New Zealand, and 31,810 bales from the Cape of Good Hope. There has been a good attendance of home and foreign buyers, and the demand has been active. Greasy Australian wool is ½d. and Cape 1d. per lb. dearer than in February.

The rainy season has now commenced, and this week vegetation has made considerable progress. Taken as a whole the agricultural prospect is favorable, and there is every indication of an abundant yield of fruit. A large crop of grass, however, is very necessary, and the next few weeks will determine whether our wants in this respect are to be satisfied. The trade for wheat has been firm during the week, and, in several instances, an advance of 1s. per quarter has taken place in prices.

The following statement shows the imports and exports of breadstuffs, &c., into and from the United Kingdom, during last week and since the commencement of the season, compared with the corresponding periods in 1869–70:

FOR THE WEEK ENDING APRIL 8.

	1870–71.		1869–70.	
	Imports.	Exports.	Imports.	Exports
Wheat.....cwt.	653,158	113,926	390,681	13,539

COMMERCIAL AND MISCELLANEOUS NEWS.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show an increase in both dry goods and general merchandise. The total imports amount to $7,359,839 this week, against $5,813,857 last week, and $8,543,409 the previous week. The exports are $5,168,728 this week, against $3,810,849 last week, and $3,867,399 the previous week. The exports of cotton the past week were 23,246 bales, against 21,987 bales last week. The following are the imports at New York for week ending (for dry goods) April 21, and for the week ending (for general merchandise) April 22.

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

	1868.	1869.	1870.	1871.
Dry goods	$1,137,196	$1,505,843	$2,139,366	$2,605,633
General merchandise	4,419,368	4,379,387	5,010,764	4,754,207
Total for the week	$5,556,564	$5,885,230	$7,150,130	$7,359,839
Previously reported	70,511,118	92,908,344	87,073,837	111,486,681
Since Jan. 1	$76,067,682	$98,793,574	$94,223,967	$118,846,520

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports, for the week ending April 25:

EXPORTS FROM NEW YORK FOR THE WEEK.

	1868.	1869.	1870.	1871.
For the week	$4,170,573	$4,471,695	$3,30 ,547	$5,168,728
Previously reported	54,319,432	48,289,813	51,014,878	73,159,180
Since Jan. 1	$58,459,905	$52,761,008	$54,333,425	$78,327,908

The following will show the exports of specie from the port of New York for the week ending April 22, 1871:

April 18—Brig Jenny, Porto Caballo—		April 20—Str. Parthia, Liverpool—	
American gold	$768	American gold	200,000
April 18—Str. City of Merida, Havana—		Silver bars	116,472

BANKING AND FINANCIAL.

BANKING HOUSE OF HENRY CLEWS & Co., 32 WALL ST., N. Y.

Our business is the same as an incorporated bank.

Deposit accounts can be opened with us in either Currency or Coin, subject to check without notice. Five per cent. interest will be allowed on all daily balances. Checks upon us pass through the clearing house as if drawn upon any city bank.

We issue Circular Letters of Credit for travelers, available in all parts of the world; also Commercial Credits. We make telegraphic transfers of money to any desired point, and transac every description of foreign banking business.

We draw Bills of Exchange in sums from £1 upward on.

The Imperial Bank, and Messrs. Clews, Habicht & Co., London.

The Provincial Bank of Ireland, The National Bank of Scotland, and all their branches.

We issue Certificates of Deposit payable on demand or at fixed date, bearing interest, and available at all money centres.

Orders executed for Government and other investment securities; also Gold and Exchange.

Advances made on approved collaterals and against Merchandise consigned to our care.

We make collections of Notes, Drafts, Coupons and Dividends with promptness on all points, and are fully prepared to offer banking facilities upon either currency or gold basis.

HARVEY FISK. A. S. HATCH.

FISK & HATCH,
BANKERS AND DEALERS IN GOVERNMENT SECURITIES,
No. 5 NASSAU STREET, NEW YORK, April 22, 1871.

The recent advance in the SIX PER CENT GOLD BONDS OF THE CENTRAL PACIFIC RAILROAD CO. to a premium above par, affords an illustration of the popular demand both in this country and Europe for reliable six per cent securities having a long and fixed time to run, and paying a fair rate of interest on their cost; and it further shows that the first mortgage bonds of honorably managed railroads, when known and appreciated, will command public confidence, and must to a large extent take the place of the Government Five-Twenties (as the latter are purchased or called in by the Government), and thus command higher prices than heretofore.

THE CHESAPEAKE AND OHIO RAILROAD, under substantially the same Financial and Executive management as that which has rendered the Central Pacific so great a success, is being rapidly extended to the Ohio River, in response to the demands of commerce for enlarged transportation facilities between the Great West and New York and other important points on the Atlantic seaboard.

The present successful operation of the 227 miles of completed road, the value of the property upon which they are secured, the certainty of a very large and remunerative traffic for the road, and the very high character of the Company and of its Officers and Directors, commend the SIX PER CENT GOLD BONDS OF THE CHESAPEAKE AND OHIO RAILROAD CO. to public confidence as a superior, safe and reliable security.

Price 90 and accrued interest. Interest payable May 1 and November 1. Bonds of $1,000, $500 and $100 each.

We personally recommend them to our friends and customers desiring to make new investments, or to fund their Five-Twenties.

A difference of about 20 PER CENT may now be realized with entire safety by exchanging Five-Twenties for these Bonds.

FISK & HATCH.

NEW LOAN OF THE UNITED STATES.

The subscriptions to the New Five Per Cent. Stock of the United States now amount to about $60,000,000. They are confidently expected to reach $200,000,000 by the time the New Bonds are ready for delivery in May. The proposals of the Secretary of the Treasury will then be changed to the following programme:

First. Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after ten years from the date of their issue, and bearing interest payable quarterly in coin, at the rate of five per cent. per annum.

Second. Bonds to the amount of three hundred millions of dollars, payable in coin, at the pleasure of the United States, after fifteen years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four and a half per cent. per annum.

Third. Bonds to the amount of seven hundred millions of dollars, payable in coin, at the pleasure of the United States, after thirty years from the date of their issue, and bearing interest, payable quarterly in coin, at the rate of four per cent. per annum.

Subscriptions to the loan will have preference, after the above-mentioned two hundred millions are taken up, in the following order, namely:

First. Subscriptions for equal amounts of each class of bonds.

Second. Subscriptions for equal amounts of bonds bearing interest at the rate of four and a half per cent., and of bonds bearing interest at the rate of five per cent.

Third. Subscriptions for any five per cent. bonds that may not be subscribed for in the preceding classes.

Subscriptions to the remainder of the $200,000,000 of five per cents., which are unconditional, are now going on, and the bonds will soon be issued to the subscribers, who can receive a scrip certificate in advance, if they desire to pay their gold or exchange United States 5-20s at once, in the registered or coupon form. Registered bonds will be issued of the denominations of $50, $100, $500, $1,000, $5,000 and $10,000; and coupon bonds of each denomination except the last two. The interest will be payable in the United States at the office of the Treasurer, any Assistant Treasurer, or designated depositary of the Government, quarterly, on the first days of February, May, August an November, in each year.

The bonds of the several classes aforesaid, and the interest thereon, are exempt from the payment of all taxes or dues of the United States, as well as from taxation in any form by or under State, municipal, or local authority.

After maturity, the bonds last issued will be first redeemed, by classes and numbers, as may be designated by the Secretary of the Treasury.

The reduction of the public debt since the close of the war of the rebellion, and the relief, at the same time, to the annual burden of interest, are as follows:

Principal of debt, 1865	$2,755,995,275
Paid under Johnson	265,595,871
Principal March 4, 1869	$2,491,399,904
Paid under Grant	223,083 673
Present public debt	$2,268,316,231
Interest charge, 1865	$151,832,051
Reduced in four years by payment and funding 7-30s	25,442,501
Interest charge 1869	$126,389,550
Reduced in two years by payment	12,052,998
Present interest charge	$114,336,552

The proposed further reduction of the annual interest charge upon the public debt by refunding is as follows:

By exchange of $500,000,000 U. S. 6 per cents for new 5 per cents of 1881	$5,000,000
By exchange of $300,000,000 U. S. 6 per cents for 4½ per cents of 1886	4,500,000
By exchange of $700,000,000 U. S. 6 per cents for 4 per cents of 1901.	14,000,000
Total saving per annum by refunding	$23,500,000

The whole proceeds of the new loans will be applied to the payment or redemption and cancellation of the 5-20 years six per cent. bonds, and in addition to these proceeds the 5-20s are now being reduced by purchase at the rate of $10,000,000 per month.

C. C. NORVELL,

FRIDAY EVENING, April 28, 1871.

The Money Market.—Money has been easy at 4@6 per cent, with a large supply offering during the past few days, and a consequent tendency towards the lower quotation, and at the close 4 per cent may be considered the regular rate on Government collateral, and 5@6 the most ordinary rate on miscellaneous securities. There have been no special influences bearing upon the market, and the tendency toward ease is chiefly due to the several causes which we have previously noticed, among which the most important are—the general opinion that the Secretary of the Treasury is committed to the policy of keeping money easy; the return flow of currency from the country to our city banks, and the feeling which now very generally prevails that no successful attempt can be made under existing circumstances, to produce a stringent market by artificial measures. With these combined influences on the side of continued ease, the expectation is quite general that there will be an abundant supply of funds offering on call for some weeks to come.

The last bank statement reflected the currency movement above referred to, in the deposit and legal tender lines, the changes being as follows: Loans, decrease, $372,770; Specie, decrease, $1,742,076; Circulation, decrease, $57,723; Deposits, increase, $2,454,958; Legal Tenders, increase, $4,002,645. The result of these figures showed the banks to be $1,661,260 stronger in their excess of reserves, the whole excess over the 25 per cent legal requirement being $8,340,366.

The following statement shows the present condition of the associated banks, compared with the same date in the last two years:

	April, 22, 1871.	April 23, 1870.	April 24, 1869.

For Commercial Paper the demand has been good, and brokers report that much more of first-class paper could be negotiated than is offered for sale; from the dry goods trade especially, there seems to be very little demand for money in this way, and certainly much less than usual at this period of the year. Under the good demand and small offerings quotations are lower, and very choice names have been negotiated at 6 per cent.

United States Bonds.—Government securities have been rather dull during most of the week, with prices generally steady, closing to-night at nearly the same quotations given in our last report. Prices in London have been firm, and 5-20s of 1867 have sold up to 92¼, which is above par in gold. At the Treasury purchase on Wednesday only $2,000,000 were taken, although it had been anticipated that a larger amount of bids might be accepted in consequence of the sale of $4,000,000 gold the previous week. The total offered was $8,233,500, $1,000,000 being accepted from Messrs. Fisk & Hatch at 110.78, and the balance from numerous other bidders between 110.68 and 110.79. At the same time gold was selling at 110.75, so that the Government paid on some of the bonds about 1-32 of 1 per cent more than par in gold. This is the first time that 5-20s have been sold up to this point, and the fact was regarded on the street with not a little interest, and with much satisfaction by those who are chiefly interested in United States securities.

It was rumored that the Secretary of the Treasury did not accept more bonds for the reason that they were offered above par in gold, but little reliance can be placed upon the report, as it is difficult to conceive of anything which would just now more favorably affect Mr. Boutwell's funding operations, than to have 5-20s sell considerably above par. Little progress has been made during the week in subscriptions to the new loan, the total to date being $61,167,400. After May 1 there is every reason to think that some material changes will be made in the business arrangements for negotiating the bonds. To-day the market was a little more active, and prices firmer than yesterday.

The following were the highest and lowest prices of leading government securities at the Board on each day of the past week:

	Saturday, April 22.	Monday, April 24.	Tuesday, April 25.	Wednesd'y April 26.	Thursday, April 27.	Friday April 28.

State and Railroad Bonds.—Southern State bonds have been without special features of interest, and have met with a fair demand at prices generally steady. The principal activity has been in the usual favorites—Tennessees, Virginias and North and South Carolinas. The Pacific Railroad bonds closed as follows:—Central Pacifics, 100½, under a steady demand, particularly from the German bankers; Union Pacific first mortgage bonds, 89@89½; Land Grants, 81½@82; Incomes, 82@82½.

The following are the highest and lowest prices of the most active State Bonds at the Board on each day of the week:

Railroad and Miscellaneous Stocks.—The stock market has been irregular and excited, and after a decline of more or less importance on nearly the whole list, was again rallied, and closed at prices generally a little below those quoted in our last report. On Saturday 22d, and early on Monday, prices reached the highest point, but under the influence of large sales, a break occurred, and was further assisted the next day by a large decline in Northwest Common, which sold down then to 83¼. Subsequently there was new strength developed on the "bull" side, with a recovery in prices, which was again followed by a marked decline and almost panicky tone on Thursday, but another material improvement to-day.

It will thus be seen that the market has been very irregular, seeming to be alternately on the point of a rapid decline, or an equally sudden advance. The fluctuations of the week on some leading stocks have been as follows:

	Highest.	Lowest.		Highest.	Lowest.
N. Y. Central & Hud. Riv.	103¾	98¾	Northwest preferred	100¼	95¾
" cert	97¾	93¾	Reading	111¾	109
Lake Shore	112¾	106¾	Hannibal & St. Joseph	106	95½
Rock Island	114¾	110¾	" pref.	107¾	102
Wabash	66	63	Union Pacific	85¼	81¾
Ohio & Mississippi	55¾	49¼	Western Union Telegraph	61¾	57½
Northwest common	92¾	80¼	Pacific Mail	49¾	45¾

The principal point of discussion in regard to these irregularities in the market has been as to their cause, it being doubtful whether the break which occurred was the beginning of an important downward movement produced by the "unloading" of cliques, or whether it was a determined attempt to shake out the stocks of weak holders, and at the same time create a short interest in the market, as a basis upon which to start a new upward movement that should carry prices to higher figures than have yet been reached. Since the rallying of the market and the stronger tone evinced to-day under large purchases by the "bull" cliques, the more general opinion at the close is on the side of another upward movement.

The decline of Northwest Common to 80¼ is not accounted for, except upon the ground of speculative manipulation, as it is supposed the June dividend will certainly be paid.

The proposed change in the presidency of the Ohio & Mississippi Railroad has taken place, Mr. Daniel Torrance having been elected president in place of Mr. William D. Griswold, which is supposed to indicate an interest of the Vanderbilt party.

The following were the highest and lowest prices of the active list of railroad and miscellaneous stocks on each day of the last week:

The Gold Market.—The Treasury gave notice on Saturday last that the payment of May interest, without rebate, would commence on Monday, and the prospect of a supply from that source, with the possibility of further large sales this week by government had a tendency to keep down the premium to 110¼@110⅜ during the first few days. On Thursday, when it was ascertained that the bids for Treasury gold amounted to $13,861,000, and that only $2,000,000 had been sold, the market received strength and advanced about ¼ per cent. Aside from the official sales, the chief source of strength has been found in the large present and prospective demand for export; the exports of specie last week were $3,332,799, and the exports this week to date amount to $1,840,000, with engagements for to-morrow, reported at upwards of $1,500,000, which would make the total for two weeks more than $6,000,000. Most of the gold shipped is put up at the Treasury, and a scarcity in double eagles is reported, so that the gold notes presented are paid in small denominations, which are not acceptable to shippers; if the export demand continues, this scarcity of coin suitable for shipment may lend an important support to the foreign exchange market.

Under these circumstances, together with a large demand for customs, the prevailing tone is on the side of higher prices, if the market is left to take its natural course. There is, however, a considerable short interest, as indicated by the rates for gold loans, which have been as high as 1-64 per day for borrowing and "flat" to 3 per cent for carrying. To-day, rates were 1 per cent for carrying and flat, 2, 3, and 1-64 per day for borrowing.

The customs receipts of the week have been $2,951,000. Payments on account of May interest amount to $4,000,000.

The following table will show the course of the gold premium each day of the week past:

	Quotations. Opening.	Lowest.	Highest.	Closing.	Total Clearings.	Balances. Gold.	Currency.
Saturday, Apr. 22	111	110¾	111	111	$56,997,000	$1,846,374	$3,159,566

Foreign Exchange.—During the early part of the week there was a slightly easier feeling, and although rates were generally quoted as previously at 109½@110, bills could be obtained more frequently at the lower price. To-day the market was firmer and some leading drawers advanced their rate to 110½ for 60 days sterling, and 110¾ for short sight.

There have been very few outside bills, and we have heard of the best class of these drawn by a Southern bank selling up to 109½. Some irregularity in the cotton market, and an advance in several grades has had an unsettling effect, and prevented in some cases the execution of orders for shipping, and decreased to that extent the supply of cotton bills.

As a natural result of the high rates of exchange, the volume of business transacted has been limited and the specie exports have been large, amounting up to date this week to $1,841,000, with the prospect of an export of $1,500,000 more to-morrow, according to most general reports.

The very large imports of merchandise since the first of January, and the relatively small exports of United States securi-

Digitized by Google

ties this year, are unquestionably the two most important influences which have affected the exchange market, and led to the present high prices and consequent specie shipments. The trade of the United States, as compiled by the Bureau of Statistics at Washington, is given as follows for the seven months ended January 31, 1871 and 1870:

Articles.	1871. Imports.	1871. Domestic Exports (Specie Values.)	1870.	1870. Domestic Exports (Specie Values.)
Merchandise	$267,968,328	$237,278,434	$237,022,780	$214,396,636
Specie and bullion	11,927,380	58,565,358	58,565,358	33,311,650

The trade of the city of New York for the three months ending with March 31, was as follows:

	1871.	1870.	1869.
Imports of merchandise and specie	$102,979,450	$79,979,006	$88,163,099
Exports of merchandise and specie	73,458,107	47,175,656	45,408,155
Exports of specie alone	18,741,187	6,399,249	8,886,451

The imports in the month of March alone were $88,696,064, the largest of any single month on record. Exports of cotton for the week from all ports amount to 81,222 bales against 35,844 bales in the same week of 1870.

Quotations are as follows:

The Railway Monitor.

☞ EXPLANATION OF THE STOCK AND BOND TABLES.

1. Prices of the Active Stocks and Bonds are given in the "Bankers' Gazette" *ante*; quotations of other securities will be found on the preceding page.

2. Bank and Insurance Stocks, Mining, Petroleum, City Railroad and Gas Stocks, and Southern Securities of those kinds which are least active, are all quoted either regularly or occasionally at the end of "Bankers' Gazette," on a previous page.

3. The Table of Railroad, Canal and Other Stocks, on the next page, comprises all Companies of which the stock is sold in any of the principal cities (except merely local corporations). The figures just after the name of the company indicate the No. of the CHRONICLE in which a report of the Company was last published. A star (*) indicates *leased roads*; in the dividend column *x=extra; ss=stock or scrip.*

4. The Tables of Railroad, Canal and Other Bonds occupy in all, four pages, two of which will be published in each number. In these pages the bonds of Companies which have been consolidated are frequently given under the name of Consolidated Corporation. The date given in brackets immediately after the name of each Company, indicates the time at which the statement of its finances was made. In the "Interest Column" the abbreviations are as follows: J. & J.=January and July; F. & A.=February and August; M. & S.=March and September; A. & O. April and October; M. & N.=May and November; J. & D.=June and December Q.—J.=Quarterly, beginning with January; Q.—F.=Quarterly, beginning with February. Q.—M.=Quarterly, beginning with March.

5. The Table of State Securities will be published monthly, on the last Saturday of the month.

6. The Table of City Bonds will be published on the third Saturday of each month. The abbreviations used in this table are the same as those in the tables of railroad bonds mentioned above. The Sinking Fund or assets held by each city are given on the same line with the name

---

Northeastern Railroad Company (of S. C.)—The annual report for the year ending February 28, 1871, has the following:

The gross earnings have been	$321,551 59
The operating and extraordinary expenses	230,747 31
Balance	$90,804 28

The appended table shows the details of the year's business operations and classified statements of the cost of management:

	1870–71.	1869–70.
Total number of passengers carried	66,049	44,735
Total number of local passengers carried	50,609	32,237
Total number of through passengers carried	15,440	12,498
Receipts from through passengers	$58,294 29	$45,575 25
Receipts from local passengers	47,786 19	43,092 06
Receipts from freights carried into interior	90,035 73	43,082 06
Receipts from freight brought from interior	110,436 49	81,544 02
Receipts from local freights up and down	118,762 99	93,292 44
Receipts from through freights up and down	81,709 83	79,173 39
Total number bales cotton hauled	34,539	22,850
Total number bales cotton from local stations	9,987	7,227
Total number bales cotton from other roads	24,552	15,623
Total number barrels naval stores	65,946	50,709
Total number feet lumber	3,387 M	3,896 M
Number of miles traveled by trains	250,404	197,707
Average expenses per mile run	92 cts.	81 cts.
Average receipts per mile run	1 28	1 42
Receipts per mile of road	$3,152	$2,746
Expenses per mile of road	2,362	1,564

By an examination of the above figures you will discover the interesting fact that the increased earnings of the past year have been derived chiefly from our local business. Thus, out of an addition of 21,314 to the number of passengers carried, 18,372 were moved between way stations, and in an increase of $28,006 39 to the freight receipts, $25,469 95—about 91 per cent—were from local sources.

A comparison of these results with those of the previous year will show as follows:

	In 1869–70.	In 1870–71.	Increase.
Receipts from freight	$172,465 83	$200,472 22	$28,006 39
Receipts from passengers	87,667 31	101,710 48	14,043 17
			Decrease.
Receipts from mail & other sources	19,964 49	19,368 89	595 61
	$280,097 63	$321,551 59	
Operating and other expenses	159,560 23	230,747 31	
	$120,537 40	$90,804 28	

"Reviewing the above, you will observe a general increase in our receipts of nearly 15 per cent over those of the previous year.

Your attention has been so frequently directed to the importance and value of the Central Railroad, as a feeder to this, that further remark upon these features is unnecessary. In August last year, your Board of Directors deemed it proper to subscribe to the capital stock of that company thirty-six thousand dollars ($36,000), (in addition to the fifteen thousand dollars previously subscribed) in order to secure its charter, which otherwise might have lapsed—the said subscription to be payable in the proportion of one thousand dollars per mile for every continuous mile, as completed from Lane's Turnout, and to be subject to your ratification.'

"Our operating expenses have exceeded those of the previous year—a result which was foreshadowed in our last report, from the necessary additions and other expenditures to be incurred the ensuing year."

"We are pleased at being able to report to you the generally good condition of the road and its structures. Some 350 tons rails, with improved "joints," have been supplied in the renewal of those which had become unserviceable; the bridges and trestles have received due attention, and the roadway throughout has been kept up and improved by the employment of an additional floating force, in aid of the ordinary details for that purpose. Our motive power consists of 13 locomotives, one of which, from its age, light capacity and long disuse, is of little value, while all the others are in serviceable condition."

The following will appear as the indebtedness of the Company:

17,979 shares capital stock, at $50	$898,950 00
1,546 new First Mortgage Bonds of $500 each	773,000 00
63 old First Mortgage Bonds of $500 each, outstanding	31,500 00
322 new Second Mortgage Bonds of $500 each	161,000 00
139 old Second Mortgage Bonds of 500 each, outstanding	69,500 00
2,220 shares Preferred Stock at $50	111,000 00
Certificates of Indebtedness	[illegible]
Outstanding Interest to be funded	[illegible]
Outstanding Interest due in cash	[illegible]
Bills payable	[illegible]
Real Estate Bonds	[illegible]
Profit and Loss	[illegible]
Total	$[illegible]

To meet this indebtedness, we have the road, 108 miles long, with its sidelings, equipments, etc., at a cost of $2,140,130 65

And Assets as shown by the Treasurer 67,505 57—$2,215,636 22

The entire issue of our new First Mortgage Bonds, bearing 8 per cent interest, and payable 1st September, 1899, was 1,640, of $500 each, or $820,000, of which 1,546, or $773,000, have been issued in redemption of the past due bonds and coupons, and interest thereon, leaving on hand 94 bonds, or $47,000, to take up those which were then outstanding. In determining the amount of this issue, no provision was made in it for the interest which had accrued on our outstanding coupons (as no such demand was anticipated), and hence the charge to profit and loss of this liability, amounting to $23,637 50. On the 28th February, 1871, there were unexchanged 63 old bonds, but the number has since been reduced to 40, or $20,000, leaving on hand at this date 71 bonds, or $35,000, applicable to the retirement of those still out, say $40,000, and our Real Estate Bonds, say $28,000. In the liquidation of this interest upon interest, we have been compelled to use a portion of the bonds intended to have been substituted for the latter, which deficiency, when required, must be supplied from other sources.

The entire issue of our new second mortgage bonds, also bearing eight per cent interest and payable 1st September, 1899, was 644, of $500 each, or $322,000, of which 195, or $97,500, have been issued in redemption of the past due bonds, coupons and interest thereon; 88 of them, or $44,000 in exchange for preferred stock; 222 of them, or $111,000, have been deposited with the trustees of the latter, and the balance, 139, or $69,500, are on hand for the redemption of that number which are still outstanding.

The amount of second mortgage bonds originally issued was $300,000, of which $145,000 were sold; the remaining $155,000 were subsequently pledged and deposited with trustees, as a security for a corresponding amount of preferred stock. This preferred stock is then virtually *a substitute* for that amount of second mortgage bonds.

As the bonds of which it is the representative now bear the same rate of interest, there was no valid objection to the reconversion of this stock into bonds when so desired by its holders; and, accordingly, we have always complied with such requests. The preferred stock has the single advantage over the bonds of being registered and transferable on the company's books; but many prefer to forego this, for the convenience of collecting their interest by coupons, and the greater facilities of sale, transfer, etc.

Of the general prospects of the company, we have only to remark that they are in a great degree dependent upon the completion of projected roads and such other improvements in our counections as have been alluded to in the foregoing reports; and not until the field of our operations can be extended by them may we expect the remunerative results which should then be realized.

—The New York *Times*' money article has the following items:

"**Chicago and Northwestern.**—The new link in the Chicago and Northwest road from Winona, Minn. (or La Crosse, Wis.), to the main line at Madison, one hundred and twenty-six miles, for the completion of which a mortgage loan of $3,150,000 has just been raised in Holland, as noticed, is not only important in utilizing the Winona and St. Peter's road, west of the Mississippi, owned by the Northwest, and only at present a feeder to the old La Crosse division of the Milwaukee and St. Paul, but it has relation to the West Wisconsin road now being completed from St. Paul to Tomah, within twenty-eight or thirty miles of the proposed new link of the Northwest, and to be soon extended to this connection either by the West Wisconsin or the Northwest Company. This, to all appearances on the map, will give by far the most direct route from St. Paul to Chicago, as the 126 miles will give the most direct route from Winona and La Crosse to Chicago."

Atlantic and Great Western.—We understand that a new trust for reorganizing the unfortunate Atlantic and Great Western road, comprising Senator Thurman, of Ohio; General McClellan, and Mr. Butler Duncan, of Messrs. Duncan, Sherman & Co., for whose use £400,000 sterling was recently raised in London by the English parties in interest, have concluded a settlement with the Dutch holders of the first mortgages on the road, represented by Mr. Oewel, of Amsterdam, and Mr. Consul Berlarger, of this city, under which settlement the latter come into about $800,000 cash for arrearage of interest on about $3,000,000 bonds. The adjustment of the legal questions embraced in the foreclosure of the mortgage on the Ohio division, which was being rapidly brought to a final issue, is also embraced in the settlement. The proceedings are stayed until the maturity of the bonds, in 1876, conditioned that on any future default of interest, or in default of the prompt payment of the principal at maturity, the mortgagees are to enter into possession and to sell the road without further litigation. An order of foreclosure on the New York division, forty-nine miles, has been entered for account of the first and second bondholders, which, we believe, is intended to facilitate the reorganization of the whole line. It is said that the proposed reorganization will embrace about $65,000,000 of the various bonds, debentures, stock and floating claims on the road, the commissions on which to the new Trustees will be almost as "princely," by comparison, as Mr. Senator Thurman is in the practice, on the floor of Congress, of

Digitized by Google

representing the "land grants" to the Pacific and other Western roads to be. We hope they will prove productive of the same relative good to the material interests of the country.

Bangor Railroad Loans.—BANGOR, Me., April 27.—The vote on the Railroad Loan bills to-day was a full one, and was as follows: Loaning the credit of the city in aid of the Piscataquis Railroad—yeas, 1,348; nays 466. On the Winterport Railroad Loan—yeas, 1,468; nays, 346. Both roads will be rapidly pushed forward. The Winterport Road will connect this city with an open winter port. The Piscataquis Road will be extended from Dover to Moosehead Lake.

Railroads in Iowa.—From a circular recently issued by the Treasurer of Iowa, we learn that there were in operation in that State, at the close of 1870, 2,683 miles of railroad, of which 692 miles were laid within the year. The length of the twenty roads in the State is thus given:

	Miles.		Miles.
Burlington & Missouri	349·60	Sioux City & Pacific	80·00
Cedar Rapids & Missouri River	274·24	Council Bluffs & St. Joseph	54·88
Chicago, Iowa & Nebraska	81·84	Bur., Ced. Rapids & Minnesota	144·00
Dubuque Southwestern	54·76	St. Louis & Cedar Rapids	41·37
Dubuque & Sioux City	142·88	Central Railroad of Iowa	151·00
Chicago, Rock Island & Pacific	369·85	Iowa Falls & Sioux City	183·69
Des Moines Valley	248·49	Chicago & Sioux City	45·84
Keokuk & St. Paul	42·03	Davenport & St. Paul	43·00
Milwaukee & St. Paul	250·00	Sabula, Ackley & Dakota	20·05
Cedar Falls & Minnesota	75·57	Iowa Midland Railway	80·00
Total number of miles completed			2,683·09

Michigan Central and Great Western Railroads.—TORONTO, Canada, April 25.—An agreement has been concluded between the Great Western and Michigan Central Railroad Companies, for a period of twenty-one years, under which the entire through earnings are put into a joint purse and then divided. Both companies also bind themselves not to interchange traffic with any new lines across Canada or Michigan. This virtually consolidates the lines, and makes them one, for through traffic between Chicago and Buffalo and Suspension Bridge. The tunnel to connect the two lines under Detroit River is also to be commenced forthwith.

Ohio and Mississippi Railroad.—CINCINNATI, O., April 26.—At a meeting of the Board of Directors of the Ohio and Mississippi Railroad Company to-day, William D. Griswold resigned the Presidency, and Daniel Torrance, of New York, was elected unanimously to fill the vacancy. Resolutions of regret were adopted at the resignation of Mr. Griswold, and thanking him for his management, restoring the credit of the company, and putting the road in the best condition. Mr. Griswold remains a director, and his salary as President is continued until October next.

Omaha Bridge Bonds.—The Union Pacific Omaha Bridge bonds, eight per cent, in gold, $2,500,000 or £500,000 sterling, are reported as having been placed by Messrs. Junius S. Morgan & Co., of London, at par.

Chesapeake & Ohio Railroad Bonds.—The May coupons of the first mortgage bonds will be paid in gold by Messrs. Fisk & Hatch, No. 5 Nassau street. The demand for first-class railroad bonds is increasing; and Messrs. Fisk & Hatch, the financial agents of the Chesapeake & Ohio Railroad, report an active inquiry for the first mortgage gold bonds of that company, which bear six per cent interest, and are selling at 90 and accrued interest. The company has 227 miles of road in successful operation, and when the line is completed to the Ohio River it will form a through route from the West to the Atlantic, which will compete with the Baltimore and Ohio, the Pennsylvania, the New York Central, and Hudson and Erie. On the Western end 90 miles are graded, and 100 miles will be ready for the iron within ninety days. There are 380,000 ties on hand, which are going down. About 8,000 tons of iron are on the way, and track laying on the western end will be pushed with vigor during the spring and summer months. The road is substantially under the same management as the Central Pacific, the bonds of which are selling above par.

The Commercial Times.

COMMERCIAL EPITOME.

FRIDAY NIGHT, April 28, 1871.

There has been the past week an improvement in legitimate trade, with rather less speculation, due partly to the recent decline in leading staples of domestic produce and partly to such an advance in the season as stimulates business with the interior. The markets seem to be upon a sound, healthy basis, or rapidly approaching that condition, and there is every reason to anticipate a large volume of business during the month of May.

Cotton shows an irregular and partial advance, Middling Uplands closing at 15½c. Flour has declined to $6@$6 25 for shipping extras, and Wheat is lower at $1 45@$1 48 for New Spring, but Corn closes firm at 75@76c for prime mixed.

Groceries have been fairly active, and Sugars show a slight advance. The jobbing trade in them is generally better.

In Provisions the week has shown a good degree of activity in leading hog products, but the close was quiet, owing to efforts of holders to obtain an advance on late low prices Mess Pork closed at $18, after having sold at $17; Prime Mess, $16, after considerable sales for export at $14 50@$15; prime steam Lard, 11⅞c, after having sold at 10¾c. Bacon, 8¼@8½c for Cumberland. Large lines of Pickled Hams sold at 11¼@11½c. In Beef nothing of moment has been done, and prices are unchanged. Butter and Cheese have been drooping and unsettled.

The Tobacco market has been unsettled. In Kentucky Leaf there has been a good demand for export, which has been freely met by sellers, and although prices are no lower, they have favored buyers. The sales of the week have been about 1,100 hhds., of which 800 hhds. for export. Current prices for new crop are:—Lugs, common to good, 5&5½c; good to prime, 5½@6c; Leaf, common to medium, 6@7½c; good to fine, 8@10½c. Seed Leaf Tobacco has been very dull. The business of the previous fortnight seems to have loaded up buyers, and they are not in want of anything at present. The sales have been:—300 cases new crop Ohio and 200 do. do. Connecticut, on private terms; 150 cases old crop wrappers at 35@55c. Spanish Tobacco has also been dull. The sales for the week are only 250 bales Havana, at 85c@$1 05.

In East India Goods the principal feature of the week has been a movement of 2,500 bales Manila Hemp at 10⅜@10⅝c, gold; now held higher. Whiskey has advanced though sales have been slow. Most of the minor articles of trade have been quiet.

Hides have been active and firmer, in expectation that the yellow fever prevailing at Rio Janeiro will reduce the supply of hides from South America. Leather has been weak, and Tallow nearly nominal at 8⅞c for prime.

Metals have been quiet, but on the whole steady. Pig Iron and Tin Plates, with a light stock, are very firm. Oils have been weak for all except Linseed, which remains firm at 90c for full lots and 92@93c for smaller parcels. Crude Sperm quoted at $1 27@$1 28.

Rosin was dull and drooping during the fore part of the week, but at the close a decline in ocean freights caused a better feeling, strained closing at $2 40. Spirits Turpentine, under liberal receipts, has continued to decline, and closes at 48c. Petroleum has varied, but closes firm at 23c for refined on the spot; Crude, 1 7/8 in bulk. Hops quiet at 6@12c for new.

Freights have declined, owing to the reduced supplies of grain available for shipment. The closing rates for grain to Liverpool are 7d by steamer and 6½d by sail. The last charter to Cork, for orders, was at 6s 6d.

Wool has been less active and prices are somewhat nominal

Exports of Leading Articles from New York.

The following table, compiled from Custom House returns, shows the exports of leading articles from the port of New York since January 1, 1871, to all the principal foreign countries, and also the totals for the last week, and since January 1. The last two lines show *total values*, including the value of all other articles besides those mentioned in the table.

ARTICLES.	Great Britain.	France.	Holland & Belg.	Germany.	Other N. Europe.	Spain.	Other S. Europe.	China & Japan.	Australia.	Br. N. A. Colonies.	Cuba.	Hayti.	Other W. Indies.	Mexico.	British Guiana.	Brasil.	Other S. American.	All oth. Ports.	Total this week.	Total since January 1, 1871.	Same time 1870.

Imports of Leading Articles.

The following table, compiled from Custom House returns shows the foreign imports of certain leading articles of commerce at this port for the last week, since January 1, 1871, and for the corresponding period in 1870:

[The quantity is given in packages when not otherwise specified.]

	For the week.	Since Jan. 1, 1871.	Same time 1870.		For the week.	Since Jan. 1, 1871.	Same time 1870.

COTTON.

FRIDAY, P. M., April 28, 1871.

By special telegrams received by us to-night from the Southern ports, we are in possession of the returns showing the receipts, exports, &c., of cotton for the week ending this evening April 28. From the figures thus obtained it appears that the total receipts for the seven days have reached 56,685 bales against 63,042 bales last week, 64,156 bales the previous week, and 67,543 bales three weeks since, making the total receipts since the first of September, 1870, 3,570,759 bales against 2,579,497 bales for the same period of 1869–70, showing an increase since September 1 this year of 991,262 bales. The details of the receipts for this week (as per telegraph) and the corresponding week of 1870 are as follows:

RECEIPTS Rec'd this week at—	1871.	1870.	RECEIPTS Rec'd this week at—	1871.	1870.
New Orleans bales	18,900	22,228	Florida bales.	115	169
Mobile	4,687	4,464	North Carolina	723	478
Charleston	2,585	3,188	Virginia	5,216	2,015
Savannah	7,732	7,591			
Texas	10,203	7,745	Total receipts	56,685	50,564
Tennessee, &c	6,524	2,686	Increase this year	6,121	

The exports for the week ending this evening reach a total of 81,822 bales, of which 55,432 were to Great Britain, 9,898 to France and 16,492 to rest of the Continent, while the stocks as made up this evening, are now 453,718 bales. Below we give the exports and stocks for the week, and also for the corresponding week of last season, as telegraphed to us from the various ports to-night:

Week ending April 28.	Exported to— G. Brit	Contin't	Total this week.	Same w'k 1870.	Stock. 1871.	1870.
New Orleans	27,542	19,256	46,798	23,077	171,019	136,170
Mobile	....	....	....	....	42,982	51,135
Charleston	....	....	....	2,309	18,049	10,885
Savannah	9,708	3,075	12,783	....	44,650	47,278
Texas	2,512	3,100	5,742	....	58,018	30,755
New York	12,861	606	13,467	9,148	90,000	52,000
Other ports	2,679	853	3,032	810	29,000	18,000
Total	55,432	26,890	81,822	35,344	453,718	346,223
Total since Sept. 1	2,017,842	600,259	2,618,991	1,755,978	....	....

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an increase in the exports this week of 46,478 bales, while the stocks to-night are 107,495 bales more than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to April 21, the latest mail dates. We do not include our telegrams to-night, as we cannot insure the accuracy or obtain the detail necessary by telegraph.

PORTS.	RECEIPTS SINCE SEPT. 1. 1870.	1869.	EXPORTED SINCE SEPT. 1 TO— Great Britain	France	Other Foreign	Total.	Northern Ports.	Stock.

The past week the market has been very irregular and unsettled, and during some of the time the speculators have held almost entire control, compelling the shorts to accept their own terms. This was especially so on Tuesday when Middling advanced to 15⅜ against 14¾ last Friday. The state of the market, however, is well described by the statement of the fact that the usual difference between growths was entirely disregarded (all growths being equally available in settlement of contracts), Middling Texas bringing no higher prices than Middling Uplands, and the same was true with regard to Low Middling, while Ordinary has remained all the week at 10¼c., being ¼c. off from last Friday. But these efforts to "squeeze" the shorts resulted in bringing out rather larger offerings, and causing some increase in arrivals at this port, so that on Wednesday the supply was rather in excess of the wants, and the position was not sustained, prices being reduced all around ¼c. except for Ordinary. Thursday the market still continued unsettled, and values were again about ¼c. easier, the high prices drawing out a great many lots on which the owners deemed it advisable to realize. To-day there has been no change; the improvement at Liverpool has had a tendency to increase the shipping inquiry while the demand to supply maturing contracts has been sufficiently active to absorb the offerings. For future delivery there has been great activity, and the same influence operating to advance the quotations for spot cotton has carried up the price for April to 15c. for Low Middling, while for all the later months there has been a decidedly cautious tendency manifested, induced by the losses which the short interest has incurred during the week. Low Middling closed to-night at 14½c. for April; 14½c. for May; 14½c. for June; and 14½c. for August. The total sales of this description for the week are 68,900 bales including 000 free on board. For immediate delivery the total sales foot up this week 19,964 bales including 6,553 for export; 2,519 for consumption 8,440 for speculation; and 2,452 in transit. Of the above 1,225 bales were to arrive. The following are the closing quotations

	Upland and Florida.	Mobile.	New Orleans.	Texas.
Ordinary per lb.	10¼@....	10¼@....	11 @....	11¼@....
Good Ordinary	13¾@....	13¾@....	13¾@....	13¾@....

700	14 13-16	3,200	13¾				
3,800	14¾	800	13 13-16				
400	14 15-16	1,400	13¾				
1,700	15	300	13 15-16				
31,150 total April.		2,100	14				

The following exchanges have been made during the week:

¼c. paid to exchange 500 May for 500 April.
1,200 May for 1,200 August, even terms.
200 May for 200 July, even terms.

WEATHER REPORTS BY TELEGRAPH.—On the whole, our telegrams, perhaps, indicate a little less unsettled state of the weather throughout the South during the past week. And yet there are some districts in which there is continued complaint of excessive rain. This has been especially the case at Memphis and Macon. At the former point it has rained three days this week. Our correspondents state that this continued wet weather is seriously interfering with planting. At Macon it has rained two days, and

Digitized by Google

the remainder of the week has been cloudy, with a favorable change as the week closes. There was a slight frost at this point on Sunday morning, but not sufficient to do any injury, although some of the young cotton is now above ground. Our correspondents at Selma also state that it is raining too much at that point, but as yet no serious injury has been done. The past week they have had two days of rain. At Charleston it has rained one day, at Savannah and Mobile three days, at Nashville two days, while at Augusta, Montgomery and Galveston it has been warm and dry all the week, and at Columbus it has rained one day, but has been clear the balance of the week.

Planting has now been about completed in the principal Atlantic States. Our correspondents at Macon, Charleston, Augusta, Columbus and Memphis said last week in their several telegrams that less cotton had been planted than during the previous spring, but one correspondent at Macon now adds "that not more than 80 per cent of the land planted in cotton last year is given up to it this year, and not exceeding 20 per cent of the amount of fertilizers has been used." Our Selma and Montgomery telegrams to-night also state that there has been less cotton and more corn planted in the neighborhood than during last spring.

The thermometer during the week has averaged at Charleston 70, Macon 67, Memphis 60, Montgomery 70, Mobile 66, Columbus 68, and Galveston 71.

THE DISTRIBUTION OF THE CROP.—We showed last week that the amount of takings by our Northern spinners up to the 13th of April this year had been 650,918 bales against 563,820 bales for the same period of 1869–'70, or an increase this year of about 90,000 bales, while the consumption for the two seasons was not likely to vary materially. Consequently our mills will probably require for use only about 155,000 bales more this year; if the growing crop promises poorly during the Summer, they may also take, say 50,000 bales additional to increase stock. Considering, then, the home consumption fixed at the figure we have stated, we can readily see the manner in which the balance of the season's supply will be distributed:

	Bales.	
Receipts at the ports for the year (estimated)	3,920,000	
Receipts over-land direct for the year (estimated)	170,000	
Taken by the mills South from the plantations and inland towns	95,000	
Total crop for year ending Sept. 1, 1871	4,185,000	
Stock on hand Sept. 1, 1870	59,747	
Total supply	4,244,747	
Consumed by Northern spinners	806,000	
Consumed by Southern spinners	95,000	
Taken by spinners for increased stocks	50,000	
Stocks at ports Sept. 1, 1870, increased to	150,000	—1,101,000
Total supply left for export	3,143,747	
Amount already exported (April 22)	2,536,259	
Balance remaining for export	607,488	

We thus see that if we include the figures for export received by telegraph to-night there will still remain for Europe over 500,000 bales more out of this crop if the receipts equal the above estimate.

GUNNY BAGS, BAGGING, &c.—Cloth and Bags are extremely dull.—There has not been a single sale since our last, and prices are entirely nominal. Previous sales for future delivery keep the domestic manufacturers busy, and prices for this kind are more steady than India. We quote 18½@19c., currency, duty paid, for India, and 19½@20c. for Domestic. Bags are quoted 15@15½c. Manilla Hemp, since our last, has generally ruled quiet, but with the advance maintained; at the close considerable business was done at full prices. We note 1,500 bales on spot here at 10 c., gold, and in Boston 2,000 bales at 10⅛@10¼c., closing firm here at 10½c. for prime. A large proportion of the stock is of low grade. Jute early in the week was fairly active, but closes quiet though steadily. Sales are 850 bales, from store, at 6¼c.; 400 bales, ex "Edith Warren," at 6¼c.; 250 bales do. on private terms, and 1,000 bales rejections, to arrive, at 4¼c., all gold. Jute Butts have ruled quiet most of the time, but the close is again firmer with a fair demand. Sales are 800 bales at 3⅛@4c., currency, cash.

MOVEMENTS OF COTTON AT THE INTERIOR PORTS.—Below we give the movements of cotton at the interior ports:

	—Week ending Apr. 28, 1871.—			—Week ending Apr. 28, 1870.—		
	Receipts.	Shipments	Stock.	Receipts.	Shipments.	Stock.
Augusta	880	2,285	18,917	991	1,757	16,034
Columbus	333	553	5,805	762	1,545	10,317
Macon	198	1,432	5,327	294	2,013	10,061
Montgomery*	620	768	6,104	338	288	6,995
Selma	473	1,063	2,889	277	392	4,742
Memphis	3,817	6,848	13,453	3,814	3,401	18,276
Nashville	1,608	1,456	5,279	933	913	5,679
	7,929	13,905	57,274	7,409	10,309	72,104

* Stock was counted this week at Montgomery, and found to be 6,104 bales.

VISIBLE SUPPLY OF COTTON.—The following table shows the quantity of cotton in sight at this date of each of the two past seasons:

	1871.	1870.
Stock in Liverpool.....bales.	951,000	563,000
Stock in London	78,104	89,695
Stock in Glasgow	350	300
Stock in Havre	82,690	74,450
Stock in Marseilles	2,600	12,500
Stock in Bremen	28,576	18,115
Stock rest of Continent	39,000	30,000
Afloat for Great Britain (American)	267,000	163,000
Afloat for France (American and Brazil)	27,963	76,000
Afloat for Bremen (American)	76,880	28,251
Total Indian Cotton afloat for Europe	236,000	175,000
Stock in United States ports	453,718	346,228
Stock in inland towns	57,274	72,104
Total	2,239,155	1,593,688

These figures indicate an *increase* in the cotton in sight to-night of 645,517 bales compared with the same date of 1870.

Below we give our usual table of exports from New York for the week:

Exports of Cotton (bales) from New York since Sept. 1, 1870.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 78,084 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRONICLE last Friday, except Galveston, and the figures for that port are the exports for two weeks back. With regard to New York, we include the manifests up to last Saturday night:

	Total bales.
NEW YORK—To Liverpool, per steamers Nebraska, 3,694....City of Baltimore, 806....Wyoming, 3,590....Cuba, 1,130....Parthia, 830....City of Brussels, 986....Italy, 2,697....City of New York, 2,168....per ships Aminta, 901....Pontiac, 2,374....W. G. Russell, 3,243	22,340
To London, per steamer Paraguay, 64	64
To Bremen, per ships Carl, 717....Astronom, 125	842
NEW ORLEANS—To Liverpool, per steamer Juan, 2,847....per ships D. W. Chapman, 3,050....Louis Walsh, 4,730....Juno, 3,099....Viola, 3,643....per barks Carrie E. Long, 1,457....Maggie Hammond, 1,705.... Rosa del Turia, 1,532	23 063
To Falmouth, per bark Maria, 1,804	1,804
To Havre, per ship Ella S. Thayer, 3,213	3,213
To Hamburg, per bark Birger, 2,143	2,143
To Amsterdam, per barks Mary, 1,994....Emerald, 1,420	3,414
To Cronstadt, per ship Elpis, 1,503	1,503
To Antwerp, per schooner Mattie W. Norwood, 1,404	1,404
To Barcelona, per barks Gerion, 947....Vilasar, 431....per brig Sofia, 460	1,838
To Vera Cruz, per brig Cinque Sorrelli, 650	650
MOBILE—To Liverpool, per steamer Bolivar, 4,577	4,577
CHARLESTON—To Barcelona, per brig Maria Luisa, 450 Upland	450
SAVANNAH—To Liverpool, per ship Queen of Hearts, 2,473 Upland	2,473
TEXAS—To Liverpool, per barks M. E. Sud, 566....Carolina, 2,059	2,625
NORFOLK—To Liverpool, per brig Romaine, 903	903
BALTIMORE—To Liverpool, per steamer Corinthian, 1,156	1,156
To Rotterdam, per bark Don Justo, 1	1
BOSTON—To Antwerp, per schooner Mayflower, 35	35
PHILADELPHIA—To Liverpool, per bark Nyassa, 117	117
Total	78,084

The particulars of these shipments, arranged in our usual form are as follows:

	Liverpool.	Falmouth.	London.	Havre.	Hamburg.	Bremen.	Amsterdam.	Cronstadt.	Total.
New York	22,340	....	64	....	....	842	....	....	23,246
N. Orleans	23,063	1,804	....	3,213	2,143	....	3,414	1,503	37,551
Mobile	4,577	....	....	....	....	....	....	....	4,577

GOLD, EXCHANGE AND FREIGHTS.—Gold has fluctuated the past week between 110⅝ and 111¼, and the close was 111¼. Foreign Exchange market is steady. The following were the last quotations:—London bankers', long, 109⅞@110; short, 110¼, and Commercial, 109⅝@109¾. Freights closed at 5-16. by steam and ⅛@5-16d. by sail to Liverpool.

BY TELEGRAPH FROM LIVERPOOL.—

LIVERPOOL, April 28, 2 P. M.—The market opened with an upward tendency, with sales of the day estimated at 15,000 bales. The sales of the week have been 81,000 bales, of which 15,000 bales were taken for export and 8,000 bales on speculation. The stock in port is 951,000 bales, of which 562,000 bales are American. The stock of cotton at sea bound to this port is 416,000 bales, of which 267,000 bales are American.

	April 6.	April 14.	April 21.	April 28.
Total sales	71,000	51,000	47,000	81,000
Sales for export	12,000	8,000	7,000	15,000

Total	38,190	7,160	2,040	47,390	1,069,700	991,170	53,500	47,540

	Imports. This week.	To this date 1871.	To this date 1870.	Total. 1870.	Stocks. This day.	Same date 1870.	Dec. 31, 1870.
American	101,798	1,063,697	609,406	1,655,991	479,150	297,290	109,710
Brazilian	4,294	129,785	126,004	390,564	92,900	49,510	28,150
Egyptian	4,820	112,732	68,128	191,737	91,660	45,340	39,760
West Indian	89	1,408	15,737	84,720	36,000	6,890	20,550
East Indian	14,799	160,744	109,364	902,139	113,720	77,970	180,550
Total	125,750	1,497,034	941,276	3,252,282	813,430	477,000	378,720

Of the present stock of cotton in Liverpool nearly 59 per cent is American against 62 per cent last year. Of Indian cotto the proportion is nearly 14 per cent, against 16.50 per cent.

LONDON, April 15.—Business in cotton since the reopening of the market has been to a moderate extent, on rather easier terms. Annexed are the particulars of imports, deliveries and stocks:

	1869. bales.	1870. bales.	1871. bales.
Imports, January 1 to April 18	81,002	86,576	65,843
Deliveries	149,911	119,125	55,562
Stocks, April 18	76,320	39,695	78,104

ALEXANDRIA, March 31.—The shpments since November 1 have been:

	Great Britain. bales.	Continent. bales.	Total. bales.
From Nov. 1, 1870, to March 30, 1871	140,979	40,802	181,781
Same period 1869-70	115,786	35,545	151,331
" 1868-9	117,766	38,706	155,472
" 1867-8	134,296	36,120	170,416

BREADSTUFFS.

FRIDAY P. M., April 28, 1871.

The market has been very depressed during the past week, except some of the coarser stuffs. The receipts of flour show little increase, but there are large quantities on the way, and receivers have shown a disposition to press sales from the wharf, making concessions in prices in order to do so. Each decline brought in buyers for export, but their operations have not been sufficient to check the declining tendency, and the closing quotations are the lowest in several months. The decline has been most marked in the lower grades from Spring Wheat; several lines of these, which had been held by speculators, were forced upon the market by parties controlling them, in order to secure advances. In this way 3,000 bbls good old extra State sold yesterday at $6 in store, being taken for London, but new extras could not be bought under $6 25@6 35. To-day, foreign accounts were dull at 3d decline, and shipping extras closed flat at $6@6 25, with a considerable pressure to sell the medium trade brands.

Wheat has met with a sharp fall. Liverpool quotations have been lower, and shipping orders limited, even at reduced prices. The shipments eastward from the Western markets have been quite free, both by water and rail, and we soon shall have large supplies here, and receivers feel quite uncertain as to how the market will stand up under the load; therefore, although stocks in store are small, they have shown a disposition to close out to the last parcel. Some decline in ocean freights stimulated exports a little, but on the whole the movement of the week has been only moderate. To-day's market opened with a sale of No. 1 Spring at $1 47 in store, and closed with small sales of No. 2 for early arrival at $1 45 afloat, but this grade was offered at $1 40 for all May. Amber Winter sold at $1 51, afloat.

Corn has been without especial variation for sound qualities, but a considerable portion of the receipts have been out of condition, and sold at lower and irregular prices. Yesterday large lines of "soft" Western Mixed sold at 70@72c., afloat, while strictly sound samples were worth 75c. It will be seen that the receipts show a large increase over last year, but in view of the relatively high price of Wheat, Corn Meal is largely substituted for Wheat Flour, and the higher cost of Oats and Hay cause Corn to be more largely used for feeding purposes. Consequently, notwithstanding the increased supply, there is as yet no proportionate surplus to be shipped. The close was firm at 75@76c. for Prime Western Mixed, and 77c. for Yellow.

Rye is dull and drooping. Barley has been pretty well closed out at full prices. Barley Malt in good demand. Canada Peas begin to be offered more freely, but we cannot give reliable quotations. Oats have been fairly active, but were entirely neglected to-day, although offered at lower prices.

The following are the closing quotations:

Flour—			Wheat, Spring, bush	$1 35@1 50
Superfine	₰ bbl. $5 50@5 90		Red Winter	@....
Extra State	6 00@6 25		Amber do	1 50@1 52
Extra Western, common	6 00@6 30		White	1 55@1 85
Extra and double extra Western & St. Louis	6 50@8 50		White California	@....
Southern shipp'g extras	6 75@7 15		Corn, Western Mix'd	73@76
Southern, trade and family brands	7 50@9 00		Yellow, new	77@....
Rye Flour, super & extra	5 00@6 00		White	75@88
Corn Meal, Western and Southern	3 50@4 25		Rye	1 00@1 16
			Oats	64@68
			Barley	90@1 17
			Malt	1 00@1 20
			Peas, Canada	1 10@1 40

The movement in breadstuffs at this market has been as follows:

GROCERIES.

FRIDAY EVENING, April 28, 1871.

The anticipations of an increased movement are slowly commencing to be realized, and though in no case has business been actually brisk for more than a day or two at a time, the presence of buyers in the market is a relief, and holders gain courage. There are many evidences to confirm the belief that the accumulations in the interior have become reduced to a very low aggregate, and are probably in some instances nearly exhausted, and with the moderate cost of transportation now available by the opening of the canals, and the danger of a modified tariff dissipated by the adjournment of Congress, it is reasonable to anticipate a better call for goods from country operators, especially as many will soon be in funds from the sale of large supplies of breadstuffs, &c., now seeking the seaboard. Importers, as a rule, are firm in asking full prices for the stocks on hand. The Quarantine laws are again about to be enforced, but it is to be hoped that the Health Board will adopt measures to relieve our merchants from the needless and vexatious delays of last season.

The entries direct for consumption, and the withdrawals from bond, showing together the total thrown on the market for the week, were as follows:

Tea, black....	4,317 pkgs.	Laguayra ..	1,537 bags.	Sugar, Brazil.	500 bags.
Green.....	11,359 pkgs.	Other.....	3,608 bags.	Manila, &c..	.... bags.
Japan.....	3,540 pkgs.	Sugar, Cuba..	6,617 boxes.	M'las'es, Cuba	3,475 hhds.
Various....	3,137 pkgs.	Cuba.....	7,853 hhds.	Port Rico.	1,665 hhds.
Coffee, Rio....	9,254 bags.	Porto Rico	536 hhds.	Demerara..	16 hhds.
Java.....	7,616 mats.	Other.....	1,412 hhds.	Other.....	546 hhds.
Maracaibo..	1,267 bags.			*Hhds. include bbls. and tcs. reduced	

Imports this week at this port have included 11,985 bags of Rio Coffee, 4,223 do. St. Domingo, 9,817 do. Maracaibo, and 502 do. sundry kinds. The receipts of sugar include 11,327 boxes, 18,931 hhds., and 3,200 bags of Brazil. In Tea the arrivals embrace 788,225 lbs. of Black.

The stocks in New York at date, and imports at the five leading ports since Jan. 1, 1871, are as follows:

	Stocks in New York at date.		Imports at leading ports since January 1.	
	1871.	1870.	1871.	1870.

TEA.

The better feeling noted in this market at the date of our last review, appears to be slowly gaining ground and the trade generally now speak quite hopefully of the position and seem to think Teas have seen their worst for this season. Buyers certainly are not quick or even remarkably free operators, but the call is large enough to keep a considerable amount of stock moving, and present indications point to an increase rather than a falling off of the demand. There is some little difficulty experienced in getting Japans into uniform shape again and these show rather an unsettled tone, but Oolongs are steady, as a rule, while Greens are well sustained throughout, with a slight approach to buoyancy on the prime grades. The auction sale on Wednesday was well attended and the prices realized were close up to expectations, the result proving generally satisfactory. The following is the range of figures: Gunpowder, 66½c@$1 20; Imperial, 87½c@$1 02; Young Hyson, 41@93½c; Hyson, 40@68c; Hyson Twankay, 33@34½c, and uncolored Japan 60@79½c. At private sale the business includes 11,850 pkgs. Green; 16,200 pkgs. Oolong; 800 pkgs. Souchong, and 1,500 pkgs. Japans, part of the above sold previous to our last.

The imports this week are embraced in a single arrival—that of the "Ada," with 788,225 lbs. of black tea from Foochow.

The following taule shows the imports of Tea into the United States (not including San Francisco), from January 1 to date, in 1871 and 1870:

	Black.	Green.	Japan.	Total.
1871.....	10,004,931	11,247,880	4,393,081	25,645,892
1870.....	11,088,553	8,623,852	3,346,227	23,053,631

The indirect importations, including receipts by Pacific Mail steamers via Aspinwall, have been 9,675 pkgs. since January 1, against 20,869 last year. The receipts of Tea overland by railroad have this week amounted to 36 pkgs.

COFFEE.

The market has not as yet become generally active, and dealers continue to express some dissatisfaction with the current position of affairs, yet on the whole there is a slight improvement over last week, and a growing hope of an early setting in of call from consumers. Values as a rule have not greatly varied beyond the natural modifications allowed on any dull market, and the situation is such both as regards cost at place of growth and the amount of stock in first hands here, that it is probable that anything like a steady demand for a few days would impart a somewhat buoyant tone. Brazils early in the week were very dull, and the tone a little soft, with some slight concessions made on the least desirable grades, partly in order to get odd lots out of the way. The reduced cost, however, appeared to attract the attention of buyers, and the demand subsequently improved materially, swelling the business to larger proportions than for some time previous, and imparting a stronger feeling throughout the market. Buyers, however, were not void of caution in their movements, and handled few goods unless re-sales at an early day were pretty certain. The ordinary qualities continue to form a very small proportion of the accumulation, and are relatively higher than the upper grades. Java, though not quick, has sold very well from second hands, and the recent purchases are understood to have already become fairly distributed to consumers. West India grades are still to some extent neglected, and values without much strength, though in the absence of leading sales quotations at the best are nominal. Sales of 11,708 bags Rio and Santos, 200 bags Costa Rica, 150 bags Laguayra, 100 bags Jamaica, 400 bags St. Domingo, and 4,202 bags St. Domingo shipped direct from first hands to Hamburg. Sales at Baltimore of 3,000 bags Rio, and at Hampton Roads to go to Baltimore 4,200 bags Rio.

Imports this week have included 11,985 bags of Rio, per "S. America" and "Star of Wales;" 4,223 do. St. Domingo, per "City of Port au Prince" and "Oliver Cutts;" 9,817 do. Maracaibo, per "Ilva," "Marie and Sophie" and "Annie Ingraham," and 502 do. of sundry kinds, per "J. W. Maitland."

The stock of Rio April 27, and the imports since Jan. 1, 1871, are as follows:

In Bags.	New York.	Philadelphia.	Baltimore.	New Orleans.	Savan. & Mobile.	Galveston.	Total.

* Includes mats, &c., reduced to bags.

SUGAR.

There has been a very fair demand for Raws during the period under review, but the business not quite so large as last week, and the market at times even showing an approach to dullness. Grocers have been stocking up to some extent, in anticipation of better call from the interior with the opening of the canals, but the principal buyers were refiners, and they, with purchases commencing to accumulate somewhat, and the arrivals slightly overrunning the sales, have displayed greater caution, with a few complaining that ruling prices were too high to attract consumers. On the other hand, however, we find holders not only generally firm, but a great many gaining increased confidence and rather inclined to withdraw samples for further advance, which it is thought must surely take place. This feeling of buoyancy is based on still more stimulating advices from Cuba than those noted in our last, the stocks on the Island proving very small and well under control, and prices tending strongly upward, with some development of speculative operations of considerable magnitude. The position certainly looks strong at the moment, but can not easily be sustained unless the outlet for goods keeps well opened, even though importers insist that the cost at the point of production and the current rates here entirely shut off a margin for profit. Refined have sold very well up to the production throughout the week at full prices, with occasionally a slight advance obtained, though, with a fair margin on the cost of Raws, refiners are not inclined to force the market up too rapidly, and thus check the consumption. The sales of Raw embrace 5,171 hhds. Cuba, 800 hhds. Porto Rico, 260 hhds. Demerara, 113 hhds. St. Croix, 225 hhds. Trinidad, P. S., 321 hhds. Martinique, 111 hhds. New Orleans, 3,337 bags Brazil, 5,835 boxes Havana, and 50 hhds. Melado. At the close to-night the market is much firmer, and ½c. advance insisted upon, owing to the developement of some speculative inquiry, understood to have taken about 1,000 hhds.

Imports at New York, and stock in first hands, April 27, were as follows:

	Cuba, bxs.	Cuba, *hhds.	P. Rico, *hhds.	Other *hhds.	Brazil, bags.	Manila, &c, bags.	Melado hhds.
Imports this week	11,327	12,492	1,039	2,443	3,200		2,957

Same time 1870	100,004		89,935		351,415		5,823
" " 1869	111,979		61,787		78,266		1,962

MOLASSES.

There has been a much better inquiry for the foreign grades since the last report in this column, and the market shows a healthier, better tone. Several cargoes have been taken by grocers, etc., to break up for distribution to the small dealers, local and interior, and refiners have also purchased most of the really good boiling lots offering, with one or two shipments coastwise, a high test, something about 50 degrees being wanted for the latter outlet. Prices have improved somewhat, and rule pretty firm at the advance on all good to choice stock, but the common and inferior sorts still go begging for a market, and are nearly nominal in value. The general arrivals were fair, but as refiners continue to get a large proportion, there is no important increase of stock. Domestic grades have sold more readily, and some of the choice lots being brought out, commanded full prices, but aside from these there is no certainty as to the cost, and close quotations are difficult. Syrups are not very active as yet, but trade begins to improve somewhat, and prices are strengthening. Sugar House Molasses somewhat unsettled, but it would be difficult to obtain above 17c in hhds, and 21c in bbls for wholesale parcels. Sales of 950 hhds Cuba Muscovado, 560 hhds Cuba clayed, 1,725 hhds Porto Rico, 425 hhds St. Croix, 450 hhds Barbadoes, 52 hhds Trinidad, P. S., and 689 bbls New Orleans.

The receipts at New York, and stock in first hands, April 27, were as follows:

*Including tierces and barrels reduced to hhds.

SPICES.

Were there any regular demand for wholesale parcels it is probable they would be forthcoming to some extent, but holders feeling no great anxiety to realize, refuse to place their goods upon a market which shows no outlet. On prices, too, the feeling is reasonably firm, and it is hardly thought that any very easy terms could be obtained, though the absence of business renders exact values a matter of some speculation. Jobbers continue to report a fair amount of animation at full prices, though they are meeting most calls on all grades without hesitation.

FRUITS, &c.

The market still continues quiet for Foreign Dried. The attention of the trade is chiefly occupied with Foreign Green, and as the demand for dried is very limited, jobbers buy only enough to keep up assortments. Prices are not actually lower than quoted at the date of our last, but on a large order a broker could undoubtedly for cash, obtain important concessions. Raisins have been as dull as anything on our list, and have ruled heavy in price; at the close $2 65 is the price of jobbing lots. Currants have ruled more steady, caused by a firmer feeling on the other side and shipments thence from here. Turkish Prunes have sold slowly; French have met with a fair demand. Sardines are in limited demand and favor the buyer. Nuts have sold to a moderate extent, but generally rule steady in price. Fire Crackers are in fair demand and rule about steady; the sales are almost of whole boxes, fractions will not sell for nearly as much.

Foreign Green box fruit has been fairly active for both Oranges and Lemons, and with rather less liberal offerings at auction, prices have advanced materially. We quote from store, $4 75@5 per box for Messina Lemons; $4 50@4 75 for Palermo do; $4 50@4 75 per box for Messina Oranges, $4 25 for Naples do and $4@4 50 for Palermo do. West India fruits are in fair supply, and sell well: Baracoa Bananas at $1 50@2 50; do. Cocoanuts at at $35 per thousand; Carthagena do. at $50@55 per thousand; and Pineapples, which are becoming more plenty now, at $20@25 per hundred.

Domestic dried have continued dull, and as the season is so far advanced, prices for apples, which are in full stock, have steadily declined, and the close is unsettled. Sales are reported at 5c for prime State quarters, but do not hear of any lots of size offering below 5½c. There are some small arrivals of parcel Peaches, the best of which sell readily, but those a very little off in quality are difficult to dispose of. Unpared are dull and easier. Blackberries have remained quiet; small sales have been made at full prices. Cherries, if prime, are in fair demand. Raspberries and Plums are barely steady. Peanuts have met with more demand, but the extreme prices ruling last month are not generally obtained. Pecans are firm, but quiet.

Domestic Green Apples are reduced in stock, meeting with a better demand at firm prices; sales at $5@6 per bbl. for Russetts, which is the only kind in any quantity in market. Cranberries are dull, and nominal in price, the best will bring $2 50@3 per crate. Norfolk Strawberries are coming in more freely they sold this morning at 35@50c per quart.

THE DRY GOODS TRADE.

FRIDAY, P. M., April 28, 1871.

There has been comparatively little business transacted in the dry goods market during the present week, and, in the entire absence of any important changes, we have little of importance to record. The bulk of the business for the season is doubtless over, but the usual sorting up trade will soon begin, and its continuance well into the summer months is looked for. Retailers generally do not appear to have purchased very heavily, although the sales during the season aggregate an amount considerably in excess of those of the average spring season. It is seldom that prices are so firm late in the season as at the present time, and the usual concessions to affect clearing out sales are out of the question excepting on an occasional lot of undesirable goods or remnants of stocks of fabrics adapted exclusively to the spring trade. A scarcity of water in the manufacturing districts is again complained of, and unless there be a very heavy fall of rain during the coming month the insufficient supply of water will, doubtless, seriously interfere with manufacturing interests. The present production of the mills is considerably below their maximum capacity, and there is an actual scarcity of some fabrics, with a prospective small supply of nearly all classes of domestic goods suited to the winter trade.

DOMESTIC COTTON GOODS.—There are no notable changes in any class of cotton fabrics, the market remaining firm at previous quotations, with an advancing tendency in some lines. The lower grades of brown cottons appear to be sold unusually close to the production, and agents are in some instances sold ahead, while orders are only taken at an advance on the current jobbing quotations. The medium grades are held with a good degree of firmness, and are not in excessive supply, although stocks are rather heavier than of the low counts. Fine goods sell freely at full prices, and quotations are fully sustained. Colored cottons are in fair request, in small assorted lots, and there is a good degree of steadiness in prices, though a moderate accumulation of stripes and ticks is reported. Prints are very firm in consequence of the comparatively small supply of desirable work in first hands, and the high prices current on cloths. All good styles of light work find a ready market, and several brands are largely sold to arrive. No changes in prices are reported.

DOMESTIC WOOLEN GOODS.—The extravagant prices which holders are asking for wool gives continued firmness to the market for goods, and an advance in prices is anticipated later in the year. The current trade is not very spirited in any line of woolen goods, though the demand is active for this period of the season. Light weight cassimeres are well sold out, the only remaining stock being small lots of undesirable styles, On these some liberal inducements might possibly be offered to effect sales, but on regular lines no concessions could be obtained, the market remaining steady at the opening quotations. Heavy weights are held in small supply, and transactions are necessarily limited, although the demand is good. Cloths are in moderate request to replenish assortments, but the sales from first hands are chiefly of castors, which are taken freely by early buyers. Flannels in the lower grades are in fair demand for the far Western trade, and sales are reported at an advance of 2@3c. per yard on last year's prices.

FOREIGN GOODS.—There is but little inquiry for goods beyond a moderate demand for assorted lots to replenish broken assortments in the interior, and the aggregate sales during the week have not been heavy. Dress goods are in fair demand for this stage of the season, and the stock in first hands is well reduced. Millinery goods sell fairly, though the demand for goods in first hands is, perhaps, rather less spirited than was noted a few weeks earlier. Woolens are selling on orders for goods to be imported at full prices. Linens are not in very spirited demand, but sell moderately in small lots as required to replenish stocks. The auction houses are obtaining better stocks of goods, but find less ready sale than they did a few weeks earlier.

The exports of dry goods for the past week, and since January 1, 1871, and the total for the same time in several previous years are shown in the following table:

	FROM NEW YORK.				FROM BOSTON

THE NEW YORK DAILY BULLETIN,

A First-Class Daily Commercial and Financial Journal.

The BULLETIN furnishes—

1st. The most complete FINANCIAL REPORT published in any daily paper, embracing:

The daily sales and quotations of every Security dealt in at the Stock Exchange and the Mining Board.

The quotations of Securities not on the Stock Exchange list, including Southern Stocks and Bonds.

A transcript of the official register of the Gold Room, showing every quotation from the formal opening to the formal closing of the Room—published in no other paper.

A summary of the daily transactions at the SUB-TREASURY, the GOLD EXCHANGE BANK, and the CLEARING-HOUSE.

A full table of quotations of STERLING and CONTINENTAL EXCHANGE.

THE CHANGES IN THE REDEEMING AGENTS OF THE NATIONAL BANKS, AND THE OFFICIAL PERIODICAL STATEMENTS OF THE NATIONAL BANKS IN EACH STATE, as furnished by the Comptroller of the Currency—published by no other daily paper.

2d. The most accurate and the ONLY DAILY report of the DRY GOODS MARKET, including a full PRICE CURRENT of staple and domestic fabrics, which is corrected daily.

3d. A carefully prepared report on the PRODUCE MARKETS, much fuller in its details than that of any other daily journal, embracing a full Price Current semi-weekly.

4th. A daily statement of the RECEIPTS OF PRODUCE, the IMPORTS FROM FOREIGN PORTS, and the MANIFESTS OF VESSELS CLEARED AT THE CUSTOM HOUSE.

5th. Its CITY COMMERCIAL and FINANCIAL NEWS is fuller than that of any other journal.

6th. In its EDITORIAL DEPARTMENT the BULLETIN gives a fuller discussion of current commercial and financial topics than any other journal in the United States; and in this especially its influence ranks second to that of no other paper in the country.

7th. Its PRICE IS ONLY ABOUT ONE-HALF that of other leading commercial papers, and yet its information is fuller and in all respects as valuable.

A volume of 475 pages, forming a most complete

ANNUAL OF COMMERCIAL AND FINANCIAL INFORMATION

It is published of the same size and shape as the past volumes of "HUNT'S MERCHANTS' MAGAZINE," and supplies the former subscribers of that Magazine with a compact volume, which will thus perpetuate annually all the important and valuable statistics recorded in its pages.

An examination of the contents below will furnish the best information as to the real character and value of the work

CONTENTS:

STEEL PLATE ENGRAVING OF HIRAM WALBRIDGE.

Financial Review for 1870.—National Progress in Wealth; Report of the Secretary of the Treasury; Report of the Treasurer of the United States; Report of Commissioner of Internal Revenue; Internal Revenue Receipts for Three Years; Daily Price of Gold for Nine Years; Treasure Movement at New York for Twelve Years; Treasure Movement at San Francisco; Range of Government Securities Monthly for Two Years; Highest and Lowest Prices Monthly of every Stock sold at the New York Stock Exchange for Five Years Past; Foreign Exchange, Weekly, Four Years Past; Debt of the United States in Detail, with Acts; Director of the Mints' Report; Gold and Silver Coins in Different Countries; Receipts and Disbursements of United States since 1791; American Shipping and Foreign Commerce; Purchases by Government of United States Bonds.

Debt and Finances of each State.—Containing Complete Articles upon the Debt and Financial Condition of the Several States of the Union, with the most Detailed Statement of all their Bonds Outstanding.

Banking—The National Banking System; Comptroller of the Currency's Report; Totals of Quarterly Reports since 1863; New York Savings Banks; Clearing House Banks, Three Years; European Money Market.

Railroads.—Review of Railroad Progress in Europe and America for 1870; New York Railroads; Ohio Railroads; Massachusetts Railroads; Railroad Bonds in Detail; Railroad Stocks in Detail.

Population, etc.—EUROPE AND AMERICA.—European Progress in Wealth and Population; British Income Tax; France, Income and Resources; European Armies and Navies; Germany; Immigration into the United States; Census of the United States.

Trade and Commerce.—Review of the Year 1870; Mercantile Failures; Prices of Merchandise; New York, Foreign Trade of, for 1870; Foreign Imports, United States Foreign Exports; Cereals; Average Factory Wages.

Cotton.—Review of 1870 and Prospects for 1871; Crop of 1869–70; Crop of Cotton each Year since 1621; Weekly Receipts for Five Years; Manufacturers' Association Report for 1869–70; Consumption of United States Mills; Consumption in Europe.

Commercial Reports.—Breadstuffs; Tobacco; Coal; Petroleum; Iron.

A List of Acts of Congress Passed in 1870.

Biographical—Hiram Walbridge; Robert L. Maitland; Joseph Wesley Harper; James De Peyster Ogden; Henry A. Wilmerding; Abraham M. Bininger.

ISSUED MAY 1.—PRICE, $5.00.

ON RECEIPT OF WHICH SUM IT WILL BE MAILED FREE OF POSTAGE TO ANY PART OF THE UNITED STATES.

THE Commercial AND Financial Chronicle

HUNT'S MERCHANTS' MAGAZINE,

A Weekly Newspaper,

REPRESENTING THE INDUSTRIAL AND COMMERCIAL INTERESTS OF THE UNITED STATES.

VOL. 12. NEW YORK, MAY 6, 1871. NO. 306

Advertisements.

Advertisements will be inserted at the following prices per line for each insertion:

If ordered less than 4 times			20 cents per line.
"	5 times or more		16 "
"	9 "		14 "
"	13 "		12 "
"	26 "		10 "
"	52 "		8 "

If the advertisement occupies one column or upwards, a discount of 15 per cent on these rates will be allowed.

Space is measured in agate type, 14 lines to the inch.

Advertisements will have a favorable place when first put in, but no promise of continuous insertion in the best place can be given, as all advertisers must have equal opportunities.

DESIRABLE
HOME SECURITIES.
OFFICE OF
MEAD & CLARK,
BANKERS, 141 BROADWAY,
The attention of Capitalists and Investors generally is invited to the
FIRST MORTGAGE
7 Per Cent Gold Bonds
OF THE
Walkill Valley Railway Company,
which we offer for sale at 90 and accrued interest, in currency. The Railway is situated on the west side of the Hudson River, and is now running for 20 miles to New Paltz, and is under contract to be in working order to Kingston next fall. The bonds are a first-class investment, and we invite the closest investigation of them. The principal and interest are
PAYABLE IN GOLD.
The coupons are paid semi-annually in this city, on the first days of April and October, free of government tax; and the issue of bonds is limited to $20,000 per mile of completed road. Any information concerning them will be given at our office.
EBASTUS F. MEAD &
THOMAS CLARKE, Jr.
FINANCIAL AGENTS.

Financial.

SEVEN-THIRTY GOLD LOAN
OF THE
NORTHERN PACIFIC RR.
RAPID PROGRESS OF THE WORK.
The building of the Northern Pacific Railroad, (begun July last), is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific Coast. The grade is nearly completed **266** miles westward from Lake Superior; trains are running over **130** miles of finished road, and track-laying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul & Pacific Road, the Northern Pacific Company now has **413** miles of completed road, and by September next this will be increased to at least **560**.
A GOOD INVESTMENT.—Jay Cooke & Co. are now selling, and unhesitatingly recommend, as a Profitable and perfectly Safe investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have **30** years to run, bear Seven and Three-Tenths per cent gold interest (more than **8** per cent currency)and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the Road is completed, on
23,000 ACRES OF LAND to every mile of track, or **500** Acres for each $1,000 Bond. They are exempt from U. S. Tax; Principal and Interest are payable in Gold; Denominations: Coupons, $100 to $1,000; Registered, $100 to $10,000.
LANDS FOR BONDS. Northern Pacific 7-30's are at all times receivable at TEN PER CENT ABOVE PAR, in exchange for the Company's Lands, at their lowest cash price. This renders them practically INTEREST-BEARING LAND WARRANTS.
SINKING FUND. The proceeds of all sales of Lands are required to be devoted to the re-purchase and cancellation of the First Mortgage Bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment, accessible to the people, which is more PROFITABLE OR SAFE.
EXCHANGING U. S. FIVE-TWENTIES. The success of the New Government 5 per cent Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.
OTHER SECURITIES. — All marketable Stocks and Bonds will be received at their highest current price in exchange for Northern Pacific Seven Thirties. EXPRESS CHARGES on Money or Bonds received, and on Seven-Thirties sent in return, will be paid by the Financial Agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned.

LIQUIDATION OF THE DEBT AND THE FUTURE RATE OF INTEREST.

The debt statement which appears elsewhere has been very favorably received. Contrary to expectation the reduction during last month was 6 millions, making the decrease since 1st January over thirty millions. This large surplus applicable to the public debt shows that the present tax-system, in spite of the past reforms and the repeal of a considerable number of imposts, is still more than adequate to raise the revenue actually needed for carrying on the Government. During the past year the decrease has been 117 millions, and in the past two years 221 millions. The policy of keeping up this rapid liquidation has been urged by various arguments. The chief reasons are that it is necessary as a means of improving the credit of the Government and for the sake of advancing the prices of our outstanding Government bonds, so as to render possible the negotiation of a new loan at a lower rate of interest. These and some other arguments in support of this liquidating policy rest on the fallacy that the value of the bonds of a great rich nation are controlled by precisely the same conditions as the value of the notes of a single individual; and consequently that the more scarce you can make the Government securities the higher will be the price they will command. This specious argument has been often answered and need not occupy us here; it is enough to say that in every country of established credit its own Government bonds are the highest grade of domestic securities known, and that they are always regarded as exempt from most of the contingencies which depress and render unstable the credit of individuals, corporations, and private firms.

The slow progress of the new loan has stirred up an active discussion as to the future rate of interest which is likely to prevail in this country. The aggregate subscriptions amount to 62 millions and till the new bonds are ready for delivery the prevailing hesitancy is scarcely likely to be removed. From this slow movement of the five per cents some persons are beginning to infer that the 4 and 4½ per cents stand no chance of success, and that for a long term of years the rate of interest will not fall below 5 per cent for the highest class of securities, and 7 per cent for the securities of the best medium descriptions, such as those of the first-class railroads. A similar view of the case is argued with considerable force in an able article by Mr. David A. Wells. The fact is, however, that we are scarcely as yet in a position to form a trustworthy solution of so complicated a problem.

Great Britain raised the loans she contracted at the beginning of this century at a rate very nearly equal to that which the United States is now paying on its long bonds. Still after the lapse of fifty years the government debt pays only half that rate, and the British Chancellor of the Exchequer can at any time raise at 3 per cent or below all the loans he may temporarily require. Moreover, at this same rate of 3 per cent our own government at this moment borrows from the banks on the three per cent certificates which are being paid off at par, though they cost the Treasury less than any other part of our interest-bearing debt. These certificates at 3 per cent interest have been issued to the extent of 200 millions, and no doubt without being stamped for the Clearing-House they could be issued to the extent of over 100 millions should any contingency require the Treasury to avail itself of the law which still permits their issue. Of course such an issue cannot be recommended, because it would increase the temporary loans which have always been one of the mischievous elements in the public debt, and secondly, on account of the danger lest these certificates might at some crisis be redeemed with such rapidity as to cause an expansion of the currency, and a permanent depreciation of the paper dollar. The certificates are here referred to simply to illustrate one of the conditions governing the rate of interest, and to show that here as abroad the obligations of the Government bear a relatively lower rate of interest and are subject to other conditions than those of any person or corporation, or financial firm, however high their credit may be supposed to stand. We do not intend

Digitized by Google

to discuss fully the question why our six per cent Five Twenty gold bonds do not command higher rates, so as to cause the new fives to sell readily at par. One reason, undoubtedly, is the disrepute which taints American securities in foreign markets on account of the supposed inefficiency of our Courts, the scandals in the administration of justice, and the supposed insecurity of personal and property rights. Another reason is the uncertainty as to the time of redemption. A 20 year bond at 6 per cent is worth 10 per cent more than a 5 year bond at the same rate. But our 5-20s are neither 5 year bonds nor 20 year bonds, but something doubtfully hovering between the two. Mr. Boutwell would have had better success with his new loan if he had boldly thrown overboard this duplex incertitude which has cost the country many millions of dollars, in extra interest, and has never yet brought a dollar into the Treasury. When this principle was first proposed, it was never intended to be anything but a temporary war expedient. The purpose was that the funded debt of the United States should, as soon as the war was over, be consolidated at a low rate of interest, and be redeemable at a fixed date, like the sixes of 1881, or like the public debt of most of the European nations of any reputation for solvency and credit, purchasable in the market for the sinking fund or for cancellation, as the policy and means of the Government might render practicable.

Without pursuing the argument further, we may assume that the present quotations for our Government securities do not justify the inference which has been too hastily derived from them, that for 20 years to come the rate of interest in this country will rule at 7 per cent on the highest class of railroad securities. We forbear to press the argument that first class roads, such as the Great Central Pacific, can borrow at a lower rate; and that when foreigners gain more confidence in the security of their property here the telegraphic, railroad and steamship facilities will start such a flow of capital from the cheap money marts of Amsterdam, London and Frankfort; and that the tide of monetary investments will be so rapid and constant, that we shall see a constant tendency to approximate our rates of interest to those which are current in the Transatlantic money markets.

On the other hand, it is probable that with the new fields for the employment of capital opened here and in India, the rate of interest in England and on the Continent of Europe may receive an upward impulse. At any rate, the chances are in favor of the theory that it will be easier for a country like ours to pay off its public debt with every succeeding year. Hence it follows that by hurrying the payment with undue and needless haste we are violating one of the canons of practical finance which is that "for the liquidation of public obligations such a time should be chosen as will pay off the heaviest sum with the least burden to the people." Opposed as we are on principle to a public debt and to every maxim which would make our debt permanent, we must concede the injustice in view of the arguments cited of repeating the liquidation of 221 million dollars of the public debt by vexatious, needless taxation during the next two years.

FOREIGN CAPITAL AND INTERNAL PROGRESS.

The movement of the foreign exchanges and the fluctuations of the premium on gold continue to attract anxious attention, though the difficulty of forecasting the future is not at all diminished. Among the numerous questions which tend to complicate the problem is the doubt that some part of the funds which have been placed here for investment by foreign owners may ere long be called home. At an earlier season of the year this doubt might cause more solicitude. But at present we are so prepared and the monetary situation is so strong, that the discussion and the incertitude do not disturb the settled ease of our money market, which appears likely to continue favorable for a considerable time. It is one of those remarkable coincidences which, in our history as a nation, have ever been perpetually recurring, that the influx of foreign capital rose to it highest tide, just at that time when our need of it was greatest, and that till this temporary need was over and had completely passed away, there was scarcely the slightest fear of the foreign supplies of floating capital failing us or being diminished.

For a long time past some of our most experienced financial men have looked with apprehension on the amazing rapidity with which our floating capital has been investing itself in railroads and other vast enterprises which, however profitable they may eventually become, and however judiciously they may be conducted, are of such a magnitude as to be likely, even under a financial system better than ours, to cause some disturbance in that equilibrium between the supply of fixed and floating capital which is essential to secure financial prosperity and steady monetary ease. But for the supply of foreign capital which the European war and the consequent redundancy of the Transatlantic money markets have caused to seek in this country the profitable investments denied at home, the anticipations of these prophets of evil might some of them have been fulfilled before now. But so far the result is otherwise, the expectations of the more sanguine and more numerous of our people have been realized, and we have had for so long a period a favorable money market that we should probably be little inconvenienced if foreign capital should in the near future cease to flow this way as rapidly or as constantly as of late we have seen it. These exterior accessions of capital have been with us long enough to keep up the supply throughout the somewhat perilous interval between the financial seed-time and harvest, between the investment of floating capital in fixed forms, and the restoration of the equilibrium by the return of the capital so invested. Let us examine some of the proofs of this.

As has been frequently suggested in the CHRONICLE of late, the usual turn in our interior exchanges has developed rapidly this season, and is now so decided that our banks have an accumulation of national bank currency which is lending at a discount of $\frac{1}{8}$ to $\frac{1}{4}$ per cent. Wall street is the more anxiously scrutinizing this early return of currency from the interior, as it was unexpected, and has frustrated some very plausible theories and plausible speculations. There are few questions of practical finance which are more complicated and will better repay inquiry. The arguments on which our own predictions were founded arise partly out of the defects of our banking and currency systems, and partly from the rapid progress in material wealth which is being realized in consequence of the rapid extension of our railroads and the amazing growth of productive power in the interior of the country. All history and all experience show that there is a law governing national progress in wealth which is somewhat analogous to the law of latent heat in physical science. Every one knows the interesting mysterious processes by which chemistry causes heat to disappear, and how this latent heat, however long hidden and incapable of affecting the thermometer, may be assimilated and got back again by the manipulations which science prescribes for the purpose. Analogous phenomena take place in every rich, enterprising young country where, as in the United States, the evolution of productive forces is active, and the growth rapid, of material wealth. A great part of this yearly growth is, as it were, latent. It lies hidden for a time, and may even coexist with great, distress and wide-spread complaints

Digitized by Google

of national impoverishment. Macaulay gives many striking illustrations of this law in his history of the growth of the wealth, the debt, the taxes, and the manufacturing enterprise of England during and after the Napoleonic wars. Indeed, it is impossible to interpret intelligently the recent history of this country, or of any of the prosperous nations of Europe, without recognizing this law and the alternations of rapid growth and frequent repression which it helps to explain. In the growth of wealth, as in all other growth, there is a long season of winter as well as of seed time, during which wealth is absorbed or latent; and then comes the harvest, when all is given back with fitting increase.

In applying these principles to our own material condition, we have ventured to predict that the depression of the past two or three years was largely due to the rapid absorption of our floating capital and its conversion into fixed capital. Hundreds of millions of dollars have been spent in our railroads, our telegraphs, our manufactories, steam-engines, and the other productive mechanism in which this country is unsurpassed by any nation in the world. These millions of treasure have disappeared. They have become latent. We have crystalised into fixed forms what was before part of the floating capital of the nation. The time always comes when this latent capital so long absorbed and inert, gives itself back with large increase. That return we have supposed to be near, if indeed it has not already begun. The interior of this country has been growing richer during the past two or three years. But it has complained of impoverishment. Bad taxes, mistaken fiscal legislation, and a faulty monetary system would have really impoverished it had not its growth been so vigorous and so irresistible. That growth has, however, been latent. Sooner or later it will be more sensible and evident, and universally felt. Perhaps the improvement has really begun. On this theory are based some of the arguments which have led to the anticipation of early changes in the spring-tide of currency and deposits this year. As the results have so happened the reasoning which forecasted it may be also right and sound. What is certain is that the new railroads which we have built since the war has given a new value to the millions of acres of real estate through which they pass, that these roads have created and called into existence a multitude of new and magnificent streams of interior trade which without them would not have been now fertilizing our country and enriching our people.

The vast capital which we have sunk in these railroads and other works of labor-saving and wealth-creating efficiency is equivalent to the unpaid services of a larger army than Xerxes led against ancient Greece or Napoleon against modern Russia. The annual product of all these agencies for enriching the country is inconceivably great, and though as we have said much of this yearly product of new wealth is latent, and may demand years, and perhaps ages for its highest development and fullest maturity, still every year it will more and more be realized and made available for the immediate prosperity and personal gain of all orders of our industrial population, both of those who organize labor and capital, and of the larger masses who serve under their leadership. This harvesting of the returns from our great national investments in railroads and other productive works has begun and will continue. And in any case it cannot but increase year by year.

Another suggestive series of arguments in confirmation arise out of the fact that the interior of the country is to an unusual degree in debt to New York. The new values which railroads have given to real estate have enriched the farmers; and with new wealth have come new wants. Their scale of living has been raised and the elegances of home life fostered. The demand has been stimulated for imported goods. A vast commerce has sprung up. New markets have been opened and old markets extended. All this has tended to swell the interior debt to this city which is the great emporium of our interior and exterior trade. Many persons have wondered how it is that our bank deposits are increased. Here is the reason. The trade of the country is augmenting. The debts hence arising are augmenting too. Some part of this increase may possibly be due to the inflation of credits or of the currency. But in the main the movement is a healthy one. And those who have been croaking over it or forecasting evil on account of it will find that now, as in so many former cases, they mistook the salutary pains of growth for the mischievous spasms of disease.

THE SUPREME COURT OF THE UNITED STATES AND THE LEGAL-TENDER ACT.

On Monday last the opinions of the justices of the present Supreme Court of the United States upon the long-debated question whether Congress can make paper promises a legal tender for the payment of debts were declared in open Court. The result was foreshadowed in the daily journals last week, and many of them commented on it. But since the Court had never before, in its whole history, whispered of what it was about to do, and since the promised decision seemed utterly incredible in itself, both contradicting the recorded judgment of the same Court a year ago, and revolutionizing the received principles of constitutional law, we chose not to discuss it on such authority. We could not assume on the strength of rumor that the Court was about to stultify itself, and that its members had privately boasted beforehand of its coming humiliation. Now, however, the decision is officially proclaimed. The two cases decided were of contracts for dollars, one made before, the other after the passage of the act of February, 1862; so that the whole question of the power of Congress to pass a legal tender act was involved, and there was no one of the justices who held that such an act is valid for contracts made after its passage, but invalid for existing contracts, so that the question does not require division, but is singly and simply whether or not the power to make lawful money of anything else than gold and silver coin exists in Congress under the Constitution. The decision of the Court, in the two cases, was the opinion of five judges against four, Justices Miller, Swayne, Davis, Bradley and Strong holding the affirmative of the question, and Chief Justice Chase, with Justices Nelson, Clifford and Field, the negative. The decision is that, in the cases in question, debts contracted in dollars, whether before or after paper money was declared a legal tender by Congress, are fully satisfied by an offer of payment in that money; and, so far as the authority of the decision goes, it is that all contracts of every kind are at the mercy at all times of a majority of Congress.

This event calls for consideration in two respects; first, as it affects, by its substance, the nature of our government, its finances and its credit; and secondly, as it indirectly, and by the manner in which it has been brought about, affects the character of the national judiciary, and the honor and supremacy of law. In each of these views, it seems to us to be beyond question one of the most deplorable events in American history. It is impossible within our limits to discuss the subject in all its bearings; we shall only attempt to point out the leading considerations which demand a kind and degree of public attention to this judicial act such as few legal judgments have ever called for.

The new decision itself seems to us to be wrong in law, and pernicious in its practical tendency. Under ordinary

Digitized by Google

circumstances, it would be presumptious to dispute the legal soundness of any opinion from our highest legal tribunal. —But the question in hand is not one which turns upon legal learning or acumen; it is simple in its terms, familiar and general, not technical, in its subject matter, and involves no tedious differences of detail as to precedents or authorities. It concerns merely the interpretation of a political document, the charter of our government, and the bulwark of our civil rights; and that in a point which intimately concerns the nature of the government, the enjoyment of these rights, the practical life of every citizen. It is a question, then, on which every man who is capable of understanding the form of government may and must form an independent opinion. It is further inseparably bound up with certain general principles of interpretation, hitherto strictly applied by our courts and our people to this same document; and, therefore, these principles are themselves at issue. All men who believe, with the makers of the constitution, and with the successive utterances of the Supreme Court of the United States from the beginning, that our national government is one of defined and limited powers, conferred by the constitution, and that it can do nothing which that does not authorize it to do, are necessarily committed to the opinion that Congress can pass no legal tender act. It is not pretended that the constitution directly authorizes such legislation. The only constitutional power, on which such legislation is imagined to rest, is the war power; that is the power to do, in its discretion, under the emergency of war, whatever a government deems necessary to its own preservation. But this is simply another way of saying that war sometimes suspends all law; and that the violation of the form of the constitution itself may be necessary to save its substance. There may be a public danger so great that a government shall be justified in overstepping the limits of its authority, in reference to personal liberty, to the ownership of property, or the rights and immunities of foreign nations, in order to save itself; and if it succeeds in doing so, and afterward makes a full recompense for the injury done, its conduct is not to be judged by ordinary standards. But the pretense that a legal tender act is sustained by the war power is idle. The value of the dollar has nothing to do with the efficiency of armies; nor does the existence of private debts hamper their movements. It is not conceivable that any public danger can be removed or lightened by the confiscation or repudiation, in whole or in part, of debts due from one man to another. The war power, in so far as it may transcend constitutional limits, has nothing to do with finance; and if money and private compacts are subject to it, there is no interest and no law in the land which do not, upon a declaration of war, become the mere creatures of the will or caprice of the war-makers.

The theory, then, that Congress may make what it will a legal-tender money involves a new theory of interpreting the Constitution. Instead of the rule, hitherto universal, that the Government of the United States is one of defined powers, this theory assumes that its powers are unlimited in every direction where the Constitution has not expressly restricted it. It is impossible to concur with the majority of the justices in this decision, without accepting also the doctrine that the National Government is the sovereign over all the people of this country, in the same sense in which an absolute monarch in Russia or a Parliament in Great Britain is sovereign there. The federal power, which was constituted to secure internal harmony among the States and the common defence, becomes the master of the people in all their personal dealings and relations with one another, and the United States are centralized. Indeed, when a government has power to say that a contract between its citizens for a certain value shall be fulfilled upon delivery of a less value, or of none, it would seem that it has little power more to desire.

If the decision be accepted as law, it has an important bearing upon our national finances, and that in several ways. It is in the power of Congress to print paper at its will, and call it dollars; to confiscate to the Government or to debtors the whole or any part of the property of creditors, and thus to repudiate to any extent at will the debts of the nation and those of all private citizens. There is already a strong interest in favor of still further inflating the paper currency of the country and it is probable that a serious effort will be made next winter to obtain a further issue of "legal-tenders." Whether this be successful or not the effort is sure to be renewed whenever there seems to be a chance of success. Speculators with the control of immense sums will continue to lobby for legislation on the currency, and in opposition to every measure looking to the restoration of coin values; and whenever their demand is reinforced by a general pressure on trade, or whenever a reckless or ignorant faction obtains control of Congress, the issue may be made, and the final step taken towards financial ruin. Nor is the injury done to the character and credit of the country contingent upon any such future blunder of Congress. The fact that such an act is possible, that there is no barrier to the wildest and most extravagant expansion of an irredeemable currency, except in the temporary ascendancy of the politicians who oppose it, is in itself enough to weaken confidence in the wisdom and permanency of our future financial policy.

But serious as are the evils with which these new doctrines of centralization threaten the country, now that the last great barrier to them, in the consistent traditions of the Supreme Court, is passing away, they are less startling, because more familiar to us, than the circumstances under which this strange decision has been made, and the inferences which these suggest. The opinion of the Court sustaining the legal tender act is directly the reverse of a judgment by the same tribunal one year ago, overthrowing the act. The Supreme Court then, after long and repeated deliberations, decided that Congress could not change existing contracts, by making a new money to discharge them in. The same Court now decides that Congress may do so. Throughout the past history of that Court, its decisions, when made, upon any question of law, have been final. No other tribunal has disputed them; they have been the rule of argument and of decision, in all the courts and legislatures of the land; and no counsel would have ventured to rise in the Supreme Court itself and suggest a doubt whether these decisions are binding upon every judge and every citizen. To ask the Court to review its own solemn judgment would have been to insult it. But now it has done for itself what no man would have dared to ask of it. When people hear of this extraordinary action of the Court, they naturally inquire whether there are any extraordinary motives for it. Was the decision in the case of Hepburn against Griswold a hasty declaration of an opinion formed on insufficient information or reflection? Was it manifestly wrong in principle? Has it proved grossly injurious to the interests of the country, or unacceptable to the nation? Has public opinion rejected it? Have other tribunals questioned it? Has there been such a general dissatisfaction with it, or have such strong new reasons been discovered for questioning it, as to require a reconsideration? Nothing of all this. What change has taken place great enough to call for the overthrow at once of a settled principal of law and of the consistency and self-respect of the Supreme Court?

There is no change in any of these respects. The change

Digitized by Google

is to be looked for in the court itself. That has indeed changed. A year ago, it contained justices, differing indeed in ability, learning and opinion; but all of them believed by all men to hold their seats for their qualifications alone, and to regard in their judgments nothing but the law as they understood it. When the decision against the legal tender act was given, five judges, including justice Grier, who left the bench before judgment was rendered, concurred in it and not a man in the land suspected that any one of them, was influenced in the matter by any consideration but the law of the question, as the arguments and his own studies explained it. But immediately afterward, two new justices were appointed; both of those selected, among a great number of gentlemen qualified for the place, were well known as members and counsel of great railway corporations directly interested in the question, owing large amounts of bonds issued before the legal tender act was passed; and both of them were known to have formed and expressed an opinion adverse to the recent decision of the Court. An effort was immediately made to secure a rehearing of the question before them; and it seemed to be the design of the new-made majority of the court to order it an once; but the scandal of such a course was too great to be faced, and the project was abandoned. But while the court did not venture directly to interfere with and destroy the work it had just done, arrangements were made at once to bring before it other cases, involving precisely the same question just as if it were entirely new and unsettled. In no other matter have counsel dared thus to insult the dignity of the court, by bringing into it anew a claim which had it just, in principle, declared to be wrong and unfounded. Can it be that, in this case, their action was suggested or encourged by members of the court themselves? Or did the well-known opinions of the new justices, and the half-declared purposes for which they were appointed, embolden litigants to attack thus its consistency and its honor?

However this may be, the re-argument upon the new cases was ordered, and the form of hearing it was observed. The reconstructed court then formally, and against the protest of four of its members, only one less than a majority in numbers, and not one less in public repute and mental and moral weight, stultified itself by declaring that to be law which a year before it declared was no law; and that to be in the Constitution which a year before it could not find there. Thus the Supreme Court, in the course of its ordinary duties, defines and declares a constitutional limit to the powers of the general government; that same government at once reconstructs the court by adding judges known to be opposed to limiting its powers, and the new court proclaims that the limits do not exist. If this new decision is entitled to respect and obedience as the law of the land whither shall we look hereafter for constitutional law? What authority can limit the powers of Congress? The last bulwark of the Constitution and of the rights of municipalities and of citizens against the encroachments of the power which makes and controls the army and navy and collects taxes is swept away. If Congress hereafter chooses to take possession of the property of local corporations, to interfere in the contracts of private citizens by some legal tender act, or by some new form of confiscation, to assume jurisdiction over the penal laws of the States, or to make a military dictator for the country, this precedent teaches those who may then be in control of the government that the Supreme Court is no obstacle to their usurpation. They have but to reorganize the court if it decides against them, appointing new justices to the bench, who will blot out the recorded words of the law and substitute for them their own will.

We have expressed but a part of the objections to this decision; yet these are enough to show that it is the most serious judicial change ever yet attempted in America. As for the legal tender question itself, principles live longer than judges, and long before it becomes a practical question again whether the unredeemable paper money shall be increased by Congress, the people will understand the evil of it, we trust, too well to tolerate the proposition for a moment But the disgrace this act has brought upon the Supreme Court and upon the Government cannot be removed, until the absolute independence of that tribunal is restored, and until the people compel every branch of the Government to respect its independence.

REVIEW OF THE MONTH.

The month of April was chiefly conspicuous for an easy money market, an advance in government bonds, a remarkable activity and speculation in stocks, and great firmness in foreign exchange, with a large export of specie and consequent firmness in the gold premium towards the close of the month.

In the early part of the month there was an attempt made to produce a stringent money market by "locking up" legal tenders, but the attempt was only partially successful, and was soon abandoned by the parties to the movement. After the funds thus temporarily withdrawn had been restored to the regular channels of business, and a return movement of currency from the interior to this point had commenced, the rates for money became decidedly easy, and the month closed on a 4@6 per cent market. The prevailing opinion that the Secretary of the Treasury will use every requisite means to keep money easy during the negotiation of the new loan has done much to make lenders free with their funds, and to prevent any further attempts to manipulate the market for speculative purposes.

Government securities, without marked activity, have been very firm in prices and advanced on some issues as much as 1¼ per cent. At the government purchase of Five-Twenties on the 26th ult., the price paid for a large portion of the bonds was higher than par in gold, an event which was commented upon with considerable interest among the leading dealers in governments. The new 5 per cent. loan made very little progress during April, chiefly owing to the circumstance that the bonds are not yet ready for delivery, and to an apparent lack of enthusiasm among the very numerous agents who are authorized to receive subscriptions to the loan. It has generally been supposed that Secretary Boutwell intended to wait until the first of May, and see what progress should be made up to that time, and then make any changes in his arrangements which might seem desirable; as yet, however, no material changes have been announced. The relative position of Government finances is stronger than at any previous time—Five-Twenties have sold above par in gold, the reduction of debt for the year ending May 1, reaches about $118,000,000, chiefly by the purchase of Five-Twenties, and new five per cent bonds have also been negotiated to the extent of $62,000,000, so that the whole amount of Five-Twenties withdrawn or provided for in that year would be about $160,000,000. With this rapid reduction of the 6 per cent. bonds outstanding, there seems every probability that the new fives will, before long, sell at par in gold, as the inherent strength of the situation is all that could be desired for stimulating great confidence in the further improvement of our Government credit.

Railroad and Miscellaneous Stocks were active and buoyant beyond precedent, advancing largely and fluctuating in some cases very widely. The confidence in an easy money market has furnished every inducement for speculative cliques to attempt a bold upward movement in stocks, and the advance in prices and improved tone noticed in the month of March, were still further developed in April, with immense transactions in all the leading speculative favorites. At the close there was some reaction, with evidences that stocks were being "unloaded" by the cliques.

The following table will show the opening, highest, lowest and closing prices of railway and miscellaneous stocks during the months of March and April, 1871:

Gold was weak early in the month, and sold between the 8th and 13th at 110⅛@110⅝ subsequently, on a considerable export and customs demand, the price advanced to 111¾ on the 20th ult., when the Secretary sold, without previous notice, $2,000,000 more than advertised, or $4,000,000 in all, which caused an immediate decline of ½@¾ per cent., with a further decline afterwards to 110⅝, from which there was a recovery to 111⅛ at the close. The imports at New York in the month were large, and the customs payments correspondingly great. Specie exports amounted to $9,202,331.
